THE FARMERS' LOAN & TRUST COMPANY

Foreign Exchange, Cable Transfers, Letters of Credit, Payable throughout the world

The Company is a legal depositary for moneys paid into Court, and is authorized to act as Executor, Administrator, Trustee, Guardian, Receiver, and in all other fiduciary capacities.

Acts as Trustee under Mortgages made by Railroad and other Corporations, and as Transfer Agent and Registrar of Stocks and Bonds.

Receives deposits upon Certificates of Deposit, or subject to check, and allows interest on daily balances.

Manages Real Estate and lends money on bond and mortgage.

Will act as Agent in the transaction of any approved financial business.

Depositary for Legal Reserves of State Banks and also for moneys of the City of New York.

Fiscal Agent for States, Counties and Cities.

INSURANCE

ATLANTIC MUTUAL INSURANCE COMPANY

New York, January 26th, 1915.

The Trustees, in conformity with the Charter of the Company, submit the following statement of its affairs on the 31st of December, 1914.

The Company's business has been confined to marine and inland transportation insurance.

Premiums on such risks from the 1st January, 1914, to the 31st December, 1914		5,026,461 19
Premiums on Policies not marked off 1st January, 1914		654,783 26
Total Premiums		5,681,244 45
Premiums marked off from January 1st, 1914, to December 31st, 1914		4,687,279 32
Interest on the investments of the Company received during the year	330,262 43	
Interest on Deposits in Banks and Trust Companies, etc	42,065 85	
Rent received less Taxes and Expenses	141,088,74	513,417 02
Losses paid during the year		2,253,324 69
Less: Salvages	242,315 69	
Re-insurances	372,200 31	614,516 00
		1,638,808 69
Returns of Premiums		138,873 43
Expenses, including officers' salaries and clerks' compensation, stationery, advertisements, etc		562,724 57

A dividend of interest of **Six** per cent on the outstanding certificates of profits will be paid to the holders thereof, or their legal representatives, on and after **Tuesday the second of February** next.

The outstanding certificates of the issue of **1909** will be redeemed and paid to the holders thereof, or their legal representatives, on and after **Tuesday the second of February** next, from which date all interest thereon will cease. The certificates to be produced at the time of payment, and canceled.

A dividend of **Forty** per cent is declared on the earned premiums of the Company for the year ending 31st December, 1914, which are entitled to participate in dividend, for which, upon application, certificates will be issued on and after **Tuesday the fourth of May** next.

By order of the Board, G. STANTON FLOYD-JONES, Secretary.

Prospects of Peace

Statistics show that competition among nation for foreign trade, shipping and investment opportunities is the fundamental cause of modern wars. Some nations are guilty for being selfishly aggressive; others for attempting to hold conditions in "status quo"; and others for erecting tariffs or immigration barriers. These all are policies which provoke wars and nulify the efforts of those working for world peace. Races are entitled both to equal opportunity for economic growth and to equal protection for their people and investments. When such cannot be secured peacefully, war is inevitable.

Statistics suggest that as a first step toward better international relations there must be *co-operation* between competitive business interests of competitive nations. Practical peace will come only as these competitive interests, engaged in foreign trade, unite in the formation of an Inter-Nation, which shall—from the first—control the life and property of themselves and others engaged in foreign trade; and which shall ultimately provide for the neutralization of trade barriers and trade routes.

Unless this can be done, every nation should be prepared to fight to defend itself. *Can it be done?*

These questions are discussed statistically in Roger W. Babson's new book, **"Future of World Peace".** *150 pages, large type, containing 12 remarkable charts.* **Read it and be prepared for the future.** *Send one dollar to the Babson Statistical Organization, Wellesley Hills, Mass., and the book will be sent prepaid; or, what is better,*

These notes will be the direct obligation of the Columbus Railway Power & Light Co. and will be secured by deposit with the Trustee of First Refunding and Extension Mortgage 5% Gold Bonds of the Columbus Railway Power & Light Co. at 80% of their face value.

The First Refunding and Extension 5% Gold Bonds are part of an authorized issue of $20,000,000, none of which is outstanding in the hands of the public. They are issuable only with the approval of the Public Utilities Commission of the State of Ohio and are secured by mortgage on the entire property of the Company now owned or hereafter acquired, subject to closed mortgages amounting to $8,529,700.

The Columbus Railway Power & Light Co. owns and operates the city street railway system and the electric light and power system (except municipal lighting) of Columbus, Ohio.

The statement of the Company shows that the earnings applicable to the interest requirements of these notes are over 12 times the amount required.

Price 99½ and interest, to yield 5.50%

Having sold all of the above notes, this advertisement is inserted as a matter of record only

BOND MAN, with many years successful experience in selling Public Utilities Bonds, and having large, personal clientele among private investors in New York State and Pennsylvania, wishes to associate himself with large, first class Bond House. Personal interview solicited. Address "C. W. J.," care Commercial and Financial Chronicle, P. O. Box 3, Wall St. Branch, New York City.

City of Frankfort on Main

3½% BONDS, LOAN OF 1901

SERIES 1.

The following bonds were drawn on April 26, 1915, for redemption on September 1, 1915:

75 BONDS OF M. 4,000 EACH.

Nos. 31, 62, 65, 79, 101, 102, 104, 189, 231, 240, 269, 286, 303, 352, 458, 538, 548, 563, 635, 694, 723, 742, 755, 789, 831, 896, 1090, 1124, 1185, 1189, 1196, 1232, 1234, 1291, 1349, 1477, 1491, 1615, 1629, 1674, 1708, 1736, 1745, 1752, 1766, 1860, 1876, 1902, 1913, 2012, 2037, 2039, 2049, 2062, 2121, 2138, 2183, 2190, 2391, 2402, 2431, 2612, 2779, 2810, 2818, 2927, 2970, 2985, 3010, 3032, 3046, 3061, 3095, 3112, 3167.

26 BONDS OF M. 2,000 EACH.

Nos. 3257, 3297, 3387, 3455, 3463, 3469, 3502, 3583, 3650, 3676, 3679, 3729, 3802, 3810, 3856, 3864, 3903, 3911, 3939, 3948, 3968, 4022, 4066, 4127, 4150, 4292.

Holders of the above Bonds may collect their Bonds, interest on which will cease on the day of redemption (September 1, 1915), upon surrender of the Bonds with Coupons and renewal sheet (Talon) attached, on and after September 1, 1915, at the City Treasury in Frankfort on Main, or in New York, at the office of Messrs. Speyer & Co.

The following Bonds previously drawn for redemption have not yet been presented for payment:

Drawn for repayment on September 1, 1912,
One Bond of M. 2,000, No. 4174.
Drawn for repayment on September 1, 1913,
One Bond of M. 4,000, No. 2533.
Three Bonds of M. 2,000 each, Nos. 3601, 4120, 4134.
Drawn for repayment on September 1, 1914,
Thirteen Bonds of M. 4,000 each, Nos. 185, 411, 795, 1009, 1205, 1209, 1746, 1773, 1987, 1999, 2673, 2674, 3117.
Five Bonds of M. 2,000 each, Nos. 3556, 3741, 3982, 4158, 4173.

FRANKFORT ON MAIN, April 26, 1915.

MAGISTRAT, Rechnei-Amt.

Referring to the above notice, payment for drawn Bonds will be made at our office on and after September 1, 1915, at the rate of exchange of the day.

STATE AND CITY SECTION.

With to-day's issue of the "Chronicle" we send to our subscribers a new number of our "State and City Section" revised to date.

THE FINANCIAL SITUATION.

The new Federal Reserve banking system has not yet been in existence long enough to enable one to express definite conclusions as to either its merits or its defects. It has, however, been in operation a sufficient length of time to demonstrate the utter fallacy of the notion that there exists, or has existed, in this country a Money Power, or a combination of powers, holding the trade and commerce of the country in thralldom and that to free the business world from the malign influence of this combination a new banking system under direct Government control offers the only solution.

Among bankers and careful students of affairs it had long been admitted that our banking system was sadly deficient in a number of respects, and that some new measure or measures were necessary to remove the defects. The agitation, however, in the last Congress which led to the enactment of the Federal Reserve Law was not predicated upon considerations of that kind. It was prompted by a feeling so strong as to be tantamount to absolute conviction that whatever the other defects of the old banking system the most vital particular in which it was open to condemnation was that it fostered a Money Trust or a money combination. The Money Trust investigation which preceded the enactment of the new law was founded upon that idea. The notion prevailed, and persisted in spite of an array of facts to the contrary, that this money combination dispensed favors or denied them at its pleasure, and that no one not in its good graces could get needful accommodations for the conduct of business or the promotion of enterprise, no matter how sound the scheme or how ample the security offered. The assertion was that no money could be obtained if those in the inner circle decreed otherwise. All the assaults upon the supposed, though mythical, Money Power, all the bitter invective in denunciation of the same, had as their main theme the hallucination that no considerable undertaking could be put through, or pushed with any chance of success, except with the consent of the select few in whose hands there was concentrated control of the greater part of the country's monetary resources.

It was under this delusion, and in this spirit, that the Federal Reserve Law was conceived and rounded out, and completed. A totally different law, or at least a law different in some of its essential respects and far better and stronger, would have gone upon the statute book except for this erroneous notion that the prime considerations must be the curbing of the supposed Money Power. There was never the least ground for the current assertions that monetary accommodation was lacking or was being withheld in quarters where there was legitimate need for it. For ourselves, we have no hesitation in saying that we do not believe there was ever an instance, in normal periods, where a well-managed business undertaking, having character behind it and resting upon the solid foundation of worth and merit, could not count upon obtaining from the ordinary banks all the financial assistance, within reasonable limits, that might be required.

If may be affirmed without fear of contradiction that business considerations alone have always influenced those holding the purse strings of our monetary concerns. Influence or favor has not counted at all with them. Those who failed to secure loans would have had the same experience under any other banking system, and, indeed, would have the same difficulty under the Federal Reserve system itself, owing to the inherent lack of merit in the enterprise or the irresponsibility and absence of character on the part of those making the application.

It is possible now to apply an accurate test in that respect, since the new Federal Reserve banks have been in actual operation for a period of over six months. Had there been a basis for the allegation that the so-called Monetary Power had been discriminating in the matter of extending money accommodations against the really deserving, evidence of such a state of things must have quickly revealed itself after the Federal Reserve banks got in working order. The inevitable effect would have been that with the organization of the Government-controlled Federal Reserve banks applications would have come pouring in in a way that would have fairly overwhelmed the executives of these new institutions. Has there been such a rush for accommodation? Quite the contrary.

Notwithstanding most insidious coaxing, the new facilities provided, with the view to relieving oppressed borrowers, have not been availed of at all—have, indeed, been in practical idleness. As a matter of fact, the new banking powers have been left largely dormant and the banks themselves treated with indifference, or ignored altogether. According to last Saturday's consolidated statement, these Federal Reserve banks then held an aggregate of $243,376,100 of gold or gold certificates. This is sufficient for the issuance of half a billion dollars of Federal Reserve notes, but the actual net amount of notes outstanding at the same date was only $10,859,000. The total of bills discounted and loans of all kinds at the same date was $34,626,000, while the aggregate of cash on hand was no less than $280,208,000—this, too, notwithstanding that accommodation was offered and is still being offered at exceedingly low rates, not above 4% being charged for short-date paper (except in two instances) and not higher than 4½%, except in one instance, for maturities running from 60 to 90 days.

Obviously, these figures make it plain that there has been no pressing need for accommodation anywhere throughout the length and breadth of the land. This is in flat contradiction of what must have happened if the allegations so persistently indulged in had been true, that deserving borrowers had been discriminated against in pursuance of a deliberate policy on the part of the supposed Money Power to keep money control centred in its own hands and hold needy borrowers in complete subjection to its will. Thus one more fallacy falls to the ground—a peculiarly vicious fallacy, too—and there is reason for gratification over the fact.

Speaking as the guest of honor at the dinner of the National Association of Manufacturers on Wednesday evening, Mr. Taft stated simply and clearly his objections to the Clayton and the Trade Commission laws. The tribunal created by the

latter is empowered to decide whether any methods discovered in use in trade competition are unfair. If this is meant to authorize it to formulate new restrictions on business which in its judgment needs restraining, "it is certainly a delegating of legislative authority which Congress has no Constitutional power to delegate." It is reasonable to expect that when the Supreme Court has to pass on the subject it will adhere to the laws and to the rule of reason "and will keep the Commission within the path thus limited"; therefore the new body "becomes nothing but a tribunal of investigation for reporting facts."

But, further said Mr. Taft, "the field committed to the jurisdiction of this Federal executive tribunal is so wide, indeed, so much wider than that of the Inter-State Commerce Commission (which is already weighted down with its duties) that the Act essays to do something that is utterly impossible of performance." As for the Clayton Act, while it divides up into a variety of details the offenses already denounced by the former anti-trust Act, "it really adds little in its practical restriction of methods of conducting business and the freedom of combination and the freedom of competition."

Taking these two laws together, Mr. Taft said his objection to them is that "their enactment with such a blare of trumpets and avowals of hostility to capital in general, with little discrimination, had a strong tendency to frighten those whose judgment determines the amount of new investments of capital"; this directly tends to "restrict the normal expansion of our business, due to the re-investment of earnings; it is a mistake to suppose that capital is all owned by rich men."

Certainly that is a mistake—one of the most glaringly bad of mistakes Mr. Taft correctly sees that the chief mischief of these additional laws is their manifestation of misunderstanding and hostility and of the eagerness to truckle to that hostility. The baring of statutory "teeth" and the uncertainty how widely and seriously the teeth will attempt to bite are necessarily deterrent. It is amazing that even the dullest can fail to see how incongruous and futile it is to expect owners of capital savings to rush forward to new ventures and to berate them for hanging back, after adding an unknowable lot of troubles to the ordinary perplexities of business and the extra ones produced by a world-wide war. As one instance, is it not absurd to hint to them that if they do not pretty soon take up the hazards of shipping lines on new and necessarily somewhat uncertain routes of commerce, the Government (with its hold on all the bank accounts in the country and therefore its indifference to the financial results) may step in? Is not the natural effect of such threats to discourage rather than to persuade?

Our foreign export trade again touched a phenomenally high level in April 1915, the value of the merchandise sent out having been no less than 294½ million dollars, or not materially less than the totals for February and March and exceeding the high record for the month in any earlier year (made in 1913) by 94½ million dollars. Under ordinary conditions this continued greatly increased absorption of our products would be occasion for most decided satisfaction. But, as we have frequently stated, the current large expansion in our outward trade finds its explanation in conditions very far from ordinary—in fact, deplorable from all humanitarian points of view.

In some lines the war has stimulated our exports to a simply marvelous extent. For instance, in the ten months ended April 30 1915, shipments of breadstuffs exceeded those for the similar period of the previous year by approximately 325 million dollars. Horses and mules, never before important items in our outward trade, showed an increase of nearly 50 millions, leather and manufactures a like amount, meats some 30 millions, cotton manufactures 16 millions, automobiles 15 millions wool manufactures 20 millions, explosives 15 millions and chemicals 10 millions. In these few articles, therefore, the war has been largely, if not wholly, instrumental in increasing our trade by over 500 million dollars. On the other hand, cotton, copper, agricultural implements, fertilizers, wood and manufactures, iron and steel manufactures and numerous other articles have gone out less freely. Needless to say, with the countries at war those from which a considerable portion of our imports are drawn, the inflow of many commodities is very much restricted, the most noticeable decline being in cotton manufactures, copper manufactures, precious stones, silk and silk manufactures, breadstuff, tin and art works.

As in March, there was a marked expansion in breadstuffs shipments in April and in provisions as well. Cotton, however (but wholly in consequence of lower prices, quantity being in excess) showed a decrease, as did mineral oils, cotton-seed oil and cattle and hogs. The total value of the merchandise exported in April was $294,470,199, against $162,552,576 in 1914 and $199,814,438 in 1913. For the ten months of the fiscal year the export aggregate at $2,225,548,068, the high-water mark for the period, contrasts with $2,045,774,485 in 1913-14 and $2,107,871,811 in 1912-13.

Merchandise imports in April were of contracted volume, as compared with the corresponding month of 1914, but exhibited an increase over 1913. Specifically they were $160,675,106, against $173,762,-114 and $146,194,461, respectively. For the ten months since July 1 1914 the aggregate at $1,-374,189,749 falls 198 million dollars below 1913-14 and 174 millions under 1912-13. The export balance for April reached $133,795,093, this contrasting with a net of $11,209,544 on the other side of the account in 1914, and for the ten months of 1914-15 exports exceeded imports by the stupendous amount of $851,358,319, compared with 473¾ millions in 1913-14 and the previous record mark of 631½ millions in 1907-08.

The outward movement of gold during April was small, amounting to only $813,706, mainly from New York and almost wholly to the West Indies. Imports, however, were of good volume, reaching $16,203,028, represented to the extent of 7 millions by receipts at New York from Canada, 4½ millions at San Francisco from Japan and smaller amounts at this port from South America, Holland, &c. The net inflow for the month was $15,389,322, decreasing to $54,033,902 the net efflux for the 10 months ended April 30. This latter compares with net imports of $13,616,143 for the period in 1913-14.

Opportunity for industrial advancement in the United States as a result of the war in Europe

was the dominant theme of the address of Colonel George Pope, president of the National Association of Manufacturers, at its twentieth annual convention held at the Waldorf-Astoria on Tuesday and Wednesday of the current week. To the upwards of 200 members in attendance, Colonel Pope declared that events have occurred so rapidly that the sensitive nerves of our industries have been tingling, and, although American business genius may hesitate, it is never baffled. The war must bring to this country enhanced prestige. By South and Central America, as well as the European countries our markets must of necessity be patronized to an extraordinary extent, and we should be prepared to meet the emergency, and deliver properly the commodities demanded of us. As our products will be critically examined and rigidly compared with those of other nations, it must be realized, he aptly said, that our opportunity is coupled with great responsibility. In other words "Made in America" should not be merely a shibboleth but a guaranty in every way.

The personnel of the new Coalition Cabinet was announced officially in London on Tuesday evening and it has already taken up the reins of Government. Premier Asquith retains his position as Prime Minister. Lloyd George has been succeeded as Chancellor of the Exchequer by Reginald Mc Kenna, former Home Secretary, who has himself been succeeded by Sir John Simon, a Liberal, who had been Attorney-General since 1913. The Attorney Generalship in turn goes to Sir Edward Carson, the Ulster leader, who recently played such a conspicuous role in raising the Ulster volunteer force. Sir Edward Grey retains his portfolio of Foreign Secretary. Lloyd George assumes new duties as the head of a specially created department to be called the Ministry of Munitions, its duties being solely the organization of the manufacture and supply of munitions of war. It is announced that the former Chancellor has taken charge of the new Department merely because of the urgency of current conditions and that there is no prospect of his retaining the post permanently. Arthur J. Balfour becomes First Lord of the Admiralty, succeeding Winston Spencer Churchill, who has been appointed to the honorary post of Chancellor of the Duchy of Lancaster. Earl Kitchener continues as Secretary of State for War, although he will be relieved of details regarding the production of ammunition these, as already noted, being now confided to Lloyd George. The Prime Minister, Mr. Asquith, assumes the duties of First Lord of the Treasury, while Lord Lansdowne, who was Secretary for War from 1895 to 1900 and Foreign Secretary from 1900 until 1905, is assigned to a place without portfolio and will merely act in an advisory capacity at the Cabinet councils. A. Bonar Law, the Unionist leader, is the new Secretary of State for the Colonies, and Arthur Henderson becomes President of the Board of Education, having been placed in the Cabinet, it is understood, with the hope that he may render assistance to the Minister of Munitions because of his influential labor affiliations. The Marquis of Crewe, who was Secretary of State for the Colonies from 1908 to 1910, and Lord of the Privy Seal in the Cabinet just dissolved, has been appointed President of the Council, Viscount Curzon taking his place. Austin Chamberlain becomes Secretary of State for India. Walter Runciman remains President of the Board of Trade, while Walter H. Long fills the place of President of the local Government Board and Augustine Birrell becomes Chief Secretary to Ireland. As reconstituted, the Ministry consists of 13 Liberals, 8 Unionists and 1 Labor member. Parliament reassembles on June 3. Admiral Sir Henry Bradwardine Jackson has been appointed First Sea Lord of the Admiralty to take the place of Admiral Lord Fisher, who resigned recently, owing, it is said, to differences with Winston Spencer Churchill, then First Lord of the Admiralty.

At a meeting of the Carlton Club, an important Unionist organization, on Wednesday, the Unionist party leaders enthusiastically indorsed the action of their colleagues in accepting places in the Coalition Cabinet. This action followed very plain speeches, in which Bonar Law, the new Minister for the Colonies, declared that the failure of the new Cabinet would probably mean the ruin of the country and Lord Lansdowne expressed the belief that the country realized that something had been the matter in the conduct of the war. Lord Lansdowne, in his speech referring to the progress of the war, said "We have already experienced not a few disappointments. There have been shortcomings and miscalculations, some perhaps excusable; some, perhaps, not at all. We are all, I suppose, penetrated with the conviction that there has been something amiss with what may be ascribed as the national organization of the country. As to men, we are not sure that we have got enought or that we are getting the right sort of men. As to munitions—I will not dwell on that painful chapter of our history; but it is a matter of common knowledge that failure to supply the essential munitions has not once, but many times, interfered with the due progress of our military operations." Baron Willoughby de Broke expressed the hope that the first act of the Coalition Cabinet will be to provide some sort of conscription. No formal resolutions were adopted at the meeting.

Italy formally declared war on Austria on Sunday, May 23, and on Monday gave her adhesion to the agreement already signed by the Allied Powers not to conclude a separate peace. On Tuesday announcement was made that Germany had declared war against Italy and had recalled Prince von Bulow, her Ambassador at Rome. The German and Austro-Hungarian representatives at the Italian court and at the Vatican left Rome on Tuesday night, having intrusted the interests of their countries to the Spanish Ambassador in Rome. Italy's declaration against Austria was a short document. As presented by the Duke of Avarna, Ambassador to Austria, to Baron von Burian, the Austro-Hungarian Foreign Minister, it read as follows :

Vienna, May 23 1915.

Conformably with the orders of His Majesty the King, His August Sovereign, the undersigned Ambassador of Italy has the honor to deliver to His Excellency, the Foreign Minister of Austria-Hungary, the following communication:

Declaration has been made, as from the fourth of this month, to the Imperial and Royal Government of the grave motives for which Italy, confident in her good right, proclaimed annulled and henceforth without effect her treaty of alliance with Austria-Hungary, which was violated by the Imperial and Royal Government, and resumed her liberty of action in this respect.

The Government of the King, firmly resolved to provide by all means at its disposal for safeguarding Italian rights and interests, cannot fail in its duty to take against every existing and future menace measures which events impose upon it for the fulfillment of national aspirations.

His Majesty the King declares that he considers himself from tomorrow in a state of war with Austria-Hungary.

The undersigned has the honor to make known at the same time to His Excellency, the Foreign Minister, that passports will be placed this very day at the disposal of the Imperial and Royal Ambassador at Rome, and he will be obliged to His Excellency if he will kindly have his passports handed to him.

AVARNA.

Virtually no time was allowed to elapse between the declaration of war and actual hostilities between Italy and Austria. Early on Monday morning Austrian aeroplanes, destroyers and torpedo boats descended on the Italian coast of the Adriatic and bombarded towns including Venice, while in the Tyrol and on the eastern frontier Italian and Austrian advance guards immediately came into contact. These various attacks were repulsed. Throughout Austria and Germany there is bitter denunciation of Italy, which for the moment has supplanted England as the most hated enemy. The Italian Government, "believing that Austria-Hungary is using several ports on the Albanian coast for secret commissariat departments," declared a blockade on Wednesday against "that portion of the Austro-Hungarian coast comprised between the Italian frontier on the north and the Montenegrin boundary in the south, including all islands, forts, anchorages and bays, and also the Albanian coast from the Montenegrin limits on the north to and including Cape Kiephali on the south." The Italian advance across the Austrian frontier seems to have met with no serious opposition. The advance is extending along a front of fifty miles towards the Isonzo River and no important battle is expected until the invaders reach the river, where the Austrians have established themselves. King Victor Emmanuel has assumed supreme command of the army and navy. During the King's absence the duties of State will be carried on in the name of the King by the Duke of Genoa (Prince Thomas Savoy), who has been appointed Lieutenant-General of the Kingdom.

The intrusion of Italy as a new enemy does not appear to have caused the German or Austrian troops to relax on the other battle fronts. In Middle Galicia they have resumed the offensive against the Russians along the River San and claim to have met with further successes, while in Flanders and Artois the Germans continue, quoting the French War Office report, to make furious attacks in an effort to regain the ground lost in recent weeks and hold the ground that they have taken from the British in the region of Ypres. A press dispatch from London states that except for the German admission that the British have captured part of their trenches to the northeast of Givenchy the reports of the belligerent headquarters continue to contradict each other, one side claiming gains; the other announces that all attacks were repulsed with heavy losses. The net result appears to be, however, so far as the West is concerned, that the fighting still consists largely of trench warfare and that the rival commanders are hoping to wear down their opponents until a real forward movement will be found possible. In the East the German commander, General Mackensen, is reported from Berlin to have renewed his offenses against the Russians north of Przemysl and to have on Monday captured 21,000 Russian prisoners.

The campaign to force the Dardanelles is proceeding very slowly, if it is progressing at all. On Tuesday the British battelship Triumph, of 11,800 tons, carrying 700 men, was blown up by a submarine while operating in support of the Australian and New Zealand forces on the shore of the Gallipoli Peninsula. A majority of the officers and men, including the captain and commander, are reported to have been saved. On Thursday a Turkish or German submarine torpedoed and also sank the British battleship Majestic, a vessel of 14,900 tons, carrying 757 men. All the officers and men were saved. These vessels make a total of four British warships, and one French besides two French submarines and one British submarine that have so far been destroyed in the Dardanelles campaigns. The other British ships were the Irresistible, which was torpedoed on March 19; the Ocean, also March 19, and Goliath, on May 13, while the French battleship Bouvet was likewise sunk on March 19. There have also been unconfirmed reports from Constantinople via Berlin of the loss of the Russian battleships Sinope and Panteleimon. These latter reports have been officially denied in Petrograd.

Another marine loss in the British navy this week was that of the steamship Princess Irene, which was blown to pieces on Thursday morning (apparently by an internal explosion) off Sheerness, England. The Princess Irene was a new liner of 6,000 tons, bound for the Canadian Pacific Ry. at Dumbarton last year and was taken over by the Admiralty. It is said she has been used for mine laying and was undergoing repairs. There have been almost daily reports of the sinking of British merchant ships.

While the German reply to President Wilson's note has not yet been received at Washington, it is expected to arrive to-day (Saturday). What seems to be a responsible forecast from Berlin suggests that the document will take the form of a serial communication, the first installment to be a statement of all the facts in the several cases involved as seen from the German standpoint, with a courteous request to the American Government to confirm their accuracy in order that a full agreement may be reached on the basic facts which in the Lusitania case will, it is reported, include the important point as alleged by Germany that she was an auxiliary cruiser and that her cargo included arms and ammunition; possibly also the claim that the Lusitania was armed. Germany's full and definite reply will follow promptly on receipt of an agreement on facts. What appeared for a time to be an incident that might have complicated the entire Washington-Berlin situation was the disabling of the American steamer Nebraskan on Tuesday night by an explosion off the coast of Ireland. It has not yet been definitely proven that the damage was a result of a torpedo from a submarine or that the vessel struck a loose mine. The Nebraskan reached Liverpool under her own steam and will be examined physically in an effort to discover the cause of the damage. Washington is awaiting a full statement of facts before taking the matter up with the German Government. The German Ambassador has called at the State Department at Washington to disclaim that German loose mines were in the vicinity of the steamer.

As a result of reports to the contrary, President Wilson in his talk with journalists on Tuesday told his callers that there was to be no change in the Administration's policy regarding Mexico. He denied with some asperity published reports that asserted an immediate embargo was to be placed on the shipment of arms across the Rio Grande. The reports stated that this action had been taken after the receipt of the formal report of Duval West, the President's special investigator, of the conditions in Mexico. Mr. West is declared to have told the President that the leaders of the various factions were "more eager for loot than for liberty," and that they could not be trusted. This also the President denied, adding that he had no reason for distrusting the motives of the leaders in Mexico.

Two treaties establishing Japan's influence in the Province of Shantung, in Manchuria, and in Eastern Mongolia were signed on Tuesday by the representatives of Japan and China at Peking. Thirteen notes of explanation also were signed. The incident brought to a conclusion the negotiations which have been going on since last January, when Japan soon, after the fell of the German position of Kiao-Chau, presented her demands to China. The discussion of the Japanese demands is thus terminated until the five articles reserved for future argument are brought out for consideration. Several alterations were sought by the Japanese Government. These included the omission of the words "South" and "Eastern" before Manchuria, and Inner Mongolia respectively.

The London Stock Exchange reopened on Tuesday, after having been closed on Saturday and Monday for Whitsuntide holidays. As a rule, the tone of the market for the week may be called a substantial one, the formal entrance of Italy into the war as an active belligerent having, apparently, produced a favorable impression. Nevertheless, according to London correspondents, the fact that the new addition to the Allies may mean another applicant for credit from the British Treasury is not overlooked in the City, and, taken altogether, there seems to have been somewhat of a lukewarm reception accorded the important news. New capital offerings seem to have met better response. A development in the matter of capital application has been an experiment with redeemable preferred stock by the Northeastern Railway, besides small bond issues by other roads. The Northeastern issue amounts to £1,000,000 in 4½% preferred stock redeemable after ten years. It was offered at 99 and was more than subscribed. The Great Central Railway Company is about to issue £500,000 in 3½ per cent debentures. The London market seemingly has also failed to display enthusiasm over the Coalition Cabinet, the proposed transfer of Lloyd George from the Treasury failing especially to receive commendation. The attack of the Northcliffe newspapers upon Lord Kitchener are resented in London's financial markets. The leading departments of the Stock Exchange there on Friday of last week solemnly burned copies of the "Daily Mail" to express their indignation over the attacks on Kitchener. We have referred more in detail to the British Cabinet changes in a preceding paragraph.

American securities in London have shown a fair amount of activity. On Tuesday there were 133 transactions in Americans in addition to 34 in Canadian Pacifics; on Wednesday the corresponding figures were 106 and 19, on Thursday 116 and 14 and on Friday 105 and 17. The settlement of the Japanese-Chinese dispute failed to exert appreciable influence upon the bonds of those governments. British Consols closed at 66½ without net change for the week. The recent trend of the London market is indicated by the monthly comparisons published by the Bankers' Magazine of that city, showing the aggregate value of 387 securities dealt in on the Exchange as of May 20, compared with a month previous. The more recent total is £3,213,584,000, or a depreciation of £27,404,000 for the month, which is equivalent to 0.9%. This compares with an increase of £35,330,000, or 1.1% in April. American securities showed the second largest decline, seventeen of these issues indicating a loss of 4% for the month, while fifteen South African mine issues indicated a net loss of 4.4%. Meanwhile British and India funds declined 0.1%; foreign government stocks were virtually without change and British railroads declined 0.7%.

On the Paris market there has been comparatively slight activity this week. French enthusiasm over Italy's entrance into the war did not take the practical form of strength in Italian rentes on the Paris Bourse. Italy's decision to join the Allies to quote a well known Paris correspondent, is "expected to add new Anglo-French burdens which will make foreign exchange rates still more adverse to Paris." Captain Edward Thery, widely known in Paris as an economist, estimates that the total military expenditures for the first year of the war will be 50,000,000,000 francs ($10,000,000,000) for the seven Allies and 37,000,000,000 francs ($7,400,000,000) for Germany, Austria and Turkey. The total, he figures, will average 7,250,000,000 francs ($1,440,000,000) a month, 242,000,000 francs ($48,000,000) a day and 10,000,000 francs ($2,000,000) an hour. He believes the economic powers of Great Britain, France and Russia can support the strain much more easily than their opponents.

Official bank rates at the leading European centres all remain on a 5% basis, that being the figure in London, Paris, Berlin, Amsterdam and Vienna. While no press cable accounts of the fact were received in this country, bankers have received mail advices that the Vienna rate was reduced from 5½% to 5% on April 12. In London the private bank rates of discount closed without change at 2⅝ for short bills and 2 13-16@2⅞ for three-months bills. Money is still quoted for day to day funds at 1¼@1½%. No private bank discount rates have this week been received by cable from the Continental centres so far as we have been able to learn.

An increase of £30,880, is indicated by the Bank of England's gold item this week, note circulation having decreased £1,055,000; the total reserve thus shows an increase of £1,086,000 and the proportion to liabilities is 21.50%, against 20.50% last week and 42.24% a year ago. Public deposits increased £1,706,000, while other deposits decreased £6,883,000. Lombard Street paid off £6,244,000 net in

loans. The Bank's gold holdings amount to £61,737,814, against £35,947,360 in 1914 and £37,715,627 in 1913. The total reserve is £47,240,000, against £25,463,980 one year ago and £27,896,562 in 1913. Loans aggregate £139,289,000. One year ago the total was £41,461,280 and two years ago £30,688,796. The Bank reported on Saturday last the amount of currency notes outstanding at £43,795,523, against £43,519,019 the week preceding. The amount of gold held for the redemption of such notes remains at £28,500,000. Our special correspondent furnishes the following details by cable of the gold movement into and out of the Bank for the Bank week: Inflow, £1,539,000 wholly bought in the open market; outflow, £1,508,000 (of which £93,000 earmarked Argentina, £125,000 earmarked miscellaneous, £504,000 sold in the open market and £786,000 *net* sent to the interior of Great Britain). We add a tabular statement comparing for the last five years the different items in the Bank of England return:

BANK OF ENGLAND'S COMPARATIVE STATEMENT.

	1915. *May 26.*	1914. *May 27.*	1913. *May 28.*	1912. *May 29.*	1911. *May 31.*
	£	£	£	£	£
Circulation	32,947,000	28,933,380	28,269,065	28,954,660	28,572,660

Bank rate	5%	3%	4½%	3%	3%

The Bank of France, which has for some time been a week late in publishing its weekly return, brought the figures up to date this week by furnishing two statements. The first as of May 20 and the second as of May 27. In the first-named a decrease in gold of 8,312,000 francs is shown, while silver increased 1,675,000 francs, note circulation increased 95,278,000 francs, treasury deposits decreased 17,749,000 francs, general deposits decreased 42,214,000 francs, bills discounted increased 1,517,000 francs and advances decreased 6,375,000 francs. The statement for May 27 showed an increase of 6,065,000 francs in gold and a decrease of 1,562,000 francs in silver. Note circulation indicated a contraction of 5,447,000 francs, treasury deposits an increase of 12,677,000 francs, general deposits a decrease of 89,011,000 francs, discounts an increase of 7,279,000 francs and advances a decrease of 4,025,000 francs. The changes thus noted leave the Bank's gold at 3,913,428,000 francs, against 3,730,625,000 francs one year ago, silver at 375,348,000 francs, against 632,650,000 francs and note circulation at 11,829,222,000 francs, against 5,811,868,950 francs a year ago.

The local money situation is still without improvement, supplies of funds in all directions being in excess of current or prospective requirements. Even the preparations for the June dividend and interest disbursements have been without a stimulative influence on rates. Call money on Stock Exchange business seems now to have been pegged at 1¾%, against the former rate of 2%. With the development of the strain in the Washington-Berlin situation there has been less disposition to make applications on the capital market, notwithstanding the complete redundance of funds. Gold continues to come forward, there having been a number of arrivals from Ottawa this week by local bankers that have not been turned over to the Sub-Treasury and have been regarded as private banking transactions. Yesterday (Friday) J. P. Morgan & Co. deposited $2,000,000 of such gold received from Ottawa in the Sub-Treasury. It is understood that additional sums are to come forward in the same way. Last Saturday's bank statement showed the further addition of $7,073,330 to the surplus reserve, which now stands at the unwieldy total of $180,314,560. A year ago the total (under the old form of statement then current) was $47,660,000. The loan item indicated the contraction of $10,611,000; net demand deposits were reduced $9,050,000 and net time deposits $1,813,000. Reserves in "own vaults" increased $2,761,000 to $430,183,000, of which $358,165,000 is specie. Reserves in Federal Reserve banks increased $757,000, to $118,691,000, and reserves in other depositaries increased $2,233,000, to $33,895,000. The Clearing-House statement appears in greater detail on a subsequent page of the "Chronicle."

Referring to money rates in detail, call loans have this week covered a range of 1@2½%. As already noted, the renewal rate, which was reduced from last week's basis of 2% on Tuesday to 1¾%, has since remained pegged at the latter figure. On Monday 2% was the highest and 1% the lowest demand loan rate; on Tuesday the range was 2@1½%; on Wednesday 2½@1¾%; on Thursday 2@1¾%, and on Friday 2@1¾%. Time money closed at 2½@2¾% for sixty days (unchanged for the week), 2½@2¾ for ninety days (against 3% a week ago), 2¾@3% for four months (against 3@3¼%), 3@3¼% for five months (against 3¼@3½%) and 3@3¼% for six months (against 3¼@3½%). Discounts for commercial paper remain 3½@4% for sixty and ninety day endorsed bills receivable and for four to six months' single names of choice character. Names not so well known require 4¼@4½%. The discount rates at the Federal Reserve Bank at New York remain 4% for thirty and ninety day and 5% (for agricultural bills, of which none have yet been purchased) above ninety days.

A reduction in the discount rate of the Minneapolis Federal Reserve Bank on paper having maturities of over thirty days and up to sixty days inclusive has been approved by the Federal Reserve Board. The rate, which had heretofore been 4½%, is reduced to 4%. According to the Minneapolis "Tribune," "this action of the Board to a certain extent removes one of the arguments of the Wisconsin banks which are seeking to be placed in the Chicago district, as it places Minneapolis and Chicago on a par so far as the 60-day discount rate is concerned. At present the only difference between the discount rates of these two banks is ½ of 1% on 90-day paper." Aside from the change noted in the Minneapolis rate, there has been no other change in any of the rates of the Reserve banks; below are the present discount rates of all the Reserve banks:

Federal Reserve Bank.	*Maturities of 30 days and less.*	*Maturities of over 30 days to 60 days, inclusive.*	*Maturities of over 60 days to 90 days, inclusive.*	*Agricultural and live-stock paper over 90 days.*
Boston	4	4	4½	---
New York	4	4	4	5
Philadelphia	4	4	4½	5
Cleveland	4	4	4½	5
Richmond	4½	4½	4½	5
Atlanta	4	4	4½	5
Chicago	4	4	4½	5
St. Louis	4	4	4½	5
Minneapolis	4	4	5	5
Kansas City	4	4	4½	5½
Dallas	4	4	4½	5
San Francisco	3½	4	4½	6

A somewhat more settled tone has marked the foreign exchanges this week. Demand bills on London have not again touched the low level of 4 78 which was reached last week. There has in fact been a gradual, though comparatively slight, strengthening of rates, one influence being the news that J. P. Morgan & Co. have received several consignments of gold from Ottawa. Their total is understood to be not far from $5,000,000. On Friday they deposited at the Sub-Treasury $2,500,000 gold thus received earlier in the week. Another firm of bankers is credited with having received $3,000,000 in a similar way. This gold (aside from the $2,500,000 just mentioned) has been placed in bank vaults or in the vaults of the bankers themselves and may or may not fully show itself in to-day's (Saturday's) Clearing-House statement. The transactions are reported to be on behalf of the British and French governments, and thus are treated with professional confidence by the bankers. A further direct importation of $2,000,000 from France was received by Lazard Freres on the French line steamer Chicago from Bordeaux early in the week. This brings the total of definitely reported imports to $73,665,000. It is not improbable that with the precious metal that has come forward from Ottawa this total now is somewhat in excess of $80,000,000 since the first of the year.

The more settled condition of sterling exchange may be regarded as in line with corresponding improvement, possibly superficial, in the international situation. There was, of course, a distinct renewal of uneasiness on Wednesday when the news of the damage by mine or torpedo to the American steamer Nebraskan was reported. First reports pointed strongly to the inference that a German submarine had deliberately torpedoed an American vessel and thus further complicated an already strained situation. Later reports placed the cause of the damage in doubt at least. Other events of a more gratifying character during the week was a disposition to regard the formation of a Coalition Cabinet in Britain as a favoraing development rather than a source of weakness. Indefinite reports, too, contained a more satisfying forecast of the tenor of the forthcoming German reply to the American note. The formal entrance of Italy on the side of the Allies was interpreted favorably as suggesting a prompter settlement of the war. Meanwhile the continued active export movement is furnishing a steady supply of bills and suggests that any positive strength in the general foreign exchange market must have some measure of arbitrary basis. Last week's statement of foreign trade, as reported by the Department of Commerce, showed excess of exports over imports amounting to $18,932,596, which compares with $16,404,000 for the week ending May 15. The thirteen districts in question usually handle about 90% of the country's foreign commerce. Complete returns of our foregn trade for April have become available and are referred to in the earlier part of this article.

In the Continental exchanges Italian lire have shown a steadying tendency, bankers' sight drafts closing at 5 78½, against 5 87½ a week ago, while bankers' cables finished at 5 78, against 5 87; Russian roubles have shown no further decline, demand bills closing at 39, which is without net change for the week. Sterling exchange in Paris has indifferently responded to the efforts of the Bank of France to stem the weakness, checks on London closing at 25 99½ francs, against 25 97½ a week ago. French exchange in New York closed at 5 41¾ for checks and 5 41¼ for cables, against 5 42⅛ and 5 41¾, respectively, a week ago, while commercial sight in Paris was weaker, closing at 5 43, against 5 41¾. Bankers' checks on Berlin are 83⅛ at the close against 82⅞ last week and cable transfers are 83¼, against 82 15-16@83. Swiss exchange closed at 5 29½ and 5 28½, respectively, for checks and cables. These figures compare with 5 38 and 5 30 Friday of last week. Check rate on Amsterdam remains at 39½ and bankers' cables at 39 9-16.

Compared with Friday of last week, sterling exchange on Saturday showed some improvement over the low level of the previous day; demand was firmer at 4 78¼@4 78⅜ and cable transfers at 4 78¾@4 78⅞, while sixty days was unchanged at 4 75½@4 75⅝. On Monday rates fluctuated irregularly; after a firm opening, weakness set in, to be followed later by a partial rally, though trading was dull throughout, being restricted by the holiday in Europe; demand ranged at 4 78 5-16@4 78½ and cable transfers at 4 78⅞@4 79; sixty days was again quoted at 4 75½@4 75⅝; Italy's declaration of war had a steadying effect. A slightly easier tendency was evident on Tuesday, when demand receded to 4 78⅜@4 78 7-16 and sixty days to 4 75⅜@4 75½; cable transfers were relatively somewhat firmer at 4 78 15-16@4 79; the volume of transactions was light. On Wednesday the sterling market showed but slight net changes and trading continued very quiet; demand declined fractionally to 4 78 5-16@4 78⅜ and cable transfers to 4 78⅞@4 78 15-16, though sixty days was higher at 4 75½@4 75⅝. Exchange rates on Thursday opened steady without appreciable change and very little business was transacted during the morning session; in the later operations, however, heavy buying by important financial interests induced a rally and the close was firm, with the range up to 4 78 7-16@4 78⅝ for demand, 4 78 15-16@4 79⅛ for cable transfers and 4 75⅝@4 75¾ for sixty days. On Friday the market ruled steady. Closing quotations were 4 75½@4 75¾ for sixty days, 4 78½@4 78 9-16 for demand and 4 79@4 79 1-16 for cable transfers. Commercial on banks nominal, documents for payment nominal. Seven-day grain bills at 4 77⅛@4 77¼. Cotton for payment, nominal; grain for payment, nominal.

The New York Clearing-House banks, in their operations with interior banking institutions, have gained $4,975,000 net in cash as a result of the currency movements for the week ending May 28. Their receipts from the interior have aggregated $8,939,000, while the shipments have reached $3,964,000. Adding the Sub-Treasury operations and the gold imports, which together occasioned a loss of $769,000, the combined result of the flow of money into and out of the New York banks for the week appears to have been a gain of $4,206,000, as follows:

Week ending May 28.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement	$8,939,000	$3,964,000	Gain $4,975,000
Sub-Treas. oper'ns and gold imports	22,932,000	23,701,000	Loss 769,000
Total	$31,871,000	$27,665,000	Gain $4,206,000

The following table indicates the amount of bullion in the principal European banks:

Banks of	May 27 1915.			May 28 1914.

c July 30. d Sept. 21.

ITALY'S DECLARATION OF WAR.

The entry of Italy into the European conflict, though virtually foreshadowed during many months, has been in actual performance one of the most dramatic and spectacular episodes of this remarkable war. It will be worth while at this moment to review the somewhat complicated chapter of events leading up to this week's declaration of war. That will necessitate inquiry into the questions, first, why the Italian people were resolved on war with Austria; second, whether their engaging in such a war was justifiable, and, third, what results it will probably have on the larger European campaign.

The incidents immediately leading to last Sunday's formal declaration of war are familiar. At the end of the prolonged negotiations with Austria, early in the present month, a situation developed in which it was evident that differences of political opinion, in and out of the Salandra Cabinet, were rendering any decisive action difficult. Such difficulty had been greatly increased through the strong opposition of the former Premier Giolitti to the whole idea of war, which was believed to be entertained by the head of the existing Ministry. On Friday, May 14, the Salandra Cabinet resigned; an immense sensation followed throughout Italy. The King made one or two efforts to induce other statesmen to form a new Cabinet, but encountered only refusals. Popular demonstrations in favor of Salandra began throughout Italy; they rose in many cities to the proportions of a riot, and their meaning was unmistakable. It was a threat of revolution if the Ministry's plan were to be balked.

On May 17 the King recalled Salandra to office, his resumption of which elicited enormous enthusiasm on the part of the Italian people. The Chamber of Deputies on May 20 granted war powers to the Cabinet by a vote of 407 to 74, the outside enthusiasm being duplicated in the Chamber. Next day the Senate approved the action of the Chamber by a vote of 262 to 2. At Rome a very spectacular demonstration of the people before the palace of the King was the immediate sequel. Last Sunday evening, May 23, the Government formally declared war on Austria.

The reason for these notable popular demonstrations in favor of the war lies back of the incidents immediately surrounding the present conflict. It involves the more than century-old struggle between the Italian people and the Austrian Empire for the possession of the so-called Trentino—the triangle at the northeastern end of the Adriatic, which includes the city of Trieste and which commands the naval approach to Italy. Having changed hands on several occasions during the Napoleonic wars, the treaty of 1815 gave to Austria not only the Trentino but even the province of Venetia. In the unsuccessful Italian war against Austria, during 1848, the Austrian Empire further extended its territory into Italy. United Italy in 1866, backed by Napoleon III., defeated the Austrians and re-conquered Venice. But the Trentino was left in Austria's hands, largely because of Napoleon's wish that the new Italian Government should not be too strong.

It is easy to see how, with such a history behind them, with Italian spoken in the disputed provinces, and with the passion for a really united Italy hereditary in every Italian citizen, the popular feeling should have been very strong that this was the moment for realizing the nation's hopes. The address of the Italian King to his troops, on setting out for the war, began by declaring that "the solemn hour has struck for the vindication of Italy's aspirations."

But was Italy justified in making war, under exactly the circumstances which have marked her entry into the field of hostilities? The whole world has asked this question rather doubtfully, and the question is certainly complicated. When war broke out last August Italy, as every one knows, was a member of the Triple Alliance with Germany and Austria—a political combination most unnatural under the circumstances already recited, but arranged, through Bismarck's diplomatic resourcefulness, at a time when jealousy between Italy and France ran high and when Italy was fearful of her future prestige as a Mediterranean power. This alliance having, however, been in terms for defensive purposes only, the Italian Government notified Germany and Austria at the outbreak of the war last summer that Italy would not join them. The Government at Rome did more. Its statement of this week to the foreign Powers declares that Italy warned Austria seriously in July that disturbance of equilibrium in the Balkans, to Italy's disadvantage, could not be permitted. In spite of this, the war with Servia was provoked by Austria and without notifying Italy.

So far the facts are clear, though the duties arising from them were confused by circumstances. There then began, however, a more obscure and, to Italy, much less creditable chapter. This week's statement of the case, by the Italian Ministry itself, refers to certain special provisions of the Triple Alliance treaty wherein it was declared that if one contracting party were to extend its sphere of occupation in the Balkans, compensation to the other contracting parties was recognized as a right. On this basis, the Italian Government approached Vienna immediately on the beginning of the war; in its own words, it "succeeded in obtaining reluctant acquiescence to the Italian representations." But the negotiations did not move to a satisfactory conclusion. The discussion continued without tangible result from the first days of December until the end of March. Austria offered certain territorial concessions to Italy in the Trentino, demanding in exchange a number of pledges, including assurance to Austria of entire liberty of action in the Balkans. This proposal being rejected, the negotiations continued with varying proposals and counter-proposals, until on the 4th of May the Italian Government declared the Austrian attitude unacceptable and denounced in

diplomatic form the treaty which bound it to the Triple Alliance.

It is easy to see how these negotiations may have been an inevitable sequel to the previously unknown clause of the Triple Alliance treaty. Yet it is impossible for the present-day observer, and it will be impossible for the future historian, to ignore the patent fact that Italy presented extreme demands as an alternative to war, at a time when she knew that war would be a most dangerous alternative to Austria. It cannot be wholly overlooked, first, that Italy had demanded no such compensation when Austria took over Bosnia and Herzegovina in 1908, second that Austria has not yet seized or occupied permanently any Servian territory. This being so, the policy of Italy during the past six months has run perilously close to setting a price on neutrality. The moral position, as most people seem to see it, presented only two alternatives—continued neutrality, or war to recover the Trentino, forced on the Ministry by the Italian people. But the long negotiations of the Italian Government with Austria and Prince Bulow met neither alternative, and placed Italy in a position which certainly has some unpleasantly sordid aspects. These negotiations may have been mere blinds to facilitate delay, and enable Italy to make ready for predetermined war. Yet it must be said that even this explanation would assume a Macchiavellian policy which was at least out of harmony with the disinterested entry of England into war in defence of Belgium and France, or even with the declaration of war by France to fulfill her treaty requirements with Russia.

It is too early to predict the positive results of Italy's entry into the conflict. The Italians have invaded the Trentino, but the military actions reported have as yet been of little consequence, and no decisive movement of troops has been reported on either side. The Italian army is believed by military experts to be now in an excellent state of training and efficiency. It has had the advantage of studying the course of the present war to date and of preparing such branches of military equipment and such special forms of training as events have proved to be nowadays most efficient. The ability of Italy's commanders and the efficiency of their staff organization is, however, for the most part an unknown quantity.

This new turn in the war will certainly weaken both Germany and Austria, to the extent that troops must be diverted from elsewhere to withstand an attack by upwards of one million soldiers, not to mention a highly efficient fleet, both of which have hitherto stood neutral. It is fortunate for Austria that the Russians had been driven back from Hungary before this declaration of war by Italy. But notwithstanding that, it is hard to see why troops will not have to be diverted from the northwestern and northeastern battle fronts as soon as the conflict on the Italian frontier grows to importance. Much, in the meantime, depends on the question where Italy's first full blow will be dealt—whether on the Austro-Italian frontier or in Dalmatia, or in conjunction with the Allied operations around the Dardanelles. Much also depends on what is to be the influence of Italy's action upon other European neutrals. The "Cologne Gazette," a recognized Governmental organ, greeted the news of the war declaration by the remark that "Italy's entry means a new phase of the war; it will lengthen it, increase the bitterness of the struggle and probably draw other nations into the arena." This last remark is undoubtedly directed to Rumania and Greece, both of which countries are popularly supposed to have been engaged by a more or less formal understanding with Italy, yet both of which have thus far continued to hold off non-committally on their own account. It is not impossible that the great and decisive struggle for this part of the campaign is impending in the Balkans themselves.

ORGANIZED LABOR GIVES NOTICE.

Representatives of the Federation of Labor in this State and of a large number of other labor organizations had a meeting in Albany on Monday and drew up a list of constitutional changes on behalf of labor, which Mr. Gompers presented in person to the convention on Wednesday. He announced his resignation as a member of the American Association for Labor Legislation, and his optimism does not appear to be quite unclouded; the Central Labor Union of Brooklyn has also prepared its own list of things wanted and issued a call upon organized labor to defeat the new constitution if it does not include those things. This call asked "what can we expect" from a convention "presided over by the reactionary Senator Root and led and manipulated by William Barnes and Morgan J. O'Brien and the class-conscious corporation lawyers of both parties."

Some of the demands handed in by Mr. Gompers are comparatively mild in viciousness and something might even be said in favor of one or two. The first calls for prohibition of the suspension of habeas corpus "at any time and under any circumstances", also "an absolute prohibition against establishing military rule until conditions shall have rendered the sitting of courts of justice impracticable." The second calls for prohibition of "the creation of a State constabulary and the employment of private officers to maintain the peace", and a provision that the militia can be called out only by proclamation issued by the Governor as Commander of the National Guard.

The third demands insertion in Article I of a Section "defining the rights of labor, substantially in accord with the spirit of the Clayton Law enacted by Congress." The fourth demands that there shall be no abridgment of the right or power of the legislature "to enact laws for the protection of the health, safety and comfort of industrial workers"; this is identical (except in the elastic word "comfort") with the amendment slipped through by default in 1913 by a majority of 316,417, out of a total vote, not quite 48% of all the electors voting for candidates at that time.

No. 5 demands that the constitution shall require the Legislature "to provide for the inauguration of an old-age insurance system and insurance against unemployment."

No. 6 demands that the State shall be made the sole agency for compensation insurance, "in accord with the demand made by the labor organizations at the time the compensation law was enacted, doing away with self-insurance, insurance through mutual companies, or through casualty companies," while No. 7 demands that the Labor and Compensation Commission be kept separate and their heads be protected against removal arbitrarily "by making them constitutional officers."

No. 8 is climacteric, demanding that the revised constitution shall provide for initiative, referendum and recall.

This program has the distinct merit of outspoken frankness. Organized labor proposes to break the peace, as heretofore, whenever coercion of employers and employees for the assumed advantage of the latter through the closed shop and unbroken union domination seems necessary, and it serves notice, as very recently in Pennsylvania, that it intends to head off any interference; force against its employment of force is to be made unconstitutional. The exemption clause of the Clayton Act, such as that is, must be repeated in the new constitution. State Socialism in old and novel forms of insurance is to be made compulsory, and competition by any private organization is to be forbidden. Finally, the worst propositions of the time, a three-headed trevesty on government by the people, are to be adopted here.

Now we have notice what the selfishness and brutality of organized labor intends to seize for itself, regardless of consequences to others. The present troubles of Great Britain, a badly labor-ridden country, in her prosecution of the war, offer us an object-lesson along with our own experience. "What is needed", said Mr. Taft to the manufacturers in convention, on Wednesday evening, "to produce a sobering effect upon the truculent labor leaders, intoxicated with their sense of political power, is political courage upon the part of those who seek to represent the people in legislative and executive office and a full and fair discussion of such legislation as these labor unions press upon Congress and the legislatures, with bold and earnest opposition when in such legislation unjust immunity is sought and undue privilege is to be created." These are sound and timely words, but courage is needed in the people themselves as well as in their elected representatives. Continued inattention and indifference will continue to play into the hands of these men who are determined to get what they want. The sane and thinking people of this State have serious need to bestir themselves, for once, in study of constitutional matters before they are called to vote upon them on November 2.

THE BUSINESS WOMAN AND THE WAR.

Women are steadily invading business, and they are sure to do so in still greater numbers. Many influences tend to sustain the movement. Though their work in many lines is inferior to that of men, it has certain excellences and is on the whole cheaper, at least it can be had for smaller wages. The feminist movement, which is world wide and is characteristic of the age, also has its influence, and the obvious economic advantage to the women themselves is growingly manifest and compelling.

England is already discussing certain features of it which the war is bringing to light. The first and altogether the most significant is not one of those created by the war, like those growing from the absorption of men by the war, it is a fact previously existing, namely that woman's work in the business world has been and is mainly in connection with things that are superficial and relatively trivial, or, to speak with every respect, secondary. These are found largely in the lines of business and of industry which the war has stopped and which people are quick to discover they can get along without. Hence, the large number of business women who are already out of work. Milliners, dressmakers, feather curlers, makers of artificial flowers, manicurists and the like, are of this class, and in mixed establishments where men are employed alongside of women, women are found to be doing the lighter tasks which are first affected by any stoppage of trade and are most easily dispensed with. All this is so obvious that the consciousness of it has doubtless had no little to do with the energy of the movement to force equal pay for women with men in many employments where both are found, and to open all doors for welcoming women to every class of employment.

Details and statistics are not necessary for our present purpose, which is simply to call attention to the need there is of a more general and specific and thorough education of women for business, using the word in its larger meaning to cover all gainful occupations outside of the home.

Of late years there has been a great change in the education of men. The demand for their vocational training has become imperative, it extends not only to the children of the working classes and to the trade schools; it is taken up by the public school system of the country and begins to have recognized place in the universities. Already we hear complaint of the number of young people applying for positions and thinking themselves in some degree competent who have had merely a smattering of the necessary training. The "business college" is largely a misnomer. Nevertheless, the importance of so much vocational training as can be given even in secondary schools has its value both in awakening specific ambition in certain practical lines in which the service of the young people is likely to fall, but also in stimulating them to intelligent effort and interest, and awakening a laudable ambition for further training.

We have long advocated special advanced commercial education for the sons of our successful business men, such as for some time has been given in all the important cities of the Continent and which some of our American universities are already undertaking, though as yet mainly in a half-hearted fashion. The day of the "rule of thumb" and of learning business by beginning at the bottom, as has been the maxim of the office and the warehouse, has past. Waiting to be taught by experience is largely an appeal to what has been bluntly called the "teaching of fools"—those who have not been willing to learn by a prior and more legitimate teaching. What we now advocate is recognition of the fact that all this has come to apply to women.

In the nature of the case woman's work in the outside world is necessarily casual. Every woman looks forward to marriage, both as possible and as probable. She is made for it and whatever her theories, its desirability abides, and when it comes it is for her a change of function and of status. She does not look upon business life therefore as a man does. Neither she nor the world takes it seriously in the individual case. Others will quickly take her place; and she drops out generally just when she begins to be valuable. As it is now, the positions requiring something of expert training and of experience are for this reason commonly closed to her, as employers cannot afford to train employees for short service; consequently, the cheaper

positions and the more casual service are the only ones readily available, and she is the first to be dispensed with when emergency arises. When most jobs are suddenly made vacant, few women are competent to take them.

The war is going to throw upon an immense number of women the necessity of self support. They will be compelled to enter the business world everywhere. Few, if any more of them, can find employment as teachers or trained nurses or in household labor than are so employed now; indeed, for a while the number will probably be less, as money to pay for such services will be scarcer, and already everywhere lower wages are being talked of as inevitable. For such as seek adequate employment ability to meet the requirements of business on the part of women will be more than ever imperative. Their own support and the support of those left dependent upon them rest upon it. The pressure in the lower ranks will be excessive. It is true that "there is always room higher up"; the difficulty is that very few women are ready to climb there. Their education has hitherto been too generally in "accomplishments", or at least, in the purely cultural lines—most excellent in themselves, we have nothing to say against them; but when women seeking positions are asked, "What can you do?", these do not furnish a satisfactory answer. Many a girl's native cleverness carries her up to a certain point, and there she fails in competition with trained men because of the lack of adequate specific education or sufficient general knowledge.

The vast majority of women become wives and mothers and find their life work within the home. Even their more definite and extensive vocational training is greatly needed and ought to be supplied much more thoroughly and extensively in the course of the education of girls than it is to-day. But for the many girls who must go into business there is now a demand so imperative for a training that will open doors for them otherwise closed that it cannot be disregarded. They need to know how to do well some one thing that has a productive value. In Europe it has not been uncommon to find kings' daughters so taught, no less than kings' sons. If our girls can add to this a wider knowledge and a mastery of one or two modern languages or of business methods and commercial relations, so much the better. Whether they remain in business or not, their whole life will be the richer and happier for it. They will be more intelligent wives and mothers, more companionable and wiser guides of their children. Unhappily, such education is scantily available for any of them to-day. The bewilderment and helplessness of many a woman left suddenly a widow, even with property, are pitiable.

It is high time that the need receives the attention of the community, and that parents, as well as our leading educators, take cognizance of it and recognize the imperative character of the demand. However rooted our traditions and however well justified we may regard our educational theories, there are no traditions and no theories which to-day are not more or less thrust into the melting pot of the social and economic cataclysm which is upon the world. The present demand may be regarded as novel or even revolutionary, but unless we are prepared to sit idle before a distress which will be widely felt and long enduring, it must be met.

THE LAST OF THE DANBURY HATTERS CASE.

On January 9 last the "Chronicle" reviewed the course of this famous case through its eleven years, ending with the second and apparently final action of the Federal Supreme Court upon it. On April 22 a Danbury journal contained an open letter of remonstrance and warning, addressed to the defendant hatters by the Loewe firm. There stands this confirmed and still unsatisfied judgment, said this letter, and behind the judgment are the attachments long ago filed upon the homes of the individual defendants. The Federation of Labor has given them moral support from the first and is morally responsible; the United Hatters of America entered into a written guaranty with them to hold them harmless and purchased their savings-bank accounts; a small assessment by the Federation could easily pay the judgment, yet the firm was amazed that nothing had been done and not even had any proposition been presented. The firm is most reluctant to push the case against these individual citizens of Danbury, yet it is not wholly a free agent, "because we are in the hands of our creditors." Therefore notice was given that unless some arrangements for a reasonably prompt settlement were made by the end of May the foreclosures must proceed.

No answer was returned to this, and on the 14th of May the United Hatters took the course foreseen and deprecated by the Loewe firm in their letter as tending only to make the situation worse; suits for attachments amounting to $25,000 were brought against the banks for the interest accrued on the deposits. A week later, the May meeting of the United Hatters (for whose action in the case the proceedings had been halted and waiting) began here, and on last Saturday that meeting voted not to raise a fund for satisfying the Loewe judgment. In form, the resolution by the convention recited that the United Hatters deny that the organization "has agreed with any one to pay the judgment in this case" and declared its purpose "not to apply any of the funds of the organization or any funds we may receive for the relief of our members to the payment or satisfaction of this judgment." The preamble is defiant so far, but "this organization pledges its assistance to the members affected by this judgment" and directs an assessment of one per cent on the dollar "of the weekly earnings of the members of this organization on and after July 1, and the same is hereby assessed and levied, to be collected as other assessments are collected." This money "shall constitute a fund to be used and employed by the officers of this organization in such manner as they may deem best for the relief and benefit of the members affected by said judgment", and the officers and directors are authorized and directed to appeal to the American Federation of Labor "and to labor and other organizations for assistance and contributions to the said fund for the purposes aforesaid."

The United Hatters deny all guaranty and responsibility and refuse to pay the judgment, but they will stand by the individual defendants. The foreclosures may proceed and the judgment may thus be satisfied; then the defendants will be reimbursed. The unionists may take what satisfaction they can in refusing to have any direct dealings with the Loewe company, and as the firm now has notice to proceed, its course seems clear, for whether this verbal pledge

is made good is a matter for the individual defendants in Danbury, whose plea that they did not have knowledge of what was going on in their names was dismissed as untenable by Justice Holmes of the Supreme Court in January.

This may therefore be taken as the last page of the final chapter in this notable fight, and its lesson is that organized labor has not yet established itself as above laws and judicial processes, although it has not given up trying to. Notwithstanding Mr. Loewe seemed at first to have viewed the matter as one of business policy rather than principle, he took his stand upon the principle also, later on, and he is entitled to the credit of courageously holding out in a good and unavoidable fight.

GREAT BRITAIN'S ABILITY TO FINANCE ITS NEEDS.

In its issue of May 15, the "Money Market Review and Investors' Chronicle" of London contained an interesting article under the title "Paying the Bill," in which the magnitude of the financial problem confronting the British Government is dealt with and the means for meeting the same discussed. The article is by the editor, Geo. J. Holmes, and we reprint the same herewith:

PAYING THE BILL.

A fortnight ago we outlined the interim Budget statement presented a few days later to the House of Commons by the Chancellor of the Exchequer, and discussed the ways and means by which the Government would probably decide to provide the huge amount required to meet our colossal current expenditure in connection with the war. The Chancellor's figures bore out our estimates, but although some newspaper comments appeared on the following morning emphasizing their immensity, it is doubtful whether the average man realizes the stupendous task with which we are faced in its financial aspect. Mr. Lloyd George estimates that if the war lasts for another year—i. e., until the end of the national financial year, on April 5 1916—the bill will be 1,156 millions, against which he anticipates a revenue on the basis of the increased income, super and other taxes, of 270 millions, leaving a deficit of 862 millions for a single year. This is equal to the total cost to this country of the Napoleonic wars, which lasted for 22 years. Mr. A. J. Wilson, in his book, "The National Budget," some years ago estimated the total cost of all wars in which Great Britain has ever engaged at 1,256 millions. Another statistician has estimated that all wars of all countries between the years 1793 and 1881 had cost 3,010 millions. A few weeks ago a French statistician calculated that the present war had cost all countries engaged 5,000 millions in eight months. In comparing these figures, it should, of course, be remembered that no previous war had ever extended over so large an area, nor have so many Great Powers been previously engaged in war at the same time. The burden is huge, but there are broad backs to bear it.

Let us, however, consider our own portion of the bill and our ability to meet it. National wealth may be calculated in many ways, but probably the simplest and the most accurate is to take the value of estates proved for probate, and, as in any one year we might have an epidemic among millionaries, we will take five-year periods to secure a fair average. The last four years for which figures are available show that the 507,000 people who annually die in the United Kingdom leave estates worth 235 millions. Taking this as representative of the living population, we have as the latter's total wealth 10,870 millions, the figures per head for England being £464, for Scotland £414 and for Ireland £178. A remarkable fact brought out by statistics regarding deceased estates is the rapidity with which our national wealth has been accumulated in recent years. An average for the five years ending 1860 gives the national wealth at that time as 7,200 millions, the five years ending 1895 give 11,800 millions, and now for the five years ending 1913 we have 19,870 millions. The advance has been thus twice as great in the past eighteen years as in the preceding 35 years. Dividing the national wealth by nine, to arrive at national income, we have 2,200 millions. This is on the basis of estate figures up to 1913. Mr. Lloyd George last week estimated our national income at 2,400 millions, which is approximately the amount at which we should arrive if later estate statistics were obtainable.

We have, however, not only to meet a year's deficit of 862 millions, arising from the direct cost of war, but, as Mr. Lloyd George reminds us, to finance our foreign trade during this period. Normally, our imports show an excess over exports of 130 millions in annual value, against which we have the "invisible exports"—viz., 150 millions from shipping, brokerage, and similar profits, and about 200 millions annually received from foreign investments. Of our working population two million men as a minimum are now under arms, and a further two million are engaged in manufacture of war material. At least four millions who would be normally engaged in trade are, therefore, not at present producing wealth. Mr. Lloyd George estimates that our reduced trade exports and our increased imports of necessities at higher prices will increase the excess of imports over exports this year to 448 millions, to which he adds 300 millions "or more" to represent Government purchases for ourselves and Allies. This gives a total of 748 millions, and deducting 350 millions (assuming that invisible exports—i. e., shipping profits and foreign investment income—remain as before), we have 400 millions to be financed apart from the direct war expenditure. This makes, with the latter, a total of 1,100 millions not yet provided for in estimated Budget revenue for the financial year ending next March. With national annual income now 2,400 millions, as compared with 1,400 millions 18 years ago, this means that we must only go back to the conditions that then prevailed in order to meet the whole of our war expenditure out of revenue, if we could for a year exist on nothing.

It is certain, in any event, that we shall have to pay the bill out of internal resources. There is no financial centre from which we can borrow except New York, which has to provide far too much refunding of its own to have any surplus to spare for Europe. A consoling fact is that borrowing can be effected on very different terms to-day to those which prevailed in the days of Pitt. He, to obtain 430 millions, net toward the cost of the Napoleonic wars, had to issue loans which added 900 millions to the national debt. At present the Chancellor does not seem to have arrived at any definite decision regarding the proportion of war expenditure that should be provided from revenue and by loan. To equitably adjust any exceptional burden between the present generation and posterity is always difficult. The Napoleonic wars were paid for 55% by taxes and 45% by loans, but the taxation was then spread over 22 years, whereas we have to meet the outlay in a year. The Boer War cost 217 millions, which was met 27% out of revenue and 73% by loans.

As in recent years our national wealth has been increasing annually by 448 millions, it should be practicable to meet, say, 10% of this year's war expenditure by taxation. It must be recognized, however, that increase in indirect taxation means increasing the cost of commodities, and thus driving a larger proportion of people under "the poverty line." If, on the other hand, further additions are made to direct taxation, the amount is drawn from the income or savings of the investing classes, and the question arises how far it is fair and politic to take this by forced imposition rather than in the form of loans. The Chancellor has already levied a large call on the taxpayer, which last year produced £28,000,000 and this year is expected to supply a further £44,000,000. To these demands there has been a cheerful response, but the results attending indicate the danger of burdening the willing horse too heavily. It is above all desirable to maintain the national credit on a 4% basis, or as near to that as may be. It is also fair that the cost of destroying Prussian militarism should be borne very largely by the future generations that will profit thereby.

The bill is stupendous, but our wealth as a nation is great enough to justify us in incurring debt to meet it.

GEO. J. HOLMES.

AUTHORSHIP OF THE FEDERAL RESERVE ACT—CONGRESSMAN CARTER GLASS CORRECTS A NEWSPAPER STATEMENT.

The following letter on the above subject is taken from the "Journal of the American Bankers' Association" for May:

To the Editor of the New York "World":

I am altogether disposed to concur in your estimate of Paul M. Warburg as "the ablest scientific banker in the United States." For this reason I was among those who first urged the President to make Mr. Warburg a member of the Federal Reserve Board.

I also concur generally in the statement of facts contained in your leading editorial of March 27 and the deductions therefrom. Hence I think it is a pity that you should have marred the conclusiveness of such an excellent article by asserting that Mr. Warburg "had more to do with the actual drafting of the Federal Reserve law than any other man, either in Congress or out of Congress." There never was a more flagrant misstatement of fact. Mr. Warburg did not draft a sentence of the law. He was in Europe when the bill was being prepared and wrote an adverse criticism of some features of the measure from abroad.

Upon Mr. Warburg's return from Europe he was several times brought into conference upon certain major problems urged by him, such as (1) "piping" the twelve regional banks into three central banks, (2) establishing a system of "domestic acceptances" and (3) permitting Federal Reserve notes to be used as reserve by member banks. If you will examine the statute you will find that not one of these provisions is in it. The Senate adopted two of them, but the House threw them out in conference.

This utterly erroneous statement in your editorial of Saturday is only comparable to an assertion made some time ago by Mr. Harvey in the "North American Review" to the effect that the House Currency Bill was "so radically changed by the Senate as to bear little resemblance to the law as enacted." Such a declaration betrays indefensible ignorance. It is based upon the fact that the Senate made various changes of phraseology in the House bill and some very radical alterations of its essentials; but had Mr. Harvey troubled himself to pursue the course of legislation he would have seen that the House conferees restored every single important feature of the House bill and discarded every fundamental change made by the Senate.

In presenting the conference report to the House I directed attention in detail to the work of the conference committee, showing that the integrity of the House bill had been absolutely preserved in every single fundamental feature, and in the other chamber Senator Owen made a similar statement.

CARTER GLASS.

Lynchburg, Va., March 30.

FEDERAL RESERVE BANKS CUMBERSOME.

As a means of insurance against panic the Federal Reserve System is criticized as "rather cumbersome and altogether too expensive" in an editorial appearing in the Poughkeepsie "Eagle-News" of the 20th inst. The whole system is described as "a process of pyramiding," with the Federal Reserve banks piled on the National banks, and the Federal Board, with its central reserve gold fund, standing at the apex on top of the Federal Reserve banks. We quote the editorial below:

THE FEDERAL RESERVE SYSTEM.

Undoubtedly the organization and comparatively smooth working of the Federal Reserve System strengthens our national banking system against emergencies. We had to meet the great emergency of the European war last summer without it, to be sure, and the Vreeland-Aldrich Act sufficed. That Act will expire by limitation on July 1 of this year. We rather regret that it has not been given a further extension, but the Federal Reserve System ought to be able to take care of any further emergency. It isn't likely that our entry into the European war, if it should come, would create a flurry of any consequence as our industries are pretty well adjusted to a war basis. The disturbance of commerce and the complete break-down of international exchange which happened last summer couldn't be caused again by any clash between our country and Germany, because we are already pretty well cut off from commercial relations with Germany and German cruisers with possibly one exception have been swept off the seas.

The Federal Reserve System as a means of insurance against panic is nevertheless rather cumbersome and altogether too expensive. There is no sense in maintaining twelve reserve banks with highly salaried officials and well-appointed banking houses when one bank or at most three or four could do the work just as well and at a small fraction of the cost. Many of the national banks that have been compelled to enter the system are already complaining of the unnecessary expense from which they have so far derived no benefit, beyond an added sense of security. The Federal Reserve banks have so far done practically no business. Only two of them have made expenses, we are told, to say nothing of dividends.

It is interesting to note the efforts of the Federal Reserve Board to make the cumbersome 12-bank system work like one bank. The twelve Federal Reserve banks have each been required recently to deposit at least $1,000,000 in gold with the Reserve Board to establish a "Reserve Board Gold Fund" to effect settlements between the different reserve banks—a sort of extra clearing-house arrangement under Government control, something that ought to be entirely unnecessary. In a sense the Federal Reserve Board itself has been constituted a central bank.

The whole system is a process of pyramiding. The Federal Reserve banks are piled on the national banks and maintained—so far at least—at their expense, and the Federal Reserve Board with its central reserve gold fund stands at the apex on top of the Federal Reserve banks. And side by side with all this we still have the independent treasury and sub-treasury system which costs a lot of money and ought to be abolished. The funds in the sub-treasuries ought to be deposited in the Federal Reserve banks.

FEDERAL RESERVE FREE COLLECTION SYSTEM DOES NOT REQUIRE KEEPING EXCESS BALANCES.

To reassure out-of-town members of the New York Federal Reserve Bank who have hesitated to join the intra-district collection system, Benjamin Strong Jr., Governor of the Reserve Bank, has issued a letter advising them that the plan will not, as some suppose, necessitate the keeping of large excess balances on deposit with the Reserve Bank. As one of the advantages of the system, he points out that member banks joining the collection system will have the privilege of stamping their checks "Collectible at par through the Federal Reserve Bank of New York." His letter follows:

FEDERAL RESERVE BANK OF NEW YORK.

May 17 1915.

To the Cashier:

Sir—In discussing the intra-district collection system with member banks, it is evident that some of them are under the impression that their acceptance of the plan will require them to keep large excess balances on deposit with this bank. Such is not the case, however. It will only be necessary for a member bank to forward each day's items drawn on other member banks which have joined the collection system to an amount sufficient to offset the checks presented against such member bank by other banks which have joined the system. Consequently, no considerable excess balances, figuring from the books of this bank, need be maintained.

To provide against the possible depletion of reserve balances by charges in excess of the items remitted, it is suggested that member banks joining the system may arrange with their reserve agents to make such regular transfers of funds as experience indicates are necessary to maintain their reserve balances.

On the other hand, upon request, or by standing order filed with this bank, such excess balances as may be built up by a surplus of credits over debits, may be transferred to your New York City reserve agent, thereby preventing unnecessary loss of interest on excess reserves.

Depositors of member banks joining the collection system have the privilege of stamping their checks "Collectible at Par through the Federal Reserve Bank of New York," and may thus enable their customers to avoid the inconvenience or disadvantage of collection charges, as we are advised that checks drawn upon such member banks will be added to the "discretionary list" of the New York Clearing-House Association.

It is believed that the proposed plan for collecting checks, developed along proper lines, and with the co-operation of our member banks, will ultimately afford a desired facility of which experience will demonstrate the advantages.

If you have reached a decision to join the collection system, prompt advice will be appreciated, in order that no unnecessary delay may be made in publishing the initial list of its members.

Respectfully yours,
BENJAMIN STRONG JR., *Governor.*

GEORGE LA MONTE TO CONTINUE AS DIRECTOR OF PHILADELPHIA RESERVE BANK.

George M. La Monte, Commissioner of the New Jersey Department of Banking and Insurance, will be permitted to serve out his term as one of the Class C directors of the Philadelphia Federal Reserve Bank, according to an opinion by the counsel of the Federal Reserve Board at Washington. Mr. La Monte is a resident of Somerset County, N. J., which goes into the New York District on July 1 as a result of the recent decision of the Reserve Board to transfer northern New Jersey from the Philadelphia District to the New York District. It was thought that as Mr. La Monte's residence was no longer in the Philadelphia District he would be ineligible for a position in that district. His term as a director expires December 31 1915.

FEDERAL CHECK COLLECTIONS—STATE BANKS URGED TO JOIN SYSTEM.

W. P. G. Harding of the Federal Reserve Board entered into a lengthy and interesting discussion of check clearances in addressing the Alabama Bankers' Association at its annual convention at Birmingham on the 12th inst. Incidentally, Mr. Harding, who spoke along similar lines at the Texas convention on the 20th inst., stated it as his belief that the public, in the course of time, instead of drawing a distinction between national and State banks, will distinguish rather between banks which belong to the Federal Reserve system and those outside its province. We quote the following from Mr. Harding's remarks at the Alabama convention:

The profits arising from exchange charges have always been dear to the hearts of bankers, for the reason that transactions against which these charges are made are quickly closed up and involve no long tying up of funds. Profits from this source, however, are constantly becoming smaller, so that in the case of many banks, in the larger towns especially, they have so diminished that the exchange account shows a loss instead of a gain. I can remember the time when banks in Alabama charged a premium of ½ of 1% for their checks upon financial centres, while they would buy at the same time sight drafts upon the same cities at the same rate of discount thus netting a clear 1%. Some of these same banks are now glad to make a net profit of 1-10 of 1%, and in many cases this profit is derived only from the purchase of bills drawn against cotton when that commodity is moving actively, or from the collection of and remittance for B-L drafts drawn against shipments of goods.

Theoretically, exchange may be defined as the rate at which the documentary transfer of funds is made, so that if the debits reciprocally due by two places be equal, the exchange will be at par, but when greater in one than in the other, the exchange will be against that place which has the larger remittances to make, and in favor of the other. It is customary for the seller of goods to forward them at the expense of the purchaser, who is supposed to pay for them in funds current at the place of residence of the seller.

Thirty years ago it was the practice for settlements to be made between parties living in different towns by draft on New York, or some other financial centre, by post office money order, or by shipments of currency by express. In those days the rate of exchange was governed to a great extent by express rates, especially when the amount involved was large, for the remitter would not pay a bank a higher rate for its check than it would cost him to forward the actual funds by express. Merchants would go to their local bank and purchase drafts in favor of their creditors, paying the bank the agreed premium. As the business of the country developed, the local merchant gradually acquired the habit of sending his own check, drawn upon his local bank, to his creditor in New York, Chicago or St. Louis, who would deposit the check in his own bank, which would, in turn, forward it for payment. The local merchant found that by doing this he could avoid paying a premium for a bank draft drawn upon the city where his debt was due. The city dealer found that he could, in most cases, prevail upon his own bank to accept his country checks on deposit without making any deduction, so he soon became accustomed to this method of settlement. In the course of time, when many remittances were being made in this way, the burden upon the banks in the financial centres became very great, and to protect themselves, the crediting bank would impose a charge on country checks deposited with it, so that the cost of remitting funds for settlement of goods purchased had been shifted from the local merchant to the dealer or jobber in the cities. In many cases, however, this cost is borne by neither of the parties to the transaction, but is still absorbed by the city bank which has the dealer's account, although there seems hardly more reason for it to be taxed with the cost of transfer of funds from the buyer to the seller than for it to pay freight upon the goods purchased.

The banker in the smaller towns naturally looks with favor upon this method of settlement, as he exacts his exchange charge from the bank from which he receives the check, and his bank has enjoyed an increased deposit during the time the check has been outstanding. Many abuses have crept in, however, and it frequently happens, particularly where the drawer knows that his check will be outstanding four or five days, that he will forward it before he actually has funds in bank to meet it, relying upon his ability to make the account good by the time the check is returned for payment. The merchant in the small town, therefore, prefers to continue this method of settlement, as it frequently saves him an interest charge.

It often happens, also, that in cases where the bank in the larger city makes a charge against its depositor more than ample to cover the actual cost of collecting a country check, that it seeks to retain all or a part of this as a net profit, and is frequently enabled to do so by taking advantage of competitive conditions in an intermediate town where it has a reciprocal account, so that the expense is in many cases borne by a bank in some local centre which is willing to take business at a loss to prevent a competitor from getting it. The ideal arrangement which the bank in the small town, or the real country bank, likes to make, and one which it is frequently able to make, is to charge its correspondent bank located in a financial centre of its own State, exchange at the rate of 25 cents per hundred on all checks received for collection, at the same time clearing through the same correspondents all checks payable outside of its own town without any expense whatever. I believe, however, that arrangements of this kind are becoming harder to make, and that the greater part of exchange charges now being made in this country are borne by the sellers of goods.

It may be that their profits are sufficient to admit of their bearing this expense, and I have always been impressed with the logic of the contention made by a country merchant when I was a bank clerk in Tuscaloosa, more than thirty years ago. It seems that on one occasion he sent his own check on the local bank to a New Orleans merchant in payment of some sugar, nstead of following what was then the prevailing custom of going to the bank and buying its draft on New Orleans. This check was deposited in a New Orleans bank, who sent it for collection to the rival bank in Tuscaloosa, so that the bank on which the check was drawn made no profit out of the transaction. The Cashier asked this merchant what he meant by sending his local check as far away as New Orleans, and suggested that he come in as usual and buy a bank draft. The merchant replied that whenever the New Orleans merchants would pay the freight on their goods shipped to him, he would be willing to pay the freight on their money. Sellers of goods all over the country have for several years past been paying freight on the money paid them for their goods, and the volume of local checks that is transmitted in the mails every day now reaches enormous proportions—certainly $200,000,000 would not be a high estimate.

When the Federal Reserve Act was being debated in Congress, representatives of those who have been paying exchange charges on checks sent them in payment of goods sold exerted their influence in favor of free check collections, and shortly afterwards, representatives of more than 2,000 country banks went to Washington and appeared before the committee having the bill in charge, and entered a vigorous protest against being deprived of what they regarded as a legitimate profit. The result was that this paragraph was included in Section 16 of the bill as enacted, and is now part of the law.

"Every Federal Reserve bank shall receive on deposit at par from member banks or from Federal Reserve banks checks and drafts drawn upon any of its depositors, and when remitted by a Federal Reserve bank, checks and drafts drawn by any depositor in any other Federal Reserve bank or member bank upon funds to the credit of said depositor in said Reserve bank or member bank. Nothing herein contained shall be construed as prohibiting a member bank from charging its actual expense incurred in collecting and remitting funds, or for exchange sold to its patrons. The Federal Reserve Board shall, by rule, fix the charges to be collected by the member banks from its patrons whose checks are cleared through the Federal Reserve bank, and the charge which may be imposed for the service of clearing or collection rendered by the Federal Reserve bank."

It seems to have been the idea in Congress that country banks would be appeased by the provision that they might make a charge against those of their patrons whose checks were cleared through the Federal Reserve Bank. In other words, if Mr. Brown of Dothan should draw his check upon

the First National Bank of Dothan in favor of Smith & Co. of Chicago for $100, and that check should be returned to the Dothan bank for payment through the Federal Reserve Bank of Atlanta, it was thought that the Dothan bank could charge Mr. Brown 15 cents for having paid his check in Chicago funds. The fact, however, was evidently overlooked that Mr. Brown would not look with favor upon this charge, which, if persisted in, would result in the loss by the First National Bank of Mr. Brown's account. Neither is the permission given "to charge for exchange sold to patrons" any more satisfactory to the small bank, for the reason that their patrons have long since got out of the habit of buying bank drafts and make a practice of remitting their own checks. It seems, therefore, in actual practice, that the only charge allowed is for "the actual expense incurred in collecting and remitting funds, which must seem a mere pittance to banks that have been charging 25 cents per hundred. Yet the Federal Reserve banks are required to "receive on deposit at par from member banks or from Federal Reserve banks are required to "receive on deposit at par from member banks or from Federal Peserve banks checks and drafts drawn upon any of its depositors," and the Federal Reserve Board is charged with the duty of carrying out the law.

It has been the earnest desire of the Board to cause as little hardship as possible in making these changes, and after a careful study of the whole subject, and after many conferences with representatives of all Federal Reserve banks and officers of member banks, a plan has been agreed upon which will be gradual in its operation, and which will, it is thought, in the course of time prove effective. Each Federal Reserve bank, in accordance with this plan, has notified its member banks that a check clearing system will be established, but that for the present the system will be a voluntary one, and no bank will be required to be a party to it except of its own free will and accord. In order best to describe the workings of this plan, I will assume that the member banks in Nashville, Chattanooga, Atlanta, Savannah, Macon, Mobile, Talladega, Birmingham, New Orleans and Jackson assent, and agree to permit the Federal Reserve Bank of Atlanta to charge against their respective accounts as soon as received checks upon each bank which may come into the hands of the Reserve bank. Such checks will be immediately forwarded to banks upon which drawn, for credit, and any checks not good are to be returned to the Federal Reserve Bank and re-credited by it. Each of the banks agreeing to the plan must carry with the Federal Reserve Bank, in addition to its required reserve, an amount sufficient to provide for the debiting against its account of these checks. We will assume that there are 40 banks which agree to this plan at the start. Any one of these 40 banks having checks upon the other 39 banks will forward them all to the Federal Reserve Bank of Atlanta, and receive immediate credit. It will, or course, have to stand an immediate debit on the books of the Federal Reserve Bank of all checks drawn upon itself received by the Reserve bank from the other 39 banks, so that the net result to any one bank is merely a balance, and it will at the same time have been convenienced by having to write only one remittance letter instead of a great many, and by receiving only one incoming letter from the Federal Reserve Bank, instead of perhaps 39. Parties receiving checks upon any of these 40 banks will soon appreciate the fact that they are collectible at once without chagre, and, therefore, are as desirable as checks on New York, Chicago or St. Louis have been hitherto. There will thus be established a preference for checks drawn on these banks, and parties remitting in payment of bills checks on banks not connected with this clearing plan will soon be brought to realize that checks drawn on banks in the clearing system are preferred. If a merchant in Talladega finds that, by reason of his bank being a member of the clearing system, his checks are received without question, he will appreciate the facility given him; but if a merchant in Anniston, for instance, finds that by reason of his bank not being a member of the clearing system, he is charged exchange upon the checks that he sends out, while his competitor in Talladega or Birmingham is exempt from such charge, he will soon, no doubt, exert enough pressure upon his own bank to induce it to become a member of the clearing system. If Mobile, Selma, Opelika, as well as Birmingham, should all be members of the clearing system, merchants in all these towns would enjoy the same advantage, and in the course of time the banks in Montgomery, for instance, would find that they would lose business by remaining out, and would, I think, as a matter of business necessity, finally become members of the clearing system. The Federal Reserve Act does not, of course, become entirely effective as far as its reserve requirements are concerned until three years from Nov. 16 1914, or until Nov. 16 1917, after which time the entire reserve of a member bank must be partly in its own vaults and partly with the Federal Reserve Bank of its district. It is thought that during this time there will be a gradual accession to the number of banks assenting to the new clearing plan, and after the fall of 1917 it is not believed that many banks who have customers sending their checks to distant points will fail to become members of the clearing section. As balances with other member banks will then no longer count as reserve, surplus fund will be loaned, rather than kept with other banks to control collections.

We ought to look this matter squarely in the face, and should realize that we must give and take, that we could not in any event have expected permanently to be able to make a charge of from 15 cents to 25 cents per hundred on checks sent us for collection, at the same time collecting all of our out-of-town checks without any cost whatever. The banks in the smaller towns will learn, as the city banks have already learned, to make up losses in exchange by adding to their volume of business, and while at first thought many of you may feel that there is little chance of increasing the volume of business in your towns, I am sure that as the workings of the Federal Reserve system become better known, and the safeguards it offers are more fully appreciated, that any money now being hoarded in your communities will come into sight and be deposited with you, and with the development of your section, your business will expand in a healthy way. You have been given facilities, whether you borrow your money from the Federal Reserve Bank or not, of getting all the re-discounts to which you are entitled at lower rates than ever before. You will soon realize that there is no longer occasion for you to hoard money by carrying abnormally large reserves, and before the new reserve requirements under the Act are fully effective, I am sure that you will all have found that you can more than recoup your losses in the way of exchange profits by the gains derived through a greater volume of business.

What I have just said relates to the clearing of checks between banks in the same Federal Reserve district, but the broader question of exchanges between the repsective Federal Reserve banks has also been considered by the Federal Reserve Board. It is proposed to obviate as far as possible the necessity for an actual transfer of currency from one Federal Reserve district to another, and I think we have seen for the last time the stringency which has been recurring every fall during the active crop-moving period. Member banks will no longer be obliged to underto the expense of, nor to suffer the inconvenience due to, delays attached to shipping in currency from the old reserve cities, but their currency requirements will instead be abundantly and quickly supplied at a minimum cost by their Federal Reserve bank. The money that you will use in handling the crop next fall will consist largely of Federal Reserve notes, which will stay in circulation as long as needed, and when the crop movement is over, and the notes become redundant, they will find their way back to the Federal Reserve bank, where they will be retired. The abnormally high rates to which we have become accustomed during the closing months of the year will no longer obtain, nor will there be the usual demoralization of rates in the early spring, due to the heavy flow of redundant currency into the great financial centres. Your cotton drafts can, if you wish, still continue to take their usual course, and I presume that you will prefer to send them direct in order to avoid delays in transit. You can, however, instruct your correspondent bank to make deposit with the nearest Federal Reserve bank for the credit of your Federal Reserve bank for your use, and you can order Federal Reserve notes from your own Federal Reserve bank against such deposits as made. Many years will doubtless elapse before uniform interest rates prevail throughout the country. Under present conditions money will continue to command higher rates in Birmingham, Mobile and Selma than it will in New York, Chicago or Boston, but the rates will certain be stabilized and extreme fluctuations will cease.

Section 16 of the Federal Reserve Act provides that:

"The Federal Reserve Board shall make and promulgate from time to time regulations governing the transfer of funds and charges therefor among Federal Reserve banks and their branches, and may at its discretion exercise the functions of a clearing house for such Federal Reserve banks, or may designate a Federal Reserve bank to exercise such functions, and may also require each such bank to exercise the functions of a clearing house for its member banks."

The Board has, accordingly, after conferences with the Federal Reserve agents and the Governors of the several Federal Reserve banks, decided to establish a Gold Settlement Fund to be carried in the Treasury at Washington, and to which each Federal Reserve bank shall contribute $1,000,000 in gold, gold certificates or gold order certificates, in addition to an amount at least equal to the net indebtedness due to all Federal Reserve banks as of May 24. Each Federal Reserve bank will be required to keep at all times in this fund a balance of not less than $1,000,000, and this balance will count as a part of its lawful reserve. At the close of business each Wednesday night (or when Wednesday is a holiday, Tuesday night), each Federal Reserve bank will telegraph to the Federal Reserve Board the amounts in even thousands due to the other Federal Reserve banks as of that date, and on each Thursday the Settling Agent of the Federal Reserve Board will make the proper debits and credits in the accounts of each Federal Reserve bank, telegraphing each bank the amounts, in even thousands, of credits to each settlement account, giving the names of each bank from whom received, and also giving the net debit or credit balance in the weekly settlement. Proper debits and credits will then be made upon the books of each Federal Reserve bank. In case the debit settlement balance of any Federal Reserve bank should be in excess of the amount to its credit in the Gold Settlement Fund, such deficiency must be immediately covered either by the deposit of gold, gold certificates or gold order certificates in the Treasury or any Sub-Treasury, or by credit operations, which term includes re-discounts with other Federal Reserve banks which have an excess balance in the Gold Settlement Fund. Excess balances may remain in the fund to the credit of the banks to whom they are due, or they may, if desired, be refunded by the return to the Reserve bank of gold order certificates, properly endorsed, or of gold certificates payable to bearer, and whenever practicable payments will be made by the nearest Sub-Treasury.

I am violating no confidence when I say that the Federal Reserve Board desires earnestly to have the State banks become members of the Federal Reserve System. The Board feels that the membership of the State institutions is essential to the co-ordinated banking system that it wishes to establish and realizes that there can be but one credit system of nation-wide extent. It fully appreciates that the strength of the Federal Reserve System must be gauged by the quality of its members, rather than by number, and it will use all the broad discretionary powers vested in it by the Federal Reserve Act to bring about this co-ordination. It seeks to establish only such reasonable standards of admission as will be generally recognized as necessary to protect the Federal Reserve System against the admission of banks which would be a source of weakness rather than of strength, and it intends to prescribe only such regulations governing their conduct as members as will insure a reasonable conformity to the fundamental principles deemed essential to the success of the new banking system.

The banks of this country are beginning to realize that membership in the Federal Reserve System carries with it privileges and guaranties of great value, not only to themselves, but to their customers as well. It is believed that membership in the system will come to be regarded as a test of banking solidity, and that membership, giving as it does, full access to the facilities and resources of the system, will add to the prestige of even the strongest institutions, so that in course of time the public will, instead of drawing a distinction as heretofore between national banks and State banks, will distinguish rather between banks which belong to the Federal Reserve System and the banks which do not belong, so that ultimately little importance will attach to the terms national banks and State banks, and banks will be classified as member banks or non-member banks.

Section 9 of the Federal Reserve Act requires that State banks becoming members of the Federal Reserve System must comply with certain general requirements which now apply to national banks. The minimum capital permitted is $25,000, and this requirement as to capital is raised according to the population of the town in which the bank is located, so that in cities of more than 50,000 inhabitants the minimum capital allowed will be $200,000. State banks becoming members must also conform to the provisions of law governing national banks regarding the limitation of liability which may be incurred by any person, firm or corporation to such banks, the prohibition of purchases of, or loans upon, their own stock, the withdrawal or impairment of capital, and the payment of unearned dividends. The Board is not disposed to make any hard and fast rules respecting loans upon real estate or mortgages by State banks who wish to become members. It will seek rather to provide reasonable limitations, so that loans or investments of this character will not be so excessive in amount as to endanger the bank's liquid condition.

The important question of examinations has been fully considered by the Board. As admission to the system will be regarded as evidence of a bank's strength, the Board must necessarily have accurate and reliable information regarding the condition of an applying bank and the character of its management. Examinations must, therefore, be under the direction of the Board, but it will as far as possible avoid imposing additional expense upon a bank by adopting a method of joint or supplementary examination in co-operation with State banking authorities. It will use examiners and auditors in the employ of the respective Federal Reserve banks in supplementing the examinations conducted by the Banking Departments of the several States, and in passing upon applications for membership, the Board will appreciate the co-operation of the State banking authorities.

The membership of State banking institutions in the Federal Reserve System differs from that of national banks in being optional, and the Board has felt from the start that the directors of State banks should be given the right to terminate their bank's membership in case they should deem it advantageous to do so. The Board does not believe that State banks after becoming members will wish to withdraw from a system which offers so many advantages, but at the same time it recognizes the responsibilities

attached to the management of the State banks, and having received ample assurances from high legal authorities as to its powers, it will, I think, reach the conclusion that the State bank members may, with reasonable limitations as to the maximum withdrawal of capital and reserves during any one year, surrender their membership should they elect to do so. I am sure that the Board will define its position in this matter clearly within a very short time.

Permit me, in closing, to impress upon you all the fact that we are living in a critical period of the world's history. The sun never sets upon the lands that are sending troops to engage in the most stupendous conflict of all the ages, and the toll in human lives and in destruction of property is enormous. The money cost of this war, and the indebtedness of the nations party to it, are beyond the comprehension of the average mind. No one can predict the duration of this Titanic struggle, nor its ultimate outcome, nor can we foretell what readjustments of capital must be made between the nations after the restoration of peace. We were able last summer to withstand the shock occasioned by the outbreak of war, by putting into circulation over $300,000,000 of emergency currency, now practically all retired or in process of retirement. After June 30, however, the law will no longer permit such issues, and such currency expansion as may be necessary in future will be in the form of Federal Reserve notes. The Federal Reserve banks can ultimately provide, even without the State banks as members, an emergency issue more than three times as large as the maximum outstanding last year, but it can extend direct aid to member banks only. Those of you who control the destinies of State banks are earnestly invited to bring your institutions under theprotecting aegis of the Federal Reserve System, and I confidently believe that in doing so not only will you promote your own interests, but that you will perform at the same time a patriotic act by adding to the power of the world's strongest banking system.

FEDERAL RESERVE ACT FACTOR IN DEVELOPMENT OF FOREIGN TRADE.

Charles S. Hamlin, Governor of the Federal Reserve Board, speaking at Tuesday's session of the Pan-American Financial conference of the development of our foreign trade made possible under the Federal Reserve Act, said in part :

Under the old system the national banks were not able to finance our foreign trade, because under the law they could not lend their credit in the form of acceptances. As a result, our foreign trade had to be financed in London and on the Continent and the expression now so frequently heard—dollar acceptances—was merely an ideal as far removed from practical realization as the moon is distant from the earth.

This lack of co-operative union or confederation between the individual banks and their reserves also weakened the ability of the banks to conserve the supply of gold, the standard of value in the United States, and as a result the movement of the precious metals from the country, even when in strict accordance with the laws of trade and of ultimate advantage to the United States, was looked upon with anxiety as a symptom of financial trouble, casuing uncertainty and lack of confidence.

I think it will be realized that, growing out of this new banking Act, the time has come for a marvelous development in our foreign trade, especially with South America, and that an opportunity is given to finance that trade such as has never been possible before.

The resources of the Federal Reserve system will also be greatly augmented in the future by the addition of large resources contributed by State banks and trust companies, which the Act permits to join the Federal Reserve system under reasonable regulations. I venture to express the hope that within the near future the majority of the strong State banks and trust companies doing a commercial business will join this system.

The Federal Reserve Act economizes the use of capital; it makes its use more effective than under the old system by lowering the prescribed reserve requirements; it has released hundreds of millions of capital which will provide additional credit; by its re-discount provisions and by the powers given to the Federal Reserve Board to suspend reserve requirements in cases of necessity, it has practically made a financial panic of the type we went through in 1907 an impossibility.

The banks have been greatly strengthened by these reforms and have enlarged their power to grant discounts to their customers, both in domestic and international trade.

I believe the result will be of lasting advantage and benefit, not only to the people of the United States, but to the people of all nations which engage in trade with us.

FRANK A. VANDERLIP ON OUR PREPAREDNESS FOR EXTENDING BANKING FACILITIES ABROAD.

Frank A. Vanderlip, President of the National City Bank of New York, who was the only American who spoke in the capacity of a private individual at Monday's session of the Pan-American Conference, in referring to the fact that at the present time the national banks of the United States have a total surplus over the legal reserve requirements of more than $700,000,000, and that other banks probably have a "similar plethora," said:

The Federal Reserve Act, through the permission it gives for national banks to establish foreign branches, has brought about a happy situation for increasing our foreign trade. And this opportunity is further improved by other things the Act has accomplished in connection with branch banks. Something in this direction has already been undertaken.

The present surplus of the national banks, as indicated by the last report of the Comptroller of the Currency, reaches the enormous total of $736,000,000. The Reserve Act reduced the legal limit of reserves, and that, in part, explains this great surplus, which is to be compared with a normal excess reserve of something less than $100,000,000.

This means that the national banks have a perfectly enormous capacity for expanding their loans. On the present reserves we can, I think, expand our loans about $3,000,000,000. So, if we find ourselves in a state of unpreparedness for war, we find ourselves at least in a state of preparedness for extending our banking facilities abroad. This is a thing to be considered seriously in building up our relations with the Central and South American countries.

The conditions in those countries are just what conditions were with us a generation ago. They need capital for their enterprises, just as until recently we used up all our capital in domestic enterprises, though now we have this large fund for use in the foreign field. So, I say, I look for great things from this conference, in closer relations and more fruitful communications.

SENATOR OWEN ON FEDERAL RESERVE ACT AND RURAL CREDIT LEGISLATION.

Speaking at the annual convention of the Oklahoma Bankers' Association in Tulsa, Okla., on the 14th inst., Senator Robert L. Owen, who assisted in the drafting of the Federal Reserve Act, stated that he "might as well claim to be the author of the Ten Commandments as the Federal Reserve banking law." Senator Owen declared that the plans for that Act were worked out in Europe years ago. While it is true, he continued, that he has advocated its principles for a long time, the thought originated over there. With regard to the operation of the Federal Reserve system, Senator Owen is quoted as saying:

We should not judge the worth of the system by the first few months of its operation. Because it has not earned money, it is in no way an evidence of failure. The reports do not show the immense amount that is kept in reserve. Most of your banks have a reserve of from 30 to 40%, which I truly believe is too much, but the Federal Reserve bank has a much larger reserve than that.

The Federal Reserve system has resulted in millions of dollars of increased deposits in the banks of our nation, and in that way it has helped all of you. People have taken their money from private hiding places and deposited it in banks, knowing that in any crisis the banks can get the money from the Federal Reserve institutions and that the depositors can get their money from the banks. There is now no danger of a financial panic and no danger of a bank, honestly managed, having to suspend business and not pay 100% on the dollar to its depositors.

Senator Owen's discussion centred on "Plans for Federal Legislation on Rural Credits." According to him, it has been the idea of those framing such legislation that a rural credit law "should be drawn on the basis of the Government resting upon the citizens, rather than the citizens resting upon the Government." In describing the provisions of the plans favored, he said:

The bill that we have practically agreed upon at the present time provides for the central bank, through which the other banks are to work. Money will be loaned upon land values. The mortgages upon the land will be used as collateral for the issuance by this central bank of debenture bonds. We struck from the bill a provision requiring the Government to take a portion of these debenture bonds. The committee now in charge of this matter in Congress consists of three members of the Senate Committee on Banking, three of the Committee on Agriculture and a like number from similar committees in the House of Representatives, making twelve members in all.

We began work on two different schemes, dividing the committee for that purpose. These two plans are the landsturm and the personal credit system. I am inclined to believe that the latter system, which has worked successfully in Europe, will be best for this nation. It will work out fine, for it will band men together to underwrite one another and make loans for productive values, not to buy automobiles, but to enable the man who tills the soil to get the greatest possible value out of his land and thereby increase the wealth of the States and the nations, which is a condition we are all anxious to see. It will strengthen the credit of the farmer. Here in Oklahoma it will mean bigger crops next year, and bigger crops the year following, and bigger crops every year thereafter. This will help you bankers of the State and I trust you will add your council to the question so that we can get this legislation through Congress during the coming winter.

AMERICANS URGED TO RESIST INVASIONS FOR TERRITORIAL CONQUEST.

Dr. Santiago Perez Triana, delegate from Columbia, won unstinted applause at the conference on Tuesday when he urged that the Americas be preserved for Americans, and that the people of the two American Continents must be prepared to resist any invasions for territorial conquest by aggressive nations of other worlds; at the same time he advocated the extension of the principle of the Monroe Doctrine so as to make it impossible for one American nation to covet the territory of another. "We in America," he said, "should be prepared to make our inviolability stronger every day. We have seen what that inviolability means by this war. There may be distrust even in loving families. There may be dark corners in the past history of this Contienent, but let us see that in the future our harmony is diaphanous, transparent and clear. There may have been failures in the past, but let us forget them. Let the dead past bury its dead. Let the nations here represented in solemn and formal fashion make it manifest that none of them covets the territory of any other, and that the homes and territory of each shall be sacred. Honesty and not convenience guide the policy of nations, and that is the flag of right that we should hold aloft as the flag of this Continent. Then we can tell the other nations of the world that they may come to our fertile valleys but as peaceful multitudes and not as conquerors."

A. Barton Hepburn, Chairman of the Board of the Chase National Bank of New York, who followed Dr. Triana on the speakers' platform, declared that he was glad to hear a representative of the other America advance the idea that the Monroe Doctrine means America for Americans applied to both. "That means," said Mr. Hepburn, "hands off"

to the rest of the world so far as the establishment by any government of a disturbing element. It means the getting together of people with a common sympathy and common purpose."

Mr. Hepburn said that so long as the United States sent its Ambassadors to South America by way of Europe and its commercial transactions were consummated through European banks, there could be little hope of progress or reciprocal success in dealing with those nations. Lack of ships and the failure of American business men to master the Spanish language all have contributed to relatively poor trade relations, he said. He concluded by saying the United States wants nothing from the other republics except their social and commercial good will.

NEW YORK FEDERAL RESERVE BANK INAUGURATES CHECK COLLECTION SYSTEM JUNE 1.

The New York Federal Reserve Bank will inaugurate its intra-district collection system next Tuesday, June 1. In a circular letter issued this week to member banks announcing the date for the adoption of the plan Governor Strong states that only checks or drafts drawn on and received from the member banks which have joined the collection system will be received, such checks being credited at par to the sending bank and charged and forwarded direct to the bank on which they are drawn.

On June 15 the Bank will discontinue accepting drafts or checks on other Federal Reserve banks for immediate credit, with the exception of those drawn on the Federal Reserve banks of Boston and Philadelphia, which it will continue to receive for immediate credit at par.

A list of member banks which have joined the system accompanies the letter showing seventy banks as affiliated with the plan at the start; of these, thirty are banks in Manhattan, while four are Brooklyn institutions. All but two of the local national banks are embraced in the list, the Harriman National and the Sherman National being the only ones which have not signified their intention of accepting the plan. We print herewith Governor Strong's letter concerning the inauguration of the system:

FEDERAL RESERVE BANK OF NEW YORK.
62 Cedar Street.

New York, May 26 1915.

To the Cashier:
Sir.—

Inauguration of Collection System.

In accordance with the plan outlined in Circular No. 22 dated April 20 1915, the intra-district collection system of the Federal Reserve Bank of New York will become effective on June 1 1915.

An alphabetical list of the member banks which have elected to join the collection system is appended hereto. On the first and fifteenth day of each month, if any changes have occurred, a corrected list will be forwarded.

The Federal Reserve Board has announced that it has added to District No. 2 the twelve northern counties of New Jersey. The transfer of the 131 member banks in these counties from the Federal Reserve Bank of Philadelphia to the Federal Reserve Bank of New York will be effected on on July 1 1915. These banks, a number of which have joined the collection system of the Federal Reserve Bank of Philadelphia, will, when transferred, be eligible to join the collection system of the Federal Reserve Bank of New York.

Only checks or drafts drawn on and received from the member banks which have joined the collection system, and which appear on the appended list, will be received. Such checks or drafts will be credited on receipt at par to the sending bank and charged and forwarded direct to the bank on which they are drawn.

Whenever experience may prove that it is necessary, member banks may arrange with their other reserve agents to make such regular transfers of funds as may be required to meet charges against their accounts without impairing their reserve balances with this bank.

On the other hand, upon request or by standing order filed with this bank, such excess balances as may be built up by a surplus of credits over debits may be transferred to a New York City reserve agent, thereby preventing unnecessary loss of interest on excess reserves.

Any member bank joining the collection system is at liberty to extend to its depositors the privilege of stamping their checks "Collectible at par through the Federal Reserve Bank of New York," which will provide for the collection of all such checks at par.

An indorsement stamp for use on all checks or drafts remitted to the Federal Reserve Bank of New York will be forwarded to-morrow to each member bank which has joined the collection system.

Checks on Other Federal Reserve Banks.

On June 15 1915 this bank will discontinue accepting checks or drafts drawn on other Federal Reserve banks for immediate credit, with the exception of those drawn on the Federal Reserve Banks of Boston and Philadelphia, which it will continue to receive, as at present, for immediate credit at par.

Checks or drafts drawn on the nine other Federal Reserve banks will be ecelved for "collection" only and will be credited to the account of the member bank depositing them, subject to final payment, in accordance with the following time schedule:

Federal Reserve Bank of Richmond	1	day	after receipt
Federal Reserve Bank of Atlanta	2	days	" "
Federal Reserve Bank of Cleveland	2	"	" "
Federal Reserve Bank of Chicago	2	"	" "
Federal Reserve Bank of St. Louis	2	"	" "
Federal Reserve Bank of Minneapolis	2	"	" "
Federal Reserve Bank of Kansas City	2	"	" "
Federal Reserve Bank of Dallas	3	"	" "
Federal Reserve Bank of San Francisco	6	"	" "

Items drawn on the above-named banks should not be included with other "cash" items forwarded for immediate credit, but should be listed on a separate sheet and forwarded as "collection" items.

Advice of credit will be forwarded on the day credit is made to the member bank's account.

Transfer System.

In order to provide a direct and economical method of effecting transfers of funds by either mail or telegraph, the Federal Reserve Banks are inaugurating a Transfer System simultaneously with their Collection System. Through this Transfer System any member bank may order funds transferred by either mail or telegraph (*a*) to a member bank within its district, or (*b*) to a member bank outside its district. Sample forms for ordering such transfers are enclosed and additional forms will be supplied on request.

For transfers by either mail or telegraph within this district, no charge will be made.

For transfers by mail outside of this district, it is not anticipated that a charge will be made, unless the condition of the domestic exchange market should necessitate the shipment of currency to cover such transfers. For transfers by telegraph outside of this district, a charge will be made, covering—

(*a*) The cost of telegraphing, and

(*b*) Interest at the rate of 2% for the time which would be required to make the transfer by mail, and

(*c*) The prevailing charge, if any, for mail transfers.

The development of a Federal Reserve Transfer System, particularly for use between member banks in different districts, is in the interest of sound banking practice, and its use by member banks in this district is recommended whenever practicable.

Member banks in this district are at liberty, as heretofore, to draw on this bank and send such drafts outside of this district, and all other Federa Reserve banks have advised that, for the present, they will receive such drafts from their member banks for immediate credit either at par or at the market rate for New York exchange.

Respectfully,
BENJ. STRONG JR., *Governor.*

The above circular is a modification of one issued on Nov. 13 1914 (No. 7) and published in our issue of Nov. 21.

NATIONAL ASSOCIATION OF MANUFACTURERS' RECOMMENDATIONS ON BANKING AND CURRENCY.

The Committee on Banking and Currency of the National Association of Manufacturers, in its report presented at the annual meeting of the Association held in New York this week, advocates the abolition of the term "lawful money" and the establishment of a Central Reserve Bank, owned and controlled by the Government, the bank to have one branch in each State, instead of the twelve Federal Reserve banks. The recommendations of the committee, the members of which are Ludwig Nissen and James Maynard, are as follows:

1. The abolition of the unlimited legal tender power given to silver dollars, so that our monetary system be based absolutely on gold.

2. The abolition of the useless term "lawful money." No money which is not lawful is supposed to circulate, and there is no use in maintaining a discrimination in theory.

3. The consolidation of all note issues into one only, emanating directly from the Government through a Federal Reserve bank, and guaranteeing t with the same reserves that are guaranteeing to-day the different classes existing.

4. The establishment of a Central Reserve Bank, owned and controlled by the Government, but operated by co-operation of all banks; this bank to have one branch in each State instead of the twelve Federal Reserve banks, and as subsidiaries of each the clearing houses now existing, of which all banks could become members without discrimination.

5. The unification of all banking laws into one only.

6. The extension of the power of acceptance given to banks for domestic purposes also.
7. To suppress the system of cash discounts, except when based on the regular rates of interset for advanced payments.
8. To substitute accepted drafts or signed notes for the present system of open accounts in domestic business.
9. To fix the rates of re-discount at the Federal Reserve banks in accordance with the prevailing rate of interest in each centre.
10. To establish one or more American banks for foreign trade.

We also make the following excerpts from the report:

ADVANTAGES OF ONE CENTRAL INSTITUTION.

One central institution, owned and controlled by the Government, to avoid the so-feared danger of a money trust, using the clearing houses as branches, and permitting all banks (national and State) to carry their reserves and re-discount with it, demanding capital from no one, because it is not needed, would be much less expensive to operate, more efficient in control and much more decentralized in scope than twelve units, theoretically linked through an imperfectly welded link.

The reforms of the system as provided for in the Federal Reserve Acts have given the country a better means of using its gold reserves and its credit. The amount of reserves required has been reduced to 18%, 15% and 12%, instead of 25% formerly imposed on central reserve and reserve city banks and 15% on country banks, for demand deposits, and to 5% for all banks on term deposits, instead of 25% and 15%, as was required before. Formerly, the amount of reserve needed (according to figures of statement of September 1914) would have been $1,460,000,000, and it was, following the provisions of the new law, only $996,000,000, releasing, therefore, $464,000,000, which, at an expansion power of 100 to 18 (instead of 100 to 25), would mean an extension of credit of $2,583,000,000 without uselessly locking up any further amount of currency.

Then the re-discount system combined with the authority to issue Federal Reserve notes against commercial paper has further increased the use of credit. Federal Reserve notes can be issued to any amount provided 40% in gold is held as a reserve. For this reserve the Federal Reserve banks have the amount of their capital in full, and 65% of their deposits (as only 35% is to be held as reserve for these), and this may run into hundreds of millions more.

Finally, the power to accept drafts is a facility which permits the banks to further extend crdeit for about $900,000,000 (one-half of their capital and surplus, Section 13). This figure will, of course, grow as and when the capital and surplus of the banks grow.

In all, the added facilities may be considered as representing an increase of credit within the country of not less than $4,000,000,000.

THE LIMITATIONS ON DRAFT ACCEPTANCES.

It is also inexplicable why the power of accepting drafts has been limited to only transactions involving the importation or exportation of merchandise or products, an absurd discrimination against domestic trade. It is thought that the main reasons for this was to avoid banks facilitating stock exchange transactions. But it is a childish way of doing it, as any bank can re-discount commercial paper or use its acceptances arising from imports or exports to lend money on stocks or bonds, and retain these in its vaults. Unreasonable restrictions only stir the mind to get around them in some form.

These advantages have been made available to the country at a most opportune time, as otherwise the closing of the Eruopean markets where we financed a good part of our domestic and foreign trade would have caused us serious trouble. As matters now stand, we can not only finance ourselves, but we can re-purchase much of our own securities held abroad, and thus free ourselves of the tribute we have been paying for the usage of foreign credit. We are also in a position to assist the world in its further development, which we shall do, no doubt, when normality is again restored.

Our domestic needs, as far as banking transactions are concerned, are pretty well taken care of. Legitimate credit for agricultural, industrial and commercial purposes can be said now to be unlimited, and the added accumulation of banking profits which will be retained in the country will certainly increase our financial strength.

EVILS OF OUR DOMESTIC CREDIT SYSTEM.

Notwithstanding our advanced domestic credit system, there is a flaw in our industrial transactions which can and should be removed. It is the high rate of interest paid in the form of cash discounts. As a rule 2% is allowed for payments within ten days, and this means that the manufacturer pays 6% interest per *month* for receiving his money, or that the buyer pays it for the credit granted. Then 2% is not the highest rate. In dry goods as high as 7½% is paid, 6% being quite common. In many cases the rates are fixed—6% discount ten days, allowing 60 days to pay the net price. Six per cent for ten days is 18% per month, which the manufacturer actually pays, and when a buyer uses the 60 days allowed and fails to take advantage of the cash discount, he actually pays 6% for two months, or 3% interest per month. The buyer who prefers to pay 3% per month for the short accommodation or loses 6% for not paying within ten days must impair his credit. If he cannot do it because his capital is too small, his bank should help him out; otherwise he is at a disadvantage in competing with others who can make 6% additional profit or cut their prices down 6%.

The scaling of prices for jobbers, retailers and consumers sets a terribly high cost for merchandising. It is not uncommon to see that the manufacturer himself does not receive more than one-half of the retail price of his goods.

The jobbers' profit means cost to credit insurance for the manufacturer, as they, as a rule, will buy for cash, taking advantage of all discounts, and will make a substantial profit for credit accommodation to retailers, unless jobbers pay the high rate of discount by not paying cash. In this case the manufacturer assumes the same risk as if he sold to retailers on credit.

It is possible that one of the results of our newly improved credit conditions will be the elimination of the high cost of merchandising, as retailers will be more able to borrow at their banks to buy for cash, or manufacturers will be able to borrow more and sell on reasonable terms of credit without sacrificing so much for the sake of securing cash.

Be it need for cash, when the discount may be figured as an interest, or a desire to avoid the risk, when the expense can be called insurance, the cash discount is an added cost of the goods which the manufacturer must consider in making their prices.

THE COMPLAINT OF RIGGS NATIONAL BANK AGAINST TREASURY OFFICIALS.

Following the conclusion on the 21st of the argument of opposing counsel in the proceedings brought by the Riggs National Bank of Washington against the Treasury officials, Justice McCoy of the Supreme Court of the District of Columbia took under advisement the motion of the Government to dismiss the complaint. While the reports last Saturday had it that the relief sought by the bank was denied in every particular except as to the payment into the Treasury of $5,000 interest on Government bonds due to the bank and withheld by the Comptroller for failure to make certain reports, it has since been stated that as a matter of fact the case has not yet been tried on its merits, since no opportunity has been given for the admission of testimony through witnesses. The "Journal of Commerce" of the 24th says:

While the Court admitted a few affidavits on the part of the Treasury officials, no opportunity was given the opposing side to rebut these by either cross-examination or by the admission of other witnesses. The question pending before the Court is whether or not to dismiss the bill of the bank upon the motion of the attorneys for the Treasury officials. This crucial question the Court has promised to answer in a decision to be rendered before July 1. In the meantime the Court rendered his opinion upon certain prayers in the bill based upon the record and such evidence as has been offered in the case. According to attorneys who followed the case carefully, any or all of these questions of fact may yet be altered and the decision thereon changed upon the subsequent presentation of witnesses and testimony in a trial of the case in equity.

The temporary order obtained by the bank in April restraining Treasurer Burke from paying into the Treasury the $5,000 withheld as penalty is continued in full force pending the final ruling of the Court. The prayers which the Court is stated to have denied pending the hearing of the case on its merits concern the injunction asked for to restrain Comptroller Williams from calling for further special reports; the injunction restraining Comptroller Williams and Secretary of the Treasury McAdoo from "interfering or meddling" with the bank's property rights, compelling the bank's officers to testify against themselves, and the injunction restraining Comptroller Williams from revoking the bank's designation as a depositary for the reserves of other national banks and as a depositary for public funds. Justice McCoy in reviewing the evidence stated:

It seems to me on the record as it stands that the Government officials would be remiss in their duty in selecting it as an agent for new applicant banks.

From the evidence here persistent violations of law by this bank began before Comptroller Williams came here, and there is evidence that these violations have continued down to this day. Even if the Comptroller were wrong in his idea about whether this was a commercial or a stock exchange bank, I should say he was quite right in taking out those Government deposits.

SOCIALISTIC TENDENCY OF GOVERNMENT IN ASSUMING OWNERSHIP OF BUSINESS.

Pointing out the growing tendency of the United States Government to usurp private business, Oscar B. McGlasson, in an address delivered at San Francisco on May 14, expressed himself as fundamentally opposed to Uncle Sam owning any business that competes with private enterprise. Mr. McGlasson, who is President of the National Wholesale Grocers' Association of the United States, gave voice to his views at the annual convention of the National Association of Retail Grocers. To his mind, Government ownership can result in nothing but communism—the holding of property in common. "Communism, Socialism and Governmental ownership," he declared, "are inseparately synonomous, and the interweaving of any of these principles into our form of government would surely destroy our Republic." Mr. McGlasson's discussion in part was as follows:

It is not commonly realized how many private business ventures Uncle Sam has pushed into in the last few years. At the rate we are now drifting, this Government is rapidly developing into Socialistic ownership of the business of the nation.

All of Uncle Sam's time is required to look after the millions of details of the legislative, judicial and executive branches of his Government, and you are handicapping him by putting him into private business.

When Congress passed the law creating the Inter-State Commerce Commission, the railroads and express companies were practically deprived of the constitutional right to handle private property as the owner desired. But public sentiment approved what was almost confiscation of the common carrier's rights on the theory of needful regulation of quasi-public corporations.

Another task, by no means small, has just been imposed on Uncle Sam—that of regulating the business methods of at least a million corporations and concerns doing an inter-State business. The new Federal Trade Commission assumes this work and this law practically compels you to take Uncle Sam into your business as a partner. Let us hope that he will be a helpful partner, and see that Government officials impose no unnecessary burdens on business.

A few years ago the Government entered the private banking field—establishing postal banks, accepting deposits and paying interest just like any ordinary banker. It has been urged and ingeniously argued by prominent Government officials, Senators and Representatives that conditions brought on by the war would justify Uncle Sam in lending millions of dollars to the farmers of the South on their cotton. Recently the banks have been placed under the Federal Reserve Act, under which circumstances Uncle Sam might gracefully retire from the postal savings bank business.

Do you know that the Government of the United States is now engaged in the insurance business—actually issuing policies for premiums paid on war risk assumed by Uncle Sam? Many insurance companies were ready, willing and anxious to take care of this insurance on fair rates and terms, yet Uncle Sgm becomes their direct competitor.

For over 12 years Uncle Sam has been operating a steamship line between New York and Panama, carrying passengers and freight for hire, thereby coming into direct competition with American shipping interests. I am

told that there is a steamship line owned by Uncle Sam from San Francisco to Hawaii, and we all know of the desperate effort recently made to push him into buying merchant ships on the pretext of building up American commerce with the nations of the world.

A law was passed recently compelling Uncle Sam to build and operate a railroad in Alaska on the unfounded statement that private capital would not undertake the task. There was no good reason or justification for the socialization of this railroad in Alaska, as we all know private capital would build this road on equitable terms. If Uncle Sam would experiment by buying just one of the transcontinental railroads and furnish passenger and freight service at actual cost to the Government across the continent, how long do you think it would take to demonstrate his utter failure to compete with private capital? For that reason Uncle Sam must buy all the railroads and thereby eliminate competition; that is the only way he can cover up his great inefficiency and enormous loss.

Now we see Uncle Sam performing the function of a retail grocer, actually driven against his will by a few theorists and faddists to the humiliating task of carrying eggs, butter, chickens, vegetables, hams and bacon from the farm to the table, and the foolish part of it all, our Postmaster-General will not even permit him to charge for the actual cost of the service. This parcel post plan of the Government is making it possible to centralize commercial channels into the large cities and is rapidly killing the small merchants in all sections of this Republic. It is a blight on national prosperity and its continuation means utter ruin to a healthy and widespread business growth.

I am fundamentally opposed to Uncle Sam's owning any business that competes with private enterprise; be it the banking business, the purchase of steamships, the running of railroads, the owning of telegraph and telephone systems or the writing of insurance policies. The socialization of these interests would undoubtedly mean poor service and heavy taxation, to make up the great financial loss that would surely result judging from the way Uncle Sam runs the biggest business on earth—his post office.

Can Government ownership result in anything but communism, the holding of all property in common? This, of course, would mean no incentive, no individual effort, no inspiration, no desire to sacrifice, by thinking out valuable inventions and toiling day after day to secure comforts for loved ones. Communism was the form of Government that destroyed Jamestown Settlement. This is the history of all governments founded on communism. Communism, Socialism and governmental ownership are inseparable synonomous and the interweaving of any of these principles into our form of government would surely destroy our Republic.

I feel sure that the American public will resent the Governmental ownership of private interests. I am satisfied that it is not for the general welfare of the country that he be permitted to take on these private ventures, and I hope that American business men will have the courage to demand from their Senators and Representatives that Uncle Sam be left free to direct the affairs of this, the greatest nation on earth, to the end that wherever the Stars and Stripes floats it carries with it a government founded on the constitutional liberty of mankind.

At the convention a resolution was adopted appealing to the Federal Government and State officials for the same character of support to business interests as is given to farmers, and asking for the creation of trade commissions in the several States similar to the Federal Trade Commission.

MR. TAFT VOICES HIS VIEWS ANEW ON EXCESSIVE POWERS OF LABOR LEADERS.

In an address at the banquet of the National Association of Manufacturers, held at the Waldorf on Wednesday, ex-President William H. Taft voiced his objections to the anti-trust legislation enacted during the last year, and the part played by labor leaders in placing these Acts upon the statute books. "The power that the leaders of the American Federation of Labor exercise," said Mr. Taft, "has become excessive and detrimental to the public weal and the good of society, and especially of that of the members of the labor unions." According to Mr. Taft, "what is needed to produce a sobering effect upon the truculent labor leaders, intoxicated with their sense of political power, is political courage on the part of those who seek to represent the people in legislative and executive office, and a full and fair discussion of such legislation as these labor unions press upon Congress and the legislatures, with bold and earnest opposition, when in such legislation unjust immunity is sought and undue privilege is to be created." We quote further from his remarks as follows:

My objections to the Clayton Act and the Trade Commission Act are that their enactment with such a blare of trumpets and avowals of hostility to capital in general, with little discrimination, had a strong tendency to frighten those whose judgment determines the amount of new investments of capital and thus to restrict the normal expansion in our business due to the re-investment of earnings.

It is a mistake to suppose that capital is all owned by rich men. It is made up chiefly of the savings that flow into the great reservoirs of savings banks, life insurance companies, trust companies, into the stock of railroad enterprises and industrial corporations, and the very large percentage of the total capital invested is owned by wage earners, earners of salaries, and men of small or moderate means, who use these agencies to secure profit for their savings and a reward for their prudence and self-restraint.

It is true, however, that in giving effect to the principle of combination the control of these reservoirs of capital and the re-investment of the profits on invested capital are more or less subject to the judgment of the comparatively few to whose custody and management the reservoirs are entrusted.

The aftermath of a crusade and great reform in our political and business condition and a rescue of the country from the dangers of plutocracy is excessive hostility in legislative expressions to success in business and to those who control capital. The hostility has been manifested in all sorts of restrictions, unwise and useless, and the enactment of further restraints in the Clayton Act and in the Trade Commerce Act were much more detrimental to the business interests of the country in frightening investment than in any real effect after they shall have passed the scrutiny of the courts and their essence has been disclosed to the test of actual litigation.

There was in their enactment a political motive that prompted the claim on the part of those who voted for them that they were much more radical than they are. A close examination of the Clayton Act shows that, while it divides up the offences denounced by the Anti-Trust Act into a variety of details, it really aids but little in its practical restriction of methods of conducting business and the freedom of combination and the freedom of competition.

It adds a useful provision to the law in denouncing as a Federal crime the looting of inter-State railroads by reckless promoting directors charged with the duty of honest, careful management in the interest of their stockholders and the public, offences which had heretofore been denounced only by State laws. The bringing of this offence within Federal jurisdiction, however, because of the greater certainty of enforcement in the Federal courts, will make less likely such mismanagement as that which has been disclosed to the country in a number of our great railway corporations.

It is reasonable to suppose that when the Court comes to determine what an unfair method of competition is, it will look to the rules of law and to the statutes of the United States for guidance, and it will keep the Trade Commission within the path thus limited. In other words, what the Trade Commission will have to do is to confine itself in determining the existence of unfair methods of competition to those which violate our present law, that is, to the restrictions of the Anti-Trust Act. It becomes, therefore, nothing but a tribunal of investigation for reporting facts and the application of the law which can only be made by the confirmation of the Court.

In other words, it is nothing but a glorified bureau of corporations, with large salaries and greater powers of investigation. It is fortunate that the power thus conveyed is not really larger, because the standing and national reputation of the men who have been appointed to fill these large salaried positions as members of the boards are not such as to give great public confidence in their experience or judgment.

Not one of them can be said to have had national standing as a business man or as a lawyer, and while the standard suggested for this Commission when its creation was recommended was that of judges of our national Supreme Court, I regret to say that it has not been met in the actual selection of the board.

While, therefore, the powers of the board will not, in my judgment, under the construction of the Courts, prove to be as formidable as they were heralded to be by those who passed the Act and those who proclaimed a new freedom in business, the thundering in the index, together with the passage of the Act, has had the result of making capital more timid, of restraining investment, of decreasing the wage fund and of throwing upon those least able to bear it the burden of business depression. The Act, moreover, does furnish to these Trade Commissioners inquisitorial powers of very doubtful wisdom and utility.

We have heard a great deal about pitiless publicity and we have noted the eagerness with which legislators rush into investigations for political purposes and at public expense. The history of the investigations by the Democratic House of the last Administration, if any one had the time to summarize it, would show a waste of public money, a waste of Governmental efficiency and a series of personal injustices done through the instrumentality of partisan investigation that would bring to the minds of judicious men the importance of not going to extremes in the inquisitorial methods for the investigation of private business to which this Trade Commission tends.

Fear of the excessive and unjust use of this innovation in the law is a legitimate cause for alarm to the business interests of the country. On the whole, however, my own judgment is that the Clayton Act and the Trade Commission Act add very little to the effectiveness of the Anti-Trust Act.

It was passed for political purposes, to satisfy the demands of the leaders of the American Federation of Labor, with the hope of securing the vote of the labor organizations at subsequent elections.

Nothing is so unfair and unwise as to enact legislation that seriously affects the property and business interests of a class without giving to that class the fullest opportunity to be heard, whether their cause is a just one or not.

The power that the leaders of the American Federation of Labor exercises has become excessive and detrimental to the public weal, and the good of society, and especially of that of the members of the labor unions. But the power their leaders have acquired by the principle of combination in their organization has intoxicated them, and they have exercised a tyranny over society and over their own members that is certainly leading to a reaction and to a restraint of their great powers within proper and lawful limits.

The case of Loewe vs. Lawler in the sequel to the judgment has much significance. One hundred and eighty-six defendants, with their houses and earnings subject to the satisfaction of a judgment for more than $250,000, are now appealing to the United Hatters' Union and to the American Federation of Labor, who spurred them on to their lawless methods, to aid them in the payment of the result of this lawsuit, which was vigorously defended at the instance of the leaders of these organizations in the avowed interest of organized labor. Neither the Hatters' Union nor the American Federation of Labor is willing to raise a fund to relieve these 186 victims of their misguided urging, although they could and did raise funds quite as large for the defence of criminals who subsequently confessed their crimes committed in the supposed upholding of the interests of labor. Such a condition cannot but have a useful influence in bringing to the attention of the rank and file of organized labor the necesssity for restraining their leaders in such unwise defiance of the law, and in confining themselves to wise, moderate and lawful methods of maintaining their cause against the opposing interests of capital and employers.

What is needed to produce a sobering effect upon the truculent labor leaders, intoxicated with their sense of political power, is political courage on the part of those who seek to represent the people in legislative and executive office, and a full and fair discussion of such legislation as these labor unions press upon Congress and the legislatures, with bold and earnest oppostion when in such legislation unjust immunity is sought and undue privilege is to be created.

ELBERT H. GARY ON THE BUSINESS OUTLOOK.

Ex-Judge Elbert H. Gary, Chairman of the Board of the United States Steel Corporation, in his address as President of the American Iron & Steel Institute yesterday, took an optimistic view of the future, in part because of a change in sentiment toward business, which, to him, now seems apparent. His remarks were made at the eighth general ses ion of the Institute, held at the Waldorf. "The lack of continuou business prosperity and success in this country for a number of years," said Mr. Gary, "has, in part, been the direct result of undue, ill-considered, or unjustifiable assaults which have been made by Governmental agencies or by the erroneous and unwise policies of different branches or departments of Governments." "The back of business,'

he declared, "has been badly bent with unnecessary burdens, and in fact has been near the breaking point. There has been an admonition against 'rocking the boat', and we approve of the sentiment; but we submit the business men have not been rocking the boat." Mr. Gary voiced his views in part as follows :

"There has recently been manifested a disposition to blame the business men of the country for not openly and vigorously protesting against influences which were calculated to prevent the natural and reasonable progress of economic effort. Men of prominence and recognized ability have stated in unmeasured terms that it is not only the right but the duty of the business men to boldly and persistently advocate their claims and defend their rights. They have been charged with undue timidity for neglecting to appeal to the sense and fairness of the general public whenever assailed without good cause.

"That there has been some ground for these criticisms will not be doubted; but there is another side to this question. The business man has not been alone in his seeming cowardice. There are others largely responsible for the general conditions, and therefore under obligations to work for the advancement of the public interest, who have been reluctant to express their real convictions. Reference is made to some of the statesmen of prominence and ability, whose disposition for fair play is unquestioned. On occasions when their voices, if heard in legislative halls, would seem to have been influential, they have remained silent.

"There is no intention at this time to modify or minimize anything that has heretofore been said by way of admission that there was need of reform n business methods. On the contrary, the fact should be emphasized that we must be honest and fair in our treatment of all questions submitted to our consideration and decision. But as I have said before more than once, there has been in this country a decided change for better business methods, and, therefore, in the attitude of the general public towards the men in charge of business. There never was any such disregard of the ights of others by business men generally as was frequently charged. It has always been the effort of the large majority to be decent; but all suffered more or less for the misconduct of a few. However, in recent years there has been little cause for complaint; and the general public understands and appreciates these conditions.

"Now the time is come when the business man, even if he represents large interests, may speak frankly and freely about any of the important question which affect him or those whom he represents. When and while our attitude and conduct are above reproach, others will be willing to heed what we may say concerning any question in which they or we may be interested. Indeed, as heretofore suggested, the leading newspapers of the country have been fair and reasonable in their advocacy of whatever makes for the advancement of the economic conditions of the United States and in their opposition to the efforts of unwise or unthinking or vicious men to the contrary.

"Attention is called to the attitude of Governmental agencies during the last few years toward the business of the country and toward its attempts to develop trade. Has it been wise and judicious? Has it been fair and reasonable? Has it been broad and unbiased, or narrow and prejudicial? Has it been calculated to benefit all citizens alike?

"With the advantages possessed by this country, on account of its location, climate, natural resources and immense wealth, it is not too much to insist that it should have been continuously more prosperous, financially, commercially and industrially, than any other nation on the face of the globe. Capital should have been protected, labor constantly employed at liberal wages, business enterprises encouraged, extensions and improvements continued without interruption, the wealth and population should have increased more rapidly and as a result all the people would have been happier and more contented and more generous towards each other.

"But what can truthfully be said of business conditions in this country during the last ten years? Prosperity has often been interrupted; depressions have been frequent and severe; idleness has been noticeable and its results often distressing. Doubt, misfortune and fear have been prominent in business circles. Capital has been more or less timid and enterprise has hesitated. American investors, and more particularly foreigners with funds for investment, have doubted the value of securities, which under some circumstances, would be considered first-class and have declined to purchase and many have sold those already possessed.

"The opinion is ventured that lack of continuous business prosperity and success in this country for a number of years has in part been the direct result of undue, ill-considered or unjustifiable assaults which have been made by Governmental agencies or by the erroneous and unwise policies of different branches or departments of government. The results have shown to a demonstration that business success has not been fostered or encouraged as it ought to have been; that the vast possibilities of the country for increase in wealth have not been fully utilized. On the contrary, instead of trying to bring about co-operation between the Government and the people in a determined effort to better the conditions of all, there has been, in a substantial degree, an open hostility to business which has paralyzed many of its legitimate efforts.

"Whether or not it is justified, there has been a feeling on the part of a large portion of the people of the United States, and also those of foreign countries, that there has not been a well-defined and persistent policy on the part of the Government to co-operate with and to promote the interests of the business man to the full extent reasonable; and on the contrary, that the policy of some of the Governmental agencies, both national and State, in their effect, at least, have been to interfere with, to delay and obstruct natural progress; to punish and destroy rather than to regulate and encourage.

"The time seems to be opportune, first, to reiterate that the business men throughout the country must give no cause for complaint in the management of their affairs, but must continue to live up to the standards of propriety; and second, to insist that on those conditions the Governments, with all their agencies and influences, shall co-operate with the business interests and aid them in establishing credit, in extending commerce, in increasing capacity, in the development of natural resources, in adding to the comfort of themselves and those with whom they may be connected and for whose welfare they are more or less responsible.

* * * * * * * *

"I will add a few words in regard to present business conditions. As you know, during the last three years I have not been especially encouraged as to the immediate future, but as to the long future I have been a consistent optimist, for reasons which have been given from time to time. Assuredly we may build our hopes and expectations on the opportunities which this country offers. It seems to me at the moment the outlook for improvement in our lines of activity are better than they have been for more than a year. This is undoubtedly in part the result of increased exportations at fair prices, due to the European wars, but in my opinion also because of a change in sentiment toward business, which now seems apparent. The captain of industry is again becoming popular in the United States, and this has been brought about by the efforts of business men to satisfy the public in regard to the reasonable demands. The individual or aggregation of individuals, or the nation, whose standard of conduct conforms to the golden rule, will, on the average, secure the largest pecuniary success.

"The clouds of distress, suspicion and hostility are breaking. In the rift we may see the sunlight of better things and better conditions."

FEDERAL TRADE COMMISSION TO HOLD HEARINGS IN NEW YORK AND BOSTON NEXT WEEK.

The Federal Trade Commission has arranged to hold foreign trade hearings in New York and Boston next week. The Boston hearings will take place June 1 and 2 and those in New York will be held on the 3rd, 4th and 5th. An announcement concerning the nature of these hearings, made on the 26th inst., said :

The Federal Trade Commission has announced that it cannot prepare a formal program, by topics, for the hearings on foreign trade in Boston and New York next week until its arrival in those cities. This is deemed best because these hearings will be in the nature of conferences between the Commission and the business men as to ways in which the Commission can be helpful in co-operating with the business interests to extend the foreign trade of the United States. Accordingly, it is the desire of the Commission in these preliminary hearings to receive whatever suggestions business men may have to offer. A number of men have been invited to appear before the Commission, and until responses have been received from all these men it would not be possible, in any case, to prepare a formal program. Owing to the nature of the hearings the responses will be used merely to make the necessary general arrangements for the hearings.

One of the important subjects upon which the Commission will desire much information will be the question of co-operation and combination among American business men for the extension of foreign trade. The Commission will, doubtless, find it necessary to give rather extended and very careful consideration to this matter. It is well known that in their efforts to develop foreign markets American exporters meet strong competition from organized manufacturers of other countries. Moreover, under certain circumstances, it is urged that co-operation or combination among American exporters would be highly advantageous in conducting selling campaigns in foreign territory. President Wilson and Chairman Davies have both called attention to the need of giving consideration to the question of permitting combinations among American exporters to facilitate the better marketing of American goods in foreign countries.

In these first preliminary hearings, however, it is not the wish of the Commission that the discussion be restricted to this single topic, but it desires to get the views of business men broadly as to ways in which it can be helpful in connection with foreign trade.

The coming hearings in Boston and New York are the preliminary steps toward a more extended and careful survey of the question of foreign trade which the Commission may be called upon to deal with. In order to develop the subject sufficiently it is probable that other hearings will be held later in other cities, the time and place of which will be announced as they are decided upon.

FIVE PER CENT REBATE ON IMPORTS APPLICABLE TO SHIPS FROM FAVORED NATION COUNTRIES.

The clause in the Tariff Act of Oct. 3 1913, granting a discount of 5% on all duties imported into the United States in American vessels, was upheld by the Court of Customs Appeals at Washington on the 26th inst. At the same time the Court held that all merchandise imported in vessels of nations with which the United States has so-called "favored nation" treaties is entitled to a similar discount. As the United States has favored nation treaties with nearly all important commercial Powers, the effect of the decision, if upheld by the Supreme Court, to which an appeal is expected to be taken, will be to materially reduce the tariff revenues. Approximately $15,000,000 in duties already collected is required to be refunded under the decision. The intent of the provision has been in dispute ever since the enactment of the Tariff Act of 1913; it stipulates: "That a discount of 5% on all duties imposed by this Act shall be allowed on such goods, wares, and merchandise as shall be imported in vessels admitted to registration under the laws of the United States: *Provided*, that nothing in this subsection shall be so construed as to abrogate or in any manner impair or affect the provisions of any treaty concluded between the United States and any foreign nation." In November 1913 Attorney-General McReynolds expressed it as his view that the provision was inoperative, since in his opinion it was in conflict with existing treaties. Collectors and other customs officers were accordingly instructed by Secretary of the Treasury McAdoo to make no allowance of discount on duties under the provision. A law enacted by Congress at the last session, permitting appeals in cases involving treaty rights, is understood to have been passed especially to meet the conditions in the case. The Customs Court, in its decision of this week, concurs in the findings of the Board of United States General Appraisers so far as it holds that goods imported in vessels of American registry are entitled to the 5% discount; the Board, however, maintained that the proviso did not mean that the discount was to apply to the vessels of nations having favored nation treaties. The decision of the Court of Customs Appeals was handed down by Judge Barber, with Judges Montgomery, Smith and Martin concurring. Judge De Vries, who was a member of the Board of Appraisers before the Court of Customs Appeals was organized, wrote a

dissenting opinion. The majority opinion of the Court is summarized as follows:

(1) That the merchandise involved in these cases, imported in the registered vessels of the United States, is entitled to the 5% discount as held by the Board of United States General Appraisers, whose judgment relating thereto is hereby affirmed.

(2) That as to the merchandise imported in the registered vessels of the said treaty nations, both that which was imported and entered for consumption subsequent to the taking effect of the Tariff Act of 1913, as well as that which was brought to our ports prior thereto and entered in bond for warehousing, subsequently withdrawn for consumption and duties paid, the 5% discount must be allowed, and with respect to such merchandise the judgment of said board is hereby reversed.

(3) That the merchandise imported in vessels of our registry before the Tariff Act of 1913 took effect which was entered in bond for warehousing, subsequently withdrawn and entered for consumption and duties paid, is entitled to the 5% discount thereon, and the judgment of said board with respect thereto is reversed.

(4) That the merchandise from Cuba is entitled to the reduction of 20 per centum ad valorem provided by the Cuban treaty, and the further discount of 5 per centum ad valorem from the amount so ascertained. As to such importations the judgment of said board is affirmed.

In writing the conclusions of the Court, Judge Barber, according to the "Journal of Commerce," said:

We think these treaties are self-executing and that they have been so recognized in each and every one of the tariff statutes passed since their ratification and promulgation by virtue of the proviso to each of the statutes imposing the 10% additional or discriminating duty. We also think, for the purpose of determining the issues here, they were likewise so recognized by the proviso to paragraph J, subsection 7. If this conclusion be unsound, it is also clear to us that the effect of the proviso is to say, if any outstanding treaties, whether the same be self-executing or not, make provision for the assessment of duty upon merchandise imported in the vessels of the treaty nations, which provision would be invaded by the allowance of a 5% discount upon like merchandise imported in our vessels, that there shall be allowed the same discount to the merchandise imported in vessels of the treaty nations. In other words, without reference to the question of whether these treaties are or are not self-executing, the provisions therein for the assessment of duty upon merchandise imported in vessels of the treaty nations is made by statute to control.

In his dissenting opinion Judge De Vries said:

The additional intent being manifested in the provision that this purpose of Congress should not be put into force and effect so long as our treaty obligations stand in the way, I am of the opinion that the statute should be so construed as "will effectuate the legislative intention" when and as soon as possible.

If the gist of these views may be accented in conclusion, it is that the statute in question is an existing law of the land effective in futuro; that the treaty articles in question are constitutional and even ratified promises addressed to and to be regarded, disregarded, performed or parleyed by the political branches of the Government and not enforced as complete municipal laws of the land.

For these reasons it would seem that the protests of the importers herein are without judicial cognizance and should be dismissed.

PRESIDENT WILSON'S ADDRESS AT THE PAN-AMERICAN CONFERENCE.

The Pan-American Financial Conference at Washington was formally opened on Monday with an address by President Wilson. The gathering, which has for its object a closer trade and financial union of the Americas, has continued its sessions throughout the week. Attended as it has been by Government officials, bankers and business men of South and Central America and the United States, the conference is one of the most notable and important ever held in this country. President Wilson, in greeting the delegates, aptly said we are not "trying to make use of each other, but we are trying to be of use to one another." One of the features of his address which has attracted attention was his reference to the "physical lack of means of communication, the lack of vehicles, the lack of ships, the lack of established routes of trade," and his statement that "if private capital cannot soon enter upon the adventure of establishing these physical means of communication, the Government must undertake to do so." The inference which has been drawn therefrom by some of the papers that the Administration intended to press for passage at the next session of Congress the Ship Purchaes Bill has brought from the President a statement to the effect that his remarks were not intended to convey any such meaning. No plan, he said, is under consideration by the Administration for providing ships for overseas trade. At Tuesday's session of the Conference a commission was named to discuss the proposal of Samuel Hale Pearson, delegate from Argentina, that the various countries interested lend their support toward the establishment of shipping facilities, in the event that private capital cannot be enlisted in the matter. The personnel of this commission is indicated in another item, and some of the addresses at the gathering will also be found in this issue under separate headings. President Wilson's opening remarks are given in full herewith:

The part that falls to me this morning is a very simple but a very delightful one. It is to bid you a very hearty welcome indeed to this conference. The welcome is the more hearty because we are so convinced that a conference like this will result in the things that we most desire. I am sure that those who have this conference in charge have already made plain to you its purpose and its spirit. Its purpose is to draw the American republics together by bonds of common interest and of mutual understanding, and we comprehend, I hope, just what the meaning of that is.

There can be no sort of union of interest if there is a purpose of exploitation on the part of any person connected with a great conference of this sort. The basis of successful commercial intercourse is common interest, not self-interest. It is an actual interchange of services and of values. It is based upon reciprocal relations and not selfish relations. It is based upon those things upon which all successful economic intercourse must be based, because selfishness breeds suspicion; suspicion, hostility, and hostility, failure.

We are not, therefore, trying to make use of each other, but we are trying to be of use to one another.

It is very surprising to me, it is even a source of mortification, that a conference like this should have been so long delayed, that it should never have occurred before, that it should have required a crisis of the world to show the Americans how truly they were neighbors to one another. If there is any one happy circumstance, gentlemen, arising out of the present distressing circumstances of the world, it is that it has revealed us to one another; it has shown us what it means to be neighbors. And I cannot help harboring the hope, the very high hope, that by this commerce of minds with one another, as well as commerce in goods, we may show the world in part the path to peace. It would be a very great thing if the Americas could add to the distinction which they already wear, this of showing the way to peace, to permanent peace.

The way to peace for us, at any rate, is manifest. It is the kind of rivalry which does not involve aggression. It is the knowledge that men can be of the greatest service to one another and nations of the greatest service to each other when the jealousy between them is merely a jealousy of excellence, and when the basis of their intercourse is friendship. There is only one way in which we wish to take advantage of you and that is by making better goods, by doing the things that we seek to do for each other better, if we can, than you do them, and so spurring you on, if we might, by so handsome a jealousy as that to excel us.

I am so keenly sure that the basis of personal friendship is this competition in excellence that I am perfectly certain that this is the only basis for the friendship of nations, this handsome rivalry, this rivalry in which there is no dislike; this rivalry in which there is nothing but the hope of a common elevation in great enterprises which we can undertake in common.

There is one thing that stands in our way among others—for you are more conversant with the circumstances than I am; the thing I have chiefly in mind is the physical lack of means of communication—the lack of vehicles, the lack of ships, the lack of established routes of trade—the lack of those things which are absolutely necessary if we are to have true commercial and intimate commercial relations with one another; and I am perfectly clear in my judgment that if private capital cannot soon enter upon the adventure of establishing these physical means of communication, the Government must undertake to do so. We cannot indefinitely stand apart and need each for the lack of what can be easily supplied, and if one instrumentality cannot supply it, then another must be found which will supply it. We cannot know each other unless we see each other; we cannot deal with each other unless we communicate with each other. So soon as we communicate and are upon a familiar footing of intercourse with one another we shall understand one another, and the bonds between the Americas will be such bonds that no influence that the world may produce in the future will ever break them.

If I am selfish for America, I at least hope that my selfishness is enlightened. The selfishness that hurts the other party is not enlightened selfishness. If I were going on a mere ground of selfishness, I would seek to benefit the other party and so tie him to myself; so that even if you were to suspect me of selfishness, I hope you will also suspect me of intelligence and of knowing the only safe way for the establishment of the things which we covet, as well as the establishment of the things which we desire and which we would feel honored if we could earn and win.

I have said these things because they will perhaps enable you to understand how far from formal my welcome to this body is. It is a welcome from the heart, it is a welcome from the head, it is a welcome inspired by what I hope are the highest ambitions for those who live in these two great continents, who seek to set an example to the world in freedom of institutions, freedom of trade and intelligence of mutual service.

REMARKS AT CONFERENCE OF CABINET OFFICERS.

In addition to President Wilson's greetings to the delegates at the Pan-American Financial Conference in Washington on the 24th, Secretary of State William J. Bryan and Secretary of the Treasury William G. McAdoo also delivered addresses of welcome; responses to the speeches of welcome were made by eighteen delegates, each representing one of the republics participating in the conference. Secretary of Commerce William C. Redfield and Postmaster-General Burleson also addressed the gathering on the opening day, as did likewise Frank A. Vanderlip, President of the National City Bank of New York. Continental solidarity of the nations of the Western Hemisphere was the theme dwelt upon by Secretary McAdoo. In part he said:

We are all anxious to achieve practical results. We do not wish this conference to culminate in mere debate. We of the United States earnestly desire that you shall give to us the most complete and authentic information concerning the financial and economic needs of your respective countries and about every problem which you think we may consider to your and our advantage. We realize that each country has its own distinctive problems; that the problems of one country probably do not relate to those of its neighbors; that such problems may concern Governmental or public financing; tariff laws as they affect the United States trade; commercial credits and direct exchange with the United States; ocean transportation, and various other things. Manifestly the specific problems of each country cannot be debated with advantage or benefit in the general sessions of the conference. In order, therefore, to give each country the opportunity of discussing its particular problems with the utmost frankness and freedom, we have adopted the plan of dividing the delegates of the United States into eighteen committees. One of these committees will be assigned to each of the countries represented in the conference. This will bring about a series of group conferences, where the problems of each country may be discussed with a body of representative bankers and business men of the United States who will do their utmost to co-operate in the most effective possible manner with the delegates of the several foreign countries in arriving at tangible and practical results.

Finance and commerce, or trade, march hand in hand. They, in turn, depend upon adequate means of transportation and communication. It is hoped that in the general sessions the delegates from the foreign countries, as well as the bankers and business men of the United States, will discuss these subjects, or any related subjects, in the fullest and frankest manner.

The questions of ocean transportation and improved means of communication are particularly interestinfg at this time, and a full expression of opinion upon these important phases of the general problem will be of value. Remedies cannot be applied nor the fullest measure of co-operation secured unless complete and authentic information is supplied.

The question of the establishment of branch banks of the United States in the various South and Central American countries, and the establishment by those countries of branch banks in the United States, deserves your earnest attention. Commercial credits and direct exchange, and the facilitation of commercial transactions depend upon the right sort of financial organization. Under our Federal Reserve Act, the national banks of the United States have consolidated and organized their credit resources in such a way that they are, for the first time in the history of this country, prepared to do a large amount of foreign business. They are also, for the first time in our history, authorized by law to establish branches in foreign countries. Already some of our banking institutions have established branches in South and Central America. Under our Federal Reserve Act the Federal Reserve banks themselves may, with the approval of the Federal Reserve Board, establish agencies in foreign countries. The potentialities of the Federal Reserve Act are not yet fully appreciated, I think, by our own people, but as time goes on its beneficial effects will be more and more felt and more and more realized. We have now the opportunity to become a powerful factor in world finance, not only because of the Federal Reserve Act, to which I have alluded, but because of the strength of our own economic position.

Nothing would so stimulate trade between the Southern republics and the United States and make so certain the investment of United States capital in those countries as laws of substantial uniformity relating to commerce and finance, particularly in such matters as trade marks and patents, consular invoices, bills of lading, regulation of commercial travelers, admission of samples, and many features of the customs laws, bills of exchange, uniform money standard, and various other things it is not necessary to enumerate.

Secretary Redfield in speaking at the conference reverted to the question of transportation, saying:

The nations require better means of transportation. More and better ships are necessary to bring your goods to us and ours to you; aye, to bring you here and take us yonder. It is a vital necessity that if America is to be more closely knit together it should be made as easy and as rapid as possible for us to go and for you to come and for our letters and goods to move frequently and with speed. We are in this country in the humiliating position of doing our foreign trade by the consent of those other peoples who have the ships to carry it. This consent is of course given so long as it is profitable for them to give it. The danger of the situation lies in the fact that our interests may not always be common, and when they diverge they may, if they will, divert the means whereby our commerce lives. So long as they need the things that we produce and can profit by moving them for us, they will of course do it; but if some sterner necessity arose with them they might neither be able nor willing so to do, and then we would suffer. I do not think the people of the United States, when once they realize that it has been by the protection of foreign navies only that we have been able to carry on our foreing commerce in recent months, will be willing long to have it remain so. The question is one for which we are earnestly seeking a solution, and contributions that can be made to sober and to progressive thought upon the subject will be welcome to us from whence-ever they may come.

Postmaster-General Burleson told the delegates at the afternoon session he believed the relations between the United States and the Southern American republics could be advanced by the initiation of domestic postage rates to those countries, and by development of international parcel post. He also told the delegates that lack of transportation facilities, inadequate banking arrangements and the fact that the United States did not have conventions for the exchange of money orders with all those nations explained the lack of closer relations. He made a plea for the establishment of direct exchange and the development of transportation either by Government or private citizens.

PAUL M. WARBURG ADVISES AMERICAN NATIONS TO PUT GREATER RELIANCE UPON THEIR OWN RESOURCES.

The chief lesson which all American nations will have to learn as a result of the experience developed by the war is, according to Paul M. Warburg, of the Federal Reserve Board, that it is unwise for the world to place its financial dependence upon any single nation, and that those who can afford to do so should adopt a policy of greater reliance upon their own resources. Mr. Warburg's remarks were addressed to the Pan-American Conference at Tuesday's session, and were as follows :

In August 1914 six European Powers went to war. The anomalous consequence of this event was that all American nations were thrown into a condition of acute financial and commercial disturbance.

Would it have been possible to avoid so disastrous an effect upon nations not directly involved in this struggle and thousands of miles removed from the seat of battle? And, furthermore, by what means may we hope to prevent, in the future, the recurrence of such fatal conditions?

These questions are deserving of the most serious consideration by this conference. The problem affects us all. We have all, whether in the northern, central or southern division of the Western Hemisphere, suffered together. It is of the most vital importance that, if at all possible, a proper remedy be found.

Our sufferings originated in disturbances of three kinds—of shipping of trade and of credit.

These three phases of our economic life are so closely inter-related that a breakdown of one immediately affects the other. A collapse of credit must interrupt trade, and, therefore shipping. On the other hand, disruption of shipping and trade necessarily disorganizes credit, crippling, as it does, the banking machinery, which rests on the fulfilment of contracts, remittances and payments based on commercial transactions.

When, in the face of untoward events, actual experience affords a definite standard by which to judge cause and effect, it seems easy, and often gratuitous, for the critic to state what steps should have been taken. Retrospect is easier than forecast! Still, it is only by such analysis that we may hope to avoid similar mistakes in the future.

Reviewing, then, last summer's events upon these assumptions, we may say that disruption of shipping, trade and credit in the countries of this hemisphere might have been less disastrous if, instead of relying exclusively upon Europe for their shipping and credit facilities, the American nations had begun in time to develop and organize their own large resources.

It is not within the purview of this address to elaborate the most interesting and important question, what American nations might have done in the past or what there should do in the future in order to secure their own transportation facilities independent of those of others. Confining ourselves to the subject of credit and banking, we may say with confidence that had the United States enacted and put into operation three years ago its Federal Reserve System, not only could our country have weathered the storm without such far-reaching disturbances but we should have been in position to save our American sister republics much loss and inconvenience.

In order to make this point clear, it may be profitable to summarize briefly last year's events as now a chapter of the world's financial history. When the war began England occupied a most advantageous strategic financial position. She had been acting as the banker of the entire world, particularly by her system of acceptance credits, thus financing a vast majority of transactions involving the importations and exportation of goods between nations. The Hindoo, the Chinaman, the Japanese, the Australian, the African from Cape Colony to Egypt, the Canadian, the South American, the citizen of the United States and those of a large number of the European States, all had used the English credit market.

But, when the war broke out, all countries were suddenly called upon to pay their debts and to finance their trade from that time forward wherever they could do it to their best advantage. The consequence of this situation was that England found herself in the position of a credit in calling upon the entire world for the payment of debts due at a time when shipping and trade were disorganized. It was, therefore, impossible within the short time granted for such payment to liquidate obligations by the shipment of merchandise, even though it had been previously sold under contract. At the same time a British debt to foreign countries was shielded by a moratorium, so that the foreigner who happened to be in debt to England, yet unable to collect there any sums due him, found himself able to settle his own debts to that country only by buying sterling remittances at most exorbitant prices or by shipping actual gold. British stock exchanges had been closed, and even those foreign debtors who owned British securities or securities which normally found a market in England, by the sale of which, therefore, they might have created balances with which to pay their debts, found themselves debarred from using these assets for the liquidation of their obligations.

Every country was thrown into confusion. Not one remained sufficiently undisturbed to be able to help the others.

An English writer, now officially connected with the British Exchequer, has written a very able and interesting book wherein he sums up the condition them created as follows:

"London was so strong that it did not know how strong it was. Consequently, being a little flustered by the suddenness of the outbreak of the war, on a scale that mankind had never seen before, it made the mistake of asking its debtors to repay it, not the thousands of millions that it had lent in the form of permanent investment, but the comparatively trifling amount—perhaps 150 or 200 millions (pounds sterling)—that it had lent in the shape of bills of exchange drawn on it, and other forms of short credits. Thereby it put the rest of the economically civilized world, for the time being, into the bankruptcy court, and so, finding that none of its debtors could pay, it thought itself obliged to ask for time from its own creditors at home."

It is not for us to criticise England for having acted in the premises from a merely selfish point of view. This may well have been her duty. Her vital interests were at stake, and in view of the great catastrophe which she had to face, it was necessary that she should muster from all parts of the world, not only her military but also her financial reserves. Nor is much to be gained by insisting, with the British authority already cited, that some of the drastic measures which England found it necessary to take, and even her moratorium, might have been avoided if, immediately upon the beginning of the disturbance, she had been adequately prepared to issue without hesitation an ample supply of emergency currency.

We must not blame England; we must blame ourselves for having carelessly placed ourselves in this economically dangerous position.

Without venturing to analyze the problems of other countries, we may say with reference to the United States that the responsibility for having been caught tied hand and foot when the crash came is in two respects our own. As already stated, we should several years ago have reorganize our financial system so as to keep our gold under our own control and so as to enable us to finance with our own resources our import and export transactions. We should, furthermore, have avoided borrowing abroad when we could have financed our requirements at home, even though foreign aid was had at a slight advantage in rate.

The chief lesson, however, which all American nations will have to learn from last year's experience is that it is unwise for the world to place its financial dependence upon any single nation; and, that those who can afford to do so, as for instance, the United States, should from this time on adopt a policy of greater reliance upon their own resources. Those countries which cannot rely exclusively upon their own resources should adopt a policy of dividing the risks of financial dependence as evenly and widely as they possibly can.

Financial dependence expresses itself in two ways: First, in the short-term credit granted to individuals, and, second, in the long-term and corporate credit, particularly that granted to governments.

Dealing first with the problem of individual credits, the United States may be profoundly grateful that just at this time its new banking system has been established. The day of the opening of our Federal Reserve banks will mark the advent of our financial independence. We are now able to finance our own imports and exports by the use of American acceptances. More than that, we are in a position to finance the trade of other nations and to play, in this respect, the part of an international banker that has heretofore been played almost exclusively by England. While it is true that Germany and France, during the past generation, have begun to finance a large portion of their own trade by acceptances of their own banks, the bulk of the business has heretofore been handled by England. There is no doubt that, upon the establishment of peace, there will be a tendency on the part of many nations to emancipate themselves in this respect; and we may add, with profound conviction, that it is precisely in this field that the United States will be destined to play an important future role.

We realize, of course, that it will be an arduous task to procure for our American acceptances the same standing in world markets as is now enjoyed by those of nations that have been in the field for generations past. Their commercial and financial relations are well established, and bankers in foreign countries are more familiar with the names of European than of American acceptors. Moreover, the avenues that lead toward European establishments for the sale or discount of acceptances are clearly

mapped out and at present of readier access than the new paths leading to those of the United States. It is difficult to change well established banking habits. We are well aware, therefore, of the fact that it will be necessary for this country to render the utmost possible assistance in order to facilitate a development so eminently desirable for the future protection of these large continents. This can be done in several ways:

First, by the readiness of our banks and bankers to enter this new field in a spirit of liberality and patriotism. They must be throughly imbued with the thought that it is necessary for the financial independence of their country and for the security of our American sister republics that import and export transactions touching this country should in the future be financed by ourselves.

It may be opportune to point out in this connection that the Federal Reserve Act gives ample powers for the development of this business. Member banks may accept and Federal Reserve banks may discount bills arising out of transactions based upon the "importation or exportation" of goods. The Federal Reserve Board has been advised by its counsel that the words "importation" and "exportation" as used in this connection need not be construed as confining these transactions to importations or exportations into or from the United States, but that these transactions may also cover shipments between foreign countries. We shall be in position, therefore, to serve as bankers for our American sister republics, not only in their trade with us, but even in their trade with others.

In order to develop this new avenue of American banking, we need not even draw upon the means heretofore employed for the financing of our own problems. The United States has a gold stock amounting to the phenomenal sum of about $1,890,000,000, of which, so far, only $300,000,000 in round figures have been concentrated in the Federal Reserve banks. The Federal Reserve banks need only continue the process just begun, of substituting Federal Reserve notes for the gold and gold certificates now in circulation, in order to gain control of a vast additional financial power which now lies idle. We may confidently expect, therefore, to find ample means to handle this business by the simple process of perfecting our organization and assembling our idle gold.

But, in order to compete successfully in foreign markets, we must have not only banks and bankers of undoubted standing, able and willing to undertake these acceptance transactions, but also discount rates that compare favorably with those of competing nations.

The fact that, within a few months, our banks have been able to accept in the aggregate an amount reported to be in excess of $120,000,000, permits the conclusion that we have begun on a proper basis and with success. But the test will come when peace shall have been restored and when we shall have to make special efforts to maintain and strengthen our position. It will be one of the functions of the Federal Reserve banks to assist in the establishment of discount rates for these acceptances low enough to render them effective in securing business.

There is one other signal service that Federal Reserve banks can render in this respect; that is, to facilitate the quotation of so-called "forward rates." A bank in a foreign country, when buying a dollar acceptance, must be assured of the rate at which the bill will be discounted when it reaches our country. On this rate, it will largely depend whether the foreign shipper will use his European or his American credit facilities. The Federal Reserve banks are fully alive to the importance of this question, and I may state on behalf of some of the largest of these banks that they will be prepared to give the greatest possible assistance by adopting a liberal policy in quoting such forward discount rates, good for a certain date or for delivery upon the arrival of mail by a given steamer.

The Federal Reserve Board and the Federal Reserve banks have not yet reached any conclusions as to the most efficient method of fixing and transmitting these rates, whether they should be announced locally only at the office of a Federal Reserve bank or whether it would be helpful to cable them to the main banking centres in foreign countries. It is hoped that both our guests and other bankers will consider the matter and give us the benefit of their suggestions.

The Federal Reserve Act, for the first time since the establishment of our national banking system, enabled national banks to open branches in foreign countries. Important branches have already been opened and others are soon to follow. It is hoped that the law may be amended in the near future so as to still further facilitate the establishment of such branches. It is generally felt that these direct connections with foreign countries will tend towards the development of better knowledge and understanding of local conditions and problems and the greater intimacy necessary for the development of cordial and mutually satisfactory business relations.

The vast powers of the Federal Reserve banks will enable them to play a most important part, and they will do all they can to assist in facilitating the growth of a truly American banking system, ramifying throughout our entire hemisphere.

The policy thus outlined as applicable to individual transactions should also apply to corporate and Government financing. It is a source of weakness when a nation depends too largely on one single or several closely inter-relate, foreign markets, no matter how attractive may be the terms upon which its obligations may be placed there. For, as experience has shown, such securities can be thrown back upon their makers at a time when it is least convenient. If, during a critical period, one single market or group of markets becomes unavilable, while obligations of a debtor country mature or requirements must imperatively be met, the debtor country finds itself in a most precarious condition.

It is true that one country cannot prevent another from buying its securities, nor would it be advisable hermetically to seal one stock exchange against securities quoted on another for fear that a closing of the one might otherwise force the closing of the other. The advantage of free international interchange is such in peace that we must be willing to bear the disadvantages resulting therefrom in time of war. But every country, in order to be safe, must be prepared for such an eventuality. The financial structure of a country consists of three main parts: funded long-term securities and the organization for marketing them, viz.: the stock exchange; individual short-term credits and the organization for marketing them, viz.: the discount market and the deposit banks; and, finally, the note issuing reserve banks. Every country must be prepared, in grave emergencies, to see the first of these three organs crippled and the stock exchange closed, but there must be such provision that the business of the country shall in that case be carried on by the other two units. In that respect, last August found us still unprepared. The fact that our stock exchange loans became unavailable crippled us. Our Federal Reserve system has since been opened, our organization is now established and any future catastrophe will find us well equipped.

There is no doubt, however, of the vulnerability of any country if too large a volume of its securities be held in one other country. It is certain that the United States will be in a safer condition if, in the future, when placing the securities to be issued for the development of our own properties, we rely to a larger extent than in the past upon our own markets. It is important to state this principle emphatically, even though for the next few years to come it be not likely that Europe could act as a large purchaser of our securities, owing to the stupendous amount of bonds issued by the various European governments, the extraordinary inflation of currency existing in almost every part of Europe, and the appalling loss of property suffered by those countries. Indeed, it may well be expected that, from now on, the United States will not only have to rely largely upon its own resources for its internal development, but that we shall be called upon to provide means for absorbing the securities previously placed in Europe but now returned to us.

It is impossible to predict how far the death struggle now going on in Europe must proceed before an end is reached, and we cannot, therefore, form any estimate of the extent of the destruction of property and prosperity. But, even at this juncture, it must be apparent to every student of the problem that borrowing nations will have to husband their resources and move slowly in the further development of their capacities until the power of some of these warring nations to save shall have recuperated and European money shall again freely seek opportunities for investment abroad. Upon the degree to which destruction continues will depend the role we eventually shall have to play, not only with respect to our own affairs, but with respect to those of others. No doubt there will be a strong desire on the part of other countries, and particularly of the American nations, to ask of the bankers of the United States Governmental and corporate credits.

Some large foreign loans aggregating more than $200,000,000 have been recently placed as a beginning. Our country will be prepared to render very substantial service in this respect. But we must bear in mind that, in order to create a broad market for bonds of foreign nations, it is not sufficient that our bankers alone be familiar with these countries. It is necessary that the investor: from his own knowledge have confidence and a sympathetic understanding concerning the borrowing country's conditions. In other words, in order to open a wide market for foreign securities, there must be intimate business relations with the countries which offer such securities for investment. The belief is often expressed that foreign loans create foreign business relations. This is true, but it can be said with equal force that foreign business relations are conducive to the conclusion of foreign loans. I may state with confidence that the United States will prove a strong market, growing in importance from year to year, for the loans of those foreign countries with which we entertain intimate business relations.

Europe has done much in developing both the northern and the southern parts of this hemisphere. European banks and bankers have been our staunch and loyal friends in the past. It would be unbecoming in us, and disloyal at the same itme, were we to forget this or to attempt to profit by their misfortunes. But our own growth and development, and the unhappy fate that has overcome Europe, have combined to bring us to a momentous turning point in our economic history. Our own steadily increasing weight and Europe's relatively weakened condition mean that the new world must in the future lean less heavily on the old.

There is no difference of conservative opinion that the United States does not aspire now to take the place of Europe's leading financial Powers. Our own field of operation is still too vast to enable us, or to render it even desirable for us, to become the world's bankers at this stage of our own development. But the safety of all countries—and we include England among their number—demands that if again the latter should find herself forced to call upon her debtors for instant payment, there should be at least one country strong and independent enough to shoulder a substantial portion of the burden.

The development of all American nations lies in the same direction, though there will be a difference in degree. It must be the aim of the United States from now on to move rapidly toward entire financial independence. It must be the aim of her sister republics so to divide the credits needed for their further development that the temporary breakdown of one creditor country will not seriously embarrass them. They will enjoy the greatest degree of safety in this respect if their creditor nations are geographically, politically and economically separated from one another as far as possible. So that in case one should become involved, the other may be expected to remain unaffected thereby. Though in normal time set closely connected with Europe, the American continents ought to be so organized as to form a distinct unit in times of emergency—a union whose transportation and credit systems will remain unbroken even though all Europe should go to war.

An American union of this kind will prove of the greatest economic advantage for all nations concerned. If such a union be thought desirable, it must, however, be forged and riveted every day of the year. If it is to stand the test of time and stress it must be a structure of gradual growth, carefully planned and consistently developed and built upon a safe foundation.

MORTIMER L. SCHIFF'S PROPOSAL FOR FINANCING FOREIGN ENTERPRISES.

In pointing out some of the more important requisites necessary to make the securities of South and Central America suitable for our markets, the suggestion was advanced by Mortimer L. Schiff of Kuhn, Loeb & Co., New York, that in financing productive enterprises in foreign countries the most acceptable form of security is a bond, having a direct lien upon the enterprise itself, and guaranteed by endorsement by the Government, rather than a direct Government obligation. While recognizing the disinclination on the part of many governments to pledge specific security, Mr. Schiff stated that he firmly believed that by doing so and making the bonds to be issued primarily the obligation of the enterprise for whose purposes the proceeds are to be used, the best results can be accomplished and the best market be secured. Mr. Schiff's remarks were made at Tuesday's session of the Pan-American Financial Conference. In addressing the gathering, he said in part:

International finance from the standpoint of the banker may be roughly divided into three classes:

(1) Government loans, including those to States and municipalities.

(2) Obligations and shares of transportation, industrial and public service corporations.

(3) Commercial credits and generally the financing of purchases and sales of goods and commodities.

My training and experience have been primarily along the lines of Government and corporation finance, and I shall, therefore, discuss rather those features of our relationship. I shall not attempt to go into any detailed description of how such financing should be done, as I assume that all of you are well informed as to this. I shall only try to point out some of the more important requisites necessary to make your securities suitable for our markets, and in that connection call to your attention some of the diffi-

culties with which bankers and issuing houses have to contend and some of the problems which they have to solve. Every country has its own methods of doing business and ours differs in some particulars from those to which you may have been accustomed in London, Paris and Berlin. Our method of distributing and handling securities is not the same as that in use abroad, and this must be borne in mind in determining the type of security and the basis on which it is to be placed. I do not say our methods are better, but they are different, and as a result a security which under normal conditions might find a ready European market might be very difficult to deal with here.

To take up, first, the matter of Government finance, it is very important that the investor should be assured that the borrowing country is economically administered, that in its annual budget, income and expenditures balance, and that the proceeds of any loan wanted are to be used for productive purposes. From the point of view of the investor, dreadnoughts and rifles are not good security. It seems to me that a country should provide out of its own budget through taxation of its own people or by internal loans provided by them for all that might be called its non-productive expenditures, and that it should restrict its foreign borrowing to purposes, such as public works, railroads, irrigation, &c., as may be self-supporting.

I would also venture to suggest that in financing productive enterprises in foreign countries, the most acceptable form of security is a bond, having a direct lien upon the enterprise itself and guaranteed by endorsement by the government, rather than a direct government obligation. I well know the disinclination on the part of many governments to pledge specific security, but I firmly believe that by doing so and making the bonds to be issued primarily the obligation of the enterprise for whose purposes the proceeds are to be used, the best results can be accomplished and the best market be secured. This is, of course, based on the proposition that governments should be administered, like large corporate enterprises, in a business-like manner, and that public works are undertaken, not for political purposes, but because they are needed by the country and will yield a proper return. Where, however, it is not feasible to issue such a guaranteed obligation and a direct obligation of a government is, for one reason or another, the type of bond selected, a definite pledge for the service of the loan of all of a portion of some definite form of governmental revenue will always prove of advantage. This may not always be necessary, and I can well understand that governments dislike doing this, but with countries still in course of development and dependent on foreign financial assistance, the investor seems to feel that he has the right to expect that some definite security be given. While at the start it may be necessary to do this, to open markets and inspire confidence, if in the course of time the record of the borrower jusitfies it, the normal course of development may permit the placing of loans not specifically secured. Our public has never taken kindly to debentures or other unsecured obligations and has become accustomed to mortgage security. If, therefore, it is desired to interest the American public in foreign securities, it is important that in every instance, where feasible, mortgage security should be given. From this it follows that the laws in foreign countries where these securities are domiciled must be such as to give full protection to the foreign lender, so that, in case of need, he can proceed without difficulty to foreclose upon the property on which he has a lien. Any difficulties in the laws as to this will militate very much against the possibility of placing such securities. Loans to be placed in this country should also if possible bear a definite relation to trade with this country, and the proceeds should be used for such purposes as will best further this. Our investors will give a much more favorable reception to a loan which they feel stimulates our trade than to one issued for purely internal needs of the borrowing nation. The exact form of the obligation is a matter which must be dealt with in each particular instance, and no general rule can be laid down as to this, as it depends almost exclusively upon conditions existing at the time of the negotiation. At certain times a short-term note is the only feasible type, while at others a long-time or a serial bond can be sold to good advantage. As a general proposition, however, it seems to me that short-term securities should be avoided, if it is at all feasible ,even if by doing so the borrowing government is obligated to what may seem to be a high rate of interest for a longer period of time. If conditions should change and money be procurable at materially lower rates, advantage can be taken of the redemption provision, which should be embodied in every long-time bond, but, as a matter of fact, experience has shown that, as a rule, there is no economy in short-time borrowing, to say nothing of the danger of running up a considerable debt with an early maturity. For the same reason, a sinking fund should also be provided, if in any way possible, to reduce the amount which must be eventually re-financed. If is, of course, of the greatest importance that such type of security be selected as the issuing houses can unqualifiedly endorse. On the other hand, the issuing houses must co-operate in making the securities of such character as to render it certain that the borrowing nation can surely and punctually meet the engagements it undertakes. A security, even if successfully issued, whose terms are too onerous upon the borrower, is not the proper one to offer to our public, and if, as a result, defaults should occur, the effect may be disastrous upon further placing of foreign loans.

In conclusion, may I point out that it must not be assumed, because a number of foreign loans has recently been placed here, that this country has suddenly become a world market, and is in a position to replace the European markets, upon which you have heretofore, to a great extent, been dependent. It is true that, owing to the war and the great—likely temporary—abundance of money, we have for the time being become the only open financial market, and that, as a result, it has been possible to place some foreign loans here. This has been, however, to a considerable extent, forced placing and the investor has had to be tempted by very high rates of interest. This has held true of European, as well as of South American loans. The better knowledge of this class of securities is, however, steadily growing, and I think we are justified in the expectation that in time we can build up a real clientele for this type of loans. When once the investor is convinced of the safety of many classes of foreign securities, it should become feasible to place such loans on their own merits, and on a basis comparable to our own securities of similar character. This cannot be artificially hastened, and if the normal development is allowed to take place, without too much pressure being brought to hurry or to foster it on an artificial basis, we may look forward with confidence to a sound development of our investment market for foreign and in particular for South American securities. The only relationship that can be lasting and satisfactory is one which is based on mutual understanding and good-will, and if that is once firmly established, the development is bound to be along proper and effective lines. On the other hand, just as the credit of a number of our own enterprises has been seriously damaged through serious mistakes, with a resultant effect on many of our securities, so will irreparable damage be done to the possibility of financing your requirements here if great care be not taken in the quality of the securities which may be placed with the American investors. It takes years and every precaution to establish confidence, but it may be destroyed in a moment. You must also continually bear in mind that investors in this country are still timid as to foreign investments, and have not yet fully learned how to discriminate. They now rely to a great extent upon their confidence in the judgment and standing of the issuing houses, but finally the public itself learns to differentiate between the good and the bad and it is only by a record of solvency and proper managements and administration that its approval can be secured. In order to establish this understanding and discernment by our public, our respective countries must become better acquainted, and in this lies the great value of a conference like the present one. It is a direct indication to our people that both you and we are desirous to know each other better and cement and enlarge our relations with each other. Ours is the greatest hemisphere, and we have no conflicting interests. Our aims and ideals are to a great extent the same, and I, for one, feel confident that if together and in harmony we pursue these steadfastly, we can mutually look forward to a future bright with promise.

PLAN FOR THE ORGANIZATION OF A PAN-AMERICAN FINANCE COMMISSION.

A plan for the organization of a Pan-American Finance Commission, to advise and assist in the fiscal development of the various countries of the Pan-American Union, was submitted to the Pan-American Financial Congress on Wednesday by Edmund D. Fisher, Deputy Comptroller of the City of New York. Mr. Fisher outlined his proposal as follows:

The Pan-American Finance Commission shall consist of seven members of recognized experience in banking or finance, who shall be appointed and subject to removal by the Board of Directors of the Pan-American Union, and whose duty in general shall be to advise and assist in the solution of the fiscal and monetary problems of the various nations of the Pan-American Union. Each member shall serve for ten years, unless removed for cause to be stated in a communication sent to the President of the country of which he is a citizen. His successor shall be appointed in the manner herein provided and shall serve the balance of the term. The Commission shall ordinarily sit and have its headquarters in the building of the Pan-American Union in Washington, but may give hearings and conduct investigations in such cities of North and South America as may be necessary in the conduct and development of its work.

The Board of Directors of the Pan-American Union, after consultation with the Federal Reserve Board of the United States, shall outline a tentative budget of annual expenses of the Commission, including provision for such salaries for its members as will command men of the class as herein provided, compensation for the members of an expert staff and for necessary traveling and office expenses. Each member of the Union assenting to the general plan shall agree to share in the aggregate annual expenses in such proportion, and in such manner as it now shares expenses for the maintenance of the Pan-American Union. The plan shall be effective and binding upon each assenting member for the period of ten years following the formal organization of the Commission.

The Commission shall be organized upon the call of the Director-General of the Pan-American Union. The Commission shall formulate its own by-laws and shall elect from its own membership a President and Treasurer. Its accounts shall be audited at least annually in such manner as may be provided by the Board of Directors of the Pan-American Union.

The specific duties of the Commission shall be as follows:

1. To advise and assist in the fiscal development of the various countries of the Pan-American Union, securing data necessary, and making suggestions in relation to the stabilization of national credit, particularly the payment or re-adjustment of currency debt.

2. To provide, to the extent that may be found practicable, a standard plan for the development of banking and monetary systems for the various countries in the Pan-American Union and the establishment of a uniform currency. Such currency shall be developed by and follow the requirements of trade. Such currency shall be supported by a gold reserve, or an equivalent available credit, in conjunction with a subsidiary coinage based upon an appropriate relation to the requirements of the people.

3. The Commission shall particularly devote itself to investigating and collecting information which would justify individuals, corporations or syndicates in granting loans from time to time for the purpose of making effective the plan herein provided as well as for other purposes.

The plan for the establishment of the Pan-American Finance Commission shall be submitted to the several countries by the Board of Directors of the Pan-American Union, and shall be effective and binding upon each member for the period of ten years after the organization of the Commission, upon the assent and subscription to the plan by at least fifteen members.

Note.—Even if a member of the Pan-American Union, such as the United States, may be regarded as having fiscal, monetary and banking stability, yet its interest in the development of similar principles among sister nations would justify it in bearing its proportionate share of the annual expenses of the Commission.

Growth of domestic commerce in each country is vitally important to the growth and development of its foreign trade. Nothing will more successfully promote such a development than a sound internal banking and currency system. No country can be said to have such a system where there are constant fluctuations in the value of its medium of exchange.

FINAL HEARINGS OF FEDERAL INDUSTRIAL COMMISSION.

The Federal Commission on Industrial Relations brought its hearings to a close on Thursday; the final hearings were held in Washington. The Commission will meet again in executive session in Chicago next week to plan the drafting of its final report to Congress. John D. Rockefeller Jr. and others identified with the Colorado Fuel & Iron Co., were on the stand during the closing days of the hearings; the labor situation in Porto Rico was also considered at this week's session. Mr. Rockefeller, who, as stated in our issue of Saturday last, appeared before the Commission on Thursday and Friday of last week, was finally excused as a witness on Saturday, the 22d. Frank P. Walsh, Chairman of the Commission, in his final questioning of Mr. Rockefeller, continued in his endeavor to place responsibility for conditions in Colorado upon Mr. Rockefeller, and his father. According to the "Tribune"—

Commissioner Weinstock read into the record a statement summarizing his views of what had been developed in the investigation of the Colorado strike. He was able, he said, to reduce the charges of the strikers to three main propositions, divided as follows: First, that the strikers could not get hearings before the operators; second, that the machinery of the civil govern-

ment was in the hands of the operators; third, that the operators committed the first violence, and that, therefore, all consequent violence was of a defensive nature.

The Commissioner said that he had entered into the investigation with an open mind, but that he had found the testimony on both sides so influenced by bias and hatred that he had been unable to decide as to the responsibility for the Colorado conditions. He then asked Mr. Rockefeller to answer the three charges in turn.

To the first, Mr. Rockefeller stated that at the very outbreak of the strike three delegates of the miners and three representatives of the operators had met in the Governor's office and that the Government had made a proposition to both sides which had been rejected by the miners. To the second charge, he pointed out that the results of last fall's election in Colorado conclusively proved that the people and not the operators controlled the government. In answering the third charge he declared that the first man killed was a mine marshall who tried to prevent some Greek strikers from tearing down a bridge.

This week's hearing was marked by clashes between Chairman Walsh and W. L. Mackenzie King, director of the Industrial Relations Department of the Rockefeller Foundation, and formerly Canadian Minister of Labor. During the course of his examination on Monday Mr. King took occasion to criticize the methods of Chairman Walsh, declaring that he had seen "witness after witness on the stand here treated in a manner that was anything but fair; in the name of labor", he added, "I protest against the way this hearing has been conducted". When questioned by Mr. Walsh as to whether he did not like the way investigations are conducted in this country Mr. King stated that he did not like the way "this hearing has been conducted." The direct question as to whether he did not like "this Commission's conduct of the hearings" brought from Mr. King the response "I do not like the way you, Mr. Chairman, have conducted the examination of witnesses," and he admitted that he exonerated the rest of the Commission. "Is your objection to the examination," asked the Chairman, "based upon your observation of the examination of John D. Rockefeller Jr., and is it caused in part by the statement you heard a witness make here that he was guilty of high treason and should be punished?" Mr. King said he spoke only of the general examination of all witnesses. He was questioned at length about his services to John D. Rockefeller Jr., and to the Foundation. His outburst against Chairman Walsh came in the midst of questioning regarding a plan suggested by him to Mr. Rockefeller for dealing with the situation in the Colorado coal fields. The Chairman sought to show that the plan would have eliminated union representation on Boards of Conference between employers and the miners. Mr. King objected strenuously to any inference that he was unfriendly to organized labor. Another clash between Mr. King and Mr. Walsh came on Tuesday, when the former was again on the stand. Chairman Walsh questioned King as to his investigations in Colorado, but the witness insisted that his investigations were confidential and he could not make public any of his information. He insisted he had seen representatives of both sides of the Colorado struggle in his effort to be absolutely fair. Mr. King later stated that he could definitely fix responsibility for the Colorado strike and that he expected to report his findings where they would have the best effect. He suggested that he should like to give his recommendations privately to Chairman Walsh.

L. M. Bowers, former Treasurer of the Colorado Fuel & Iron Co. and now a member of the personal staff of John D. Rockefeller Jr., was examined by the Commission on Monday; Ivy L. Lee, also of the personal staff of John D. Rockefeller Jr., in charge of publicity work, testified before the Commission on Tuesday. The New York "Sun" reports that Mr. Lee's examination disclosed the fact "that John D. Rockefeller Sr., was invited to finance the 'Nation's Business', the official publication of the Chamber of Commerce of the United States, and that after he had investigated the matter he pronounced it 'impracticable.' The invitation involved a loan from Mr. Rockefeller to the newspaper of $250,000, to be repaid as soon as the paper was on its feet." The "Sun" states that Mr. Lee " told the Commission that it was expressly stipulated on behalf of Mr. Rockefeller that the fullest publicity was to be given to the matter if Mr. Rockefeller embarked in the enterprise. Mr. Lee said he was convinced the plan would not have put the publication on a paying basis and that John H. Fahey, now President of the Chamber, agreed with him."

Samuel Gompers, President of the American Federation of Labor, was one of the witnesses on the concluding day of the hearings. Mr. Gompers, who had previously been given a hearing by the Commission, was recalled to the stand to give him an opportunity to reply to various witnesses who criticised his actions and the Federation. He recited his experiences as a "victim of attempts to restrict the rights of free speech and free press," and reviewed his difficulties in the Federal courts regarding injunctions and contempts. Mr. Gompers took issue with Daniel Davenport, counsel for the American Anti-Boycott Association, and other witnesses who held that the Clayton Anti-Trust Act did not improve the position of labor before the courts. He presented a paper written by Ex-Attorney-General Wickersham, holding that the Danbury Hatters' case could not have been decided against the union men if the Clayton Act had been in force.

"The Clayton Act," Mr. Gompers said, "takes the voluntary associations of workers out from under the provisions of the Sherman Anti-Trust Law where they were placed by misrepresentation of that law by the courts. The Act declares and makes good the declaration that 'labor is not a commodity or an article of commerce.' It is a charter of industrial freedom."

Referring to the case of the McNamaras, and the Federation's course in defending them, Mr. Gompers stated that its action was prompted by the thought that they were innocent of the charges in the Los Angeles dynamite case. He said: "When they pleaded guilty we had no other course than to believe them. American workingmen contributed and not only workingmen, but many others, because the American people did not believe it was in the heart of human beings to commit such a crime as was attributed to those men."

CHARGES PREFERRED AGAINST CHAIRMAN WALSH.

Charges alleging that Chairman Walsh of the Industrial Relations Commission has conducted himself in a manner unbecoming an officer and a gentleman in the examination of witnesses were filed with President Wilson by Brainard H. Warner, a Washington business man, on Thursday. While Mr. Warner has declined to make the charges public, they are said to relate particularly to Chairman Walsh's attitude toward John D. Rockefeller Jr. and W. L. Mackenzie King. Mr. Warner has retained Charles A. Douglas as his attorney to press the charges.

SIR EDGAR SPEYER NOT TO BE RELIEVED OF HONORS.

Premier Asquith has written a letter to Sir Edgar Speyer, of the banking house of Speyer Bros. of London, who, as stated in these columns last week, asked for the acceptance of his resignation as a Privy Councillor and the revocation of his baronetcy, in which he says that Sir Edgar is a victim of injustice and that the King will not relieve him of any marks of distinction. The Prime Minister's letter is as follows:

Dear Sir Edgar.—I can quite understand the sense of injustice and indignation which has prompted your letter to me. I have known you long and well enough to estimate at their true value these baseless and malignant imputations upon your loyalty to the British Crown.

The King is not prepared to take any step such as you suggest in regard to the marks of distinction which you have received in recognition of your public services and philanthropic munificence.

Yours sincerely,

H. H. ASQUITH.

Sir Edgar sailed for New York on the 26th inst. on the American liner Philadelphia.

HATTERS' ORGANIZATION PLEDGES ASSISTANCE IN DANBURY CASE.

While declaring that it will not apply any funds toward satisfying the judgment obtained by D. E. Loewe & Co. of Danbury, Conn., the United Hatters of North America, in a resolution adopted in convention in New York on the 22d inst. pledges its assistance to those of its members affected by the judgment. The resolution provides for an assessment of 1% on the weekly earnings of each member, "to be used and employed by the officers of this organization in such manner as they may deem best for the relief and benefit of said members." The defendants were notified last month by D. E. Loewe & Co. that unless the judgment awarded the firm was paid by May 30, foreclosure proceedings would be instituted against the property of the defendants. The damages awarded the firm were affirmed by the United States Supreme Court in January, but the plaintiffs have delayed proceedings for the collection of the judgment pending the outcome of the convention. The attitude of the convention, as set out in the resolution, was decided upon after consideration of correspondence which passed between John W. Scully, President of the Hatters' organization, and Walter Gordon Merritt, representing the Anti-Boycott Association; the latter, under whose direction the suit had been conducted, offered on the 14th inst. to allow the Hatters to pay the judgment in convenient installments.

The union refused to pay the triple damages allowed under the law, but intimated that it would agree to the damages awarded by the Court, namely $80,000 and costs. With advices from Mr. Merritt to the effect that the association could not change the amount of damages due the firm, further negotiations were suspended. The resolution adopted at the convention says:

The United Hatters of North America deny the statements of D. E. Loewe & Co., and the attorneys for the anti-boycott society that this organization has agreed with any one to pay the judgment in this case and hereby declares it to be our purpose not to apply any of the funds of the organization nor any funds we may receive for the relief of our members to the payment or satisfaction of this judgment.

But this organization pledges its assistance to the members affected by said judgment, and resolves further that an assessment of 1 per centum on the dollar of the weekly earnings of the members of this organization on and after July 1 be and the same is hereby assessed and levied, to be collected as other assessments are collected, and the money realized therefrom shall constitute a fund to be used and employed by the officers of this organization in such manner as they may deem best for the relief and benefit of said members affected by said judgment; and

Resolved further, That the officers and directors of this organization be and are hereby authorized and directed to appeal to the American Federation of Labor and to labor and other organizations for assistance and contributions to the said fund for the purposes aforesaid.

During the convention, a day or two prior to the adoption of the above, President Scully said:

We do not admit or recognize any legal obligation of the United Hatters whatsoever. We have not now, nor did we ever have, a fund which would be applicable to the payment of such a judgment. If certain of our members in Danbury, Bethel or any other place are in distress, naturally we feel that we should assist them, regardless of how the distress was occasioned.

The judgment against the 186 surviving members of our organization, growing out of what has been termed the Danbury case, now amounts to approximately $300,000, including interest at 6% for over two years. Our present membership is about 9,000, and to raise that amount among ourselves would be a difficult task. If we do come to the assistance of distressed members it will be by individual effort, and it is possible we will ask our friends throughout the United States, through organized labor, to help us. No action has yet been taken, however, along this line.

I desire also at this time to correct an impression that has apparently gained credence throughout the country, that the defendants in the suit voluntarily pledged their property in payment of the judgment. This is not the case. The property of the 250 members of the organization was attached when the suit was filed.

It is pointed out that Samuel Gompers, President of the American Federation of Labor, at a recent appearance before the House Committee on Appropriations, declared that the Federation would not pay the damages for the Hatters' Union lest such action might encourage more suits of a similar character.

On the 14th inst. suit was begun by the Hatters' organization against Norwalk and Danbury banks and D. E. Loewe & Co. to recover accrued interest on the funds belonging to the Hatters which were attached by the firm when the proceedings were first instituted by Loewe & Co. in 1903. The suits are brought with a view to recovering the accruing interest only, the writs stating that "the plaintiff makes no claim to the money represented by * * * several accounts on deposit in said bank on the date of the attachment aforesaid, and makes no objection to the payment of the money then on deposit to said Loewe & Fuchs under virtue of the judgment aforesaid."

GREAT BRITAIN IN EXPLANATION OF DETAINED SHIPMENTS.

With a view to correcting what the English Government believes to be a misunderstanding of Great Britain's attitude toward American ships and American cargoes in other neutral bottoms detained under the Allies' Order in Council, the Foreign Office at London issued on the 20th an explanatory memorandum. American shippers have been restive under the delay in the settlement for American shipments held up under the Order in Council, and there have been reports that the United States has been considering a note of protest to Great Britain on behalf of the shippers. On the 19th inst. it was announced that Ambassador Page had called on the Foreign Office at least three times within ten days to impress on Sir Edward Grey that American shippers owning cargoes running up to an aggregate of $20,000,000 were asking Washington to see that Great Britain acted promptly. It was stated at the same time that the British Government had been hard at work the preceding week endeavoring to dispose of every cargo in which Americans were concerned. Approximately twenty cargoes had been taken up by the Prize Court since the 14th, it was announced, and of these twelve had been disposed of by the 19th, the British Government in nearly every instance arranging to uy the cargo and fully reimburse the shippers for seizure.

In the explanatory memorandum issued by the Foreign ffice on the 20th it was stated that there were then but ree American ships detained in England; the number of eutral vessels carrying American cargoes and at present held up is 36. This explanation is supplemented by a statement that cotton cargoes, which the Government agreed to purchase under the cotton agreement, have all been bought by the Government, and that actual details concerning the payment only await proof of ownership and papers showing the actual contract price. It is explained that as most of these papers must have come from the United States there will still be some unavoidable delays before the owners of the cotton get their money. The memorandum says:

First.—There are at the present moment three American ships detained in this country. Two of them are cotton ships, which are dealt with below. The third is the steamer Joseph W. Fordney. This vessel, with a cargo of foodstuffs consigned to E. Klingener at Malmo (Sweden), was brought into Kirkwall on April 8. She had been sighted by His Majesty's ships about ten miles from the Norwegian coast and had thereupon endeavored, with the evident desire to evade search, to escape rapidly into Norwegian territorial waters, but without success.

On the vessel's arrival in Kirkwall inquiries were at once addressed to His Majesty's Minister at Stockholm with regard to the consignee of the cargo, and a reply was received to the effect that no person of that name could be identified at Malmo, though there was a person of that name who resided at Gothenburg, and was manager of the Gothenburg branch of Hugo Hartvig, and who had stated that the consignments addressed to him on board the Joseph W. Fordney were intended for storage in Malmo.

Second.—The suspicious conduct of the vessel in endeavoring to elude His Majesty's patrols and the known connections of the consignee of her cargo have tended to confirm other evidence which has come to the knowledge of His Majesty's Government that the foodstuffs were in reality destined for Germany. It was accordingly decided that the cargo must be placed in the Prize Court, and the vessel is at present discharging at Portishead, England, on the completion of which operation she will be released. His Majesty's Government feel satisfied that, in the circumstances of this case, undue interference with American interests cannot with reason be imputed to them.

Third.—The number of neutral vessels carrying American cargoes and at present held up is 36. Of these 23 carry cargoes of American cotton. The United States Government are aware that since the enforcement of the blockade measures announced in the supplement to the London "Gazette" of the 12th of March last His Majesty's Government have acted as regards shipments of American cotton in accordance with the provisions of an arrangement arrived at in collaboration with representatives of the American cotton interests. The terms of the arrangements are as follows:

A.—All cotton for which [contracts sale [and] freight engagements already have been made before March 2 is to be allowed free transit or bought at the contract price if stopped; provided the ship sails not later than March 31.

B.—Similar treatment is to be accorded all cotton insured before March 2, provided it is put aboard not later than March 16.

C.—All shipments of cotton claiming the above protection are to be declared before sailing and documents produced and certificates obtained from consular officers or other authorities fixed by the Government.

Fourth.—In accepting this scheme, which it may be noted applies to shipments of cotton for a neutral destination only, the principal representatives of the American cotton interests described it to His Majesty's Ambassador at Washington as conceding all that the American interests could properly ask. It was never suggested that vessels or cargoes with an enemy destination should be allowed to proceed. His Majesty's Government were, moreover, given to understand that the provisions of the arrangement were acceptable to the United States Government.

Fifth.—It is intended shortly to furnish a statement showing precisely what cargoes or portions of cargoes His Majesty's Government have dealt with under the above arrangement, and as regards those which they have decided to purchase at the contract price under the terms of paragraph "A" of the arrangement, direct discussions have already been opened with the special representatives of the American parties interested in London.

Sixth.—A considerable portion of the cotton has already been sold, and arrangements are being made for handing over the proceeds to the parties entitled to receive them, as a first installment of the completed transaction. It is obvious that all these arrangements require some time for adjustment. Meanwhile, it is not believed that the original owners can, as appears to be apprehended, be suffering acutely by the delay of full payment. It is to be presumed that in accordance with the customs of trade, the owners drew bills to the value of their goods before or at the time of shipment, and, if such bills have been negotiated in the usual way, it is difficult to understand why the drawers should be put to inconvenience on this account at least before the date when the bills fall due.

Seventh.—On an impartial review of the facts it will, His Majesty's Government feel sure, be admitted that no arbitrary interference with American interests has, in regard to these cargoes, occurred, seeing that His Majesty's Government have acted throughout in conformity with the terms of an arrangement agreeable to the interests concerned, and that United States citizens will suffer no pecuniary loss.

Eighth.—As regards other American cargoes, or portion of cargoes, which have been placed in the prize court, His Majesty's Government resort to this measure in cases where either the goods concerned are contraband or there is evidence that, although ostensibly consigned to a person in neutral countries, they are in reality destined to the enemy in contravention of the rules of blockade. The right to submit such cases to the public investigation of a judicial tribunal is one which His Majesty's Government cannot forego, and they feel convinced that the enlightened opinion in the United States cannot adversely criticise their course of action in this respect.

Ninth.—It is true that a number of these cases have been pending in the prize court for some time. This is notably the case in regard to certain vessels carrying large shipments of meat and lard ostensibly consigned to Scandinavian ports. The United States Government are, however, no doubt aware that much of the delay involved in these instances is due to the fact that the negotiations have been carried on for many weeks with a representative of the principal American meat packers for an arrangement designed to limit importation into neutral countries adjacent to Germany to quantities actually required in those countries for bona fide home consumption. The American meat packers have demanded as a part of the settlement to be agreed upon that His Majesty's Government should buy the cargoes of several ships now held up in the prize court. Hence the delay in bringing these cases to adjudication.

The negotiations for an amicable settlement have, unfortunately, come to a standstill, owing to the exorbitant terms insisted upon by the representative of the American packers. This stage having now been reached His Majesty's Government have decided to go on with the prize court pro-

eedings in these cases, and it is not expected that a decision will be much conger delayed.

Tenth.—It may finally be pointed out that repeated complaint as to injury suffered generally by American trade in consequence of interference due to British naval measures derives little substance from the published American trade returns. A table of figures taken from these returns and showing the amount of recent American trade with Germany and with neutral countries supplying Germany is annexed hereto. It certainly tends to disprove any contention that American trade with neutral countries has recently suffered. It will be seen that whereas American exports to Germany and Austria in February 1915 fell by $21,500,000, as compared with the same month in 1914, American exports to Scandinavia, Holland and Italy rose by the enormous figure of $61,100,000.

Eleventh.—Similar figures for the month of March have not yet reached His Majesty's Government, but they have received statistics for that month of the value of exports and imports through New York, as issued by the Collector of the Port, and while pointing out a large increase in the value of exports in 1915, compared with those of 1914, as shown in the tables annexed, they desire especially to call attention to a separate statement indicating the increase in the amount of the exports to Scandinavian and Dutch ports of two commodities only, bacon and lard. These figures show that as against 1,253 boxes of bacon and 9,816 tierces of lard exported to the ports noted in the above countries in March 1914, there were exported in March 1915 32,222 boxes of bacon and 95,676 tierces of lard.

Twelfth.—His Majesty's Government consider that the abnormal increase in supplies imported by neutral countries, as shown in these statistics, alone justifies their assumption as to the ultimate destination of many items in cargoes consigned to one or the other of the countries in question in the vessels which they have detained, but they would call attention to the fact that it is only when they have believed themselves to be in possession of conclusive evidence of the enemy destination of a cargo that they have seized such a cargo and that American interests, as for instance, in the case of cotton, have received especially sympathetic consideration.

A formal statement to the effect that the British Government is working toward the early disposition of American cotton cargoes came from the British Embassy on the 20th inst., this statement saying:

The British Embassy are informed that the British Government are doing all they can to expedite the purchase of cotton cargoes and are in direct communication for this purpose with American cotton representatives in London. Payment will be made without delay in each case to proper parties on proof that they are the persons entitled to payment and on their furnishing evidence of contract price. Need for these particulars is now he only obstacle to making payment.

On behalf of the Foreign Trade Advisers of the State Department, Secretary of State Bryan issued a statement on the 21st inst. contradicting an assertion in the above memorandum emanating from the British Foreign Office. In this statement Secretary Bryan declared that whatever had been done to assist the cotton shippers was to be considered "informal and unofficial, and in no way binding the United States to any arrangement reached or to be construed as a recognition of the Order in Council." The Secretary's statement is as follows:

"The Foreign Trade Advisers' attention has been called to the statement of the Foreign Office of Great Britain, published in this morning's papers, an extract from which follows:

" 'Fourth. In accepting this scheme, which, it may be noted, applies to shipments of cotton for a neutral destination only, the principal representative of the American cotton interests described it to His Majesty's Ambassador at Washington as conceding all that the American interests could properly ask. It was never suggested that vessels or cargoes with an enemy destination should be allowed to proceed. His Majesty's Government, moreover, were given to understand that the provisions of the arrangements were acceptable to the United States Government.'

"The plan referred to is the one which was entered into between the cotton shippers of this country and the British Embassy, a portion of which is quoted in the statement of the British Foreign Office.

"Without discussing at this time the statement that 'it was never suggested that vessels or cargoes with an enemy destination should be allowed to proceed,' the Foreign Trade Advisers, who informally and unofficially represented the cotton shippers in the negotiations which led up to the so-called cotton arrangement, state that it was distinctly understood between Sir Cecil Arthur Spring-Rice, the British Ambassador at Washington, and Robert F. Rose, the Foreign Trade Adviser conducting this discussion on behalf of the American cotton exporters, that nothing done by the Foreign Trade Advisers should be regarded as official, and that everything done was to be considered as informal and unofficial, and in no way binding the United States Government to any arrangement reached or be construed as a recognition of the Order in Council to be issued or the declaration of March 1, which had been issued.

"This statement was made to the British Ambassador on March 3, when the first conference in the matter was held, was repeated at each subsequent conference, and each time the absolute assurance from the British Ambassador was received that, in acting for the cotton shippers in any way, the Foreign Trade Advisers were to be regarded as not representing the United States Government in any manner."

The British Embassy, in a statement given out on the 21st, subsequent to that of Secretary Bryan's, declared that the reference in the memorandum in Paragraph 4 was an error, and that there never was any question of a formal or official understanding between the United States Government and the British Embassy. It said:

"The terms of the arrangement quoted in the British statement as telegraphed were arrived at in London between a private representative of the American cotton interests in London and British officials in London. The reference to the British Ambassador in Paragraph 4 is, therefore, an error.

"The arrangement in question formed the subject of conversations between the Ambassador and representatives of the cotton interests in this country. There never was any question of a formal and official understanding between the United States Government and the British Embassy."

On the 22d inst. Messrs. Rose and Fleming, the Foreign Trade Advisers of the State Department, suspended their informal and unofficial negotiations with Sir Richard Crawford, the commercial attache of the British Embassy.

A statement making it possible for the Foreign Trade Advisers to resume their conferences with Sir Richard Crawford was represented to the State Department on Monday by Sir Cecil Spring-Rice, the British Ambassador, and the resumption of the deliberations was made known by the State Department on Wednesday. The British Ambassador's statement was as follows:

"The arrangements with regard to the shipments of cotton and other articles of commerce were agreed on between representatives of the British Government and the representatives of the American interests concerned. The Government of the United States was in no sense a party to these arrangements, and took no part in the conferences. The British Government quite realizes that these unofficial arrangements in no way involve the United States Government, and that they do not and cannot commit either Government to any departure from the views which they have already expressed in their official notes with regard to the declaration of March 1, and the blockade policy adopted to give effect to it."

In announcing the resumption of the conferences, the State Department said:

"The Foreign Trade Advisers announce that the differences having been adjusted, they will resume the informal and unofficial conferences with the British Embassy and will unofficially act as the representatives of American shipping interests in bringing out of those countries at war with Great Britain American-owned goods which have been paid for before March 1, 1915.

"American importers who have goods in such countries may, if they so desire, submit proof of such ownership to the Foreign Trade Advisers, who will unofficially transmit such proofs to the commercial advisers of the British Embassy.

Five ships, it is understood, have been released since May 19 and their cargoes either sent for final adjudication to the British Admiralty or held for purchase by the Government. On the 27th inst. the following statement was made by the Foreign Office:

The Board of Trade has been in communication with a representative of the American cotton shippers in reference to the seventeen vessels whose cargoes have been purchased by the British Government. The representative in question was informed that the Board of Trade is ready and anxious to pay immediately, but he, however, admitted his inability at present to make a definite claim in respect of any one of the cargoes of those vessels He has undertaken to obtain all the necessary particulars in order to present the claims as soon as possible.

While the Board of Trade is most anxious to satisfy all claims promptly, it is obvious that the process of arriving at a speedy settlement is delayed by the necessity of establishing real ownership in the case of each consignment and ascertaining whether that ownership passed from shipper to consignee and who is the right person to receive payment. The question is complicated by the fact that the Swedish consignees of a number of cargoes are instituting proceedings here with a view of preventing the purchase by the British Government from American shippers of cargoes which, it is alleged, have already been bought and paid for by Swedish consignees.

A. B. C. POWERS SIGN PEACE TREATY.

The Foreign Ministers of Argentina, Brazil and Chile signed a peace treaty at Buenos Aires on the 25th inst. whereby the three republics agree for five years to submit all differences between them to an international commission, and each binding itself not to declare war nor begin hostilities against either of the other countries prior to the conclusion of an investigation by the commission. The treaty is the result of the mission undertaken by Dr. Lauro Muller, Foreign Minister of Brazil, who has been trying to improve the political relations between his country and Argentina and Chile. Secretary of State Bryan, when asked whether he regarded the signing of the treaty as an evidence of unfriendliness towards the United States, said in part:

On the contrary, it is an evidence of friendliness rather than unfriendliness, because they are doing exactly what we have done not only with these nations but with twenty-seven others, and I may add that there is not the slightest reason for any one to suggest or imagine that the signing of such a treaty by Brazil, Argentina and Chili is intended as a combination against the United States. It is not a combination against any nation, and it is absurd to construe it as an act of unfriendliness toward the United States. Our relations with these three countries were never more cordial than they are now; they could not, in fact, be more cordial than they are.

Each of the three countries is a signatory with the United States to a similar treaty.

FRENCH PASS LAW TO BUY DACIA CARGO.

According to the Paris "Temps" a law was passed by the French Government on the 19th inst. opening a credit for the payment of the cargo of the steamer Dacia which was seized by a French crusier in February in the English Channel and taken to Brest. The Dacia, which was transferred in January from German to American registry, left Galveston, Texas, on January 31 for Rotterdam,with a cargo of cotton for trans-shipment to Germany. The cargo was not confiscated, owing to an agreement existing between the French and British naval authorities. In regard to the recent

action taken by the French Government, with a view to paying for the Dacia's cargo, the "Temps" said:

The law proposes that the value of the cargo be reimbursed to the American owners, who demand 3,820,756 francs ($764,151). Whether this amount or a lesser sum will be paid will be determined by a committee of assessors, who will use the cotton market at Rotterdam as a basis of calculation. It was to that port that the vessel was bound. The cargo will then be the property of the French Government, which will be able either to dispose of it at the most advantageous price or keep it for the needs of France.

On March 23 a commission of inquiry into the capture of the Dacia declared the seizure to be valid. The crew of the Dacia was brought back to New York on the French Line steamer Rochambeau in March.

The vessel left Brest on the 24th inst. for Havre where her cargo will be discharged by special dockers. On the 25th Edward N. Breitung, the owner of the Dacia, received a cable dispatch from his representatives in France stating that the French Government has offered to purchase the ship as well as the cargo and was also willing to pay the demurrage claim that has been filed, based on the ships' seizure and delay.

TRIAL OF FRYE CASE EXPLAINED BY GERMANY.

The German Government, in response to an inquiry from the United States, has explained its action in sending before a prize court the case of the American vessel William P. Frye, which was sunk by the German armed cruiser Prinz Eitel Freidrich on January 28. The United States, upon learning that the Frye case was to go before a prize court, instructed Ambassador Gerard at Berlin to inquire of the German Government if this action was intended as a reply to the American note of April 28, which was sent to Germany following her admission of liability for the sinking of the vessel; the American note opposed the proposition for the submission of the matter to a prize court and suggested the advisability of transferring the negotiations for the settlement of the case to the Imperial German Embassy at Washington. The explanation of the German Government of its action in the case is that the matter was put before a prize court because that was a necessary procedure under German law; the proceedings, it is stated, will be wholly independent of the diplomatic handling of the demand for payment of damages. The following cablegram from Ambassador Gerard was received on the 24th inst. by Secretary of State Bryan:

Foreign Office states that it did not intend to leave unanswered the note in the William P. Frye case, or to reply by sending the ship to prize court. A formal reply will shortly be sent. While under the German laws the action of the prize court in issuing the monition is imperative, it remains totally independent of diplomatic negotiations.

GREAT BRITAIN EXTENDS TIME WITHIN WHICH GERMAN SHIPMENTS MAY BE MADE.

An announcement from Washington on the 19th inst. stated that the British Government had on that day given notice to the State Department that it had extended to June 15 the time within which German goods may be shipped to America from neutral ports, provided they were purchased before March 1 last. Soon after the issue of the Order in Council the British Government undertook to allow the export of German and Austrian goods which had been bought by Americans through neutral ports, such as Holland and Denmark, upon the issue of a special permit in each case. Under the terms of these permits shipments must be made before June 1, and to-day's notice extended that period fifteen days.

MORATORIA AND FINANCIAL MEASURES ABROAD.

Supplementing previous advices regarding foreign moratoria quoted by us from the London "Economist", we print the following from the issue of April 24, concerning moratoria in France, Italy, Nicaragua and Bulgaria:

Further information with regard to moratoria and other financial arrangements in foreign countries is contained in the current issue of the *Board of Trade Journal*. The Paris *Journal Official*, it tells us, has published a decree prolonging for a further period of 90 days the moratorium on negotiable securities. The benefits of the decree are granted to negotiable securities maturing before August 1st next, provided they were endorsed before August 4 1914. A new provision provides that the bearer of a bill prolonged by the moratorium must, before May 31st next, advise the debtor that he holds the bill, and that payment can be made to him. Should the bearer fail to make this notification, then the 5% interest allowed under the moratorium will cease to accrue to him from May 31st. In the case of bills falling due after April 30 this action must be taken within one month of the original date of maturity.

The *Gazette Officiale* of Rome announces the prolongation of the moratoria existing in Italy for a further period ending on June 30th next.

In Nicaragua the moratorium is prolonged until August 20th and after that date is to cease.

The Bulgarian moratorium has been indefinitely prolonged.

BANKING, LEGISLATIVE AND FINANCIAL NEWS.

The public sales of bank stocks this week aggregate 22 shares and were all made at auction. Eleven shares of trust company stock were also sold at auction. One share of Mechanics & Metals National Bank stock was sold at 258, an advance of 13 points over the price paid in March, when the last previous sale was made.

The New York Stock Exchange is open as usual to-day, a suggestion that it close for an extra holiday in connection with the Memorial Day recess on Monday having been abandoned.

The members of the New York Coffee Exchange voted to close for business to-day.

The United States Mortgage & Trust Co. of this city has just made known the result of its inquiry concerning basic conditions in the United States, particularly with respect to crops and the effect of the European war. Replies received by them are from mortgage representatives, attorneys and financial correspondents of the company in 44 cities located in 20 States in the West and South. The subjects contained in the inquiries sent out by the company, which touch upon the entire country with the exception of the Eastern States and New England, dealt with crop conditions, financial situation, effect of the Federal Reserve System, effect of the European war, real estate and mortgage situation, manufacturing and retail trade conditions, general situation and outlook. President John W. Platten states the general conclusions as follows:

To sum up the entire situation briefly, crop conditions as a whole might be termed very good, while the financial situation is satisfactory. The effect of the establishment of the regional reserve bank system is reassuring. The war has brought about conditions which, generally speaking, are adverse, but has produced stimulation along certain lines. The real estate situation is quiet, but, while loanable funds are abundant, there exists a relatively small demand from desirable borrowers. Manufacturing shows mixed conditions, while retail trade is generally quiet and reduced. As a whole the reports would seem to indicate that the situation is fundamentally sound, though awaiting an adjustment of the European difficulties to permit a movement along all lines toward greatly improved conditions.

The Fourth Annual Convention of the Investment Bankers' Association of America has been called to meet in Denver on Sept. 20, 21 and 22. The Brown Palace Hotel has been selected as the headquarters. The committee having in charge the business sessions has not yet worked out that end of the program. The social features of the convention are practically completed. The meeting will convene Monday, Sept. 20, for the general transaction of business lasting all that day. Monday evening the Denver investment bankers will entertain all delegates on top of Lookout Mountain, some seventeen miles from Denver. This mountain overlooks Denver, and is a part of the "Mountain Park System." The trip will be made both ways by automobile. Tuesday, Sept. 21, the business sessions of the convention wil be continued until after luncheon, after which all of the delegates will be taken by automobile to Estes Park, 75 miles from Denver, in the heart of the newly-formed "Rocky Mountain National Park." Dinner will be served at the various hotels to which the delegates will be assigned. In the evening of the 21st, in the auditorium of the Stanley Hotel, will be held the final business sessions, including the election of officers for the succeeding year and the clearing up of all unfinished business. Wednesday morning, Sept. 22, there will be a tour of Estes Park of about 50 miles. The village of Estes Park has extended an invitation to the Association to be its guests at a mountain trout fry in the canyon of the Big Thompson River for luncheon on Wednesday. Immediately thereafter the delegates will leave by automobile for Denver. The convention will close with a banquet in El Jebel Temple.

F. R. Fenton, Secretary of the Investment Bankers' Association of America, has just issued an important bulletin treating on the following subjects: "Michigan Secured Debts Tax Law," "Double Taxation and Intangibles," "New Iowa Blue Sky Law." The bulletin also covers the reports of various committee Chairmen on subjects of great

importance at this time. These subjects have attracted country-wide attention in investment circles for six months or more and reflect in great detail the legislative activities of the Association.

A booklet issued by the Guaranty Trust Co. of New York contains the text of the new secured debts tax law of the State of New York, together with a synopsis of the principal features of the law, and explanatory notes concerning those sections which have just been amended. Copies of the booklet may be had upon application.

Bankers of Bergen County, N. J., have taken preliminary steps looking to the establishment of an organization for their mutual protection and information. It is the purpose of this association, which is to be formed along the same lines as similar organizations in other counties of the State, to meet as frequently as practicable to discuss matters of interest, to establish rules and to keep the members in close touch with one another. A temporary organization has been adopted with Cornelius Doremus, President of the First National Bank of Garfield, as Chairman, and J. F. McKinney, Treasurer of the Palisades Trust & Guaranty Co. of Englewood, as Secretary. These officers will perfect a permanent organization and draft a prospectus.

William H. Smith has been re-appointed Banking Commissioner of Pennsylvania by Governor Brumbaugh. Mr. Smith was appointed to his present position in August 1909 by ex-Gov. Stuart. Prior to that time he had been a State bank examiner for a number of years.

A report for the first quarter of 1915 on the condition of the bank-deposit-guaranty fund of Oklahoma has been issued by the State Banking Board. It shows a reduction of $17,033 in the warrant indebtedness since the last quarter's report, leaving the total now outstanding at $751,648. Of this total, $425,609 has been taken up by various State banks and is being held by the Board in place of other collateral, leaving $326,039 of the warrant debt unpaid by the Board. According to the report, "this condition has been made possible since our new law permitting State banks to purchase these warrants, the result in so doing being twofold, namely to avoid paying taxes and to purchase the pro rata of your own debt, and we predict that many more State banks will avail themselves of this privilege." It is also pointed out in the report that under the new banking law a demand has been created for warrants of the fund and that it is easy now for State banks to secure surety bonds for public deposits because of the law permitting surety companies to share in the assets of failed banks with the guaranty fund.

The Empire Trust Co. of this city began business on Monday in its new home on the ground floor, Pine Street and Broadway corner, of the Equitable Building. The trust company had been located at 42 Broadway since April 1904, shortly after its creation as a result of the merger of the McVickar Realty Trust Co. and the Empire State Trust Co. The interior of the trust company's new quarters is done in gray marble and designed according to the latest ideas and conveniences in banking offices. With the opening of the new home this week the officers of the company received many floral tributes and congratulations. The growth of the company under President Le Roy W. Baldwin is shown by a comparison of the statement for the year ending Dec. 30 1905 with this year's returns. On the former date its capital was $500,000, surplus and undivided profits $1,079,555 and deposits $3,551,035, while the institution now has a capital of $1,500,000, surplus and profits of $1,451,600 (March 19) and deposits of $24,117,900 (May 1). The Cedar Street branch of the trust company has been abolished and all departments are now located in the main office.

The directors of the failed Williamsburgh Trust Company of Brooklyn Borough received judgment for about $110,000 in the Supreme Court in Brooklyn on the 13th inst. in the suit against the estate of the late John G. Jenkins, whose financial dealings were alleged to have been responsible in a measure for the suspension of the institution in 1907. Justice Manning ordered that the trust deed by which Jenkins had placed his real estate holdings in the hands of his sons and son-in-law be set aside, and that the estate pay the $110,000 to the trust company. As previously mentioned in these columns, the final order for the voluntary liquidation of the Williamsburgh Trust, which was accomplished under authority of its stockholders granted in January 1911, was signed on May 8 1913. An arrangement was entered into whereby it borrowed from the Metropolitan Trust Company enough money for the immediate payment of its depositors in cash. A previous loan of $1,500,000 from the Metropolitan served to bring about the reopening of the Williamsburgh Trust in June 1908, following its suspension in October 1907.

William F. Wyckoff, former President of the Woodhaven Bank of Woodhaven, L. I., which was closed in October 1912, by the State Banking Department, was sentenced on the 24th inst. by Judge Tiernan in the Queens County Court to serve one year in the penitentiary. As stated in these columns last week, Wyckoff was found guilty on the 18th inst. on an indictment charging grand larceny in the second degree, which was returned against him in December 1913. Upon motion of Wyckoff's lawyer, a stay of two weeks was granted during which time he will remain in the county jail. Prior to passing sentence on Wyckoff, Judge Tiernan denied an application for a certificate of reasonable doubt. It is reported that an application will be made to the Supreme Court.

In addition to Robert R. Reed, the speakers at the annual meeting of the New Jersey Savings Banks' Association last week were Hon. George M. La Monte, New Jersey Commissioner of Banking and Insurance, who spoke on the subject of "Limiting the Encroachment of Commercial Banking Institutions upon the Field of Savings Bank Activities." and Edwin B. Goodell, attorney, of Montclair, N. J., who discussed "Court Decisions". Mr. Reed's remarks on "Necessary Safeguards for Municipal Borrowing" were printed in our issue of Saturday last. The New Jersey Savings Banks' Association was formed in 1908; its membership consists of eighteen of the twenty-five banks of the State. Officers for one year were elected as follows: Philander B. Pierson of Morristown, President; Ralph T. Crane of Montclair, Vice-President and Howard Biddulph of Bloomfield, Secretary and Treasurer. New members of Executive Committee are Asa F. Randolph of Plainfield and Henry C. Hurt of Elizabeth. The meeting was held at the Somerville Country Club; Horace Stetson, President, of Orange, presided. At the invitation of James B. Duke, the delegates were entertained by an automobile trip through the Duke Park at Somerville.

Albert P. Fowler, First Vice-President of the First National Bank of Syracuse, N. Y., died on May 20. Mr. Fowler had been ill for several months, and his death, while not unexpected, was a severe shock to all his friends. He was 47 years of age, and all his life had been spent in Syracuse. As a lawyer he was considered one of the leading business advisers of the city. He was a graduate of Cornell University and prominent in its affairs, having been editor of the "Cornell Daily Sun," the "Cornell Era," and the "Cornellian." He was the senior partner in the law firm of Fowler, Vann & Paine.

The stockholders of the Hartford National Bank of Hartford at a meeting on the 26th inst. voted to change the name of the institution to the Hartford-Aetna National Bank. This step was taken as a result of the merger of the Aetna National Bank with the Hartford National, which, as previously mentioned in these columns, was consummated on April 6.

Charles E. Hancock has been chosen a director of the Union Trust Company of Providence.

The stockholders of the Lewes (Del.) National Bank have voted to merge with the Fidelity Trust & Savings Bank, a new institution which was incorporated under a bill passed by the Delaware Legislature several months ago. At the time of the passage of the bill it was stated that the new institution had received one of the most liberal charters ever granted. It authorizes the concern to issue capital stock to the extent of more than $1,000,000; it provides that the principal office must be in Lewes, the organization, however, being permitted to engage in business anywhere in the State. The measure also provided for the merger of the new institution with the Lewes National Bank, in order to give the latter trust company powers.

The directors of the Garfield Savings Bank Co. of Cleveland have authorized the issuance of 500 shares of capital stock to be offered to shareholders pro rata at $150 a share, $50,000 to go to capital and $25,000 to surplus. The additional shares offered represent the unissued stock of the total authorized issue of $250,000. The bank's paid-in capital will consequently be increased from $200,000 to $250,000, and the surplus and undivided profits from about $305,000 to $330,000. Warrants for shareholders' rights to subscribe will be issued after May 28 and the subscription books will be open until June 15, payments being due on or before June 30. Stock not taken by shareholders will be disposed of by the directors at a price not less than $200 a share.

Rudolph C. Keller, President of the Guaranty Bank & Trust Co. of Chicago and a former State bank examiner, died on the 15th inst. at the age of 34. Mr. Keller was formerly Vice-President and Cashier of the Colonial Trust & Savings Bank of Chicago, which was merged with the Central Trust Co. of Illinois in June 1914. He withdrew from the Colonial Trust & Savings Bank in May 1914 to organize the Guaranty Bank & Trust Company. Mr. Keller was a director of the North Avenue State Bank of Chicago and of the State Bank of Italy, and was formerly a director of the Michigan Avenue Trust Company.

O. F. Paisley has resigned as President of the Edgewater State Bank of Chicago, having sold controlling interest in the institution. Mr. Paisley had been President of the bank since its inception as successor to the Edgewater Bank in April 1914. William Hardy, heretofore Vice-President of the bank, has been chosen to succeed Mr. Paisley as President. Edward J. Werner, a director of the bank, has been elected Vice-President and Nathan William MacChesney, Vice-President and General Counsel. John Orchard continues as Cashier and O. F. Miller as Assistant Cashier. The following new directors have been elected: Charles Buresh, Alfred MacArthur and Nathan William MacChesney.

Steps are being taken in Boise, Idaho, looking to the formation of a new national banking institution to be known as the Overland National Bank, application to organize having been made to the Treasury Department. The proposed institution, which will have a capital of $100,000, is being organized by J. H. Black. Anna Noble, Ernest Noble, R. F. Bicknell and Lewis C. Merrell. Mr. Noble is President of the Idaho Trust & Savings Bank of Boise and Mr. Black is Assistant Cashier of the Pacific National Bank of that city.

The Tennessee National Bank of Nashville and the Hermitage National Bank of that city have merged, the consolidated institution, which is to be known as the Tennessee-Hermitage National Bank, having opened for business on the 25th inst. in the quarters of the Hermitage bank. The new institution has a capital of $300,000 and deposits of over $1,000,000. E. A. Lindsey, President of the Tennessee National, has been chosen to the same position in the merged institution. Watkins Crockett and M. C. McGannon, heretofore First and Second Vice-Presidents, respectively, in the Hermitage National, occupy the same positions in the new bank, and J. W. Charlton, formerly Cashier of the Hermitage bank, is Third Vice-President. The Vice-Presidents of the Tennessee National, George A. Washington, J. O. Leake, W. J. Cude, Henry Sperry and Charles Brower, will serve in the same capacities with the consolidated institution. B. F. Moore, who was President of the Hermitage National, retires to devote more time to his other business interests. He is still a large stockholder and director of the new bank. The directorates of the two banks were combined in forming the new organization. In addition to the officers mentioned, J. L. Campbell will serve the consolidated bank as Cashier. Mr. Campbell was Cashier of the Tennessee National. On March 4 the Tennessee National Bank had a capital of $300,000, surplus and profits of $23,236 and deposits of $364,877, while on the same date the Hermitage National had a capital of $200,000, surplus and profits of $127,120 and deposits of $750,201. The Tennessee National Bank was formed in July 1914 as a conversion of the Tennessee Bank & Trust Co., which began business in February 1913.

John A. Wilkins has been elected President of the new State Bank & Trust Co., which, as stated,in these columns last week, is about to be established in Houston, Tex. Mr. Wilkins has been Assistant Secretary of the Houston Currency Association. The other officers chosen are Andrew Dow, W. A. Wood, J. Q. Tabor and March Culmore, Vice-Presidents, and Horace M. Wilkins, Cashier. Mr. Horace Wilkins was formerly Assistant Cashier of the Lumbermen's National Bank of Houston. It is expected that the new bank will open on June 15.

Richard Altschul has resigned as Vice-President of the Anglo & London-Paris National Bank of San Francisco, effective June 1. Mr. Altschul, who retires to private life, was advanced to his present position last February from Cashier, which position he held since the Anglo & London-Paris National Bank was formed in April 1909 by a consolidation of the Anglo-Californian Bank, Ltd., and the London-Paris National Bank of San Francisco. Prior to that time he was Cashier of the London-Paris National. Following the acceptance of Mr. Altschul's resignation, the following resolution was adopted by the board of directors:

Whereas, Mr. Richard Altschul has tendered to this board his resignation as Vice-President, which has been regretfully accepted; and

Whereas, In severing relations which have extended over such a long period of years, this board desires to give expression to the esteem in which Mr. Altschul is held;

Therefore, be it resolved, That we recognize in Mr. Altschul a man of high character, unswerving fidelity, loyalty and marked ability. We gratefully acknowledge his long years of faithful service to this institution, and extend to him our best wishes for an enjoyable and well-earned respite from his labors.

And be it further resolved, That the Secretary of this board furnish to Mr. Altschul a copy of these resolutions.

The half-yearly statement of the Bank of Montreal for the six months ended April 30 1915 exhibits total assets of $289,562,678, as compared with $262,956,419 at that time last year and $259,481,663 on Oct. 31 last. The bank's deposits also show a marked increase, those bearing interest having increased from $154,533,644 on Oct. 31 last to $166,990,565 April 30, while the non-interest-bearing deposits increased in the same interval from $42,689,032 to $63,901,200. The report shows profits for the half-year amounting to $1,030,195.

The annual statement of the Sterling Bank of Canada (head office Toronto) for the year ending April 30 1915 shows profits for the twelve months of $115,111 (after deducting charges of management, rebate of interest, &c.), which, when added to the balance of $87,983 brought forward from the previous year, makes a total of $203,094 available for distribution. Of this $71,646 was appropriated as dividends, $28,800 was transferred to contingent account as appropriation for bank premises, bank note account, loans, &c., $10,464 was applied in taxes and $40,000 reserved for possible depreciation in securities, leaving $52,184 as a balance to be carried forward. The total deposits on April 30 were $6,841,852, while total assets aggregated $9,508,344. The bank has a paid-up capital of $1,198,802 and reserve fund of $300,000.

THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of May 13 1915:

GOLD.

As had been arranged some time ago, the stock of gold at the Bank of England has been reinforced heavily from abroad, and opportunity has been taken to strengthen further the Treasury currency note reserve, raising the total to £28,500,000. The last item placed to the credit of this reserve was £1,000,000 on March 3. Previous to that date, similar amounts had been set aside weekly for some time. It is common knowledge that the present holding of the Bank does not represent by any means the actual state of its resources, inasmuch as the Bank possesses the power to add to its gold holding in the same way as it has done in the current week. The following amounts were received by the Bank:

May 10—£8,000,000 in sovereigns from abroad.
10— 125,000 in sovereigns released on miscellaneous account.
11— 8,000 in bar gold.
12— 883,000 in bar gold.
12— 50,000 in sovereigns released on account of Egypt.

Withdrawals were made as under:

May 7— £40,000 in sovereigns set aside on account of Argentina.
11— 80,000 account of Argentina.
12— 155,000 account of Argentina.
12— 1,000,000 set aside on account of Treasury Note Reserve Fund.

During the week the net increase on balance amounted to £7,791,000.

SILVER.

The market has maintained the steady tone which has been apparent for some weeks. There is a rendency for the price to advance, when the Indian bazaars are buying coincident with other quarters, and a backward movement follows a cessation of bazaar purchases. But the extent of the retrogression has been defined by a reluctance on the part of sellers to part with silver at any considerable reduction in price. The figure of 23 1/4d. is the lowest touched recently in these circumstances. During the earlier part of the week under review the market was dull, but the tendency in the last few days has improved. An Indian currency return for May 7 gives the following details, in lacs of rupees:

Notes in circulation	59,91
Reserve in silver coin	30,54
Gold coin and bullion	7,72
Gold in England	7,65

The stock in Bombay consists of 4,200 bars, as compared with 5,600 last week. The up-country demand is evidently considerable when 1,400 bars are taken off the market in one week. The average for the month of April was 23.709d., and the highest and lowest quotations were 23 15-16d. and 23½d., respectively. No shipment of silver has been made from San Francisco to Hongkong during the week. Quotations for bar silver per ounce standard:

May 7	23½	cash	No quotation fixed for forward delivery.	Bank rate 5%
8	23 9-16	"		Bar gold, per oz. standard 77s. 9d.
10	23⅝	"		French gold coin, per oz Nominal
11	23⅝	"		U. S. A. gold coin, per oz Nominal
12	23⅝	"		
13	23⅝	"		
Av. for wk.	23.593	cash		

The quotation to-day for cash delivery is 1-16d. above that fixed a week ago.

Commercial and Miscellaneous News

Breadstuffs Figures brought from page 1849.—The statements below are prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending last Saturday and since Aug. 1 for each of the last three years have been:

Imports and Exports for the Week.—The following are the imports at New York for the week ending May 22; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For week	1915.	1914.	1913.	1912.
Dry goods	$2,393,032	$3,188,219	$1,898,523	$2,309,438
General merchandise	14,379,183	19,950,481	14,510,695	15,848,664
Total	$16,772,215	$23,138,700	$16,409,218	$18,158,102
Since Jan. 1.				
Dry goods	$50,183,596	$75,072,965	$59,488,175	$56,416,610
General merchandise	431,829,923	338,485,410	334,001,278	342,891,324
Total 20 weeks	$482,013,519	$413,558,375	$393,489,453	$399,307,934

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending May 22 and from Jan. 1 to date:

EXPORTS FROM NEW YORK.

	1915.	1914.	1913.	1912.
For the week	$24,175,030	$14,455,362	$18,737,800	$19,209,598
Previously reported	496,107,145	370,111,022	367,370,290	314,149,351
Total 20 weeks	$520,282,175	$384,566,384	$386,108,090	$333,358,849

The following table shows the exports and imports of specie at the port of New York for the week ending May 22, and since Jan. 1 1915, and for the corresponding periods in 1914 and 1913:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	-------	-------	-------	$1,945,458
France	-------	-------	$5,000,000	7,019,314
Germany	-------	-------	-------	-------
West Indies	$131,920	$3,589,158	35,570	878,980
Mexico	-------	-------	-------	1,091,960
South America	-------	694,350	165,856	2,746,239
All other countries	-------	50,000	-------	4,199,547
Total 1915	$131,920	$4,333,808	$5,201,426	$17,881,498
Total 1914	2,000,500	25,489,197	114,933	3,985,457
Total 1913	2,136,185	59,767,190	472,595	7,102,297
Silver.				
Great Britain	$919,230	$14,903,944	-------	$9,813
France	160,000	1,267,500	-------	2,597
Germany	-------	-------	-------	-------
West Indies	84,284	684,486	1,253	66,789
Mexico	-------	3,700	-------	316,720
South America	-------	42,354	22,703	1,165,011
All other countries	-------	4,410	-------	455,989
Total 1915	$1,163,514	$16,906,394	$23,956	$2,016,919
Total 1914	718,025	16,226,027	38,954	3,965,014
Total 1913	1,000,656	21,246,891	260,495	3,956,927

Of the above imports for the week in 1915, $5,030,000 were American gold coin and $____ American silver coin.

The Federal Reserve Banks.—Following is the weekly statement issued by the Federal Reserve Board on May 22.

The statement shows a gain in aggregate gold reserves of 2.3 million dollars, New York, Philadelphia and Chicago reporting the largest additions to their gold holdings. Of the total gold reserves about 14 million dollars has been deposited by the banks with the Treasurer of the United States, or in the Sub-Treasuries, for the credit of the gold settlement fund, which is to become operative on May 27. The aggregate cash reserves increased about 2.6 million dollars during the week.

A slight decrease is shown for the total loans and discounts, including acceptances, held by the several banks. The amount of discounts proper shows an increase from $23,835,000 to $24,302,000, Richmond and San Francisco reporting substantial gains in the amounts of re-discounted paper held. The total acceptances reported by the banks decreased from 10.9 million dollars at the end of the previous week to 10.3 million dollars, the holdings of this type of paper constituting at present less than 30% of the entire amount of commercial paper in the hands of the banks. New York reports $3,767,000 of acceptances, as against $4,448,000 at the end of the previous week; Boston $2,078,000, as against $2,123,000; San Francisco with $1,158,000, as against $1,042,000, while six other banks report each less than one million dollars of this class of paper. About 40% of the total amount of commercial paper in the hands of the banks matures within 30 days and 76% within 60 days. The amount of agricultural and live stock paper maturing after 90 days held by the banks now stands at about 3 million dollars. The three Southern banks report over 75% of the total holdings of this class of paper.

The amount of U. S. bonds held by the banks remains unchanged at $6,813,000. Short-term municipal securities constitute the bulk of the investments reported by ten banks, the total for the present week, $22,529,000, indicating a gain of about $600,000 over the figures of the previous week.

Net deposits decreased about one-half million dollars, Boston, Chicago and Dallas reporting the largest net withdrawals. The total amount of Federal Reserve notes outstanding as reported by the agents stands now at $63,456,000. The total is composed of the following amounts reported by the local agents: Boston, $2,320,000; New York, $29,440,000; Philadelphia, $1,240,000; Cleveland, $2,500,000; Richmond, $7,200,000; Atlanta, $4,750,000; Chicago, $4,380,000; St. Louis, $625,500; Minneapolis, $2,660,000; Kansas City, $2,600,000; Dallas, $3,700,000, and San Francisco, $2,040,000. Against these notes the agents hold on deposit a total of $51,091,000 of gold. The banks report $8,157,000 of Federal Reserve notes on hand. Their net liability on account of outstanding circulation is stated as $10,859,000.

The figures of the consolidated statement for the system as a whole are given below and in addition we present the results for each of the eight preceding weeks, thus furnishing a useful comparison. In the second table we show also the separate figures for each of the twelve Federal Reserve banks.

STATEMENT OF COMBINED RESOURCES AND LIABILITIES OF THE FEDERAL RESERVE BANKS OF THE UNITED STATES OF AMERICA AT THE CLOSE OF BUSINESS MAY 21 1915.

Statement of New York City Clearing-House Banks and Trust Companies.—The following detailed statement shows the condition of the New York City Clearing-House members for the week ending May 22. The figures for the separate banks are the averages of the daily results. In the case of the totals, actual figures at the end of the week are also given. In order to furnish a comparison we have inserted the totals of actual condition for each of the three groups, and also the grand aggregates, for the four preceding weeks.

NEW YORK WEEKLY CLEARING-HOUSE RETURN.

In addition to the returns of "State banks and trust companies in New York City *not in the Clearing House*" furnished by the State Banking Department, the Department also presents a statement covering *all* the institutions of this class in the whole State. The figures are compiled so as to distinguish between the results for New York City (Greater New York) and those for the rest of the State, as per the following:

For definitions and rules under which the various items are made up, see "Chronicle," V. 98, p. 1661.

The provisions of the law governing the reserve requirements of State banking institutions were published in the "Chronicle" March 28 1914 (V. 98, p. 968). The regulations relating to calculating the amount of deposits and what deductions are permitted in the computation of the reserves were given in the "Chronicle" April 4 1914 (V. 98, p. 1045).

Imports and Exports for the Week.—See second page preceding.

Bankers' Gazette.

Wall Street, Friday Night, May 28 1915.

The Money Market and Financial Situation.—Interest in financial matters, especially in anything new, has languished throughout the week now closing. Events in Europe have, it would seem, been sufficiently stirring to cause world-wide excitement were not the world now practically immune from such result. After what has taken place during the past ten months nothing now seems to be of sufficient importance to command more than momentary consideration or comment at this distance from the tragic arena. The actual entrance of Italy into the conflict, reports of important developments in the Dardanelles and East of the Carpathians and serious injury to another American ship in British waters were each sufficient to have resulted in serious disturbance, if not a panic, in less eventful times. But now, happening together in the same week, they have caused scarcely a ripple on the surface of business in Wall Street. Here operations are held in abeyance until the mutual relations of this country and Germany shall be more clearly defined and better understood.

The Government report of foreign trade shows that the exports for April were almost double those of last year, being $294,470,199, against $162,552,570. Imports for the same month increased over those for previous months of the year, but indications now point to a balance in our favor for the fiscal year ending June 30th of upwards of $1,000,000,000, or $335,000,000 larger than the previous largest in our history. Notwithstanding these facts the foreign exchange market has been firmer this week than for some time past. This is due, no doubt, to receipts of gold from abroad. From Paris direct $2,000,000 was received on Thursday and a much larger amount earlier in the week from another source, all the facts about which have not been disclosed.

The Bank of England's weekly report shows only slight changes from the previous one, the most important being an increase in its percentage of reserve from 20½ to 21½.

The open market rate for call loans on the Stock Exchange on stock and bond collaterals ranged from 1 to 2½%. The rate on Friday was 1¾@2%. Commercial paper closed at 3½@4% for sixty to ninety-day endorsements and prime four to six months' single names. Good single names, 4¼@4½%.

The Bank of England weekly statement on Thursday showed an increase of £30,880 in gold coin and bullion holdings and the percentage of reserve to liabilities was 21.50, against 20.50 the week before. The rate of discount remains unchanged at 5%, as fixed August 13.

The Bank of France shows an increase of 6,065,000 francs gold and a decrease of 1,562,000 francs silver.

Foreign Exchange.—The market has ruled somewhat steadier but very quiet during the week. A total of $2,000,000 gold was received direct from France and a considerable further sum from Ottawa, though only $2,500,000 of the latter had been deposited at the Sub-Treasury at the close of business yesterday.

To-day's (Friday's) actual rates for sterling exchange were 4 75½@4 75¾ for sixty days, 4 78½@4 78 9-16 for cheques and 4 879@4 79 1-16 for cables. Commercial on banks nominal and documents for payment nominal. Cotton for payment nominal and grian for payment nominal.

There were no rates for sterling posted by prominent bankers this week.

To-day's (Friday's) actual rates for Paris bankers' francs were nominal for long and 5 43 for short. Germany bankers' marks were nominal for long and 83⅛ for short. Amsterdam bankers' guilders were 38¾@38⅞ for short.

Exchange at Paris on London, 25.99½ fr.; week's range 25.97½ fr. high and 25.99½ fr. low.

Exchange at Berlin on London not quotable.

The range for foreign exchange for the week follows:

	Sterling Actual	*Sixty Days.*	*Cheques.*	*Cables.*
High for the week		4 75¾	4 78⅝	4 79⅛
Low for the week		4 75⅝	4 78¼	4 78¾
Paris Bankers' Francs—				
High for the week		------	5 41¼	5 40¾
Low for the week		------	5 43½	5 42½
Germany Bankers' Marks—				
High for the week		------	83⅛	83¼
Low for the week		------	82⅞	83
Amsterdam Bankers' Guilders—				
High for the week		------	39½	39 9-16
Low for the week		------	39½	39 9-16

Domestic Exchange.—Chicago, 5c. per $1,000 premium. Boston, par. St. Louis, par bid and 10c. premium asked. San Francisco, 40c. per $1,000 premium. Montreal, 6.25 per $1,000 premium. Minneapolis, 35c. per $1,000 premium. Cincinnati, par.

State and Railway Bonds.—Sales of State bonds at the Board this week include $2,000 New York State 4s, 1961, at 100¾; $1,000 New York State 4s, 1962, at 100¾; $19,000 New York State 4½s at 108½ to 108¾; $2,000 New York Canal 4½s at 108½, and $10,000 New York Canal 4s, reg., 1961, at 100¾.

Lack of enthusiasm on the part of investors has caused a dull week in the market for railway and industrial bonds. Prices have, as a whole, for reasons mentioned above, moved in a very narrow radius.

Distillers' Securities 5s are exceptional in an advance of over 5 points, a movement for which no reason has been made public. The closing price is, however, somewhat below the highest value. Rock Island deb. 5s, on the other hand, declined 6 points, recovering feebly on the progress made in reorganization. Wabash ref. & ext. 4s made a similar record under practically the same conditions. From a list of 25 other active issues 10 have declined and 8 advanced, the movement in all cases being fractional.

Sales on a seller's 20-day option (s-20-f), representing presumably sales on foreign account, have fallen off greatly, being only $115,000 as against $720,000.

United States Bonds.—Sales of Government bonds at the Board are limited to $1,000 3s, coup., at 101¾; $10,000 3s, reg., at 100½ and $9,500 4s, coup., at 111¼ to 111½. *For to-day's prices of all the different issues and for weekly range, see third page following.*

Railroad and Miscellaneous Stocks.—There has been a little more activity in the stock market than last week, but fluctuations have been narrower and outside interest has not perceptibly increased. A waiting attitude is, therefore, still in vogue and developments expected in the near future are looked for with interest. Railway issues have been unusually steady, while manufacturing stocks, especially those benefitting by the export demand, have been, as for some time past, conspicuous for erratic movement.

Of the former, Rock Island and Missouri Pacific have been notably weak, on the progress being made in rehabilitating the companies. Canadian Pacific has declined 6 points Reading and St. Paul over a point—while Atchison, Union Pacific and Northern Pacific have registered an advance.

Bethlehem Steel, true to its record, has fluctuated over a range of 9 points and closes with a net loss of 5 points. Amer. Can is 2½ points higher, Cuban-Am. Sugar 5½ and Lackawanna Steel 1½. U. S. Steel advanced 2⅜ points early in the week but has lost a large part of the gain.

For daily volume of business see page 1823.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

STOCKS. *Week ending May 28.*	*Sales. for Week.*	*Range for Week. Lowest.*	*Highest.*	*Range since Jan. 1. Lowest.*	*Highest*

Outside Securities.—Prevailing conditions affecting the "curb" market remain practically unchanged. Transactions were slightly larger in volume the past week, while prices, among the miscellaneous and railroad issues advanced. American Zinc improved from 47 to 48½, dropped back to 45 but recovered and advanced to 49¼. Electric Boat, common and preferred, were bid up from their respective prices of 75 and 97 to 83 and 101, the final quotations, however, being 80 and 100. International Motors com. sold up 1¾ points to 15¼ but weakened at the close to 15, while the preferred moved up 6 points to 38. From 125 Kelly-Springfield Tire advanced to 129, that figure being the final price. United Cigar Stores of Am. was somewhat irregular, Rising from 95½ to 102, it dropped to 97½, gained 3½ points to 100 and rested finally at 97½. Corp. of Riker & Hegeman showed little change, the high, low and last prices being 7⅛, 6¾, 6¾. Interborough com., w. i., advanced from 24 to 25¼, to-day's final price being 25. The preferred went up 1½ points to 77 and closed at 76½. Among the Wabash issues, the preferred series "A" was the only one to register over a fractional advance. This lost from 43½ to 41, sold up to 45 and closed the week at 43¾.

Steadiness has been the prevailing feature among Standard Oil subsidiaries. Atlantic Refining Co. from 556 dropped to 555, which was also the closing price. Ill. Pipe Line advanced 1 point to 130, dropped to 127, again reached and closed at 130. Prairie Oil & Gas was a trifle wild. From 310 it jumped to 320, then fell to 308, with the last transaction at 310. South Penn Oil went from 275 to 276, dropped to 271 and closed at 272. Standard Oil of Calif. dropped from 284 to 275. Standard Oil of N. J. was uneven in its fluctuations; from 400 it fell to 396, rose to 400, fell again to 398 and so closed. Other oil stocks showing marked movement were Standard Oil of N. Y., 185-183-186-182. Union Tank Line, 81-79½-80, and Vacuum Oil, 200-205-203.

Outside quotations will be found on page 1823.

RAILROAD GROSS EARNINGS

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including the latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the electric railways are brought together separately on a subsequent page.*

a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes.
c As reported to the Inter-State Commerce Commission.
f For Apr. 1915 net income, after charges, was deficit of $85,722, against deficit $7,498 in 1914, and from July 1 to Apr. 30 was $693,273 in 1915, against $828,499.
j For April taxes and uncollectible railway revenue amounted to $456,305, against $455,335 in 1914; after deducting which, net for April 1915 was $2,836,754, against $2,995,443 last year. From July 1 to May 31 taxes, &c., were $4,546,748 in 1915, against $4,583,129 in 1914
n These figures represent 30% of gross earnings.
* For full comparative statement see next week's issue.

a Total surplus ($8,222,141) April 1 1914 includes $5,481,719 surplus of the Philadelphia Co., $33,638 Equitable Gas Co., $2,672,086 Monongahela Natural Gas Co. (subject to adjustment from re-valuation of property accts. to be made during year ending Mar. 31 1916), and $34,698 Pittsburgh & West Virginia Gas Co. b Includes in 1914-15 increase in book value of securities re-appraised, $3,217,612, and increase in book value of physical property appraised, $12,556,441. c Total surplus in 1915 as above includes surpluses of the Philadelphia Co., $5,324,535; Equitable Gas Co., $34,153; Monongahela Natural Gas Co. (subject to adjustment; see footnote a in parenthesis above); Pittsburgh & West Virginia Gas Co., $566,218, and Philadelphia Oil Co., $28,448, and the deficit of the Philadelphia Co. of West Virginia, $143.—V. 100, p. 1748, 1259.

United Shoe Machinery Corporation, Boston.

(*Report for Fiscal Year ending Feb.* 28 1915.)

Pres. Sidney W. Winslow, May 22, wrote in substance:

Results.—For several months prior to the European war, on Aug. 1 1914, the output of shoe factories in the United States had been gradually shrinking until it has been estimated at less than 90% of the output during the corresponding period of 1913. Subsequently this decline was accentuated still further, and although offset in some degree through foreign orders received by a few American factories, these orders have not been large enough to have material influence upon the trade, the total orders from European buyers during this period having been less than 2% of the normal annual production of shoes in the United States. The lack of activity in shoe manufacturing has been reflected in our royalties, rentals and sales, and the volume of business for the first time since the organization of the company shows a slight decrease from the preceding year.

Industrial conditions have affected the Beverly factory so that it has been necessary to reduce the force of employees already depleted on account of the Government litigation, which made it advisable two years ago for the company to discontinue its policy of leasing certain machines in the General Department. The number of employees in 1911 was nearly 5,000; in 1914 it was 3,564; it is now 2,887. The average weekly wage of productive help is $16 15—a higher rate than ever before. The number of machines on lease in the United States on March 1 1915 was 98,860, a decrease of 588 machines from the preceding year.

The foreign companies in which the company is interested have in large measure recovered from the temporary setback at the outbreak of the war, and in some instances they are doing a better business than ever before.

Favorable Decision.—On March 18 1915 the Federal District Court in Boston rendered its decision in the suit in equity brought by the U. S. Dept. of Justice in Dec. 1911 for the dissolution of the company. It was ordered that the Government bill be dismissed. The decision of the Court was unanimous; and each of the judges wrote a separate concurring opinion. An appeal has been taken to the Supreme Court. We are sending to each of our stockholders and customers a complete copy of the opinions of Judges Putnam, Dodge and Brown, discussing exhaustively the leases of the company and its methods of business. [V. 100, p. 985, 1442, 1598.]

Merger Delayed.—The proposed merger of the United Shoe Machinery Co. with the United Shoe Machinery Corporation, referred to in the circular letter of Feb. 8 1915, has been delayed by a stockholders' suit in New Jersey, and the special meeting of the stockholders, to act on the merger, adjourned from time to time, pending the court proceedings [V. 100, p. 1442].

Stockholders.—There are 4,061 holders of common stock only; and 3,120 are holders of pref. stock only, while 1,602 are holders of both pref. and com.

RESULTS FOR FISCAL YEARS ENDING FEB. 28.

	1915.	1914.
Combined earns. of United Shoe Mach. Corp. and the United Shoe Machinery Co., after deducting proportion applicable to outstanding stock of United Shoe Machinery Co. not held by the Corp	$4,861,092	$6,177,115
Cash dividends paid	2,867,443	2,863,359
Balance, surplus, for year ending Feb. 28	$1,993,649	$3,313,756

These earnings apparently compare with those of the Shoe Machinery Corporation, as shown in previous reports, as follows:

	1914-15.	1913-14.	1912-13.	1911-12.
Machines on lease Mar. 1	98,860	99,448	98,514	97,021
Net earnings	$4,861,092	$6,177,116	*$6,160,167	*$5,958,721
Cash dividends	2,867,443	2,863,359	2,861,111	2,858,865
Bal., surp., for year	$1,993,649	$3,313,756	$3,299,056	$3,099,856

* Includes in years 1912-13 and 1911-12 increase in value of stock of other corporations.

BALANCE SHEET MARCH 1.

Assets—	1915.	1914.	*Liabilities*—	1915.	1914.
	$	$		$	$

Cash & receivables	18,951,324	18,780,843	United Shoe Mach. Co. stock not held by corp	258,852	405,228
Inventories	5,656,961	5,806,286	Surplus	17,497,773	15,504,123
Miscellaneous	29,259	31,822			
Total	58,710,365	56,338,388	Total	58,710,365	56,338,388

a The figure at which stocks and bonds are carried on the books is, in the opinion of the board, less than their actual value.—V. 100, p. 1598, 1442.

Brown Shoe Company, Inc.

(*Report for Six Months ending April* 30 1915.)

The report for the half-year ended April 30 says in subst.:

The unsatisfactory showing has been caused by the continued general business depression during the entire six months and especially in the cotton States, from which comes more than half of the company's business. During this period merchandise in stores has been reduced $840,703. Compared with the same period ending April 30 1914 reduced output of all the factories, $2,032,511, reduced factory operating earnings about $150,000, reduced shipments, caused reduced sales earnings about $75,000 and rapid and radical changes in styles (largely on women's shoes) caused markdowns on sales during season and on inventory April 30 1915 about $130,000, a total of $355,000.

—V. 100, p. 1262.

United States Realty & Improvement Co., New York.

(11*th Annual Report—Year ended April* 30 1915.)

President Wilson S. Kinnear, N. Y., May 21, wrote in substance:

Surplus.—The amount added to surplus, after paying a dividend of 2¼% for the year and after setting aside customary reserves, was $444,473, which, added to the surplus of $1,582,659 from the previous year, less special deduction, aggregating $1,010,355 set aside as reserve for depreciation and contingencies (see "reserves" below), makes the present surplus $1,016,777.

Reserves.—The customary yearly reserves have been set aside, and in addition thereto a special fund of $1,000,000 has been appropriated from surplus earnings for depreciation in the value of the company's real estate. The accumulated reserves now amount to $2,273,234, and are applicable as follows: Depreciation of real estate and buildings, $1,505,724; possible depreciation in value of securities, $457,600; doubtful accounts, $119,384; accident insurance on construction work, $101,344; contingencies, $89,182.

Real Estate.—Our real estate is carried on the books at the original cost. The cost of carrying the unproductive real estate has been charged as usual out of income. The James Estate properties, in which we held undivided interests, were sold at auction and the proceeds distributed, your company acquiring No. 400 Fifth Ave. and Nos. 128-132 West 30th St. at reasonable prices. Mortgages on real estate were reduced $675,000 by payments and increased $395,000 on the two above-mentioned properties, making a net reduction in this item of $280,000 for the year. The aggregate of the mortgages on all of the real estate owned is now 43% of the book value.

Stocks and Bonds.—There has been no change in the book value of the securities on hand at the beginning of the year, and those acquired since are carried at cost. To provide for possible depreciation in the value of these securities, a reserve [of $457,600] has been set aside as shown in [footnote to] the balance sheet.

George A. Fuller Co.—The following is a summary of the George A. Fuller Co.'s business during the year [figures for previous year inserted by Ed.]:

Orders.	*Unfin. Work Begin. Year.*	*New Business.*	*Total Business.*	*Work Completed.*	*Unfinished End of Year.*
1914–15	$17,685,365	$11,746,116	$29,431,481	$18,233,469	$11,198,012
1913–14	20,016,572	20,955,413	40,971,985	23,286,620	17,685,365

While the unfinished business on hand is $6,487,353 below last year, it is expected to produce a greater percentage of profit, for the resaon that under the method employed in arriving at profits on work in progress, the coming year will receive the benefit of a large amount of work done during the current year. Every effort will be made to continue reducing expenses in proportion to decreased production.

Some of the new contracts taken on during the year are the following: Lumber Exchange Bldg., Chicago; Windsor Station alterations, Montreal; Martha Cook Dormitory, for University of Mich.; City Hall, Waterbury; Park Bldg., Worcester; bank bldg. in Detroit; Evansville, Olean, Durham, N. C., Warren, O., and Grand Rapids, Mich.; office bldg., 8 West 40th St., N. Y. City; Trafalgar Hotel addition and alterations, Boston; William Penn Hotel, Pittsburgh; Hippodrome & Arcade Bldg., Youngstown; Garden Theatre, Baltimore; factory building, Worcester; interior of City Hall, Cleveland; Central Dormitory, Wellesley College; Chi Psi Lodge, Ann Arbor; Y. M. C. A. Bldg., 6-20 East 3d St., N. Y. City; Penobscot Bldg. extension, Detroit; residence for Hermann Hollerith, Washington, C. D.; office building, Camden, N. J., for Victor Talking Machine Co.; Memorial Ampitheatre and Chapel, Arlington, Va.; East Wing Wentworth Institute, Boston; Riverside Power Station, Albany.

Engineering and Construction Department.—During the year your company through this department contracted with the city of New York for a further section of the subway extending from 26th to 38th streets, in Broadway. Work is progressing rapidly on all three sections of the subway which this department has under contract, and it is expected the income of the company for the coming year will be increased from this source.

Business Year—	*On Books Beg. Year.*	*New During Year.*	*Total Business.*	*Executed During Year.*	*Unfinished End of Year*
1914–15	$4,090,710	$2,683,312	$6,774,022	$2,709,324	$4,064,698
1913–14	---------	4,239,043	4,239,043	148,333	4,090,710

Consolidated Construction Work.—Unfinished business on books of the company at this date: George A. Fuller Co. building construction, $11,198,012 engineering and construction department, $4,064,698; grand total, $15,262,710, against $21,776,075 the previous year.

Regular Income.—The regular income from real estate and other investments continues to be more than sufficient to pay all expenses and the interest upon the company's bonds. The balance of the income from these investments, the profits from the George A .Fuller Co., the real estate operating department and the general construction work will be applicable to dividends.

[For latest list of security holdings see V. 98, p. 1684.]

Utah Securities Corporation (of Virginia), New York.

Utah Power & Light Co.—Utah Light & Traction Co.

(*Financial and Physical Data as of March* 31 1915.)

The Electric Bond & Share Co., N. Y., has issued as an illustrated pamphlet the financial report made as of May 1 by the Utah Securities Corporation, which controls through stock ownership the Utah Power & Light Co. and Utah Light & Traction Co.

President S. Z. Mitchell May 1 wrote in substance:

History.—The Utah Securities Corporation began business in Sept. 1912, acquiring the control of electric generating plants and distributing systems in Utah, Idaho and Colorado having gross earnings for the 12 months ended Sept. 30 1912, aggregating $1,160,305 and net earnings of $635,300. These properties, which were owned by separate organizations and were disconnected and largely inefficient, were transferred to the Utah Power & Light Co., as an operating company. Subsequently we acquired the control of additional properties, notably the property of the Utah Lt. & Ry. Co., which is now owned by the Utah Light & Traction Co., embracing the electric light and power business and the street railway system in Salt Lake City and vicinity and the gas property and business and an electric light and power business in Ogden, with aggregate annual gross earnings at time of acquisition, in Sept. 1914, of $2,750,228.

During the past 2½ years your company has completed inter-connecting lines in Utah and Southern Idaho, and has made substantial progress in enlarging and improving the water-storage facilities and the various power plants, and also in rebuilding and extending transmission lines. The advantages of diversification through the inter-connection of the Utah and Southern Idaho plants have resulted in raising the load factor (or average use as compared with the maximum use) of the system to the unusually high daily average of more than 80%.

We have laid out the new power installations and transmission lines, &c., upon a basis which will provide economically as needed for large future growth. A large reservoir has been built at Oneida, also an extensive system of dikes and canals to divert and store the waters of Bear River in Bear Lake, thus providing adequate water for gravity irrigation and for the operation of the hydro-electric plants on Bear River for the generation of power for irrigation pumping.

The construction period for the immediate future and the period of readjustment and reorganization being practically at an end, your company can for the first time proceed along ordinary operating lines. The copper and other mining districts served have been much depressed by the European war, but are now resuming operations along normal lines, and it is expected that business conditions and power output will likewise improve.

Neither your company, nor any of its subsidiaries, has any floating debt in the hands of the public except except current liabilities and these are more than offset by current assets.

The Utah Securities Corporation is strictly an investment company, doing no operating, but controlling the Utah Power & Light Co. through the ownership of all its outstanding capital stock, except directors' shares. Utah Power & Light Co. controls the Western Colorado Power Co., through the ownership of all its issued securities, except directors' shares of stock, and the Utah Light & Traction Co. through the ownership of all its capital stock except directors' shares.

Utah Power & Light Co., Utah Light & Traction Co.

Utah Power & Light Co. was incorporated Sept. 6 1912 in Maine. It owns and operates electric light and power properties, as hereinafter described, and also owns all the issued securities, except directors' shares of stock, of the Western Colorado Power Co. and all the capital stock, except directors' shares, of the Utah Light & Traction Co.

Utah Light & Traction Co. owns the electric light and power and street railway properties in Salt Lake City and the electric light and power and gas properties in Ogden formerly owned by the Utah Light & Railway Co. The electric light and power and gas properties are leased for 99 years from Jan. 1 1915 to the Utah Power & Light Co., which operates them in connection with its own properties. Utah Light & Traction Co. continues to operate its street railway property in Salt Lake City, which embraces (*a*) 145 miles of track of substantial construction, thoroughly covering the city and extending into all the important suburbs; (*b*) 237 passenger and service cars, including 131 double-truck pay-as-you-enter cars.

Utah Power & Light Co. furnishes electric light and power service in 104 communities in Utah and Southern Idaho, including Salt Lake City, Ogden, Provo, Logan, Park City, American Fork, Eureka, Bingham and Lehi,

Utah, and Idaho Falls, Rexburg, Preston and Montpelier, Idaho, and gas service in Ogden, Utah. The Western Colorado Power Co. supplies electric light and power service to Durango, Telluride, Montrose, Ouray and Delta, and other communities in Southwestern Colorado. Market well diversified, including with the lighting and miscellaneous service in many communities important long-term contracts for the sale of large amounts of power. The companies furnish power in the principal mining districts in Utah and in Southwestern Colorado, also a gravity water service and power to pump water for irrigation purposes and serve a large farming area in Northern Utah and Eastern Idaho, and Southwestern Colorado with power for lighting and milling purposes.

Among the large power customers under contract are (*a*) Electric railways, Salt Lake & Ogden Ry., Salt Lake City to Ogden, 67 miles of track; Salt Lake & Utah RR., Salt Lake City to Provo, 51 miles of track; Ogden, Logan & Idaho RR., in Ogden, Brigham, Logan, &c., 104 miles of track in operation and 41 miles under construction to complete the connection between Ogden, Utah, and Preston, Idaho; (*b*) Utah Copper Co., Union Portland Cement Co., Ogden Portland Cement Co., the Portland Cement Co. of Utah, United States Smelting, Refining & Mining Co., Salt Lake Pressed Brick Co., Utah Lake Irrigation Co., Mosida Irrigation Co. and the Board of Canal Presidents. Also supplies all the power for the street railway of the Utah Light & Traction Co. in Salt Lake City and vicinity.

Total population served by Utah Power & Light Co. and the Western Colorado Power Co. is estimated at 225,000.

Properties, Business, &c., of Utah Power & Light Co. and Western Colorado Power Co. March 31 1915.

[Including properties leased from Utah Light & Traction Co., &c.]

Electric customers	46,707	Electric conduit, miles	12
Gas customers	1,055	High voltage lines, miles	x1,552
Gen. capac. hydro-elec., k.w.	93,750	Gas-holder capacity (cu. ft.)	240,000
Do steam, k.w.	26,500	Gas mains, miles	18
Hydro-electric under construction, k.w.	20,500	Gas output 12 mos. cu.ft.	28,682,000
Pole lines (low volt) miles	1,003	Electric output 12 months k.w.h.	281,134,027

x Includes 130,000 volt, double-circuit, steel tower transmission lines, 133 miles; other high-voltage lines (over 6,600 volts) in operation, irrespective of the number of circuits carried, 1,419 miles.

Electric generating stations (*a*) Owned, including West. Col. Power Co., hydro-electric, 79,800 k.w., steam, 2,000 k.w.; (*b*) leased from Utah Light & Traction Co., 29,950 k.w. (13,950 k.w. hydro-electric; 16,000 k.w. steam); under another long-term lease, steam, 8,500 k.w.; total owned and leased, 120,250 k.w., of which 93,750 is hydro-electric and 26,500 is steam.

The most important hydro-electric plants owned by the Utah Power & Light Co. are the Grace, Ida. (capac. 33,000 k.w. of which 22,000 new early in 1914), Wheelon (7,125 k.w.) and Olmsted (7,200 k.w.), all in operation, and the Oneida plant, now under construction. All of these plants, except the Olmsted (on Provo River), are located on Bear River, the largest river in Utah. The Oneida plant, now under construction, is to have an initial installation of 20,000 k.w., and is designed and in part constructed for an ultimate installed capacity of 40,000 k.w. In connection with this plant a solid concrete dam, 116 ft. in height is being erected, forming a storage pond of about 509 acres.

Franchises.—Utah Light & Traction Co. franchise in Salt Lake City expires in 1955. Franchise owned by Utah Power & Light Co. in Ogden expires in 1946; in Provo expires in 1940, in Logan in 1936, in Bingham in 1953, in Lehi in 1962 and in Preston in 1956. Others on various dates; no burdensome restrictions.

PROFIT AND LOSS AND INCOME STATEMENTS—PERIODS ENDING MARCH 31 1915.

Corp.—V. 100, p. 903, 734.

Montreal Light, Heat & Power Co.

(*14th Annual Report—Year ended April 30 1915.*)

Pres. H. S. Holt, May 22, wrote in substance:

Revenue.—The increases in revenues have accrued mostly from the operations of the earlier part of the year, and while the effects of the war have not been so serious for your company as for most industries, we have distinctly felt the effects of the unusually large number of disconnections and the increase in bad debts. For the coming year we have to face war taxes on our imported raw materials and supplies, and while we had hoped to announce further reductions in gas and electric rates, action in this respect must be deferred for the present.

Financial.—There were redeemed $32,000 Lachine Division bonds and all of the $37,000 underlying bonds of Royal Electric Co.

Additions and Betterments.—The new gas-manufacturing station and auxiliary steam-turbo electric plant at Lasalle have been completed. The new steel-pole transmission linebetween Cedars Rapids and Montreal, which, with the hydro-electric plant of the Cedars Rapids Mfg. & Power Co. (in which we have a large financial interest) has been in operation since Jan. last (V. 100, p. 1754, 1260). We shall have considerable capital outlay for cables to equip civic underground conduits for electric distribution in the uptown and downtown sections of the city. The newly constructed conduits on St. Catherine and Bleury streets will, it is expected, be inaugurated in the course of the next few weeks.

Plants, &c.—The properties of the company and its various subsidiary companies have been fully maintained as evidenced by the expenditure on maintenance account of $383,601, which, with the appropriation for depreciation and renewal reserve, represents a total expenditure and provision in this connection of $1,033,601 for the year.

War.—Upwards of 50 of our employees have enlisted for overseas service in the European war, and we have an enrollemnt of over 300 in the Montreal Home Guard. Your company contributed $10,000 to the Canadian Patriotic Fund, and provided liberally for those employees who enlisted.

Wm. A. Rogers, Ltd., Toronto.

(*14th Annual Report—Year ended Dec. 31 1914.*)

President S. J. Moore, March 31, wrote in substance:

The depression in business continued throughout 1914 and resulted in a considerably reduced volume of business. Our factories were for a large part of the year operated at the rate of only 50% of their capacity. The actual sales would have permitted of greater production had not an unusually heavy inventory been carried over from the year before. The effect of this was to cause a greater shrinkage in net profits than the reduced volume of business would otherwise have produced.

There have been transferred from time to time, out of the profit and loss account, sums aggregating $175,000 to realty and plant reserve account, to provide gaainst any extraordinary shrinkage in values of the fixed assets. An appraisal made during the year by the American Appraisal Co. shows that the depreciated values of the properties exceed the book values by a substantial amount, and permits the re-transfer to profit and loss account of the $175,000.

A special reserve has been created of $70,000, to provide for two years for the company's guaranty of the dividends upon the pref. stock of Canadian Wm. A. Rogers, Ltd. This guaranty runs from Apr. 1 1914. It is hoped that within the two-year period covered by this reserve the conditions in the Canadian business will be such as to make no further provision necessary.

In view of improvements since the end of the year, and the present outlook for business, the directors believe they are justified in continuing the dividend on the common stock at the rate of 6%, and unless conditions become less favorable than they are at the present, they believe that this rate can be maintained throughout the year.

[The company owns factories at Niagara Falls, N. Y., and Northampton, Mass.]

GENERAL INVESTMENT NEWS

RAILROADS, INCLUDING ELECTRIC ROADS.

Ann Arbor RR.—*Application Granted.*—The P. S. Commission has granted the company permission to continue to operate the car ferries between Frankfort, Mich., and Manistique.—V. 100, p. 227, 138.

Augusta-Aiken Ry. & Electric Corporation.—*Pref. Stock.*—The shareholders will vote June 23 on increasing the authorized issue of 6% cum. pref. stock from $1,500,000 to $2,250,000.

Each holder of record on June 1 1915 of pref. or common stock will have the right to subscribe on or before June 15 1915 at the office of Treas. David H. Thomas, 31 Pine St., N. Y., for the $750,000 new pref. stock at par value ($100 per share) to an amount not exceeding one-fifth of the amount of stock standing in his name on the books on June 1 1915. All subscriptions must be paid in full to said Treasurer within 10 days after notice that the stockholders have authorized the issuance. Dividends on the new stock will accrue from Oct. 1 1915.

The offering of this new stock to the shareholders is a formality to comply with the South Carolina law, the plan being to issue the same in exchange for the pref. stock of the subsidiary Georgia-Carolina Investment Co., which owns the Georgia-Carolina Power Co. Power contracts aggregating over 2,000 h.p. have been secured since Jan. 1 1915 and are now bringing in additional net earnings at the rate of $30,000 net a year, with the prospect of a larger return in case times improve.—V. 100, p. 228.

Barcelona Traction, Light & Power Co., Ltd.—*Plan——Circular.*—Touching the plan on which the holders of the 5% bonds will vote in London on June 8, the bondholders' committee in circular dated at said city Apr. 9 say in subst.:

The company was organized to develop an extensive hydro-electric plant in Spain, serving the city of Barcelona and vicinity. The Ebro Irrigation & Power Company was formed to do the construction work, and it owns and operates the hydro-electric power plants and transmission lines, the Barcelona company owning all the capital stock and bonds, except certain bonds which are pledged for advances, but, under the plan proposed, will form part of the security for the bonds of the Barcelona company.

Owing to developments unforeseen at the time of the original issue of the 5% bonds of the Barcelona company, it became desirable to secure control of the chief electric light and power company (the Compania Barcelonesa de Electricidad) and of the tramway company in Barcelona and of other smaller light and power companies in the neighboring towns. For this purpose a further amount of 5% bonds was sold, as well as $8,483,500 of preference shares (mainly to Continental bankers at a price that netted the company 90%), and arrangements were made with a group of French and Belgian bankers to provide the money required over that realized from the sale of these bonds and shares. [The Barcelonesa Co. has issued (a) 40,000 ordinary shares of 500 pesetas each, of which 35,763 are pledged as part security for Barcelona Tr., Lt. & P. 5s; (b) 40,000 6% pref. shares of 500 pesetas each of which 25,000 are held by and remainder under option to a French company; (c) bonds for 48,088,000 pesetas, incl. 28,088,000 sold and 20,000,000 pledged for advances.]

Up to July last over £2,000,000 had been advanced under this arrangement, and the balance required would, as arranged, have been forthcoming but for the outbreak of war. In that event the company would have been able to complete its works and no default on the interest need have taken place. When, however, a moratorium was declared in France, these financial arrangements were brought to a standstill, with the result that construction work had to be stopped, and on Dec. 1 1914 the interest due on the 5% bonds was defaulted. A committee was formed shortly thereafter at request of owners of a large amount of the bonds on representations by the company that it was absolutely necessary, if the bondholders were not to suffer great loss, that some plan should be promptly evolved to provide the money necessary to complete the hydro-electric plant. The committee has received the written support of holders of £3,255,275 of the £7,160,000 5% bonds of 1911 sold [National Trust Co., Ltd., of Toronto, trustee], including a majority of the bonds issued in Great Britain.

Principal Items of £10,420,000 Expended on the Property.

Construction of hydro-electric installations, extension of distribution system and enlargement of steam plant, &c., including the cost of franchises, concessions and lands	£5,960,000
Purchases of holdings in subsidiary and allied concerns, including advances to subsidiary railway and land co's (see "note")	3,570,000
Interest on bonds and loans	680,000
Preliminary, issue and publicity expenses (excluding discount on bonds and preference shares), difference in exchange, administration, Government charges, &c	210,000

Note.—With the completion of the plan proposed by the committee, the Barcelona company will own 35,763 ordinary shares and 25,000 pref. shares (500 pesetas each), being practically all the issued capital of the Barcelonesa Co., and, after payment of the Belgian loan, 60,040 capital shares (100 francs each) and 5,080 tenths of founders' shares, being 42% of the issued capital of the Tramways Co., which is managed and controlled by the Ferro carriles de Cataluna, a subsidiary of the Barcelona Co., under an operating contract, on a basis of a guaranteed dividend on the shares. [The Cataluna Co. has issued 12,000,000 pesetas of cap. stock, all owned by the Barcelona Trac., Lt. & Pow. Co.; 18,000,000 pesetas of a 20,000,000-peseta bond issue, 8,000,000 pledged for the 5% bonds of said Barcelona Co. and 10,000,000 securing advances.]

Of the £8,000,000 5% bonds authorized, £7,160,000 have been sold [and £840,000 pledged as collateral]. In addition, there is owing to Continental bankers 45,593,630 francs (say, £1,809,271), to English bankers £345,000, together £2,154,271, and to a Belgian company as unpaid balance of the cost of the Barcelona Tramway Co. shares, 14,000,000 francs (say, £550,000), or a total of £2,704,271. As security for these advances the unsold balance of the 5% bonds and various shares and bonds of subsidiary companies have been pledged. [The auth. cap. stock of the company consists of $30,000,000 ordinary and $12,500,000 7% non-cum. pref.; outstanding in full-paid $100 shares, $27,450,000 ordinary and $8,483,500 pref.]

Most of the money spent on the works is still unproductive because of the uncompleted condition of the undertaking, and the report of expert Dr. H. F. Parshall (copies of which have been distributed by the committee) indicates that the only way by which the interest upon the 5% bonds can be earned is to complete these works. Dr. Parshall estimates that during the next three years £1,631,000 will be required to complete the work now in progress and the extensions of the network in Barcelona which a constantly increasing business will demand. The committee recommend that £850,000 of this amount be raised at once by the sale of 7% Prior Lien bonds, the estimated net receipts in 1914 available under the proposed financial plan covering the interest on these nearly three times over.

The balance should, in the committee's opinion, be obtained through the funding of interest to June 1 1918 incl., both on the securities to be accepted by the banks in satisfaction of their cash advances and on the 5% bonds. The net receipts thereby made available for the company would, according to the report of Dr. Parshall, amount to £1,524,050, which, with the £850,000 provided at once, would give a total of £2,374,050. This amount, together with the arrangements referred to in the next paragraph, also provides for all the debts of the Barcelona Co. and of its subsidiary companies, including the £550,000 owing to complete payment for the Tramway shares, which cannot be dealt with until after the war is over.

After repeated conferences, the bankers have agreed to accept in settlement of the greater part of their loans and overdue interest 7% Prior Lien "B" bonds, and for the balance 5% bonds of the Barcelonesa Co. and 5% bonds and 5% 10-year notes of the Barcelona Co. The interest on all of these bonds and notes is to be funded until June 1 1918 incl.

If the plan is adopted, the company has agreed that a committee shall be appointed to watch over the interests of the bondholders and to audit the expenditure of the money now to be raised. It has also been arranged that at the next annual meeting this committee shall nominate three bondholders for election to the board to represent the 5% bonds.

Outline of Main Provisions of the Financial Plan Recommended.

(a) To create an issue of £2,000,000 7% Prior Lien "A" bonds, to be redeemed at 110% on or before June 1 1965. Sinking fund beginning in 1925 to draw annually at 110% or in purchase at or below 110% and int. All or any part redeemable at 110% and int. at any time upon 6 mos.' notice. Secured on entire property of the Barcelona Co. (except the shares of the

Tramways de Barcelone and the undeveloped Ebro concessions). Only £1,000,000 to be at present authorized for sale. The further £1,000,000 only to be sold with consent of committee mentioned below.

(b) To create an issue of £2,000,000 7% Prior Lien "B" bonds, to be redeemed at 110% on or before June 1 1965 by sinking fund or otherwise, as stated for the "A" bonds above. Issue to rank immediately after the Prior Lien "A" bonds, and have the same security, but subject thereto. The interest on these bonds to June 1 1918 incl. to be payable in 5% 10-year notes (see below). These bonds to be applied in discharging bankers' advances to the company, and in acquiring preference shares of the Compania Barcelonesa de Electricidad, held by a French company to the par value of 12,500,000 pesetas (say, £470,000).

(c) The French group to purchase 5% bonds of the Cia. Barcelonesa de Elec. to the par value of 20,000,000 pesetas (say, £750,000), at present held as part collateral for the loan, and the proceeds to be applied in part satisfaction of their advance. The interest on these bonds to June 1 1918 incl. to be payable in 5% 10-year notes.

(d) To increase the issue of 5% 1st M. bonds of the Barcelona Co. from £8,000,000 to £10,500,000, and to extend the date for the commencement of the sinking fund for five years to 1927. The amount of the increase, as well as the bonds returned from the collateral of the banks, will remain in the treasury to be used only with the consent of the committee mentioned below for (a) redemption of 5% 10-year notes; (b) further development.

(e) The payment in cash of interest on the 5% 1st M. bonds of the Barcelona Co., including the interest due Dec. 1 1914 to be suspended until Dec. 1 1918 and the sinking fund to be postponed until June 1 1927, the redemption date nevertheless remaining the same.

(f) To create an issue of 5% 10-year Unsecured Notes redeemable during the last five years at the rate of 20% in each year, the company having the option to redeem them, all or in part, in cash or in an equivalent amount of 5% bonds of the Barcelona Co. The issue to be for a sufficient amount to discharge from time to time:

(1) Any interest due to the banks not satisfied by "B" bonds.

(2) The half-yearly interest accruing up to and including June 1 1918: (a) On the Prior Lien "B" bonds, (b) on the 5% bonds of the Barcelona Co., (c) on bonds of Barcelonesa Co., par 20,000,000 pesetas (£750,000).

(3) In paying the interest on the notes issued as above during that period.

(g) All securities held as collateral for advances and not taken in part reduction thereof to be released and, except the bonds of the Barcelona Co., to form part of the security respectively for the Prior Lien "A" bonds, the Prior Lien "B" bonds and the 5% bonds of the Barcelona Co. All outstanding engagements with the companies and persons whose advances are to be discharged, as before mentioned, to be canceled.

(h) Provision is made in the estimates for the £550,000 still payable to a Belgian company for the shares of "Les Tramways de Barcelone" which are to be excluded from the security of the bonds of the Barcelona Co. The matter will be taken in hand as soon as conditions in Belgium permit.

(i) The trust deed securing the Prior Lien "A" bonds shall provide for the constitution of a committee to watch over the interests of the bondholders and audit the expenditure of the company. This committee to continue in existence until after all the arrears of interest have been discharged by the notes as before provided and the company has resumed the payment of interest in cash on all the outstanding bonds and continued such payment for a period of one year.

[The company would also have the right, with approval of aforesaid committee, to sell the 5% bonds for 20,000,000 pesetas of the Cataluna Co. to complete the road to Tarassa and Sabadell.

Committee of 5% bondholders: A. Ernest Baker of Baker, Mason & Co., James W. Bowhill of Bell, Cowan & Co., Robert Fleming, G. Johnstone of James Capel & Co., H. F. Parshall, E. R. Peacock, V.-Pres. of Dominion Securities Corporation, and C. D. Seligman of Seligman Brothers.

Condensed Data from Expert H. F. Parshall, London, March 11 1915.

The total energy generated in 1914 was 148 million k.w. hours, half of which was generated by steam at a cost of £180,000, or .59 pence per k.w. hour. The k.w. hours sold in 1914 were 113,813,000, as compared with 70,543,810 for 1913, (a growth of 62%) and with only 32,000,000 in 1911. The cost of the hydro-electrically generated current at Seros, with only 40% of its estimated output available, was only .018d. per k.w. hour. On this basis, had the entire supply been hydro-electric, there would have been a further economy of £170,000. The sale of electricity should increase to 220 million k.w. hours after three years' operation of the complete hydro-electric installation. This would fully load the plant provided in the estimates. The original plan included a further power station at Barcelona, with a capacity of 180 million k.w. hours. This would cost about £800,000, and to provide this sum a part of the Prior Lien "A" bonds will be set aside. This last should be begun in 1917.

Estimated Net Operation Receipts from the Undertaking as a Whole for Yr. 1914.

From light and power and from Sarria Street Ry., £325,289; income from Tramways de Barcelone, £23,064	£348,353
Taxes and fixed charges of subsidiary companies, including sinking fund and dividends payable to third parties	119,634
Balance, surplus, for year	£228,719

Three of the four hydro-electric plants are practically complete, the k.w. hours supplied in 1914 being Pobla 12,000,000, Corbera 6,000,000, Seros 56,000,000. Completion of the Talarn dam (now about 40% finished) so as to store the full 204 million cubic meters should permit Seros to supply 140 million k.w. hours and Tremp (power house only substantially begun) 130 million k.w. hours.

Estimated Surplus Earnings after Meeting Prior Lien "A" Bond Interest (£70,000) If Present Works Are Completed at Once.

1915.	1916.	1917.	*Five Mos.* 1918.	*Total.*
£266,750	£409,500	£575,500	£272,300	£1,524,050

The above £1,524,050, together with £850,000 from the issue of Prior Lien "A" bonds, will, after the expenditure of £1,631,000 on construction as per the estimates for completion of present works, distribution lines, &c., leave £743,050 to meet the balance of the cost of the Barcelona Tramway shares, &c. After the expiration of the funding period the annual charges will be £697,150, as follows: 7% on £1,000,000 "A" and £2,000,000 "B" Prior Lien bonds, £210,000; 5% on £7,505,000 1st M. bonds, £375,250; 5% on £2,238,000 funding notes, £111,900.—V. 100, p. 1751.

Boston & Maine RR.—*Bill Passed.*—The Mass. Senate yesterday passed the bill as agreed to by the legislative conference committee, which provides for the reorganization of the company. The bill now goes to the Governor, having been passed by the House on May 25.

Under the agreement the Senate accepts the House amendment giving the P. S. Commission supervision over the Hampden RR. Corp. and withdraws its opposition to the provision that supplies for the Boston & Maine cannot be purchased from any firm having on its directorate a Boston & Maine director, and to the amendment requiring that the road earn as well as pay 4% dividends in order that its securities may be legal investments for savings banks. Compromises were effected on the sections relating to the acquisition of the leased lines and also in other respects. See abstract of bill as originally presented to the Legislature by the board of trustees on Jan. 26 last, V. 100, p. 395.—V. 100, p. 811, 732.

Brooklyn Rapid Transit Co.—*Fourth Av. Subway to Open* See Rapid Transit in New York City below.

New Advertising Subsidiary.—The company on the termination of its contract with the Inter-City Car Advertising Co., controlled by Ward & Gow, on April 30 last, decided to handle itself the car advertising, vending and news privileges, and announces the appointment as its managing director of Joseph P. Day, the well-known real estate man of Manhattan.

Mr. Day will have associated with him in the enterprise Stanley Eaton Gunnison, who for the last ten years has been connected with Ward & Gow. The Broadway Subway and Home Boroughs Car Advertising Co. was incorporated on May 21 with Joseph P. Day as Pres. and L. C. Sanford Sec.-Treas. The contract with the Inter-City Co. called, it is reported, for the payment of $217,000 annually, and a dispute arose over the terms of renewal. The city is jointly interested in a part of the privileges, viz., those of the New York Consolidated RR., under the dual contracts.—V. 100, p. 1591, 900.

Buffalo Rochester & Pittsburgh Ry.—*Granted.*—The I.-S. Commerce Commission on May 24 approved applications to continue the operation of the following ferries under the Panama Canal Act:

1. Ontario Car Ferry Co., jointly owned by the Buff. Roch. & Pittsburgh and Grand Trunk Ry., and operated between Charlotte, N. Y., and Cobourg, Ont., connecting the two roads.

2. The Grand Trunk Milwaukee Car Ferry Co., which operates between Grand Haven, Mich., and Milwaukee, connecting the Detroit Grand Haven & Milwaukee Ry., controlled by the Grand Trunk, with Milwaukee.

The Commission holds in both cases that the existing services by water are in the interest of the public and are of advantage and convenience to commerce and the people affected.—V. 100, p. 732, 228.

Buffalo & Susquehanna RR. Corp.—*First Dividend.*—An initial dividend of 2% has been declared on the $4,000,000 4% pref. stock (cumulative from Jan. 1 1915), payable July 15 to holders of record June 30. Books do not close. See statement and map on page 21 of "Ry. & Ind." Section.—V. 100, p. 555, 1006.

Calumet & South Chicago Ry.—*Application.*—The Ill. P. U. Commission was to hear on Wednesday the application for permission to issue $500,000 additional 1st M. 5% bonds.—V. 100, p. 1078.

Canadian Pacific Ry.—*Granted.*—
See Pennsylvania RR. below.—V. 100, p. 1347, 811.

Carolina Power & Light Co.—*Bonds.*—W. C. Langley & Co., N. Y., recently purchased and sold at 93½% a block of 1st M. 5s of 1908, due Aug. 1 1938, authorized $5,000,000, outstanding $2,582,000. See report, V. 100, p. 1670, 732.

Charlotte (N. C.) Electric Ry.—*Stock Reduction.*—
The company through an amendment in its charter has reduced its capital stock from $1,250,000 to $1,000. The railway is now being operated by the Southern Public Utilities Co.—V. 91, p. 1511.

Chicago City Ry.—*Application.*—The Ill. P. U. Commission was to hear on Wednesday the application to issue $3,050,000 additional 1st M. bonds.—V. 100, p. 1164.

Chicago Rock Island & Pacific Ry.—*Payments.*—Judge Carpenter in the Federal Court at Chicago on June 26 authorized the redemption on June 1 of the annual installment of $20,000 Little Rock Bridge bonds at 105.

The Court stated that he would hold another hearing before deciding what action should be taken regarding the interest and sinking fund on the bonds of the Consolidated Coal Co. of Indiana and of the Union Terminal Ry. of St. Joseph, due June 1 and July 1, respectively. June 7 was set as the date for the fixing of the receivers' salaries. The hearing on the petition of N. L. Amster, representing minority stockholders, was also adjourned.—V. 100, p. 1671, 1591.

Chicago Railways Co.—*Application.*—The Ill. P. U. Commission was to hear on Wednesday the application for permission to issue $3,145,000 1st M. 5% bonds.—V. 100, p. 1745, 1671.

Chicago Utilities Co.—*Proposed Sale.*—Vice-President Robt. J. Dunham of Armour & Co. is quoted as saying:

Since reorganization of the Illinois Tunnel Co., in the spring of 1910, the owners have spent $6,000,000 in an attempt to build up an automatic telephone system. The franchise requires a plant serving 20,000 subscribers. In 1911 the Everett Audit Co. reported we had 23,000, but the automatic telephone system never paid operating expenses. (The P. S. Commission recently reported total number of telephone stations 14,883 and the number of subscribers still smaller.)

Experts said we would have to spend $20,000,000 to $25,000,000 in building up a system of 150,000 subscribers at least, in order to make the venture pay. Believing that even if we spent this amount, the people did not want a dual system, we made a contract more than a year ago to sell out to the American Telephone & Telegraph Co. for $6,300,000. That contract expires July 1 1916.

The ruinous situation for us is this: A final court decision on the forfeiture clause cannot be obtained before the expiration of the contract. We might as well tear up our contract now, even if we should win in court. Under such circumstances, to force us into litigation after failing to consider our ordinance on its merits, seems inequitable and unjust. Suppose the city succeeds [in causing forfeiture of property and franchise—Ed.], because of an alleged technical violation of the ordinance, Chicago would lose much more than it could possibly gain by reason of the attack on the confidence of investors in all Chicago securities.

Besides, the city has nothing to fear from the sale of the automatic telephone system to the Chicago Telephone Co. The city does not consent to any increase in capitalization of the Chicago Telephone Co. The ordinance is so worded that the city simply permits the sale of tangible property. The city is not asked to agree to any purchase price whatever, and does not commit itself by consenting to the sale to the reasonableness of the purchase price.

For the purpose of rate making in Chicago, the Chicago Telephone Co. could add to its capital account only such part of the purchase price paid as represents the reasonable value of property acquired by it from the automatic system and used by Chicago Telephone Co. in Chicago. It should also be understood that the merger will not confer any additional franchise rights on the Chicago Telephone Co. The enabling Act authorizing the sale does not authorize the sale of the franchise but only of the tangible property.—V. 100, p. 1751, 1256.

Cincinnati Indianapolis & Western Ry.—*Foreclosure.*—The U. S. District Court at Cincinnati on May 26 ordered the foreclosure sale of the property under the mortgages to the Equitable Trust Co. of N. Y. and Central Trust Co., securing the 1st & Ref. M. and Indiana Decatur & Western M.—V. 100, p. 1256, 641.

Cincinnati (O.) Traction Co.—*Decision.*—
The Ohio Supreme Court on May 18, affirming the decision of the lower Court in Dec. 1911 (V. 94, p. 206), held that the company under the 50-year franchise of Aug. 1896 is accountable to the city for 6% of its gross earnings from all traffic within the city limits, including the part retained by the interurban roads. A judgment was awarded to the city for $5,410 for additional tax on fares collected in 1905. A demand will, it is stated, be made for similar taxes in later years.—V. 100, p. 732.

Cities Service Co.—
See Massillon Electric & Gas Co. below.—V. 100, p. 1588, 1167.

Columbus (Ga.) Electric Co.—*Stock Increase.*—
This company's subsidiary, the Columbus Gas Co., has, it is stated, applied to the Georgia RR. Commission for authority to increase the capital stock from $170,000 to $210,000.—V. 99, p. 119.

Columbus (O.) Ry., Power & Light Co.—*Sale of Notes.*—E. W. Clark & Co., Phila., recently offered at 99½ and int., to yield 5½%, $1,200,000 5% 1-year gold coupon notes, Series "B," dated June 1 1915 and due June 1 1916. Interest J. & D. Authorized, $1,500,000; to be immediately issued, $1,200,000. This entire amount has been sold by the bankers and their advertisement, published for record, will be found on a preceding page. A circular shows:

Principal and interest (J. & D.) payable in Columbus or Philadelphia. Subject to redemption on 30 days' notice at 100 and int. Trustee, Commercial Trust Co., Phila. Denom. $1,000. A direct obligation secured by

deposit of First Refunding & Extension Mortgage 5% gold bonds of The Columbus Ry., Power & Light Co. (due in 1940) at 80% of their face value.

Company owns and operates the city street railway system and the electric-light and power systems (except municipal lighting) of Columbus, O. The electric franchises and certain of the important street railway franchises are considered to be without limit of time. The balance of the railway franchises expire at various periods. Services are furnished at unusually low rates—8 tickets for 25 cts.—on the railway lines, and electricity at a maximum of 7 cts. per k. w. h. for lighting purposes, and as low as ¾c. per k. w. h. for power purposes.

The aforesaid First Ref. and Ext. M. 5% gold bonds are part of an auth. $20,000,000, none of which are outstanding in the hands of the public. They are issuable only with the approval of the P. U. Commission of Ohio, and are secured by a mortgage on the entire property now owned or hereafter acquired, subject to $8,529,700 (closed) prior liens.

Earnings of Company for the 12 *Mos. ended March* 31 1915.

Gross earnings	$3,075,551	Bond interest, &c	$445,816
Net, after taxes	$1,211,552	Balance, surplus	$765,736

Interest on these $1,200,000 notes calls for $60,000 bal. surp. $705,736.

Columbus, the capital of Ohio, has a population of about 245,000, and from it radiate no less than 11 interurban railways, which, together with excellent railroad facilities, make it the commercial centre of a large territory.

[The Ohio P. U. Commission has authorized the company to issue $1,739,000 of the new 1st Ref. and Ext. M. 5% bonds, this amount including the $1,500,000 to be deposited under the $1,200,000 series "B" notes.—Ed. Compare V. 100, p. 1509, 1256.

Delaware Lackawanna & Western RR.—*Reply.*—
See Morris & Essex RR. below.—V. 100, p. 1509, 726.

Electric Short Line Ry. Co., Minneapolis.—
See Electric Short Line Terminal Co. below.

Electric Short Line Terminal Co., Minneapolis.—*New Project.*—This Minnesota corporation, authorized capital stock, $2,500,000, in $100 shares (no bonds) is offering $500,000 of "full paid" stock. An advertisement says:

The proceeds will be used for the improvement of the terminal properties and the extension of the Electric Short Line Ry. [W. L. Luce, Pres.; line projected from Minneapolis to Hutchinson, 64 miles; in operation at last accounts from Minneapolis to Wayzata and Long Lake, 20 miles.]

The Electric Short Line Terminal Co. owns in fee properties starting at 7th St. at 2d Ave. North and extending westerly 3¼ miles, with ample acreage for industrial sites. Improvements consist of standard double tracks, 80-lb. steel rails, bridges, culverts, interlocking plant and improved real estate. Property is sufficiently large to take care of several large systems of railways. At present has five sources of income: (1) Perpetual leases guaranteed by the Electric Short Line Ry. and Dan Patch Electric Ry. (Minneapolis, St. Paul, Rochester & Dubuque Electric Traction Co. (see that company below, and p. 71 of "Elec. Ry. Sec."). (2) Rents from leased industrial sites. (3) Transfer and switching charges. (4) Contract charges against foreign lines desiring to enter Minneapolis over these terminals. (5) Rents from improved properties. Stock is already on an earning basis. By June 1 the Luce and Dan Patch lines will bring into the terminal 50 trains a day. Office, Phoenix Building, Minneapolis.

Fairmount Park Transportation Co.—*Sale June* 22.

The property is advertised for sale on June 22 at the company's office, Woodside Park, Phila., by order of the District Court, Eastern District, Penn., subject to the first mtge. of $750,000, dated April 1 1912. See V. 100, p. 1078, 1672.

Fort Street Union Depot Co., Detroit.—*Refunding.*—The stockholders will vote June 4 on refunding or extending the obligation represented by the First and Second Mortgage of 1895, maturing July 1 1915 ($312,000 recently outstanding), and on refunding or extending other outstanding indebtedness incurred for additions and betterments.

There are also $1,000,000 1st M. 4½s of 1891, due Jan. 1 1941, listed on the N. Y. Stock Exchange in 1893. Frank H. Alfred is President. See p. 57 of "Ry. & Ind." Supplement.

Grand Trunk Ry. Co. of Canada.—*Stock.*—The company has applied to the London Stock Exchange for authority to list a further issue of £284,445 4% guaranteed stock and £902,013 perpetual 4% Consolidated Debenture stock, making total amounts listed £12,500,000 and £24,624,455, respectively.

Application Granted.—
See Buffalo Rochester & Pittsburgh Ry. above.—V. 100, p. 1432, 812.

Hocking Valley Ry.—*New Directors.*—
Jeremiah Milbank of New York and M. J. Caples of Columbus, Ohio, have been elected directors to succeed Decatur Axtell and J. H. Hoyt, who resigned.

Suit.—See Sunday Creek Co. under "Industrials."—V. 100, p. 1751, 1257.

Illinois Central RR.—*Listed.*—The N. Y. Stock Exchange has listed $10,000,000 Ill. Cent. RR. and Chic. St. Louis & New Orleans RR. Joint Ref. M. 5% Series "A" bonds, due 1963, making the total amount listed $25,000,000. Compare V. 100, p. 397, 474.—V. 100, p. 1257, 474.

Interborough-Metropolitan Co., N. Y.—*Success of Plan Assured.*—We learned late yesterday afternoon that holders of the common and preferred stock to an amount far in excess of that required had signified their acceptance of the readjustment plan to be voted on by the stockholders on June 1. Compare V. 100, p. 1741, 1672, 1592, 1510, 1437.

Interstate Railways Co. (of N. J.), Phila.—*Exchange of Pref. Shares.*—Pres. John A. Rigg, May 20, addressing the holders of unexchanged pref. stock, said in substance:

The vote April 23 on the charter amendment making the pref. stock a permanent investment resulted as follows:

Vote on Plan—	*Pref.* (*par* $10)	*Com.* (*par* $100)
Shares issued	100,000 shares	22,912 shares
For amendment	74,632 do	20,366 do
Against amendment	244 do	None do

The remaining pref. shareholders are accordingly invited to send their old certificates to the Real Estate Title Ins. & Trust Co. of Phila., 523 Chestnut St., Phila., to be exchanged for new certificates issued under the amended charter. The stock, made payable in installments of not less than $1 annually, was issued to tide over an emergency which is now happily passed, and is of an unusual character and therefore not readily marketable. On the other hand, the new pref. shares, being of the customary kind, would pass without explanation and should therefore have a market and a market value.—V. 100, p. 308, 812, 1168, 1592.

Kansas City Ozark & Southern Ry.—*Denied.*—
Judge Kirby in the Circuit Court at Springfield, Mo., on May 24 denied the application of receiver Braden to issue $8,500 certificates to purchase a new locomotive. The road has been tied up since May 19 because its engines are useless. An engine, it is stated, will be rented.—V. 100, p. 140.

Kansas City Southern Ry.—*Listed.*—The N. Y. Stock Exchange has listed $1,000,000 additional Refunding and Improvement M. 5% bonds due 1950, making the total amount listed $17,000,000.

The proceeds of the sale will be applied as follows: To improvement of terminals, $50,000; grade revision and changes of line, $90,000; ballasting, $560,000; other corporate purposes, $300,000.

Earnings.—For eight months endng Feb. 28:

Eight Mos.—	*Gross Earnings.*	*Net (after Taxes).*	*Other Income.*	*Fixed Charges.*	*Balance, Surplus.*
1914–15	$6,813,404	$2,047,833	$131,953	$1,348,613	$831,173
1913–14	7,191,781	2,351,602	-------	-------	-------

Total surplus Feb. 28 1915, $6,500,420, after deducting two quarterly dividends on pref. stock, paid Oct. 15 1914 and Jan. 15 1915, calling for $420,000.—V. 100, p. 474.

Lewiston Augusta & Waterville Street Ry.—*Notes.*—
The Maine P. U. Commission, it is said, has authorized the company to issue $750,000 5% 3-year notes, dated July 1 1915 and due June 1 1918.—V. 94, p. 826.

Lewiston Nez Perce & Eastern RR.—*Mortgage.*—The company, it is stated, has filed with the Spokane & Eastern Trust Co. a mortgage to secure an issue of $5,000,000 bonds.—V. 100, p. 1592.

Long Island RR.—*Answers in Suit.*—The answer of the 13 directors of the company in the suit recently brought by Dick Bros. & Co., charging mismanagement, was served on Wednesday, as were also the answers of the Pennsylvania RR. and Penn. Tunnel & Terminal Co. (V. 100, p. 1257).

All of the charges alleging mismanagement, waste of money and the use of the company's funds for the benefit of the Pennsylvania RR. to the detriment of the Long Island RR., are denied.

The answer of the directors explains at length the needs of the Long Island RR. for new capital to bring it up to standard when the Pennsylvania RR. had purchased control and the manner in which the latter, through its credit has enabled the company to expend since 1900 over $50,000,000 and has brought the road to a proper point of physical development.

It is stated that the whole development has been, is and will be, of great benefit, profit and advantage to the Long Island. The debt is neither unreasonable, excessive or unfair. Relative to the magnitude of the undertaking, it is exceedingly small. The rate of interest has been low, 4%. In none of its dealings with the Long Island RR. has the Pennsylvania RR. been oppresive or unreasonable, or acted inequitably. The directors have committed no waste, they have permitted no waste.

The terms under which the Long Island operates its road into Manhattan are said to be reasonable and fair, and the expenditures to obtain an entrance into Manhattan have been justified by results, gross earnings having increased 190% in 1914, over 1900.—V. 100, p. 1592, 1348.

Manila Electric RR. & Lighting Corp.—*Earnings.*—

Calendar Year—	*Gross Earnings.*	*Net (after Taxes.*	*Bond Interest.*	*Dividends (7%).*	*Balance, Surplus.*
1914	$1,602,601	$783,587	$277,717	$350,000	$155,870
1913	1,698,593	907,807	277,617	350,000	280,190

From the surplus as above there was deducted yearly $28,250 for sinking fund reserve and $80,000 for replacements and renewals, leaving $47,620 in 1914, against $171,941 in 1913.—V. 100, p. 733.

Massachusetts Electric Companies.—*No Dividend.*—The trustees have decided to omit the semi-annual dividend on the $24,123,162 4% cum. pref. stock usually paid on July 1. From July 1910 to Jan. 1915 the full 4% rate (2% semi-annually) was disbursed. In July 1912 the accrued dividends (17¾%) were paid in full in pref. stock (V. 93, p. 1462; V. 94, p. 68).

The action, it is stated, is because of unsatisfactory earnings and the uncertainty as to the award to be made by the arbitration board in regard to wages, which has been pending for some time (V. 99, p. 1746).—V. 100, p. 733, 556.

Minneapolis St. Paul Rochester & Dubuque Electric Traction Co.—*Notes.*—The J. G. White Engineering Corp. and the General Electric Co. interests of New York and Stevens, Chapman & Co. of Minneapolis, have jointly purchased $750,000 3-year 6% notes secured by a mortgage just filed to the Minneapolis Trust Co., trustee. The proceeds will be used to complete the line into Minneapolis terminal and add to equipment.

New Terminal Company in Minneapolis—Lease.—See Electric Short Line Term. Co. above.—V. 99, p. 197.

Missouri Pacific Railway.—*Note Deposits.*—It was officially stated late yesterday afternoon that there had been deposited $17,200,000 of the $24,485,000 Extended Three-Year 6% Secured Gold Notes due June 1, under the agreement providing for an extension for one year. Numerous returns from foreign holders which were expected had not yet been received. The Old Colony Trust Co. has been appointed Boston depositary for the deposit of notes of the above issue. The assents, it is stated, include the Speyer and Rockefeller holdings.—V. 100, p. 1752, 1672.

Morris & Essex RR.—*Reply by D. L. & W.*—The Delaware Lackawanna & Western RR., in circular signed by President W. H. Truesdale, May 18, replies to recent allegations (V. 100, p. 1672, 1752), in substance:

Allegations.—The 7% has been paid regularly on the stock since the making of the lease, and we insist that the 1% additional has never accrued under the conditions of the lease.

The stockholders' committee contends that, while the accrual of the additional 1% may not appear from the accounts, such showing is due to the alleged facts: (*a*) That, at the instance of the lessee, the bonded debt has increased between 1874 and 1914 upwards of $19,000,000, a large part of which was for expenditures not properly chargeable to construction account, and (*b*) that there has been an improper division of earnings on through business whereby the Morris & Essex has not been credited with its proper share thereof.

(*a*) *Bonded Debt.*—It appears clear to us that the meaning of the words "chargeable to construction account," as used in the lease, includes those charges for doing work of an extraordinary nature, as distinguished from the expenditures for maintenance which were assumed by the lessee. On this interpretation the various expenditures, upon which is predicated the increase of $19,000,000 in the bonded debt of the lessor, clearly warranted such increase. They included:

Advances by Lessee from 1875 *to* 1914 *incl., for which* $19,642,000 *of Morris & Essex Bonds Were Issued.*	
Sundry advances for construction (prior to Dec. 31 1875)	$875,953
Engineering, land, land damages, grading and bridges in connection with completion of Boonton branch, add'l tracks, &c.	3,642,990
Terminal improvements at Hoboken and Jersey City, including filling in of land and land under water and the cost of real estate acquired in 1882, with the proceeds of the real estate 1st mortgage bonds, $1,800,000	3,409,989
Roadway buildings, shops, machinery, power house at Hoboken, stations, &c	3,097,883
Tunnels	4,282,582
Change of line and grade through Newark, Maplewood, Summit, &c	3,665,807
Add'l piers & wharves, $598,238; add'l equipt., $1,534,299	2,132,537
Purchases of Sussex stock, $432,535, and Chester bds., $100,000	532,535
Credit for premiums on bond sales, &c	1,639,814
Total (bonds, $19,642,000; still due lessee, $358,461)	$20,000,461

While the "line of road," i. e., the straightaway mileage of roadbed, has not increased, the following table shows the trackage has nearly trebled

All Track—	Single Track.	Double Track.	Total Road.	Sundry Sidings.	Total Track.
December 31 1868	89.00	30.25	119.25	33.50	183.00
December 31 1914	18.04	100.95	118.99	281.91	501.85

It is not true that it has been our policy to charge the Morris & Essex Co. with practically all improvements and betterments on their property. Of their proportion of the cost of the present passenger terminal at Hoboken, nearly $500,000 was absorbed by the Lackawanna Co. All the cost of the new Short Hills station and at least one-half the cost of all other new stations on the leased line has been so absorbed. Of the sums expended since 1880 for improvements on the Morris & Essex and properly chargeable to construction account, upwards of $9,000,000 has been assumed by us.

Nor is it correct to say that a very large proportion of expenditure made at the instance of the Lackawanna Co. on the M. & E. has been made for the benefit of the Lackawanna System and not for the benefit of the M. & E. as a separate corporation. We do not know of any such expenditures. The fact is that a very large proportion of such expenditures has been made for improvements and betterments on that part of the line almost exclusively employed in handling the commutation passenger traffic, which is purely Morris & Essex Company's business.

Had it been our purpose to inflate the interest charge and thereby defeat the accrual of the 1% additional rental, we would have capitalized the entire $9,000,000 which, as above stated, the Lackawanna Co. absorbed, and instead of refunding with 3½% bonds and absorbing the large discount, the Lackawanna Co. would have sold refunding bonds bringing par.

(b) *Division of Gross Earnings.*—No separate accounts are kept of the earnings of the various railroads in New Jersey operated by this company (except the Sussex RR. and Lackawanna RR. of N. J.), the prorating of earnings being by States and not by lines. The method of dividing revenue on through business is on the usual mileage prorate basis, adopted by the National Association of Railway Commissioners.

The claim of the committee to an arbitrary over the mileage prorate, because of the large investment in the terminal at Hoboken, is not well founded in theory or railroad practice. In theory the basis for arbitraries is the extraordinary expense of operating a terminal, as compared with an interior division. But this cannot be urged in behalf of the M. & E. Co., since it is not, under the lease, interested in the cost of maintenance or of operation, the rentals reserved being based on gross earnings.

The committee's circular purports to show for the years 1905 to 1914 the gross earnings of the Morris & Essex, the interest charges and "apparent excess of interest charge plus 10% on capital stock over 30% of gross earnings." The gross earnings are over-stated. The figures used represent gross earnings of all our New Jersey lines, except the Sussex and Lackawanna RR. of N. J. The earnings of the Newark & Bloomfield, the Chester and the Morris Extension railroads are properly included in said gross earnings, but not the earnings of the Passaic & Delaware, Pasaic & Delaware Extension, Hopatcong and Warren railroads which are leased directly to the Lackawanna Co. Furthermore, the tabulation, while including the earnings of the Newark & Bloomfield and Morris & Essex Extension railroads, shows no deduction from the 30% of gross earnings for the interest on the stock of these railroads, which are obligations of the Morris & Essex Co.

If such deduction were made and a further deduction of the amount paid by the Lackawanna Co. as rental for directly leased lines in New Jersey was also made from 30% of the gross earnings shown (upon the assumption that 30% of the gross earnings of such directly leased lines at least equal such rental charges), the tabulation would show:

Apparent Excess of Int. Charges Plus 10% on Cap. Stock over 30% of Gross
1905, $455,552 | 1907, $305,614 | 1909, $366,021 | 1911, $175,510 | 1913, $744,638
1906, 318,082 | 1908, 719,637 | 1910, 169,041 | 1912, [$801,311 | 1914, 836,420

The marked falling off in the gross earnings from 1912 to 1914, incl., is wholly due to the fact that the Lackawanna RR. of N. J., known as the "cut-off," began to do business in Dec. 1911. This line runs from Netcong, N. J., to Slateford Junction, Pa. Over it passes a large part of the through business which formerly moved via the Warren RR. to the Morris & Essex RR. at Washington, N. J., whereas, since Dec. 1911, such traffic is received by the Morris & Essex RR. at Port Morris, N. J.

Outlook.—The foregoing does not encourage the hope that additional rental will accrue to the lessor in the immediate future, even though there be no increase in bonded debt. Compulsory changes of line and grade are threatened under recent legislation. Electrification of some parts of the line may become necessary. These improvements will result in large expenditures which, under the lease, are to be reimbursed to the D. L. & W. RR. Co. and are likely to increase interest charges.

The stockholders are to be congratulated that they receive 7% on their stock. Their road was not earning its fixed charges in 1868 when the lease was made, and it has not earned and does not now earn 7%, nor any sum approaching 7%, on the stock. We shall, however, do our best to expedite the determination of the questions involved in the suit based on the allegations in question. See also V. 100, p. 1672, 1752.

New England Investment & Security Co.—*New President.*—Francis H. Dewey, President of the Worcester Consolidated Street Ry. has been elected President to succeed President T. J. Harmer, who resigned.

Mr. Dewey will continue as head of the Worcester Consolidated Ry., but will make his headquarters in Springfield.

Officials of the Springfield and Worcester trolley unions have been holding conferences with the company's officers regarding a new wage scale. Late last week it was generally believed that a hopeless deadlock had resulted and that the final means of arriving at a settlement would be by arbitration. Officials of the New England Investment & Security Co. held out for payment of the men by the hour on the basis of the scale of wages in effect on the Worcester Consolidated lines, which would mean a substantial cut in wages for the Springfield Street Ry. men, who are now paid by the day. The strike on the Springfield and interurban trolley lines which tied up the lines for two days was declared off on April 1.—V. 100, p. 398.

New York Central RR.—*Bond Syndicate Dissolved.*—It was announced on May 25 that the sundicate headed by J. P. Morgan & Co., which underwrote the $100,000,000 6% convertible debenture bonds, had been dissolved, all except $5,000,000 of the bonds having been subscribed for by the stockholders. The profit realized by members of the syndicate, it is stated, aggregated, net, 2.45%.—V. 100, p. 1752, 1592.

New York New Haven & Hartford RR.—*Bill Passed.*—The Mass. House on May 27 by a vote of 129 to 78 passed the so-called validation measure, which goes to the Governor.

The bill, which was introduced with the support of commercial interests, to rehabilitate the road, validates all New Haven stock, funds and floating debt and permits an issuance of preferred stock and mortgage bonds. Many legal difficulties in regard to the status of securities issued by New Haven subsidiaries will be settled and the Act will enable the funding of $53,000,000 of floating debt now carried by the company at a high interest cost. The annual saving of interest will be about $1,500,000, which will be available for improved service and additional facilities. The company is permitted, with the approval of the P. S. Commission, to issue bonds up to twice the amount of its capital stock.—V. 100, p. 1752, 1673.

Northern Massachusetts Street Ry.—*Consolidation.*—The Governor of Mass. has signed a bill authorizing the company to absorb by consolidation or purchase the Connecticut Valley Street Ry. Co.—V. 100, p. 1168.

Pacific Great Eastern Ry.—*Loan.*—The company, it is announced, has obtained through the British Columbia and Dominion governments about $3,000,000 with which to complete the line as far north as the Hundred-Mile House in Cariboo, 223 miles from Vancouver. This, it is stated, will take until the end of the year. The road is now in operation between Vancouver and Lillooet, 120 miles.

The money is part of a $5,000,000 loan arranged last year with the Union Bank, secured by bonds of the company guaranteed by the Province, the bank's advances being at the rate of about 80 cents on the dollar for the bonds deposited with it. This loan in turn forms part of the $6,000,000 loan which the Dominion Government last year agreed to make to complete the road. Compare V. 99, p. 1838, 1452, 1301.

Pennsylvania RR.—*No Action at Present on Lake SS. Order—Ferry Operation Permitted.*—Officials of the company and other roads concerned with the order of the I. S. Comm. Commission made on May 7 directing them to dispose of their holdings in the steamship lines operating on the Great Lakes by Dec. 1 next, have it is reported, decided to take no action at present.

The lake navigation season closes by that time, remaining closed for five months, during which the roads could resort to action in the courts.

The I. S. Comm. Commission on May 21 entered an order granting the petitions of the company and of the Canadian Pacific Ry., permitting them to continue to control the Pennsylvania-Ontario Transportation Co., which operates a car ferry on Lake Erie between the ports of Ashtabula, O., and Port Burwell, Canada. The transportation company is ordered to file tariffs in accordance with the provisions of the Inter-State Commerce Act by July 1.—V. 100, p. 1752, 1673.

Pere Marquette RR.—*Foreclosure Sale.*—Judge Tuttle in the U. S. District Court at Detroit, Mich., on May 24, on application of the underlying bondholders, ordered the foreclosure sale of the road on Oct. 1 next, no satisfactory plan of reorganization having been presented by the consol. mtge. bondholders.

The Court selected June 7 as the date for announcing the formal conditions of sale. The receivers were directed to file a petition on that date asking for the sale of the road to pay its debts, amounting, it is stated, to about $12,000,000. Judge Tuttle intimated in reply to the objection of bondholders under the consolidated mtge. of 1901 that they would have another opportunity at the hearing on the petition to submit a plan of reorganization as the only alternative. The underlying bondholders, in their application for the sale of the road, guaranteed to bid a sufficient sum to clear away the equipment indebtedness of about $12,000,000, as well as their own claims of about $28,000,000.—V. 100, p. 1673, 1438.

Portland (Ore.) Ry., Light & Power Co.—*Common Stock When Reduced to $20,000,000 to Be Still 75% Paid.*—

The financial plan adopted May 14 involves a reduction in common stock from $25,000,000 75% paid to $20,000,000 75% paid (*not* "full paid" stock). See plan, V. 100, p. 1511.—V. 100, p. 1666, 1673, 1753.

Public Belt RR., New Orleans.—*Bonds Sold.*—

See New Orleans in "State and City Department" on a subsequent page.

Rapid Transit in New York City.—*Contracts, &c.*—

P. S. Commissioner Williams on Thursday expressed the opinion that it is practically certain that the Fourth Ave. (Brooklyn) subway will be formally opened either on June 15 or June 19, the date set for the public celebration. The entire line will be placed in operation as a two-track road for local service. It is expected that the third rails for the express tracks will be ready within a few weeks thereafter. Representatives of the Brooklyn Rapid Transit Co. recently stated that it is ready to place 144 cars in operation. Twenty-two trains will, it is stated, be used.

The P. S. Commission on May 25 awarded to the Oscar Daniels Co., the lowest bidder, for $863,775 the contract for the construction of Section 2 of Route 49, the first section of the elevated extension of the Fourth Ave. (Brooklyn) subway connecting with the Old Culver Line in 38th St., extending from a point 525 ft. south of Dey Parkway, otherwise 22d Ave., produced over Gravesend Ave. and Shell Road to a point in Shell Road 525 ft. south of Ave. X, produced. Bids will be opened June 15 for building Section 1 of Route 29 in Nostrand Ave. from Eastern Parkway south to a point 220 ft. south of Church Ave., to be a two-track subway branch of the Eastern Parkway subway.

The Commission on May 18 directed its chief engineer to prepare at once plans for the Utica Ave. branch of the Eastern Parkway (Brooklyn) subway which will be an extension of the present Interborough subway in Brooklyn. There is no appropriation for this subway, but a large number of property owners have petitioned the Commission to have the line built and paid for by assessment on the property to be benefited.

Governor Whitman on May 10 signed the Patten bill under which the P. S. Commission, with the approval of the Board of Estimate, may acquire the right to operate subway cars over the tracks of the Long Island RR. as far as Corona, L. I. The Governor has also signed the bill permitting the exchange of a strip of land purchased by the Commission for the extension of the branch of the Lenox Ave. subway north of 180th St. for a strip of Bronx Park in order to avoid a dangerous crossing over the tracks of the N. Y. Westchester & Boston Ry.—V. 100, p. 1593, 982.

St. Louis & San Francisco RR.—*Plan.*—While much of the talk regarding the terms of a tentative plan of reorganization is pronounced unworthy of attention, leading security interests, it is understood, are agreed that the new company should issue 75% in 4% mortgage bonds and 25% in 6% adjustment cumulative income bonds in exchange for the company's Refunding 4s and the guaranteed stock of the Kansas City Fort Scott & Memphis.—V. 100, p. 1593, 1259.

San Francisco-Oakland Terminal Rys.—*Reorganization.*—John S. Drum, Sec. of the F. M. Smith Advisory Committee, May 15 issued the following:

The San Francisco-Oakland Terminal Rys. will pay the interest due May 19 on the general consolidated mortgage bonds of the San Francisco Oakland & San Jose Consolidated Ry. The complete financial reorganization of the railways is believed to be necessary, and, in view of the conflicting rumors that have been current, it is desired to announce that all of the engineering and accounting data and other information necessary to be considered in preparing a plan have been collected and are now available, but no plan will be determined upon until the Railroad Commission acts on the company's application for an authorized valuation as a foundation. When this valuation is received, a reorganization committee will begin work at once and prepare and submit a plan to the bondholders. Within a few days a letter will be addressed to the security holders by the railway company to acquaint them fully with the condition of the company. Inasmuch as all preliminary valuations give a sum in excess of all of the note and bond issue at par, bondholders are advised not to dispose of their securities at the present market prices.—V. 100, p. 1753, 1653.

San Pedro Los Angeles & Salt Lake RR.—*Bonds.*—

The company has applied to the Cal. RR. Commission for authority to issue, at not less than 82, $311,000 1st M. bonds, the remainder of the issue of $861,000 authorized by the Commission a year ago. They are to be given to the Oregon Short Line RR. Co. and W. A. Clark for advances. Compare V. 98, p. 1994.

Scranton & Binghamton Ry.—*Sale of Control.*—Control of the road was, it is reported, sold on May 21 by W. L. Connell, T. J. Foster and J. K. Griffith to Mortimer B. Fuller, Pres. of the International Salt Co., E. J. Lynett and M. W. O'Boyle.—V. 98, p. 840.

Southern Pacific Co.—*Favorable Decision.*—The Appellate Court at Franklin, Ky., on May 25 affirmed the decision of the Franklin Circuit Court in the suit of the Commonwealth against the company and the Louisville & Nashville RR., holding that these companies do not have to pay an organization tax on their original capital stock.

The question before the Court was the construction of Section 4225 of the Kentucky Statutes and its application to the two cases. The Southern Pacific Co. was organized in 1884, with $200,000,000 authorized stock, but in 1909 was increased to $376,000,000. The Louisville & Nashville

was capitalized in 1850 at $60,000,000, but this was in 1912 increased to $72,000,000. Neither company paid organization tax on the original capital stock because the acts under which they were organized did not require it, and there was no special law on the subject.

The suits were brought to recover the tax on the ground that the law was retroactive. The tax claimed was 1-10 of 1% of the original stock. —V. 100, p. 1673, 1259.

Springfield (Mass.) Street Ry.—*Wage Negotiations.*—See New England Investment & Security Co. above.—V. 100, p. 1350.

Syracuse (N. Y.) & South Bay Electric RR.—*Foreclosure—Reorganization.*—The Equitable Trust Co. of N. Y. recently brought suit to foreclose the mortgage of 1907, under which $487,000 bonds are outstanding. Ernest Gonzenbach was on May 26 appointed receiver.

A committee consisting of Wilbert L. Smith and William Nottingham of Syracuse and F. W. Roebling Jr. of Trenton, N. J., is, it is stated, working out reorganization plans for the company and Syracuse Watertown & St. Lawrence River RR.—V. 84, p. 1183.

Syracuse (N. Y.) Watertown & St. Lawrence River RR.—*Foreclosure.*—The Bankers' Trust Co. of N. Y. has decided to bring a suit to foreclose the mortgage, under which $200,000 bonds are outstanding. See Syracuse & South Bay Electric Co. above.—V. 94, p. 983.

Union Pacific RR.—*Listed.*—The N. Y. Stock Exchange has listed $289,000 additional First Lien and Refunding M. 4% bonds, due 2008, with authority to add $711,000 bonds on notice of issuance in exchange for outstanding sterling bonds, making total amount auth. to be listed, $39,402,000.

There have been issued £5,500,000 sterling bonds, of which £57,800 have been exchanged for $289,000, payable in U. S. gold coin, leaving £5,442,200 outstanding, which may be converted into dollar bonds at option of holder.

Earnings.—For year ending Dec. 31 1914:

	Year end. Dec. 31 '14	Year end. June 30'14		Year end. Dec. 31 '14	Year end. June 30 '14
	$	$		$	$
Gross earnings	89,166,624	92,115,333	Int., rentals, &c.	15,334,878	16,327,770
Net (after taxes)	31,122,548	31,626,214	Pref. div. (4%)	3,981,740	3,981,740
Other income	15,263,798	17,795,500	Common div.	a18,810,762	b19,780,778
Tot. net income	46,386,346	49,421,714	Balance, surplus	8,258,966	9,331,426

a 8½%. b9%.

"Other income" as above in the calendar year 1914 includes among other things, interest on bonds owned, $3,397,135; dividends on stocks owned, $7,078,190; and interest on loans, short term notes and open accounts (balance), $3,680,823, against $2,883,791, $9,258,794 and $4,209,339, respectively, in the year ending June 30 1914.—V. 99, p. 1679, 1675.

United Railways of St. Louis.—*Negotiations.*—The Board of Aldermen on May 21, by a vote of 24 to 3, passed a resolution providing for the appointment of a committee of five to confer with officials of the company in an effort tocompromise the mill-tax cases now pending in the courts.—V. 100, p. 1439, 807.

United Traction Co. of Albany, &c.—*Re-hearing.*—The P. S. Commission on May 27 began a re-hearing as ordered by the Appellate Division of the Supreme Court on certain provisions of the Commission's order for improved service. Further hearing was adjourned to June 7.

The re-hearing is confined to two points: (1) The financial ability of the company to purchase at once 12 new modern cars seating 40 passengers, and 30 more cars as early as possible; and (2) Certain modifications in the emergency telephone system prescribed by the Commission's order. The Court said: "Such re-hearing shall be confined to the claimed impossibility or difficulty to raise the money that is necessary to carry into effect the provisions of the order by reason of the foreign war now in progress, and as bearing upon such question the present financial condition of the relation may be shown."

As the time for compliance with certain clauses of the Commission's order has expired, there is also included in the subjects for the re-hearing a new time to be set for compliance therewith.—V. 100, p. 310.

Wabash RR.—*Sale June 23.*—The property is advertised to be sold at auction at St. Louis on June 23 under foreclosure of the 1st & Ref. M. of 1906 and subj. to the underlying liens.

Upset price, the sum necessary to pay the costs of foreclosure, &c., and to pay principal and interest of the receivers' certificates. As earnest money there must be deposited $1,700,000 cash or $3,500,000 1st & Ref. M. bonds. The sale will include in addition to the road, &c., (*a*) $1,000,000 stock of the Chicago & Western Indiana, subject to lien of 1st M. of 1889; (*b*) $10,000 stock of Moulton Albia & Des Moines RR., $50,000 stock of Des Moines Union RR. and $2,000,000 stock of Des Moines & St. Louis RR., all said stocks being subject to lien of Des Moines Div. mortgage of 1899; (*c*) also, subject to order of U. S. Dist. Court for East. Dist. of Mo. on Jan. 31 1913, the following: $3,500,000 "A" and $25,244,000 debenture "B" bonds of Wabash RR., $20,000 stock (15% paid in) of Keokuk Union Depot Co., $100,000 stock of Kansas City Excelsior Springs & Northern Ry., $200,000 stock of Lake Erie Transportation Co., $729,700 stock of St. Louis Council Bluffs & Omaha RR., $7,800 stock of Hannibal Union Depot Co. and $9,996,500 stock of Wabash-Pittsburgh Terminal Ry. (*d*) Also the following rolling stock, the title to which has been acquired by trustee of First Ref. and Ext. M., namely: 10 Pacific type locomotives, 15 Mikado type freight locomotives, 700 box cars, 500 box cars, 264 gondola coal cars.—V. 100, p. 1673, 1599.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Alabama Company, Baltimore.—*Coupons.*—Sec. and Treas. James E. Whitney on May 13 1915 wrote:

Under the conditions existing at the time the board of directors met, it was thought unwise to pay the May 1 1915 coupon on the 2d M. bonds of the Alabama Consolidated Coal & Iron Co. [the $1,641,000 5% 1st Consols of 1903, due 1933.—Ed.]. It was deemed conservative not to borrow the money to pay the interest on said bonds, as under the deed of trust the payment of interest can be deferred for a year. While the outlook for the coal and iron business was somewhat more favorable, it was considered best not to bank on the chance of improved prices. There has been some improvement since the meeting and it is quite possible that the coupons in question may be paid within the next few months out of the equity on pig iron that is being used as collateral.—V. 100, p. 1594.

American Beet Sugar Co.—*New Director.*—William Fellowes Morgan has been elected a director to fill a vacancy. —V. 100, p. 1668.

American Chicle Co.—*Dividend, 1%.*—A dividend of 1% has been declared on the $8,000,000 common stock, payable June 21 to holders of record June 14. On May 20 1½% was paid. From May 1906 to March 1915 1% and 1% extra was paid bi-monthly in Jan., March, May, July, Sept. and Nov., and in Oct. and Dec. 1914 1% extra was also paid. Compare V. 99, p. 896.

*Also in Oct. and Dec. 1914 1% extra.—V. 100, p. 1512, 311.

American Coal Co.—*Earnings.*—

Calendar Year—	Gross Earnings.	Net Earnings.	Depreciation.	Dividends (6%).	Balance, Surplus.
1914	$842,679	$174,277	$53,363	$90,000	$30,914
1913	1,008,831	235,574	88,931	90,436	56,207

—V. 99, p. 1912.

American Multigraph Co., Cleveland.—*Dividends.*—A quarterly dividend of 1% was paid on June 1 on the $1,000,000 common stock to holders of record May 22, being the same as on March 1 last. From Sept. 1913 to Sept. 1914 1% quarterly and ½ of 1% extra were disbursed, and in Dec. 1914 ½ of 1%. In March and June 1913 and Oct. and July 1912 1% was paid without any extra, and in October 1908 ½ of 1%. The payments during 1914, therefore, aggregated 5%, the same as in 1913. The company, besides its routine work, is, it is stated, engaged in general machine shop work.—V. 100, p. 903.

American Sugar Refining Co.—*Favorable Decision.*—The Louisiana Supreme Court has affirmed the decision of the Lower Court dismissing the suit brought by the State and to oust the company and restrain it from doing business there.

The Court held that the Constitutional Convention of 1913 had no authority to direct the filing of the suit. Compare V. 99, p. 1751.—V. 100, p. 894, 903, 311.

Associated Gas & Electric Co.—*Consolidated Earnings.*

Calendar Year—	Gross Earns.	Net Earns.	Other Inc.	Charges Sub. Cos.	—Asso. G. & El. Co.— Int.	Pref. Div.	Balance, Surp.
1914	$631,548	$232,788	$27,354	$70,391	$105,766	*$54,419	$29,566
1913	774,818	225,409	53,913	97,827	112,807	*39,627	29,061

*6%.—V. 98, p. 1918.

Atlas Powder Co.—*Extra Dividend.*—An extra dividend of ½ of 1% has been declared on the common stock in addition to the usual quarterly distribution of 1½% (the rate in effect since Dec. 1913), both payable June 10 to holders of record May 29.—V. 100, p. 1595, 1513.

Baldwin Locomotive Co.—*No Common Dividend.*—The directors on Thursday voted to postpone the semi-ann. dividend on the $20,000,000 common stock usually paid on July 1. From Jan. 1912 to Jan. 1915 1% was disbursed semi-annually. President Johnson says:

Owing to the depression in business during the past six months, the directors decided to postpone action on the common dividend. That is all I have to say.—V. 100, p. 730.

Barney & Smith Car Co.—*Plan.*—The stockholders' committee under deposit agreement of Feb. 20 1915 presents a plan of reorganization dated May 24, saying:

In June 1912 the old management retired. The chief order under the new regime was for 5,000 freight cars, on which, in spite of the flood and the receivership, there was a substantial profit. When the flood occurred there were bills and accounts payable of $1,750,000. Income ceased, resulting in the receivership. The receivers in Oct. 1913, after four months, paid off 25% of the debts, and within 10 months thereafter another 25%. They also installed an additional steel plant, almost doubling capacity, and made other improvements, the total cost being over $250,000, and have kept up the payment of bond interest.

The statement as of Mar. 31 1915 shows a net value of $1,577,061, and net profits from operation from June 23 1913 to Mar. 31 1915 of $137,168 after deducting $177,222 bond interest. This we regard as satisfactory under all the disturbed conditions and with the steel car addition under construction. The steel plant is now completed and showing good economies. The average output of the properties July 1 1913 to Apr. 1 1915 was about 34½% of capacity. Under the proposed capitalization the operations, we are convinced, will be profitable.

Present Charges—		*Proposed Charges—*	
Bond interest	$100,000	Bond interest	$100,000
8% on $2,500,000 pf. stk	200,000	7% on $1,500,000 pf. stk	105,000
Total	$300,000	Total	$205,000

Add $95,000 for sinking fund to retire bonds and for deprec., total $300,000. This must be secured from profits. The plant can turn out $15,000,000 of work per year, averaging say 5%, or $750,000 profit. Operating at 65% of capacity (believed to be a fair average), the profits should be $487,500, or say $450,000, leaving $150,000 available for dividends on the common stock, or 7½%. In former good years, with much smaller output, larger profits have been shown. The stockholders, however, must save the property. We know of no outsiders who would pay enough to give the stockholders any substantial amount in liquidation. While empowered to declare the plan effective when a majority of the shares assents, we do not at present believe it is practicable so to declare unless 75% assent, and sufficient subscriptions are received not later than June 21.

Committee: A. Clifford Shinkle, Chairman; Horace W. Lothmann, Sec.; E. J. Barney, E. L. Heinsheimer and Wm. T. Irwin.

Plan of Reorganization May 24 1915.

If the committee bids in the plant, a new company will be formed under the laws of the State of Ohio with the following proposed capitalization: 1st M. 5% bonds, $2,000,000; being (present bonds assumed); 7% cum. pref. (p. & d.) stock, $1,500,000. (The articles of incorporation may provide for an authorized issue of $2,000,000 preferred, with a view to using $500,000 thereof later on, if it shall be deemed advisable, to retire bonds); common stock, $2,000,000; total, $5,500,000, a decrease of $1,000,000.

Terms of Exchange and Subscription.

x Includes the Milltown Lumber Co., $315,702; Dayton Realty Co $80,124; B. & S. Car Co., $31,790, and C. T. H. & S. E. Ry., $2,550.
y After deducting reserves, $58,519. See also V. 100, p. 1750.

Bethlehem Steel Corporation.—*War Orders.*—Unconfirmed newspaper reports of war orders received by the company place the aggregate amount to date at upwards of $100,000,000, a part of which has been let out in sub-contracts. An order for a large quantity of lyddite shells was, it is said, recently received from the British Government in addition to earlier ammunition and ordnance contracts. The output of the works has, it is stated, been raised to about 5,000 shells a day, the plant being worked day and night in three 8-hour shifts.—V. 100, p. 1260, 1169.

Birdsboro Stone Co., Phila.—*Stock Increase.*—The stockholders will vote July 15 1915 on increasing (*a*) the capital stock from $1,000,000 to $1,500,000, (*b*) the indebtedness from $460,000 to $660,000. Sec., Robert MacBurney, 614 Bulletin Bldg., Phila.

Brown Shoe Co., St. Louis.—*New Officers—Report.*—George Warren Brown, formerly President, was on May 18 elected Chairman of the Board, a new position. John A. Bush was made President and E. R. McCarthy, V.-Pres. The other officers (re-elected) are: H. S. Hutchins, Treas., and Wm. Krall, Sec. See "Annual Reports."—V. 99, p. 1054.

Brunswick-Balke-Collender Co.—*Output—Report.*—Owing to the diminution in the number of saloons, because of the growth of prohibition sentiment throughout the country, the company has discontinued 2 of its largest bar fixture plants at Chicago and San Francisco, and will substitute largely piano cases. The future of the liquor business is believed to be in the cafe and hotel. Treasurer A. A. Troescher is quoted: "We have stopped manufacturing bar fixtures at the Long Island City plant but are still manufacturing them in the West. We recently built a new factory at Dubuque, Iowa, to handle this end of our trade exclusively, and the work along this line formerly done at the Chicago factory will be carried on at Dubuque, where we have about 1,000 men employed." See "Annual Reports."—V. 100, p. 1260.

Bush Terminal Co., Brooklyn.—*Bill Signed.*—Gov. Whitman on May 24 signed the Cullen bill (commonly known as the Brooklyn Marginal Terminal RR. bill) permitting the city authorities to establish a freight terminal railroad along the South Brooklyn water front (V. 100, p. 1170). Dock Commissioner Smith says that the pasaage of the Act enables the city to negotiate with the trunk line railroads for a contract which will give the city what, in its opinion, is the best possible operator for the proposed terminal.—V. 100, p. 1507, 1260.

Butte & Superior Copper Co., Ltd.—*Extra Dividend.*—In addition to the regular quarterly dividend of 75 cts. a share (7½%), the rate in effect from June 1914 to June 1915, an extra disbursement of $2 50 a share (25%) has been declared on the $3,500,000 stock (par $10), being a partial distribution of the extra profits now being obtained from the present high price of zinc.—V. 100, p. 1669, 1675, 1592, 1602.

Calumet & Arizona Mining Co.—*Controlled Co. Bonds.*—In explanation of the declaration of the quarterly dividend of 50 cts. per share, the rate in effect since Dec. 1914, the following statement is made: "The directors of the New Cornelia Copper Co. contemplate a bond issue of $5,000,000 secured by a mortgage upon properties of the company. It is proposed to have $3,500,000 underwritten and offered for public sale, the balance to be held in reserve.

"While it is considered that a ready market will be found for the proposed bonds under normal conditions, the directors of the Calumet & Arizona Mining Co., have deemed it desirable to place the New Cornelia on a productive basis as quickly as possible and to maintain a position where the company can, if necessary, make advances pending the sale of bonds, and be in a strong financial condition should anything unfavorable develop as a result of the present unsettled world conditions."—V. 100, p. 1081.

Central States Electric Corporation.—*No Dividend.*—The directors have decided to omit the quarterly payment usually made this month on the $4,451,900 common stock. On Feb. 19 last ½ of 1% was paid and during 1914 1% quarterly.—V. 100, p. 477.

Charleston (W. Va.) Water Co.—*Receivership.*—Judge J. M. Woods in the Circuit Court at Charleston, W. Va., on May 20, upon petition of H. L. Kink, R. G. Cox and S. Lee Phillips, mortgage trustees, appointed Forest A. Brown special receiver. Bonded debt stated at $67,500.

Chino Copper Co.—*Dividend Increased.*—A quarterly dividend of 37½c. a share (par $5) has been declared on the $4,349,700 stock, payable June 30 to holders of record June 11. From June 1913 to June 1914 75c. quarterly was disbursed, but from Sept. 1914 to March 1915 only 50c. was paid. Compare V. 99, p. 750.—V. 100, p. 1595, 1351.

Connellsville Basin Coke Co.—*Plan.*—See Central Iron & Steel Co. above.—V. 94, p. 1568.

Crowell & Thurlow Steamship Co.—*Bonds.*—Adams & Co., Boston, are offering at 101 and int. $200,000 1st M. gold 6s, series D, dated July 31 1915 and due $20,000 annually each Aug. 1 from 1916 to 1925. The bankers report:

Interest (F. & A.) payable in Boston without deduction for Federal income tax. Denom. $1,000 c*.

Capitalization: Capital stock outstanding, $800,000 (including $300,000 stock recently subscribed and partially paid in, balance to be paid up before October next); 1st M. bonds: Series A, due 1915-23, $135,000; Series B, due 1915-24, $150,000; Series C, due 1916-24, $170,000; Series D, due 1916-25, $200,000. Has in operation three steamships (2 of 4,900 tons and 1 of 7,000 tons capacity) and has building at the works of Newport News Shipbuilding Co. 2 ships of 7,000 tons each. Series D covers the Walter D. Noyes. This is to be delivered in July next; the other in Dec. The company is showing earnings equivalent to several times total interest charges and has paid 10% dividends on its stock from the start. Roughly, $100,000 of surplus earnings will go into the ships now building.—V.96 p.64.

Cuban-American Sugar Co.—*Div. Account Accumulat'ns.*—A dividend of 1¾% has been declared on the $7,893,800 7% cum. pref stock on account of accumulated dividends, in addition to the usual quarterly distribution of 1¾%, both payable July 1 to holders of record June 15. This reduces the accumulated dividends to 5¼%.—V. 99, p. 1746, 1757.

du Pont de Nemours Powder Co.—*Extra Common Dividend.*—An extra cash dividend of 2%, also a special dividend of 5% in the pref. stock of the Atlas Powder Co., have been declared on the common stock in addition to the regular quarterly payment of 2%, which has been made since March 1913 (when the rate was reduced, owing to the disintegration plan), payable June 15 to holders of record June 5. On Mar. 15 last 1% extra was paid in cash. Compare V. 98, p. 618.

Fairmont (W. Va.) Gas Co.—*New Wells.*—The following was given out in Baltimore: The company has bought in two new wells on property it holds under lease in West Virginia, which increases its supply by an additional daily output of 3,500,000 cu. ft. The largest is the Horner well, near Monongah, with 2,000,000 cu. ft. a day, and the other the Griffin well, in the Jones' run field, with 1,500,000 cu. ft. a day. The company is arranging to drill an additional well in this last-named field, in order to meet the expected demands when the business of that section again reaches its normal. The report for April shows: Gross earnings, $31,624; net (after taxes), $20,323, an increase over April 1914 of $4,899.—V. 100, p. 1352, 559.

Goldfield Consolidated Mines.—*Dividends.*—A dividend of 10 cents per share has been declared on the $35,491,480 stock (par $10), payable July 31 to holders of record June 30, being the same amount as on April 30 last. On Feb. 27 15 cts. per share was paid, being the first distribution since April 30 1914, when 30 cts. per share was disbursed. In Oct. 1913 30 cts. and 10 cts. extra was distributed, in July and Jan. 1913 no payments were made, but on April 30 1913 30 cts. was distributed. From April 1909 to Oct. 1912 30cts. per share was paid quarterly, with 20 cts. extra Jan. 1910 to April 1912.—V. 100, p. 1747, 1171.

Grasselli Chemical Co., Cleveland.—*New Stock.*—Holders of the $11,250,000 common stock are entitled to subscribe at par ($100 a share) on or before June 21 for $1,687,500 new 6% pref. stock to the extent of 15% of their holdings of common stock at the close of business on May 15. Subscriptions must be paid in full on July 1 or in three installments, July 1, Oct. 1 and Jan. 1. Authorized stock, $15,000,000 common and $5,000,000 6% cum. pref. McLoud & Pulliam, Cleveland, write: "This will make the total 6% pref. issue $3,187,500 (dividend Q.-M. 31). The proceeds will be applied to improvements already made and proposed in 1915, and to providing additional working capital for the expanding business." [Quarterly dividends at rate of 6% p. a., payable Q.-M. 31, were begun on the common stock June 30 1913.]—V. 97, p. 53.

Hawaiian Commercial & Sugar Co.—*Extra Dividend.*—In addition to the regular monthly dividend of 25 cts. (1%) on the $10,000,000 stock (par $25) an extra payment of 50 cts. (2%) has been declared, payable this month. In Nov. 1914 and Sept. 1914 50 cts. was also paid.

The "San Francisco News Bureau" says: "It is reported that the directors have privately decided on a dividend policy for 1915, involving 3 or 4 extras, and aggregating, with the regular dividend, a disbursement during the year of either $4 50 or $5 a share. This season's crop, of which 52% is harvested, is estimated at 56,000 tons. This tonnage, on the basis of 4.77 cts. for sugar, would permit of four extra dividends of 50 cts. each, or a total of $2, in addition to the regular dividends of $3."—V. 100, p. 1441.

Hercules Powder Co.—*Redemption of Bonds—Offer.*—The company will redeem on Aug. 1 all of the then outstanding 6% ten-year income bonds at 102 and interest. Under the offer of April 11 last, holders of the bonds have the privilege up to Aug. 1 next of receiving in exchange for each $1,000 bond 9 shares ($900) of the 7% cumulative pref. stock. Cash adjustment will be made of accrued interest on bonds surrendered and the proportion of the quarterly dividend on the stock to the date of exchange. Bonds in amounts less than $1,000 will be accepted on the same proportionate basis; the company will issue one share of preferred stock upon surrender of each $100 bond, accompanied by a cash payment of $11 33, adjustment of interest and dividends to be made as in the case of $1,000 amounts. Bondholders who take preferred stock in payment for their bonds obtain an increase of $3 on each $60 of present annual income, and at the same time the bond issue, which now constitutes a liability ahead of the preferred stock, is removed.—V. 100, p. 1514, 815.

International Mercantile Marine Co.—*Appeal.*—The Government has appealed to the U. S. Supreme Court from the decision of the U. S. District Court holding that the conference agreement between steamship lines plying between New York and Boston and the Far East was not an unreasonable restraint of trade in violation of the Sherman anti-trust law.—V. 100, p. 1514, 1261.

Interstate Electric Corporation, N. Y.—*Purchase.*—This company, in which A. E. Fitkin & Co. of N. Y. are interested, announced on May 1 the purchase of the entire capital stock and bonds ($50,000 of each) of the People's Gas & Electric Co. of Chillicothe, Mo. A circular shows:

Chillicothe has a population of between 8,000 and 9,000 and banks with aggregate deposits of $1,500,000. It is situated 90 miles northeast of Kansas City and about 20 miles south of Trenton, where the Interstate Elec. Corp. operates the Trenton Gas & Elec. Co. The franchises of the People's Co. are considered by attorneys as unlimited in time. An expert reports that the plant can easily take care of 50,000 cu. ft. of gas per day without additional investment and that Chillicothe is now good for 1,000 meters, with a large increase in gas revenue. The Interstate Electric Corp. regards Chillicothe as offering unusual opportunities.

Earnings to March 31.—A consolidated statement of the Corporation and its sub-cos. (excluding Chillicothe) shows:

Earnings—	1915-*Mar.*	1914	*Inc%*	1914-15-6*Mo*	1913-14.	*Inc%*
Gross income	$27,774	$24,690	12.4	$175,112	$155,607	12.5

La Belle Iron Works.—*New Officers.*—D. A. Burt of Wellsburg, W. Va., has been elected Treasurer, Assistant Secretary and Auditor; R. C. Kirk, formerly Secretary and Treasurer, was recently made President.

No definite conclusion has been reached as to the proposal to construct a by-product coke plant in connection with the mill at Steubenville, O.—V. 100, p. 1514, 1215.

Lone Star Gas Co., Fort Worth.—*Dividends—Assess.*—The directors on April 19 declared the regular quarterly dividend of 1½% and a special dividend of 1½%, both payable July 1 to stockholders of record on June 20 1915. The stockholders at their annual meeting authorized the declaration of a stock dividend of one share to nine, to apply on stock of record on July 15, but payable only after action of the board and the approval of the Secretary of State. Notice is given that a payment of 25% on stock subscription is due and payable July 1. This is the fourth and final call.

The date for the closing of the fiscal year has been changed from Feb. 28 to Dec. 31. The date of the annual meeting remains the same.

Report.—For fiscal year ending Feb. 28:

1909-10.	1910-11.	1911-12.	1912-13.	1913-14.	1914-15.	*Total.*
$20,108	$81,231	$531,041	$734,778	$1,034,934	$1,094,859	$3,496,951

From above total, paid dividends, $1,197,500; reserved for depreciation, $1,399,047; balance, surplus, $900,403. See V. 100, p. 1756, 1441.

Louisville Gas & Electric Co. (of Kentucky).—*Listed.*—The N. Y. Stock Exchange has listed $8,500,000 First and Refunding M. 5-year 6% bonds due 1918.—V. 100, p. 1441, 1082.

Lynn (Mass.) Gas & Electric Co.—*Stock.*—The Mass. Gas & Electric Light Commission has authorized the company to issue $442,500 stock, to be offered to stockholders at $240 per share (par $100), in the ratio of 177 shares for every 473 shares held.—V. 92, p. 326.

MacAndrews & Forbes Co.—*Stock Dividend.*—A dividend of 33 1-3% has been declared on the $3,000,000 common stock, payable June 15 in common stock to holders of record May 27.

For the purpose of the dividend the directors have authorized the issuance of $1,000,000 additional common stock. Stock certificates will be issued for the whole shares to which stockholders are entitled and scrip certificates for fractions of shares which do not entitle holders to vote or receive dividends, but when presented to the Guaranty Trust Co. of N. Y., transfer agent, in amounts equal to whole shares or multiples thereof may be exchanged for whole certificates with all accrued dividends, if any.—V. 100, p. 1676.

Marquette & Bessemer Dock & Navigation Co.—The I. S. Comm. Commission has granted permission to the Pere Marq. and Bessemer & Lake Erie RR. to continue to operate the company's car ferries under the present arrangement.—V. 82, p. 161.

Massillon Electric & Gas Co.—*Stock Increase.*—The company on or about May 18 increased its authorized capital stock from $500,000 (all of one class) to $750,000, the new stock to be preferred.—V. 99, p. 1677.

Nevada Consolidated Copper Co.—*Div. Increased.*—A quarterly dividend of 37½ cts. a share (7½%) has been declared on the $9,997,285 stock, the greater part of which is owned by the Utah Copper

Co., comparing with 25 cts. in Dec. last. In Dec. 1914 37½ cts. (7½%) was paid, but in Sept. no distribution was made. From Dec. 1909 to June 1914 37½ cts. (7½%) was paid quarterly and in Dec. 1912 and 1913 50 cts. (10%) extra.—V. 100, p. 1597, 1353.

New Cornelia Copper Co.—*Mortgage.*—
See Calumet & Arizona Mining Co. above.

New England Watch Co., Waterbury, Conn.—*Sale.*—
A press dispatch from Waterbury, Conn., on Nov. 27 1914 announced the sale of the property to Charles H. Ingersoll of the Ingersoll Watch Co., for $76,000, as ordered by the Superior Court. The property, we are informed, has been operated since Dec. 23 1914, but the actual manufacture of watches will not be active for some weeks yet, as the normal preliminaries consume time and some conditions have been found which require more than anticipated. [The creditors' committee in Jan. 1914 announced its inability to formulate a plan of reorganization and subsequently receivers Elton and Whittemore asked for authority to sell property.]—V. 95, p. 300.

Ohio Oil Co.—3% *Extra Dividend.*—
A quarterly dividend of $1 25 per share (5%) and an extra dividend of 75 cts. (3%) have been declared on the $15,000,000 stock, both payable June 21 to holders of record May 28. This is the same rate as in Dec. 1914, but in Mar. 1915 $1 25 (5%) extra was paid. In Sept. 1914 no extra disbursement was made, but in June and Mar. 1914 the payment was 75 cts. In Dec. 1913 $1 25 and $6 75 extra were paid. In Sept. and June 1913 75 cts. extra was also paid, and in Mar. 1913 $1 extra. In 1912 $1 25 was distributed quarterly, but without any extra.—V. 100, p. 646, 145.

Old Dominion Co. of Maine.—*Dividend Increased.*—
A quarterly dividend of $1 a share (4%) has been declared on the $7,500,000 stock, payable June 29 to holders of record June 15. In April last and on Dec. 30 1914 50 cents a share (2%) was paid, and in Oct. 25 cents (1%), comparing with $1 (4%) in July and April 1914 and $1 25 (5%) quar. from Oct. 1912 to Jan. 1914, $1 (4%) in July 1912, 75 cents (3%) in April 1912 and 50 cents and 50 cents extra in Jan. 1912, and with 50 cents (without any extra) in July and Oct. 1911. Payments in 1911 aggregated $2 25 per share.
The Old Dominion Copper Lining & Smelting Co. has declared a dividend of $1 per share on the $4,050,000 stock (par $25), payable at the same time, comparing with 50 cents three months ago.
The United Globe Mines, all of whose 23,000 outstanding shares are owned by the Old Dominion, has declared a dividend of $6 per share.—V. 100, p. 1262.

Old Dominion Copper Min. & Smelt. Co.—*Dividends.*—
See Old Dominion Co. of Maine above.—V. 100, p. 1262.

Peerless Motor Car Co., Cleveland.—*Pref. Div. Resumed.*
A regular quarterly dividend of 1¾% has been declared on the 7% cum. pref. stock, also 3½% additional on account of accumulated dividends, both payable July 1 to holders of record June 20. In July 1914 payments were suspended because it was thought best to husband the company's resources, in view of the fact that it desired to bring out a popular-priced car in connection with its former higher-priced line of automobiles. This leaves only two quarterly dividends unpaid. The company, it is reported, has been working on large war orders for trucks and earnings have been very heavy.—V. 99, p. 123.

People's Gas & Electric Co., Chillicothe, Mo.—
See Interstate Electric Corporation above.

Pressed Steel Car Co.—*Not Received.*—
The large Russian order, it seems, has not been clinched. See V. 100, p. 1758, 1442.

Quincy Market Cold Storage & Warehouse Co., Boston.—*New Stock—Option—To Retire Realty Co. Pref.*—
The shareholders May 18 voted to increase the common stock from $1,000,000 (on which dividends of 8% per annum are being paid) to $1,250,000, and to make a new issue of $750,000 5% cum. pref. stock (dividends payable quarterly), callable all or part at $110 a share.
Stockholders of record May 18 may subscribe for the new stock at par ($100) through the State Street Trust Co., 33 State St., Boston, as follows: (*a*) For the new common on or before July 15 in amounts equal to 25% of present holdings. (*b*) For the new pref. on or before June 22 in amounts equal to 75% of common now held and, if desired, an additional amount if any remains unsubscribed by shareholders. Subscriptions are payable: (*a*) For common, 25% Aug. 2, 25% Nov. 1 1915 and 50% Feb. 1 1916, or optionally in full prior to last named date. (*b*) For pref., 20% with subscription and 80% Feb. 1 1916.
The entire issue of pref. stock has been underwritten by Blake Bros. & Co. and arrangements have been made with that firm to take from subscribing stockholders such pref. stock of the Quincy Market Realty (V. 99, p. 274, 347) as subscribers may desire to apply on their subscriptions to either pref. or common stock, or both, such Realty stock to be accepted at par and dividends up to and including May 1 1916, less interest at 5% p. a. from date of transaction to May 1 1916.
The main object of the new issue is to retire the $850,000 6% pref. stock of the Realty Co., which is callable at par and divs. on or after May 1 1916.—V. 99, p. 347.

Ray Consolidated Copper Co.—*Dividends Resumed.*—
A quarterly dividend of 37½ cts. a share has been declared on the $14,556,040 capital stock (par $10), payable June 30 to holders of record June 11. From June 1913 to June 1914 the same rate was paid quarterly, but no distribution has been made since. Compare V. 100, p. 1677, 1262; V. 99, p. 752.

Republic Iron & Steel Co.—*Dividends Not Resumed.*—
Contrary to rumors, no action was taken at the meeting of the directors on Tuesday on the dividend on the $25,000,000 7% cum. pref. stock. No payment has been made since July 1914, the quarterly dividend due Oct. 1 1914 having been deferred on account of the war. Compare V. 99, p. 820.—V. 100, p. 1442, 1353.

M. Rumely Co., Agricultural Implements, La Porte, Ind.—*Deposits of Notes Preparatory to Reorganiaztion.*—The noteholders' committee, John W. Platten, Chairman (V. 99, p. 403) is requesting the holders of the outstanding notes issued under trust agreements of Feb. 21 1913 and March 1 1914 (Bankers Trust Co., trustee), being the Two-Year 6% Convertible gold notes and the 6% Commission Gold Notes, to deposit their holdings under a deposit agreement dated May 25 1915. The committee will represent the depositors in negotiations looking to the formulation of a plan of reorg.

Depositary, U. S. Mtge. & Trust Co., N. Y. City; agents to depositary, Glyn, Mills, Currie & Co., London, and Cont. & Comm. Trust & Sav. Bank, Chicago. Counsel of Committee, White & Case, New York.
M. Hely-Hutchinson, of Robert Fleming & Co., London, has succedeed on the committee, Andrew W. Miller of Boissevain & Co.

Receiver's Certificates.—The petition of Receiver Finley P. Mount for authority to issue $1,500,000 in 6% first lien receiver's certificates, with an immediate issue of $500,000, was granted on Feb. 7 by the Federal Court at Indianapolis, as stated in V. 100, p. 559. Dated March 1 1915, due Dec. 31 1915. Int. June 30 and Dec. 31. The petition said:
The inventory should be worked up and sold on a program of sales of about $2,500,000 for the remainder of this year, exclusive of repair parts estimated at $750,000. On this basis, the receiver will have to raise about $1,200,000 on receiver's certificates (including the amount needed to retire at once the $100,000 certificates issued under order of Jan. 20), probably in the following monthly amounts: February, including $100,000 outstanding, $300,000; March, $200,000; April, $250,000; May, $250,000; June, $200,000; total, $1,200,000. To provide for larger sales, the limit should be fixed at $1,500,000.
The indebtedness of M. Rumely Co. is as follows: 6% gold notes due March 1 1915, $10,620,589; commission certificates issued to represent commissions on sales, $1,046,000; current debts and sundry claims believed not to exceed $500,000; accrued int. to March 1 1915 on 6% notes, $318,617; total direct liabilities, not to exceed $12,485,206. In addition there is an indirect liability under indorsements or agreement of guaranty or repurchase of farmers' notes (see V. 100, p. 403).
The assets of the M. Rumely Co. and the Rumely Products Co. in book values, based on cost, are shown as follows: Real estate, plants and branch houses, $7,439,000; current assets (inventories, farmers' notes owned and amounts receivable), $13,247,000; investments, $1,198,000; total, $21,884,000. Because of the uncertain financial situation resulting from the European war, it is not possible to say how soon the property can be advantageously offered for sale. The plant should be kept in operation, for it is easier to sell a going business than an idle factory. [Volume of business in May 1915 was reported small. See also V. 100, p. 479, 559.

Southern Counties Gas Co. of Cal., Los Angeles.—*Notes.*—Lawrence Mills & Co. and Powell, Garard & Co., both of Chicago, offered last month at 99 and int., netting over 6½%, $150,000 6% coupon mortgage gold notes. Total authorized, $1,600,000.
Dated April 1 1914, due April 1 1917. Callable after Oct. 1 1915 on any int. date at 100 and int. Int. (A. & O). and principal payable at Central Trust Co. of Illinois, Chicago, trustee (with V. T. Abbott). Denom. $100, $500, $1,000 c*. Tax-exempt in California.

Digest of Letter from Pres. Ferdinand R. Bain, Los Angeles, April 1.
These $150,000 6% notes are issued to refund outstanding indebtedness, and are, in the opinion of counsel, a lien upon all property, rights, franchises, &c., now owned or hereafter acquired, subject to $559,000. 1st M. 6% bonds. No additional 1st M. bonds can be issued during the life of the notes.

Capitalization—	*Authorized.*	*Issued.*
Preferred stock	$500,000	$340,000
Common stock	500,000	500,000
1st M. 6s due 1931 (closed at $559,000 while these notes are out)	1,000,000	559,000
Mortgage notes (this issue)	1,600,000	150,000

The trust deed provides that additional mortgage notes may be issued from time to time as follows: (1) $90,500 for corporate purposes, provided the annual net earnings are 1¾ times the annual interest on all bonds and mortgage notes outstanding, including notes then proposed; (2) $409,500 on account of the annual sinking fund provision of the 1st M. bonds; (3) $950,000 to reimburse the company up to 80% of the cost of permanent extensions, enlargements and additions, provided the annual net earnings are 1¾ times the annual interest charge as aforesaid. [In April 1915, in addition to the $150,000 of these notes offered as above, $60,000 were to be pledged for a $40,000 loan.]
Property.—A Chicago expert estimates (*a*) the going value at over $1,346,373, (*b*) the replacement value at $1,046,373. Deduct $559,000 bonds; equity $487,371, or over three times the notes outstanding.
Earnings.—For year ending Feb. 28 1915, as certified to by public accountants: Gross, $219,396; net earnings (after taxes), $64,544; interest on 1st M. 6s, $33,540; balance, surplus, $31,004. Interest on the notes outstanding calls for $9,000.
Engineer's estimate for future net earnings· 1915, $80,090; 1916, $98,549; 1917, $119,068; 1918, $146,150.
Franchises.—These run 23 to 45 years and permit the company to charge from $1 per 1,000 cu. ft. net to $1 35 per 1,000 cu. ft. net for artificial gas, and 75c. and $1 per 1,000 cu. ft. for natural gas. There is a large supply of natural gas to be had from companies operating oil wells, delivered to our distributing system, and, while this is available at a favorable price, we will continue to use it in our southern district.
Territory Served.—Includes the towns of Santa Ana, Orange, Anaheim, Fullerton, Placentia, Garden Grove, Whittier, Monrovia, Sierra Madre, Arcadia, South Santa Anita, El Monte, Covina, Azusa, Glendora and Tustin, Cal., combined population 65,000 and all within a radius of 33 miles of Los Angeles.
[It was recently announced that the company had contracted to supply the Anaheim Sugar Co. with some 3,000,000 cu. ft. of natural gas daily, the gas to come from the great well on the Murphy lease, which now furnishes the Southern Counties Co. with gas.—V. 100, p. 1442.

Sperry & Hutchinson Co.—*Status—Business.*—This company, referred to in adv. on page xiv of last week's "Chronicle," was incorporated Oct. 25 1900 in New Jersey to operate the trading stamp business previously carried on by the firm of Sperry & Hutchinson. The Hamilton Corporation, the stock of which is owned by the S. & H. Co., was incorporated in 1910.
The companies have a national service of advertising through the "Sperry Magazine" and a national premium service, and as a result of 18 years of business now serve, we are informed, some 30,000 merchants and manufacturers, and operates a chain of about 600 stores, carrying merchandise in which the coupons and trading stamps collected by about 10,000,000 stamp and coupon collectors, are redeemed. The business has increased about 10% a year in the number of coupons and trading stamps used, and, it is stated, generally has been found to be a most satisfactory service for promoting sales.
The trading stamps are sold by the S. & H. Co. to the retail trade, and the coupon is put out by the Hamilton Corporation and sold to the mfrs.
The total capital stock of both companies is $1,250,000. The Sperry & Hutchinson Co. has a surplus of $1,200,000 at this time, of which $630,000 is set aside and invested in mortgages as a redemption fund for outstanding and unredeemed stamps and coupons.
Officers of the Sperry & Hutchinson Co.: George B. Caldwell, Pres.; Wm. M. Sperry, Vice-Pres.; Kate M. Sperry, Vice-Pres.; Wm. J. McKee, Sec.; Frank B. Warren, Treas.; Lee C. Simpson, Asst. Treas.
Officers of the Hamilton Corporation: George B. Caldwell, Pres.; B. A. Eldred, Vice-Pres.; A. E. MacKinnon, Vice-Pres.; W. J. McKee, Sec.; Frank B. Warren, Treas.
Directors of both companies: George B. Caldwell, Wm. M. Sperry, Kate M. Sperry, Edwin S. Marston and Thomas S. Major.

Spring Valley Water Co., San Francisco.—*Decision.*—
Superior Judge Seawell on May 19 denied the petition for a writ of mandamus directing the City Attorney to file a judgment rendered by Federal Judge Farrington in connection with water rates 5 years ago. The Federal Court held that the company's properties were worth $25,771,984 and that the water rates fixed by the Supervisors for that year were so low that the company would not receive a fair profit on the investment. This decision was never filed, the City Attorney refusing to prepare the judgment on the ground that the Court's ruling had been against the city.—V. 100, p. 1747, 1597.

Studebaker Corporation.—*New Officers.*—
John M. Studebaker, only survivor of the five brothers who founded the Studebaker Bros. Mfg. Co., now the Studebaker Corporation, who is 83 years old, will retire and be succeeded as Chairman of the Board by Frederick S. Fish, who has been President. A. R. Erskine, Vice-Pres., will succeed Mr. Fish as President. A special meeting of the stockholders will be held on July 7, at which the directorate will be classified into five groups, whose terms will expire annually.—V. 100, p. 1597, 1516.

United States Cast Iron Pipe & Foundry Co., N. Y.—*Plan to Cancel* $1,000,000 *Treasury Stock* (½ *Pref.*) *and Change Fiscal Year.*—The shareholders will vote June 23 on—
(1) Decreasing the capital stock by canceling and retiring $1,000,000 stock (½ pref.) now owned and in treasury. The authorized cap. stock is $15,000,000 common and $15,000,000 pref.; issued, $12,500,000 common and $12,500,000 pref. Of the issued stock there was held in the treasury on May 31 1914 $458,700 common and $448,700 pref., but these amounts have since, it appears, been increased.
(2) Changing the fiscal year, now ending May 31, to the cal. year to facilitate compliance with the Federal income tax law.—V. 98, p. 1991, 1998.

For other Investment News see pages 1842-1843.

PHILADELPHIA COMPANY

THIRTY-FIRST ANNUAL REPORT—FOR THE YEAR ENDED MARCH 31ST 1915.

Office of the Philadelphia Company,
Pittsburgh, Pa., April 1st 1915.

The Board of Directors herewith submit their report for the fiscal year ended March 31st 1915.

During the year 6 wells were purchased and 142 wells were drilled, of which 107 were productive of gas, 18 of oil and 17 unproductive; 107 wells were abandoned, having ceased to be productive; 24 wells were sold, and 4 wells were reinstated, making the total number of wells owned or controlled through stock ownership and in use by the Company at this date, 1,617. (This includes the wells of the Monongahela Natural Gas Company, which Company on April 1st 1914 had 155 gas wells and 10 oil wells.)

During the year 81.45 miles of pipe were reclaimed and 152.48 miles were laid and purchased. The total amount of pipe lines controlled by this Company either through ownership or stock ownership in other corporations is now 3,175.17 miles.

This does not include the 188.71 miles of mains of the Allegheny Heating Company, nor the 356.67 miles of mains of our several artificial gas companies.

The Company and the Companies it controls sold during the year 38,720,201,400 cubic feet of natural gas, being a decrease of 1,518,392,300 cubic feet, with decreased receipts from that source of $186,917 02.

There has been an increase during the year of 3,946 domestic consumers of the natural gas supplied by the companies controlled by this Company, including the Equitable Gas Company, Allegheny Heating Company, Monongahela Natural Gas Company, Pittsburgh & West Virginia Gas Company and The Philadelphia Company of West Virginia, making the total number of domestic natural gas consumers of these Companies 126,900.

As stated in my annual letter dated April 1st 1914, there was expended out of the earnings of the Company, from March 31st 1886 to March 31st 1914, for gas and oil wells, transportation pipe lines outside of the city, pumping stations, telephone lines, tools, etc., $21,631,931 55, no part of which, until the past year, has been charged to capital accounts.

In order that the capital values represented by such expenditures might more clearly appear upon the books of the Company, it caused valuations to be made of its transportation and distribution lines, service lines, regulators, meters and compressing stations by independent engineers which, after making due allowance for depreciation, have been incorporated in the balance sheet published in the present annual report, amounting to a total increase of $12,556,441 03.

Also, during the past fiscal year the Company took steps to cause its books to show the actual values of the shares of the Philadelphia Oil Company, the Pittsburgh & West Virginia Gas Company and the common shares of the Equitable Gas Company, resulting in an increase in the showing thereof amounting to $3,217,611 85, which sum more correctly represents the actual value of these shares.

The Company availed itself of the above increase to make a reduction of $8,924,254 05 in the valuation upon its books of street railway and traction stocks held by it; a reduction of $1,529,601 16 in the valuation of the stocks of the Pennsylvania Natural Gas Company, the Chartiers Valley Gas Company and the Union Gas Company of McKeesport, whose properties are held by the Company under long leases, and are included in the re-valuation above referred to; a reduction in the valuation of the stocks of and loans to artificial gas companies of $5,318,651 17 and in the valuation of the preferred stock of the Equitable Gas Company of $1,546 50, making the total amount of reduction in book values $15,774,052 88.

During the past year The Philadelphia Company of West Virginia leased for purposes of operation its property to the Pittsburgh & West Virginia Gas Company, all of whose capital stock is owned by this Company. The Philadelphia Oil Company was organized, all of its capital stock being owned by this Company, to take over and develop the oil production of the several companies in Pennsylvania and West Virginia.

All the employees of the Company and its subsidiary companies have been insured under the group-policy plan of the Equitable Life Assurance Society.

The operations of the Street Railway and Electric Light and Power Companies are described in accompanying reports.

Accompanying this report are statements showing the financial condition of the Company.

For the Board,
J. H. REED, *President.*

PHILADELPHIA COMPANY.

(Including Equitable Gas Company, Monongahela Natural Gas Company, Pittsburgh & West Virginia Gas Company, The Philadelphia Company of West Virginia and Philadelphia Oil Company.)

SUMMARY OF INCOME AND PROFIT AND LOSS FOR THE YEAR ENDED MARCH 31ST 1915.

Gross Earnings:		
Gas	$7,037,719 49	
Oil	217,746 61	
Miscellaneous	33,287 04	
Total Gross Earnings		$7,288,753 14
Operating Expenses:		
Prospecting and Lease	$554,352 92	
Gas Purchased	351,666 37	
Production	762,793 17

DUQUESNE LIGHT COMPANY.

Office of the Duquesne Light Company,
Pittsburgh, Pa., April 1st 1915.

The Board of Directors herewith submit their annual report for the year ended March 31st 1915.

Owing to the depression in general business due to the European war and other causes, conditions in the Pittsburgh district have been severely affected. Notwithstanding this curtailment in general business, your Company has 48,486 contracts in force, an increase during the year of 5,389, representing an increased power load of 12,759 horse power and an increased lighting load of 4,667 kilowatts; and municipal lighting shows an increase of 1,254 lamps.

The installation of the new machinery and the new construction work at Brunot Island is practically finished. The four 18,000 K. V. A. Turbo-Generator Units with auxiliaries and switchboard equipment are in service. Two of these units have been operated very successfully for almost a year. Part of the new installation of boilers and stokers are in service; the remainder are about ready to be put into service. The new equipment for unloading, handling and storing river coal is in successful operation; facilities have been provided for storing one hundred thousand tons or more of coal when it can be delivered by river, during the summer months, at low cost. The other plants have been maintained in good condition and are operating very satisfactorily.

The new equipment at Brunot Island and the improvements and betterments made at other power stations have effected a saving in operation of $236,645 61, and the power plants are now in better condition for efficient operation than ever before. The department has also been very successful in eliminating smoke, all the plants now being operated well within the requirements of the city ordinance.

The installation of the units at Brunot Island station has enabled the Company to close down the Thirtieth Street power plant on the South Side, and the Suburban power plant. The gas engine plant in Shakespeare Street was also shut down during the year and its load transferred to the East End Sub-station.

Current is now furnished to the Pennsylvania Light & Power Company, enabling that Company to shut down its Ontario Street power plant.

It is expected during the year to install rotary converters at the Manchester and Glenwood power plants to furnish direct current to the Railways Company and these plants will not be operated as generating stations; it is estimated that this plan will effect a very considerable saving.

During the year there were installed twelve 11,000-volt 4–0 submarine cables between Brunot Island and Esplen. These cables were installed by the Company's men and the work progressed without a hitch and without an accident of any kind and was completed under the estimated cost.

During the year a contract was closed with the city of Pittsburgh for its supply of current for street lighting and other municipal lighting and power purposes, resulting in the closing down of its North Side municipal plant and effecting a great saving in operating cost to the city.

During the year there has been sold $2,500,000 one-year 6% gold notes, dated February 1st 1915, to meet the maturity of a like amount due February 2d 1915, and $2,500,000 three-year 5% notes, dated February 1st 1915, convertible into 7% preferred stock of the Company at par, the proceeds of the notes to be used for the further betterments, improvements and extensions of the Company's property and to otherwise increase its business.

During the year all the employees of the Company have been insured under the group policy plan of the Equitable Life Assurance Society.

The Pennsylvania Light & Power Company has made an agreement with the City of Pittsburgh to pay $5,000 annually to the city instead of 2½% on its gross receipts, and has also adjusted a claim of the city for pole taxes. This Company is still being operated separately from the Duquesne Light Company and its statement of income and general balance sheet will be found in this report.

Accompanying this report are statements showing the financial condition of the Company.

For the Board,
JAMES D. CALLERY, *President.*

COMMERCIAL DEPARTMENT.

At the close of the year the Company had in force	48,486	contracts
An increase during the year of	5,389	contracts
Representing an increased power load of	12,759	horse power
And an increased lighting load of	4,667	kilowatts
Contracts were made for	173	new signs
Using the equivalent of	73,806	4-c.-p. lamps

Our municipal street lighting business shows the following increases during the year:

Arc Lamps	178
400-c.-p. series Nitrogen Tungsten Lamps	59
250-c.-p. series " " "	435
100-c.-p. series " " "	396
80-c.-p. series " " "	186

DEPARTMENT OF DISTRIBUTION.

Thirty high-tension Transfromers, aggregating a total capacity of 9,150 k. w., were installed both in the new substations for large power and lighting installations and to increase the capacity of existing power sub-stations.

Six arc regulators and 27 automatic voltage regulators have also been installed in the various sub-stations.

There was added during the year 17,156 feet of subway, consisting of 207,405 duct feet of conduit in various parts of our system.

The system contains 4,304,957 duct feet of conduit, 1,228 manholes and 1,336 junction boxes.

During the year there were constructed:

High-tension aerial lines	12	miles
3 and 4-wire 2,200-volt power lines	21	miles
2,200-volt lighting lines	30	miles
Arc lines	80	miles
Low-tension distributing lines	6	miles
High-tension underground cable	20.2	miles
2,200-volt single-phase cable	2	miles
2,200-volt Poly-phase power cable	3	miles

The number of additional new poles set during the year was 3,142.

PITTSBURGH RAILWAYS COMPANY.

Office of the Pittsburgh Railways Company,
Pittsburgh, Pa., April 1st 1915.

The Board of Directors herewith submit their annual report for the year ended March 31st 1915.

Although the territory served by the lines of your system has experienced a very severe industrial depression covering almost the entire year, the loss in Gross Earnings from street railway operation has been more than offset by economies practiced, and reduced cost of power.

A comparison of the results of 1915 with those of 1914 show a decrease in the gross earnings from street railway operation of $112,768 68, or .95%; the operating expenses have decreased $280,747 21, or 3.55%, resulting in a gain in net earnings of $167,978 53, or 4.32%. The per cent of operating expenses to gross earnings from street railway operation is 65.25% in 1915 as compared with 67.01% in 1914. The average passenger earnings per car mile were 31.29c. as compared with 31.45c., a decrease in 1915 of 16-100 cents.

The physical condition of the property and standard of service rendered have been fully maintained.

There has been expended during the year $1,453,060 73 for improvements, betterments and extensions, on the properties operated by the Company, of which $1,073,969 95 has been charged to Property Accounts and $379,090 78 to a Deferred Maintenance Account, to be amortized during the life of the property benefited, and, in addition, there has been expended by the Maintenance of Way Department $1,183,427 13 for ordinary maintenance of roadway, tracks, bridges and overhead construction, which are in good operating condition.

The Murray Avenue bridge was re-built, which enabled the operation of a through route of cars from the city and East End to Homestead.

During the year there has been installed a crane car, electric shovel, concrete mixer, steam roller, grinders and welders, which have effected considerable economy in track laying and track repairs.

The Traffic Department has given efficient service in checking the number of passengers on the various routes as well as on the railroads and keeping the transportation department posted on all changes in traffic conditio ns.

During the year route numbers have been placed on all cars and folders distributed to the public.

During the year the Corliss Street tunnel was opened and a new and better route furnished from Sheraden, Ingram and Crafton to the city.

Many improvements have been made at the various car barns, which have enabled the Company to obtain a better rate on its fire insurance, the reduction in the cost for the year amounting to $7,955 62.

Pending the erection of car barns upon the properties purchased forthe purpose at Keating and at Bennett Station, tracks were laid thereon for the temporary storage of cars.

The Manchester shops were combined with the Homewood shops, and only minor repairs are now being made at the former.

During the year the Company has received the one hundred low-floor motor cars mentioned in previous report. Nearly all of these are now in service. The low-floor, low-wheel, side-entrance car has met with the approval of the public, and they have been very satisfactory in operation.

The power supplied by the Duquesne Light Company has been reliable and satisfactory. A portable sub-station has been of great benefit in supplying current at various points on the system in emergency cases and for extraordinarily heavy traffic. At Charleroi a new sub-station was built and new rotaries installed and the old plant dismantled.

During the year the toll bridges operated by your Company have shown an increase in receipts of $4,874 98, or 20.19%, and a decrease in expenses of $1,065 50, or 7.24%.

The inclined planes show an increase in receipts and a decrease in expenses. The Castle Shannon inclined plane has recently been equipped with motors for operation by electricity and shows a decided decrease in expenses, sufficient to justify the recommendation that all of the inclined planes be equipped electrically.

A new telephone system was installed on the Washington-Pittsburgh interurban line, eliminating the car telephones, which were not satisfactory.

Owing to the public educational program adopted by the Transportation and Claim Departments, the accidents and expenditures for claims have been greatly reduced. This campaign and the exhibits at the Pittsburgh Exposition were continued throughout the year. The exhibit was also shown in a display window of one of the prominent department stores in the city. The Superintendent of the Claim Department has continued his lectures in the public schools and before many public meetings. The "PLA-SAFE" game and pamphlets have been distributed in large numbers.

The scale of wages for motormen and conductors remains the same as for the former period, having been adjusted by a Board of Arbitrators, and will remain in force until May 1st 1916.

All the employees of the Company, with the exception of the trainmen, have been insured under the group policy plan of the Equitable Life Assurance Society.

Many conferences have been had with the city administration, resulting in the settlement of street cleaning and other claims, and also in your Company obtaining rights to install curves at several points which will facilitate the operation of cars in various districts; and the administration seems disposed to co-operate with your Company in its efforts to give improved service to the public.

With this report will be found the general balance sheet and statement of operations.

For the Board,
JAMES D. CALLERY, *President.*

HASKINS & SELLS,
Certified Public Accountants.

CERTIFICATE.

We have audited for the year ended March 31 1915 the books and accounts of the Philadelphia Company and the following subsidiary operating companies:

Equitable Gas Company,
Monongahela Natural Gas Company,
Pittsburgh & West Virginia Gas Company,
The Philadelphia Company of West Virginia,
Philadelphia Oil Company,
The Consolidated Gas Company of the City of Pittsburgh,
Duquesne Light Company,
Pennsylvania Light & Power Company,
Pittsburgh Railways Company,
The Beaver Valley Traction Company,
Pittsburgh & Beaver Street Railway Company.

And we hereby certify that the foregoing summaries of Income and Profit & Loss and General Balance Sheets are correct, and that, in our opinion, the latter truly exhibits the condition of each of the Companies at March 31 1915.

HASKINS & SELLS,
Certified Public Accountants.

Pittsburgh, May 14 1915.

Sunday Creek Coal Co.—*Application.*—Pres. John S. Jones on May 22 applied to the Federal Court at Columbus, O., on May 22 for an order compelling the Hocking Valley Ry. to turn over to the Sunday Creek Co. the properties of the Buckeye Coal & RR. and Ohio Land & RR., which control about 13,000 and 11,000 acres, respectively, in Athens, Perry and Hocking counties. The stocks of the two companies are, it is alleged, held by the Hocking Valley Ry. in violation of the decree of the Federal Court ordering the sale of the coal properties and their separation from the railroads in control. A hearing was set for June 12.—V. 100, p. 235.

United Light & Power Co.—*Petition for Modification of Order.*—The United Light & Power Co., the Great Western Power Co. and the Consolidated Electric Co. applied to the Cal. RR. Commission on May 15 asking that the terms under which the Great Western Power Co. was empowered to purchase the properties of the United Light & Power Co., be modified as follows:

1. That the provision requiring a sinking fund amounting to 1% of the outstanding bonds of Consolidated Electric Co. be eliminated.
2. That the Great Western Power Co. be empowered to place the $471,000 of bonds of Consolidated Electric Co. with its own trustee under its mtg.
3. That neither the Great Western Power Co. nor the Consolidated Electric Co. be held responsible for the payment of the creditors of United Light & Power Co. under the proposed plan of settlement.

The Commission on May 21 modified its previous order as follows: (1) The $471,000 bonds may be held by the trustee under the mortgage of the Great Western Power Co. until their sale shall be approved by the Commission. (2) The bonds of the Consol. Electric Co. may have, in place of a 1% sinking fund, the guaranty of the Great Western Power Co. in such form that in case of default on principal or interest the bondholders should have recourse to the properties of the Great Western Co., subject to all liens

now or hereafter existing. Doubt is expressed whether even with these changes the plan can be consummated. Negotiations as to the traction, light and power contract are pending. Compare V. 100, p. 1759, 1678.

United Shoe Machinery Corp.—See "Annual Reports."

Extra Dividend.—Pres. Winslow on Monday announced:

At a meeting of the directors it was decided that when the regular (quarterly) dividends are declared in June, an extra dividend will be declared on the common stock. The amount of the extra dividend and whether it will be paid in cash or part cash and part stock will be determined later.

It is rumored that the extra payment will be 10% in stock and 10% ($2.50 per share) in cash.

Previous Dividend Record of Common Stock (Including Extras).

DIVS.—	1905.	1906.	1907.	1908.	1909.	1910.	'11-'14.	1915.
Regular --%	2	8	8	8	8	8	8 y'ly	2, 2, —, —
Extra cash--	--	--	--	--	2	4 in July	------	--------
Extra stock-	--	--	25	--	10	10 in July	------	--------

—V. 100, p. 1598, 1442.

United States Light & Heating Co.—*Plan.*—

The time for deposit of stock under the plan has been extended to June 19. While the $2,500,000 new pref. shares have been underwritten, a large majority of the holders of the deposited pref. stock have paid the 15% assessment, entitling them to new pref. to an amount equal to present holdings, and about $125,000 of cash also has been received from the assessment on common stock. Moreover $200,000 of the $500,000 bonds issued have thus far been subscribed for at 87½ and int., with 100% bonus in common stock. The outlook for the reorganization is therefore considered favorable. See V. 100, p. 1263.

Utah Copper Co.—*Dividend Increased.*—

A quarterly dividend of $1 a share has been declared on the $16,244,900 stock, payable June 30 to holders of record June 11, comparing with 75 cts. from June 1910 to March 1915 and 50 cts. from Sept. 1908 to Dec. 1909, both inclusive.—V. 100, p. 1678, 1354.

Waverly Co. (Electric Vehicle Mfrs.), Indianapolis.—

Herbert H. Rice and Wilbur C. Johnson are now President and Vice-President, respectively.

Winchester Repeating Arms Co., New Haven, Conn.—

"Boston News Bureau" on May 21 said: "We understand that the Winchester Repeating Arms Co. has booked large contracts for rifles and has enough work on hand to keep the company's plants busy for at least two years. The working force is being practically doubled.

The company is making considerable additions to its plant at New Haven. It is capitalized for only $1,000,000 and the shares are now worth more than 15 times their par value. There has been an advance of about $400 per share in the market price as a result of the war orders. A year ago they were quoted $1,150 bid, $1,160 asked. On May 11 last there was a sale at $1 550 and now the bid is at that figure with no stock offered. The company now pays dividends at the rate of 60% per annum, and it is stated that its profits from war orders actually in hand will run between $7,000,000 and $8,000,000. The company is said to be planning a total outlay in new buildings close to $2,000,000, all of which will be paid for out of the big profits assured through war orders.

The Hartford "Daily Courant" also says: "The company has orders for over a million rounds of cartridges, orders for shells for machine guns, machine guns themselves and for rifles of several patterns, including 500,000 short rifles for the British Government, supposedly to be used by cavalry. The largest building constructed since Aug. 1 1914 is of concrete, 600 ft. long, 56 ft. wide, six stories high and cost $350,000. Altogether since July 17 38 buildings or additions have been added to the plant."—V. 92, p. 468.

World Film Corporation.—*Dividends.*—

Vice-Pres. and Gen. Mgr. Lewis J. Selznick says: "I will recommend to the directors on June 27 that an initial dividend of 3% be declared on the stock at once and that this dividend be followed by other quarterly dividends of at least as much. This means a rate of at least 12% per year. This will leave the surplus still very large. We have made a contract for our European rights which will net us over $200,000 per year. The contract calls for 65% of the receipts to us and 35% to the agents. The corporation will get an advance of $4,000 per week, the rest to be paid later. The advance on our European contract is enough to pay the 12% on the stock."

Net profits at present from domestic business, it is reported, are running between $15,000 and $20,000 per week or at the annual rate of between $720,000 and $960,000 per year, equal to between 40% and 45% per year on the capital.

The company was incorporated in Virginia on June 27 1914, its authorized stock having recently been increased from $2,000,000 to $3,000,000; outstanding, $2,500,000; par of shares, $5. Geo. B. Cox of Cincinnati, who was recently elected a director, has been made President to succeed the late Van Horn Ely. George A. Huhn, Milton C. Work and Wm. A. Brady have succeeded as directors Herbert H. Dean, Wm. Alden Pratt and Fred Edey, who resigned.

CURRENT NOTICE.

—A second and revised edition of Harvey Fisk & Sons hand-book on "United States Bonds" has been issued by the firm for general distribution. The new edition contains all the necessary data regarding the provisions for new issues of Government bonds under existing laws and also a complete description of all United States bonds and the Federal Reserve Act. There is an excellent frontispiece photograph of Harvey Fisk, the founder of the firm which bears his name, and who was in his time one of the most active factors in maintaining the credit of the United States. Harvey Fisk & Sons have been dealing actively in Government bonds for the past thirty years. Readers of the "Chronicle" will be favored with a complimentary copy if they ask for "C-1" when writing Harvey Fisk & Sons, 62 Cedar Street, New York.

—R. M. Grant & Co., New York, Boston and Chicago, are offering, subject to prior sale, $205,000 Mecklenburg County, N. C., 5% bonds, due serially May 1 1917-1936, at a price to yield a 4.60% basis. These bonds are in coupon form, with privilege of registration as to principal, and both principal and interest are payable at the United States Mortgage & Trust Co., New York. Mecklenburg County is the largest county in North Carolina, and City of Charlotte, the county seat, is the largest city in the State.

—The current issue of the "Trend of the Times," which is put out by A. B. Leach & Co., 149 Broadway, this city, contains an interesting analysis of the principal export items of the United States. This analysis shows the exports of this country to Europe in quantity and in value since the outbreak of the war, and gives a comparison of these exports with a similar period during the two preceding years. A copy of the latest issue of the "Trend of the Times" may be had upon application to the firm.

—Price, Waterhouse & Co., New York, have issued their annual "Railroad Statistics," showing in comparative tabular form the operating figures of fifty-three of the principal railroads in the United States for the five years ending June 30 1914. The results are reduced to a mileage and per unit basis, so that inferences may be drawn as to the relative density of traffic and operating efficiency of each property from year to year, and also in comparison with other properties.

—Having sold the entire issue, E. W. Clark & Co. of Phila., Boston, Chicago, Pittsburgh and Cincinnati, are to-day advertising in the "Chronicle" as a matter of permanent record their recent offering of $1,200,000 Columbus Ry., Power & Light Co. 5% one-year coupon notes, Series B, at 99½ and int., yielding 5.50%. Full details of the offering appears in the record advertisement.

The Commercial Times.

COMMERCIAL EPITOME

Friday Night, May 28 1915.

In spite of all drawbacks in the matter of international politics, cold, wet weather, &c., there is in some directions an increased trade. Sales of war supplies are still a conspicuous feature, but home business also increases somewhat. There is in some sections of the United States a shortage of skilled labor. The export trade makes an astonishing exhibit. The United States, alone among nations, is increasing its exports. The trade balance in favor of this country is, therefore, steadily augmenting. The total exports in April of agricultural products, including breadstuffs, cotton, &c., was no less than $136,613,637, against only $58,286,982 in April last year. Many industries are more active. Sales of steel rails and some other forms of steel show a tendency to increase, partly for export. Shipbuilding yards are rushed with orders. Money continues easy. A better demand prevails for commercial paper. Collections, though rather slow at the South and in the Pacific Northwest, are on the whole, fairly prompt. The stock market has not shown the degree of depression that was expected in view of the possibility of an unfavorable reply by Germany to the recent Washington note. Industries that have a chance to supply articles ordinarily manufactured in Europe which this country is debarred by the war from importing are beginning to wake up. Wage payments are increasing through the lessening of unemployment. In some industries working overtime is not uncommon. Most drygoods sell more readily for forward delivery than they did a year ago. The outlook for the crops is, on the whole, considered favorable, despite reports of some damage to winter wheat. The fact that Italy has entered the European war may hasten its ending. Of course, there can be no cloaking the fact that there are drawbacks in the situation. Cold, rainy weather has continued to hurt retail trade. The week's exports of wheat are the smallest of the year. The trade in lumber, coal, and, significantly enough, in jewelry is poor. The persistent reports that the American steamship Nebraskan was torpedoed by a German submarine make a bad impression. Yet it is hoped that a way will be found to adjudicate these matters in a manner satisfactory to the public opinion of the United States without recourse to war. Barring war, the business outlook is considered hopeful.

LARD has sold moderately; prime Western 10c., refined for the Continent 10.70c., South America 10.90c., Brazil 11.90c. Lard futures have fluctuated within narrow limits, but latterly have been somewhat easier. Packers have been selling on rallies. To-day prices declined slightly.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery------cts.	9.62	9.77	9.70	9.67	9.72	9.72
July delivery----------	9.75	9.87	9.82	9.80	9.87	9.85
September delivery-----	10.02	10.10	10.05	10.02	10.10	10.10

PORK quiet and steady; mess $20@$21, clear $20@$22, family $21@$23. Beef, mess, $18 50@$19, packet $17@$18, family $19@$20, extra India mess $31@$32. Butter, creamery extras 28¼@28½c. Cheese, State, whole milk, fresh flat and twins, colored specials, 16⅝@16⅞c. Eggs, fresh-gathered extras 23@24c.

COFFEE has been quiet; No. 7 Rio 7⅛@7¼c., No. 4 Santos 9½@9¾c., fair to good Cucuta 10@10½c. Coffee futures have moved within very narrow bounds, latterly, however, weakening a little. The issuance of notices for a very moderate amount had a somewhat depressing effect. Cost and freight coffee has been weaker, and the private rate of Rio exchange has latterly been down to 12 5-32d., against 16d. a year ago. Receipts have latterly, it is true, decreased, and the stock, at Santos is only 530,000 bags, or about half what it was a year ago. To-day prices advanced. Closing quotations were as follows:

June -------5.45@5.50	October-----6.60@6.61	February ---6.75@6.76
July--------6.56@6.59	November --6.62@6.63	March------6.80@6.81
August -----6.57@6.58	December---6.64@6.65	April -------6.86@6.88
September --6.58@6.60	January ----6.69@6.70	

SUGAR has been stronger, partly owing to continued rains in Cuba. Rains in Java have also delayed the crop. Centrijugal, 96-degrees test, 4.89c. here; cost and freight 3⅞c.; last half of June 3 15-16c.; July 4c., and molasses, 89-degrees test, 4.12c. spot. Granulated 6c. Sugar futures have been firmer, though latterly the issuance of June notices has had a more or less depressing effect for the moment. June has been transferred to July at 10 to 12 points. Grinding has been delayed very noticeably in Cuba. But the abnormally cold weather, with frost in various parts of this country has been a drawback to refiners. Warm weather stimulates the consumption of granulated. To-day prices were slightly higher. Closing quotations follow:

June -------3.94@3.95	September --4.20@4.21	December---3.96@3.98
July--------4.04@4.05	October-----4.18@4.19	January ----3.65@3.70
August -----4.13@4.15	November --4.08@4.09	February ---3.55@3.60

OILS.—Linseed has been in fair demand at unchanged prices; city, raw, American seed, 67c.; boiled 68c.; Calcutta 75c. Cocoanut oil steady; Cochin 10¾@11c.; Ceylon 9¾@10½c. Olive 92@95c. Castor unchanged at 10c. Palm in moderate demand at 8¼@9c. for Lagos. Cod, domestic, 42@43c. Cottonseed oil steady at 6.50@7.50c. for winter and summer white. Spirits of turpentine 45½@46c. Common to good strained rosin $3 45.

Prices were as follows:

PETROLEUM has been steady and in fair demand; refined in barrels 7.50@8.50c.; bulk 4@5c., cases 9.75@10.75c. Naphtha, 73 to 76 degrees, in 100-gallon drums, 23½c.; drums $8 50 extra. Gasoline, 89 degrees, 26c.; 74 to 76 degrees, 22@24c.; 67 to 70 degrees, 22c. Development work has been retarded to some extent in the Central West by unfavorable weather during the past week, according to advices from Toledo. Prices were unchanged and as follows:

Pennsylvania dark	$1 35	Corning	83c.	Somerset, 32 deg.	80c.
Second sand	1 35	Wooster	$1 05	Ragland	62c.
Tiona	1 35	North Lima	86c.	Illinois, above 30 degrees	84c.
Cabell	97	South Lima	83c.		
Mercer black	97	Indiana	78c.	Kansas and Oklahoma	40c.
New Castle	97	Princeton	84c.		

TOBACCO has remained quiet, partly owing to the falling off in the consumption of cigars in these times. At the same time manufacturers are not believed to be heavily supplied, so that from time to time they must come in and buy. This keeps prices steady, even though sales are unsatisfactory. For new Sumatra there is a fair demand. Cuban tobacco is still quiet.

COPPER has been quiet; Lake 18½@18¾c.; electrolytic 18@18½c. London of late has been firmer. Tin on the spot here has latterly been 37¼c., showing some decline, with larger offerings and a smaller demand. At London prices within a few days have declined, but Singapore has advanced. Spelter has reached the extraordinary price of 20@21 cents here on the spot, owing to extreme scarcity and a sharp demand. June and July held at East St. Louis at 20 cents. August and September nominally 19c. London has advanced to £77 10s. for spot G.M.B., a rise for the week of £7 10s. In a single day it advanced £4 10s. Lead here on the spot 4.40c.@4.50c., the rise being in response to an advance in London. Prices are up here $4 a ton on the week. The iron and steel trade is rather quiet, so far as domestic consumption is concerned. Competition is keen and prices are said to have been in some cases shaded. But shrapnel bar orders are large for export. In the Central West an inquiry is reported for 45,000 tons of 1 1-16-inch rounds for rifle barrels. Galvanized sheets have risen to 4 cents for No. 28, owing to the great advance in spelter The production of steel in the Pittsburgh and near-by districts has been in some cases increased slightly. The largest plants are still operating at the same capacity as recently. In some instances this is said to be 80%. Pig iron has been quiet; No. 2 Eastern foundry, $13 50@$13 75; No. 2 Southern Birmingham, $9 50@$10. Sales of rails are increasing.

COTTON

Friday Night, May 28 1915.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 73,245 bales, against 69,538 bales last week and 94,412 bales the previous week, making the total receipts since Aug. 1 1914 10,071,945 bales, against 10,235,810 bales for the same period of 1913-14, showing a decrease since Aug. 1 1914 of 163,865 bales.

Speculation in cotton for future delivery has been quite moderate and prices have shown irregularity. Recently the swing of quotations has been within a range of 40 to 50 points. Really the trade might in a sense be said to have been marking time awaiting further developments in regard to the international political situation and the weather and crop news. Of late the market has had the appearance of being pretty well liquidated. Prices weakened for a time under some selling, due to improving weather and the reported mishap to the steamship Nebraskan, said to have been struck either by a submarine or a floating mine. Emphasis is laid on the fact too that stocks are large both at the ports and interior towns and that exports have recently fallen off materially. It looks as though the carry-over into next season will be large. As for the consumption, some assert that the war is using up far less of the staple in the shape of cotton for explosives than many had supposed. Then the disposition of many has been to await the receipt of the German note in reply to that of this Government in the matter of the Lusitania, &c. The whole situation has been such that aggressive bullish speculation has received a setback. Also, faith in the idea that the acreage will be very sharply reduced is waning. Liverpool at times, moreover, has been a heavy seller here. Last Tuesday, in fact, its sales were so large that they had much to do with the sharp decline which then took place. The entrance of Italy into the war has had no great effect either way. In some respects it is considered a bearish factor, since a great deal of cotton has been shipped to Italy this season for the purpose of transhipment to Germany and Austria. This outlet for American cotton is now closed. Wall Street, the West and local traders have all been selling. Sentiment becomes bearish for the most part at New York, New Orleans, Memphis and Liverpool. A bearish Government crop report is expected on June 2. The Liverpool spot sales have been small. Manchester reports have not been cheering. Liverpool has been sending rumors to the effect that there may be a lockout in Lancashire of 140,000 hands on June 7. Sales of cotton goods in this country have been smaller than they were a while back and prices in some cases somewhat easier. Spot markets at the South have been sluggish. The

stock at New York is steadily increasing and it is considered to be of unusually good quality. On the other hand, the crop is admittedly two or three weeks late in many sections of the belt. Louisiana has been suffering for rain. In Mississippi and Alabama, as well as Louisiana, the condition is said to be not so good as it was a year ago. Recent drought retarded germination in those States. There are still persistent reports that in not a few sections of the belt the acreage will be sharply reduced. Also, it is argued that the use of fertilizers will be cut down greatly in the section east of the Mississippi, where fertilizers are necessary for the raising of a good crop. After all, too, the total exports thus far this season are far larger than was at one time expected. Bulls insist that the war in Europe will use up large quantities of American cotton, and that not more than 2,000,000 bales will be carried over into next season, although some of the bear estimates are double this quantity. Contracts of late have not been very plentiful, however large stocks at cotton centres of the country may be. It is said, too, that some 75,000 bales of the New York stock are owned in Europe. Quite a little cotton now held at Southern points is also said to have been already sold. Prices have declined from the high point of the season about 130 points, which some think discounts anything at all bearish in the situation. They also maintain that the price is below the cost of production and that sooner or later it will advance. Still, there is no great faith in the bull side at the present time. The condition of the crop in Texas and Oklahoma is much better, it seems, than it was last year, when the condition was 65 in Texas and 68 in Oklahoma and 79 in Arkansas, these being the Government figures for June. Conditions are also said to be noticeably better than a year ago in the Carolinas, Arkansas and Tennessee. In Georgia it looks as though they were somewhat better than at this time last year. The market has latterly been oversold, however, and prices rallied, though they are still below those of a week ago. To-day prices advanced slightly. Louisiana had copious and beneficial rains over night. New Orleans exported 35,231 bales. Spot cotton closed at 9.60c. for middling upland, showing a decline for the week of 15 points.

The following averages of the differences between grades, as figured from the May 27 quotations of the nine markets, designated by the Secretary of Agriculture, are the differences established for deliveries in the New York market on June 3:

Middling fair	1.05 on	Good middling "yellow" tinged	0.08 on
Strict good middling	0.77 on	Strict middling "yellow" tinged	0.17 off
Good middling	0.53 on	Middling "yellow" tinged	0.49 off
Strict middling	0.26 on	Strict low mid. "yellow" tinged	0.99 off
Strict low middling	0.44 off	Low middling "yellow" tinged	1.62 off
Low middling	1.00 off	Middling "blue" tinged	0.81 off
Strict good ordinary	1.63 off	Strict low mid. "blue" tinged	1.20 off
Good ordinary	2.18 off	Low middling "blue" tinged	1.78 off
Strict good mid. "yellow" tinged	0.35 on	Middling "stained"	1.16 off

The official quotation for middling upland cotton in the New York market each day for the past week has been:

May 22 to May 28—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Middling uplands	9.80	9.70	9.65	9.50	9.55	9.60

NEW YORK QUOTATIONS FOR 32 YEARS.

* Estimated.

Continental imports for past week have been 56,000 bales.

The above figures for 1915 show a decrease from last week of 49,676 bales, a gain of 2,067,567 bales over 1914, an excess of 2,549,465 bales over 1913 and a gain of 2,604,623 bales over 1912.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Aug. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding perio of the previous year—is set out in detail below.

The above totals show that the interior stocks have *decreased* during the week 19,508 bales and are to-night 340,803 bales more than at the same time last year. The receipts at all towns have been 9,364 bales more than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE AUG. 1.—We give below a statement showing the overland movement for the week and since Aug. 1, as made up from telegraphic reports Friday night. The results for the week and since Aug. 1 in the last two years are as follows:

May 28—	1914-15 Week.	1914-15 Since Aug. 1.	1913-14 Week.	1913-14 Since Aug. 1.
Shipped—				
Via St. Louis	7,677	650,526	8,213	531,975
Via Cairo	3,601	314,008	1,875	390,296
Via Rock Island	----	4,380	315	6,957
Via Louisville	1,708	151,608	1,346	118,301
Via Cincinnati	4,876	112,276	1,138	119,458
Via Virginia points	2,086	168,922	789	142,216
Via other routes, &c	10,417	467,420	1,216	352,365
Total gross overland	30,365	1,869,140	14,892	1,661,568
Deduct shipments—				
Overland to N. Y., Boston, &c	2,923	185,177	1,501	120,097
Between interior towns	5,107	212,867	1,246	158,381
Inland, &c., from South	2,261	145,141	3,414	142,348
Total to be deducted	10,291	543,185	6,161	420,826
Leaving total net overland*	20,074	1,325,955	8,731	1,240,742

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 20,074 bales, against 8,731 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 85,213 bales.

In Sight and Spinners' Takings.	1914-15 Week.	1914-15 Since Aug. 1.	1913-14 Week.	1913-14 Since Aug. 1.
Receipts at ports to May 28	73,245	10,071,945	61,037	10,235,810
Net overland to May 28	20,074	1,325,955	8,731	1,240,742
South'n consumption to May 28	64,000	2,570,000	62,000	2,592,000
Total marketed	157,319	13,967,900	131,768	14,068,552
Interior stocks in excess	*19,508	515,456	*35,496	151,324
Came into sight during week	137,811	--------	96,272	------
Total in sight May 28	----	14,483,356	------	14,219,876
North'n spinn's takings to May 28	61,946	2,861,408	24,308	2,603,519

* Decrease during week.

Movement into sight in previous years:

Week—	Bales.	Week—	Bales.

WEATHER REPORTS BY TELEGRAPH.—Telegraphic advices to us this evening from the South indicate that over the greater part of the cotton belt rain has fallen during the week, generally to the benefit of cotton, although at a few points the rainfall was rather excessive. Reports from Texas denote that the general condition of growing cotton is good.

Galveston, Tex.—The general condition of growing cotton in Texas is at present good. Late-planted cotton is said to be in need of moisture but can withstand drought from a week to ten day without deterioration. We have had rain here on one day during the week, the precipitation reaching twenty-eight hundredths of an inch. Average thermometer 75, highest 82, lowest 68.

Abilene, Tex.—There has been rain on two days during the week, the precipitation being thirty-two hundredths of an inch. The thermometer has averaged 71, the highest being 90 and the lowest 52.

Benham, Tex.—There has been rain on four days the past week, the rainfall reaching one inch and eighty-seven hundredths. The thermometer has averaged 80, ranging from 68 to 91.

Cuero, Tex.—We have had rain on two days during the week, the rainfall reaching one inch and eight hundredths. The thermometer has ranged from 65 to 92, averaging 79.

Dallas, Tex.—We have had rain on one day during the week, the rainfall being twenty-eight hundredths of an inch. Minimum thermometer 60, highest 91, average 76.

Henrietta, Tex.—There has been rain on three days during the week, the precipitation reaching three inches and twenty hundredths. The thermometer has averaged 73, the highest being 90 and the lowest 56.

Huntsville, Tex.—We have had rain on one day during the week, the rainfall reaching twenty hundredths of an inch. The thermometer has averaged 79, ranging from 66 to 92.

Kerrville, Tex.—Dry all the week. The thermometer has ranged from 54 to 91, averaging 73.

Lampasas, Tex.—Dry all the week. Average thermometer 73, highest 90, lowest 56.

Longview, Tex.—There has been no rain the past week. The thermometer has averaged 76, the highest being 97 and the lowest 54.

Luling, Tex.—There has been rain on one day of the week, to the extent of four hundredths of an inch. The thermometer has averaged 80, ranging from 66 to 94.

Nacogdoches, Tex.—There has been rain on two days during the week, the rainfall reaching two inches and seventy-six hundredths. The thermometer has ranged from 64 to 97, averaging 81.

Palestine, Tex.—Rain has fallen on one day during the week, the rainfall being eighty hundredths of an inch. Highest thermometer 90, lowest 60, average 75.

Paris, Tex.—There has been rain on four days during the week, the precipitation being two inches and one hundredth. The thermometer has averaged 74, the highest being 90 and the lowest 58.

San Antonio, Tex.—We have had rain on two days during the week, the rainfall reaching thirty hundredths of an inch. The thermometer has averaged 78, ranging from 66 to 90.

Taylor, Tex.—We have had no rain during the week. Minimum thermometer 62.

Weatherford, Tex.—Rain has fallen on one day during the week, the rainfall being one inch and thirty-six hundredths. Average thermometer 70, highest 88, lowest 52.

Ardmore, Okla.—There has been rain on four days during the week, the rainfall being three inches and nine hundredths. The thermometer has averaged 71, the highest being 89 and the lowest 54.

Mangum, Okla.—We have had rain on one day during the week, the rainfall reaching seven hundredths of an inch. The thermometer has averaged 69, ranging from 46 to 92.

Tulsa, Okla.—It has rained on three days of the week, the rainfall reaching three inches and seventeen hundredths. The thermometer has ranged from 51 to 88, averaging 70.

Eldorado, Ark.—Rain has fallen on two days during the week, the rainfall being eighty-two hundr dths of an inch. Minimum thermometer 78, maximum 91, mean 65.

Fort Smith, Ark.—There has been rain on four days of the week, the rainfall being four inches and twenty-four hundredths. The thermometer has averaged 73, the highest being 88 and the lowest 58.

Little Rock, Ark.—The e has been rain on two days of the week, to the extent of seventy-eight hundredths of an inch. The thermometer has averaged 76, ranging from 63 to 89.

Alexandria, La.—There has been rain on one day during the week, the rainfall being two inches and seventy-five hundredths. The thermometer has ranged from 64 to 94, averaging 79.

New Orleans, La.—There has been rain on two days during the week, the rainfall being one inch and forty-six hundredths. Average thermometer 82, highest 98, lowest 66.

Shreveport, La.—There has been rain on two days during the week, the precipitation reaching one inch and fifty-five hundredths. The thermometer has averaged 80, the highest being 91 and the lowest 69.

Columbus, Miss.—There has been rain on one day during the week, to the extent of one inch and thirty-five hundredths. The thermometer has averaged 82, ranging from 65 to 98.

Holly Springs, Miss.—We have had rain on two days during the week, the rainfall being one inch and thirty-three hundredths. The thermometer has ranged from 63 to 90, averaging 76.

Vicksburg, Miss.—Rain has fallen on three days during the week, the rainfall being three inches and fifty-nine hundredths. Average thermometer 80, highest 90, lowest 64.

Decatur, Ala.—There has been rain on one day during the week, the rainfall being eighty-one hundredths of an inch. The thermometer has averaged 80, the highest being 94, and the lowest 66.

Mobile, Ala.—Crops are clean. The plant is small but healthy. Heavy rains in the interior last night will improve condition. There has been rain on one day during the week, to the extent of fifteen hundredths of an inch. The thermometer has averaged 79, ranging from 69 to 84.

Montgomery, Ala.—Needed rains fell during the week. Prospects are good. It has rained on two days of the week, the rainfall reaching two inches and thirty-one hundredths. The thermometer has ranged from 65 to 96, averaging 81.

Selma, Ala.—We have had rain on one day during the week, the rainfall being fifty hundredths of an inch. Minimum thermometer 82, highest 95, average 68.

Madison, Florida.—There has been rain on one day during the week, the precipitation reaching twenty-three hundredths of an inch. The thermometer has averaged 83, the highest being 97 and the lowest 71.

Tallahassee, Fla.—There has been rain on one day of the week, to the extent of fifteen hundredths of an inch. The thermometer has averaged 84, ranging from 70 to 97.

Albany, Ga.—We have had rain on two days during the week, the rainfall being sixty-one hundredths of an inch. The thermometer has ranged from 70 to 100, averaging 85.

Athens, Ga.—Rain has fallen on three days during the week, the rainfall being thirty-eight hundredths of an inch. Highest thermometer 94, lowest 51, average 73.

Savannah, Ga.—There has been rain on four days during the week, the rainfall being one inch and six hundredths. The thermometer has averaged 80, the highest being 97 and the lowest 69.

Charleston, S. C.—We have had rain on one day during the week, the rainfall reaching two hundredths of an inch. The thermometer has averaged 78, ranging from 66 to 90.

Cheraw, S. C.—We have had rain on four days during the week, the rainfall reaching ninety-seven hundredths of an inch. Thermometer has ranged from 57 to 91, averaging 74.

Spartanburg, S. C.—Rain has fallen on two days during the week, the rainfall being eighty-five hundredths of an inch. Average thermometer 73, highest 93, lowest 53.

Charlotte, N. C.—There has been rain on three days during the week, the precipitation being thirty-two hundredths of an inch. The thermometer has averaged 72, the highest being 89, and the lowest 56.

Goldsboro, N. C.—There has been rain on four days the past week, the rainfall reaching three inches and forty-three hundredths. The thermometer has averaged 71, ranging from 51 to 91.

Weldon, N. C.—We have had rain on three days during the week, the rainfall being eighty-five hundredths of an inch. The thermometer has ranged from 49 to 90, averaging 70.

Memphis, Tenn.—We have had rain here on three days during the week, the precipitation reaching two inches and nineteen hundredths. Average thermometer 77, highest 90, lowest 65. Crops are progressing finely.

Milan, Tenn.—There has been rain on three days of the week, the rainfall being two inches and fifty-six hundredths. The thermometer has averaged 76, the highest being 89 and the lowest 63.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 159,313 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales.
NEW YORK—To Havre—May 22—Niagara, 1,311...May 25—Breiz Izel, 1,547	2,658
To Archangel—May 22—Czaritza, 2,000	2,000
To Leghorn—May 22—Calabria, 1,100	1,100
GALVESTON—To Liverpool—May 21—Glenrazen, 16,438	16,438
To Manchester—May 21—Asuncion de Larrinaga, 10,110	10,110
To Barcelona—May 24—Otoyo 9,176	9,176
To Malaga—May 24—Otoyo, 1,000	1,000
TEXAS CITY—To Mexico—May 22—City of Mexico, 1,715	1,715
PORT ARTHUR—To Liverpool—May 25—Albanian, 5,292	5,292
NEW ORLEANS—To Liverpool—May 22—Asian, 4,176...Pontiac, 11,286...May 25—St. Bede, 11,923...May 26—Almora, 1,325...May 27—Arranmore, 6,500...May 28—Explorer, 17,000; Huronian, 7,100	59,310
To Belfast—May 27—Rathlin Head, 4,331	4,331
To Barcelona—May 26—Catalina, 2,450	2,450
To Mexico—May 28—Falk, 300	300
MOBILE—To Liverpool—May 25—Nubian, 4,746	4,746
To Manchester—May 21—Ardanmhor, 100	100
PENSACOLA—To Liverpool—May 21—Adelina, 7,428	7,428
SAVANNAH—To Liverpool—May 21—Snowdonian, 11,054	11,054
To Barcelona—May 22—Carolina E. de Perez, 1,700	1,700
WILMINGTON—To Genoa—May 27—Alcana, 12,641	12,650
BOSTON—To Liverpool—May 22—Etonian, 89	89
To Yarmouth—May 18—Prince George, 182...May 22—Prince George, 273	455
BALTIMORE—To Liverpool—May 14—Larchmore, 3	3
PHILADELPHIA—To Manchester—May 15—Manchester Exchange, 200	200
To Copenhagen—May 13—California, 50	50
To Leghorn—May 24—Giuseppe G., 266	266
SAN FRANCISCO—To Japan—May 22—Tenyo Maru, 4,550	4,550
To Vladivostock—May 22—Tenyo Maru, 151	151
Total	159,313

COTTON FREIGHTS.—Current rates for cotton from New York are as follows, quotations being in cents per pound:

Liverpool, 1.25c.; Manchester, 1.25c.; Havre, 1.50c.; Rotterdam, 1.50c.; Genoa, 1.25@1.50c.; Naples, 1.25c.; Leghorn, 1.35c.; asked; Barcelona, 1.50c. asked; Marseilles, 1.50c.; Piraeus, 1.45c. asked; Syra, 1.60c. asked; Japan, 1.25c.; Shanghai, 1.00c.; Bombay, 1.25c.

LIVERPOOL.—By cable from Liverpool we have the following statement of the week's sales, stocks, &c., at that port:

	May 7.	*May 14.*	*May 21.*	*May 28.*
Sales of the week	34,000	31,000	29,000	17,000
Of which speculators took	1,600	1,100	2,600	1,000
Of which exporters took	2,600	5,000	2,700	2,000
Sales, American	28,000	24,000	22,000	14,000
Actual export	13,000	9,000	7,000	7,000
Forwarded	70,000	101,000	87,000	62,000
Total stock	1,566,000	1,553,000	1,579,000	1,708,000
Of which American	1,286,000	1,277,000	1,288,000	1,419,000
Total imports of the stock	145,000	96,000	120,000	198,000
Of which American	110,000	90,000	93,000	188,000
Amount afloat	363,000	358,000	285,000	279,000
Of which American	308,000	296,000	247,000	233,000

The tone of the Liverpool market for spots and futures each day of the past week and the daily closing prices of spot cotton have been as follows:

Spot.	*Saturday.*	*Monday.*	*Tuesday.*	*Wednesday.*	*Thursday.*	*Friday.*
Market, 12:15 P. M			Quiet.	Quiet.	Dull.

BREADSTUFFS

Friday Night, May 28 1915.

Flour has been in the main steady but quiet. Little has been done in new flour as yet. Spring-wheat flour has been at times noticeably firm, with premiums very generally demanded. It is said that some mills have been obliged to close down because of the lack of wheat. Yet latterly the trade in St. Louis, Kansas City, Chicago and the Northwest has been as a rule very moderate if not dull. Mills are evidently not inclined to take too literally the recent reports of damage to the wheat crop. Towards the close prices in some cases were eased. The total production last week at Minneapolis, Duluth and Milwaukee was 364,070 barrels, against 317,175 barrels in the previous week and 333,605 barrels last year.

Wheat has been irregular, generally within rather narrow confines, until Thursday, when May fell sharply. Early in the week it was considerably lower than last Friday, but later there was a noticeable recovery, actually putting the price of July for a time above that of a week ago; later May broke badly—8 cents in one session, 13c. within 24 hours and 24¾c. under the high point of the season, on heavy selling by elevator interests. Unfavorable crop reports from Kansas had some effect at one time. Some Western reports insist that there has been sharp decrease in the indicated crops since the last Government report. The loss is variously estimated at from 50,000,000 to 80,000,000 bushels. Heavy and continuous rains had a certain effect. Some are predicting a bullish June Government report. Country offerings, owing to the wet weather, have been rather small. The acreage in the United Kingdom is smaller than was expected. It will be much smaller than last year in France, and the French Government has requisitioned all old supplies of wheat and growing crops. Reserves in France are very moderate and the consumption large. In India seeding of new crop is delayed by drought and hot weather. India is offering wheat freely enough, but for all that its prices have been firm. In Germany the Government has commandeered all growing crops. In Hungary only a fair yield is expected and is some parts rain is needed. At Buenos Aires prices have been strong and the feeling more or less excited, owing to the continued wet weather. Shippers have been buying freely. Importing countries have been competing sharply in Argentina. There are apprehensions that the movement of the Argetina crop may be considerably delayed by the wet weather. The Russian Government has requisitioned all grain stocks at the port of Azoff. The world's stocks are now down to 36,200,000 bushels, or 4,300,000 less than a year ago and 27,000,000 bushels less than at this time in 1913. On the other hand, the export sales have been disappointing. Only moderate quantities have been taken from time to time. Not only is the export demand slack but millers in this country are not buying freely And Western points like Omaha, St. Joseph, Kansas City and St. Louis are rushing wheat to Chicago for delivery. It is said St. Louis alone is sending some 400,000 bushels. Chicago's stock is expected to reach 3,000,000 bushels. Elevators sold heavily against these shipments. Cash premiums have disappeared. Though damage reports are rife, as usual at this time of the year, they are beginning to be taken with a grain of salt. Some of the lurid statements are being modified. While the prospects through out the winter-wheat belt have been changed somewhat for the worse since the Government May report was issued, there are still prospects of raising next to the largest crop on record. Some feel that a high-record crop may yet be raised with good weather and average luck with the spring-wheat crop. In the United Kingdom stocks of wheat are increasing. Though Russia needs rain in the Southern districts the Russian crop outlook on the whole is good. That is also the case in Rumania and Bulgaria on an increased acreage. The crop in Greece will be much larger than that of last year. Beneficial rains have fallen in Austria and the outlook is very promising. Italy's chances of raising a good crop are very fair. As a result of all this, prices have sagged, partly, it should be added, owing to the report that the American steamship Nebraskan had been attacked by a German submarine off the coast of Ireland. It was feared that this may possibly bring on a grave cris s in the relations between the United States and Germany if it is found that the vessel was really struck by a submarine, as some reports insist it was. The later months, however, have shown no such weakness as that noticed in the May option. To-day prices were lower, especially on May. Southwestern crop reports were better. Floods are feared in the Mississippi, Missouri and Ohio valleys.

Indian corn declined early in the week on good weather, favorable crop reports, dulness of the cash trade and a certain amount of depression in wheat. But later there was rally on covering of shorts in an oversold market. Besides, there were some complaints of excessive rains in Iowa and Nebraska. They caused more or less delay in planting and also in germination of early planted corn. Also country offerings were light. Some export business has been done. Finally, stocks are rapidly decreasing. Last week the decrease was close to 2,600,000 bushels, or about 1,000,000 bushels more than in the same week last year. The falling off from the high level reached last February has been over 25,000,000 bushels. Cold wet weather in Nebraska and Iowa it is said, will necessitate considerable replanting. At Buenos Aires prices have been strong on wet weather, which noticeably affects the grading. There are reports of some American inquiries for corn at Buenos Aires. Frieghts there are firm for Europe, but rather weak for America. To-day prices advanced on Western rains and reacted on a forecast of clearing conditions.

Oats weakened at one time and then rallied somewhat. But the swing of prices as a rule has been within very contracted limits. Country offerings have been small. The shipments from Chicago have been large. The visible supply is being rapidly reduced. The decrease last week was 2,880,000 bushels, or 650,000 bushels more than in the same week last year. Just now the visible supply amounts to 21,730,000 bushels, or about 200,000 bushels less than a year ago. Liverpool reports that there is a good demand for all feeding grain there at a fair advance in prices. Native oats are offered very sparingly. Argentina prices are firm and it is not easy to buy Chilian oats. France, according to Liverpool advices, is buying freely in America. The stock in Russian ports and elevators is officially stated at 4,720,000 bushels, against 13,000,000 bushels a year ago. On the other hand, the domestic demand has been small, and no reports of new export sales have been confirmed. The country is beginning to offer new oats on a moderate scale. Crop news, on the whole, is favorable. But, on the other hand, there has been no great pressure to sell. May oats at times have been quite strong and early in the week there were rumors that exporters were inquiring for a million bushels here. It may be that they bought to some extent with the stipulation that the fact should not be announced. Exporters the other day took 17,000 bushels of rye. The oats belt is said to need dry, warm weather. To-day prices advanced early. Big elevator interests at Chicago bought May and sold July. Later there was a reaction.

WEATHER BULLETIN FOR WEEK ENDING MAY 24.—The influences of weather on the crops as summarized in the weather bulletin issued by the Department of Agriculture for the week ending May 24 were as follows:

Winter Wheat.—In the principal States of the winter-wheat belt copious rains furnished sufficient moisture for present needs, in fact, too much occurred in Oklahoma and portions of Kansas, causing too rank growth and damage by lodging and flooding. The crop continues promising in Texas, where it is now ripening, and in Central and Western Kansas, where it is heading. It continues favorable in Nebraska and most of the other northern districts of the belt, and has improved considerably in the southern districts to eastward of the Mississippi and over the Atlantic Coast States. Damage by fly continues in the districts where previously reported, but there appears to have been no marked increase in the area affected.

Spring Wheat.—In the spring-wheat States it continued cool, thus retarding rapid growth, but there is sufficient moisture in the soil and the crop is reported as being in good condition.

Corn.—Wet weather over the northern portion of the corn belt delayed planting and continued cold delayed germination and favored cutworm activity, necessitating much replanting. Over the southern districts the

early planted made good growth and cultivation progressed satisfactorily, except in Oklahoma and portions of surrounding States, where the ground continues too wet and the fields are becoming grassy.

Cotton.—Warm weather prevailed and but little rain occurred in the cotton belt during the week, except in Oklahoma and portions of the adjoining States, where the rainfall was generally heavy. However, the soil in those portions of the belt where little rain occurred is, in most cases, supplied with sufficient moisture for present needs and no harmful effects were produced, except locally in Mississippi and Southern Texas, where the late planted needs more moisture for satisfactory germination, and in Louisiana, where the crop is suffering from the lack of rain. In Oklahoma and portions of Arkansas the soil was too wet for cultivation and the crop is becoming grassy, but in all other portions of the belt the early planted is up to a good stand and well cultivated.

Oats, Hay and Grass.—These crops made satisfactory growth in all districts. Oats are being cut in the South, but the early crop is generally light, except in Texas, where it is reported as excellent. Late oats in the South and the crop generally in the central and northern districts are reported in excellent condition. Alfalfa made rapid growth and cutting of the first crop has extended into the central districts, but some loss has occurred on account of wet weather, while grass is in fine condition in all western and northern districts and is improving in the East. In the Southern trucking districts crops made good progress during the week, except locally where drought prevails.

For other tables usually given here, see page 1809.

The visible supply of grain, comprising the stocks in granary at principal points of accumulation at lake and seaboard ports Myy 22 1915 was as follows:

THE DRY GOODS TRADE.

New York, Friday Night, May 28 1915.

Business in dry goods continues fairly active, although confined chiefly to immediate and near-by deliveries. Buyers are conservative in placing forward contracts, preferring to go thoroughly into the price situation, quality of goods and delivery dates before committing themselves. Leading houses state that advices received from out of town are encouraging, particularly concerning business conditions in the West and Southwest. In the Southeast the outlook is not so good, a bad summer being anticipated as a result of depression in the cotton trade caused by the war. Manufacturers are fairly covered on forward business and are not encouraging new contracts at the expense of values. Raw material is the controlling factor with them, and as the present diplomatic negotiations with Germany might result in a break causing the loss of that market and serious unsettlement in the price of the staple, they prefer to await the result before making up forward price schedules. Buyers are also discouraged from placing forward business for the same reason. Jobbers report an active demand for all seasonable goods. While orders received are not large, they aggregate a good volume. Prompt shipment of all goods under order is being requested, and in some cases jobbers are being asked to advance shipping dates. Local store trade suffered during the week from unfavorable weather conditions, but mail orders have equaled the average of the past few weeks. In some cases jobbers complain that the backwardness of deliveries of mills is making it difficult for them to meet their obligations. Retailers are steadily disposing of goods, and as they are running on a low margin of stock they are constantly in the market for additional supplies. Retailers have as yet given little attention to fall and winter requirements, and are not expected to do much in this direction until well into the summer. In export circles there is a steady flow of shipments against war contracts, but new business is not as heavy as rumors indicate. Exports to regular markets are light, no further inquiries being received from either Red Sea or India buyers. Reports from the Far East are discouraging, it being stated that Japan has acquired almost complete control of the heavy cotton goods trade of China, and that American manufacturers will be unable to meet their prices.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 22 were 5,299 packages, valued at $376,696, their destination being to the points specified in the table below:

	1915		1914	
New York to May 22—	*Week.*	*Since Jan. 1.*	*Week.*	*Since Jan. 1.*
Great Britain	992	28,848	49	1,557
Other European	920	10,581	177	1,434
China	1,108	4,051	---	34,892
India	---	14,542	---	6,151
Arabia	---	23,371	---	5,012
Africa	---	7,047	12	4,203
West Indies	988	19,208	693	21,686
Mexico	---	236	---	259
Central America	343	7,111	569	9,185
South America	863	16,105	611	24,173
Other countries	85	29,408	544	28,390
Total	5,299	160,508	2,655	136,942

The value of these New York exports since Jan. 1 has been $10,149,764 in 1915, against $9,962,297 in 1914.

Staple cottons are fairly active and firm. New business is mostly for near-by account, buyers showing hesitancy in placing forward contracts at the prices which manufacturers are asking. Prints and colored goods are decidedly firm, owing to the scarcity of dyes. Staple blacks have been advanced ¼c. during the week, and most solid colors are becoming so scarce as to require sharp advances or complete withdrawal of the goods from the market. Indigos and reds are to be had in small quantities only, with mills in no position to furnish additional supplies. Demand for these goods, however, is backward, buyers being slow to meet the high prices asked and evidently paying but slight attention to the shortage of supplies. Bleached and brown goods are firm with shipments against standing orders going forward steadily. There is a good business being done in cotton duck for export and the demand for coarse sheeting as a substitute for burlaps is unabated. Gray goods, 38-inch standard, are quoted at 4⅛c.

WOOLEN GOODS.—Fall dress goods are moving steadily, although re-orders are slow in coming to hand. Road salesmen handling goods in the piece are sending in better orders and their reports concerning the condition of stocks in the hands of retailers and tailors are encouraging. There is a brisk deand for poplins, supplies of which are beginning to run short, while sales of whipcords and Bedford cords are better than had been expected. The demand for serges and broadcloths, while fair, has fallen off. The dye situation continues to be a source of anxiety to mill owners, who are loath to open the new spring 1916 season. In fact, manufacturers cannot figure on late shipments for the coming heavy-weight season, owing to the uncertainty of wool and dye supplies.

FOREIGN DRY GOODS.—The situation so far as imported lines of dry goods are concerned is unchanged and is likely to continue so while the war lasts. Business in linens is steady, although supplies are so scarce as to restrict trade. Colored dress linens in the desired shades are very hard to obtain, even where buyers are willing to meet the prices asked. Importers can give buyers little encouragement regarding future supplies and are not in a position to accept bookings for more goods than they have assurance will come forward. Demand for housekeeping lines in all grades is good, although the high prices asked are causing many buyers to turn their attention to substitutes. Retail stocks are in need of replenishing. The tendency of prices for burlaps continues upward. While demand is active, business is checked by the smallness of supplies. Light weights are quoted at 6.50c. and heavy-weights at 7.50c.

Importations & Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending May 22 1915 and since Jan. 1 1915, and for the corresponding periods of last year, were as follows:

Imports Entered for Consumption for the Week and Since Jan. 1.

State and City Department.

STATE AND CITY SECTION.

A new number of our "State and City Section," revised to date, is issued to-day, and all readers of the paper who are subscribers should receive a copy of it.

News Items.

Dunkirk, N. Y.—*Commission Government Defeated.*—The election held May 25 resulted in the defeat of the commission plan of government.—V. 100, p. 1767.

Michigan.—*Foreign Municipal Bonds Upon Payment of Specific Tax of ½ of 1% Exempted From Further General Taxes.*—Governor Ferris on May 17 signed the bill providing that upon the payment of a specific tax of one-half of one per cent, bonds issued by any State, county, township, city, village, school district or good roads district outside of Michigan shall be exempt from further general taxes under the laws of that State. The law, which is given in full below, is an amendment to Act 142 of Public Acts of 1913, which provides for a similar exemption in the case of "secured debts".

HOUSE ENROLLED ACT NO. 105.

An Act to amend the title and Sections of Two and Four of Act one hundred forty-two of the Public Acts of nineteen hundred thirteen, entitled "An Act to provide for the assessment and the collection of a specific tax upon secured debts other than debts secured or evidenced by mortgages and liens upon real property, and which mortgages and liens are recorded in Michigan, and to repeal all Acts and parts of Acts in contravention thereto."

The People of the State of Michigan enact:

Section 1. The title and Sections Two and Four of Act one hundred forty-two of the Public Acts of nineteen hundred thirteen, entitled "An Act to provide for the assessment and the collection of a specific tax upon secured debts other than debts secured or evidenced by mortgages and liens upon real property, and which mortgages and liens are recorded in Michigan, and to repeal all Acts and parts of Acts in contravention thereto", are hereby amended to read as follows:

TITLE.

An Act to provide for the assessment and the collection of a specific tax upon secured debts other than debts secured or evidenced by mortgages and liens upon real property and which mortgages and liens are recorded in Michigan, and upon certain foreign municiapl bonds, and to repeal all Acts and parts of Acts in contravention thereto.

Section 2. Any person may take or send to the office of the Treasurer of the county where he resides, any secured debt as defined in Section one of this Act, or any bond issued by any State, county, township, city, village, school district or good roads district outside of this State, or a description of the same, and may pay to the county a tax of one-half per centum on the face value thereof and the treasurer shall thereupon make an endorsement upon said secured debt or municiapl bond or shall give a receipt for the tax thereon describing said secured debt or municiapl bond, and certifying that the same is exempt from taxation, which endorsement or receipt shall be duly signed and dated by the treasurer or his duly authorized representative. The treasurer shall keep a record of such endorsements and receipts with a description of such secured debt or municipal bond together with the name and address of the person presenting the same and the date of registration.

Section 4. Such secured debts and municipal bonds, upon which the specific tax provided for in this Act shall be paid, shall be exempt from further general taxes under the laws of this State.

Constitutional Amendment Defeated.—The proposed constitutional amendment permitting the issuance of bonds by drainage districts (V. 100, p. 1185) was defeated at the April 5 election. The vote was 191,337 "for" to 198,553 "against."

New York City.—*Marginal RR. Bill Signed.*—The bill of Senator Thos. H. Cullen of Brooklyn, which permits the establishment by New York City of a marginal freight terminal railroad along the South Brooklyn waterfront, was signed by Governor Whitman on May 24.

The Board of Estimate and Apportionment under the present freight terminal law has power to contract with any individual or corporation either to construct, equip and operate, or to equip and operate after construction by the city, or to operate after construction and equipment by the city, its freight terminal facilities. The purpose of the new measure is to allow railroad companies to hold stocks, bonds or other evidences of indebtedness in a freight terminal company which it is proposed to incorporate to operate the terminal facilities in the boroughs of Brooklyn and Queens. At the present time this is prohibited. In signing the bill Governor Whitman said:

The bill is opposed on the following grounds:

First. That the city's proposal to construct and equip a marginal railroad and lease the same to the trunk line railways will result in a large annual loss to the city.

Second. That the estimated cost as submitted by the city officials is inadequate.

Third. That there will ultimately be an investment of $22,000,000, of which the city will receive interest on only $7,500,000.

Fourth. That the measure is designed for the benefit of certain land owners and that there have been purchases of unnecessary property at excessive figures and will continue to be.

It seems to me that these objections in regard to cost, the business policy of the city, the question of whether the city has paid exorbitant prices for unnecessary land, and will continue to do so, are not germane to the question of whether I should approve this bill or not.

The objections presented against this bill have reference to the law as it exists at present, and my refusal to approve the measure would not prevent the conditions complained of, if they exist. The measure before me simply vests discretionary power in the Board of Estimate and Apportionment and is restrictive in terms.

In the first place, a contract must be entered into between the Board of Estimate and Apportionment and a freight terminal company.

Secondly, such contract must be made pursuant to the provisions of the very Section that this bill amends.

Thirdly, the Board of Estimate and Apportionment must give its consent to a railroad company before the latter may be interested in stocks, bonds or other evidences of indebtedness of such freight terminal company, and,

Fourthly, such consent can be given only after notice and a public hearing.

By this proposed amendment, therefore, the Board of Estimate and Apportionment will be responsible for the proper, efficient and satisfactory construction, equipment and operation of these terminal facilities.

Furthermore, as the city has already invested a large amount of money in this enterprise, it should not be prevented from securing from this expenditure that benefit which it claims will be obtained through the approval of this bill.

New York State.—*Governor Signs Direct Tax and Money Bills.*—Governor Whitman on May 24 signed the direct tax bill calculated to raise $19,500,000 by the imposition of a tax of seven-tenths of a mill on each dollar of taxable property. The bill becomes Chapter 729 of the Laws of 1915. The various appropriation bills were also finally disposed of by the Governor on May 24. As passed by the Legislature these bills provided for new appropriations amounting to $65,199,898. The Governor vetoed items aggregating $2,565,360.

In a statement issued on May 24, Governor Whitman explained that he reached a conclusion as to his action on the thousands of items included in the appropriation measures only after many public hearings and careful investigation as to the necessity of the amounts asked for. The finances of the State had been exhausted, the Governor claims, "through failure of the previous administration to provide means for the payment of its obligations, and the State departments hampered and embarrassed by the further failure to make proper provision for their maintenance and operation."

In answer to the criticisms that have been raised, the Governor states in the first place that he has approved only those appropriations that represent actual necessities, and "that the total of these appropriations, no matter what the amount, gives opportunity only for carrying out the functions of the State with decency and the maintenance and protection of structures, canals and highways against wasteful deterioration." The Governor then goes on to say:

"Practically all of the criticism and misinformation and suggestions for illegal budget-making and false economy have come from the City of New York. The subject of the State budget is of great importance to the city because 70% of the direct tax necessary to finance the State appropriations is raised within the Greater City, and becomes an item in the city's annual budget. The citizens of New York City should not forget that, whatever the expenses of the State, the largest items are for the maintenance of State institutions, canals, the Department of Education and the highways.

"The inmates of State institutions almost to the percentage represented by the tax borne by the City of New York are from that city. The maintenance of the canal is of benefit almost exclusively to the cities of New York and Buffalo. I think I am safe in saying that the proportion of benefit to the City of New York is fully equal to the proportion of its cost which the city pays."

Taking up a consideration of the Supply bill, the Construction bill, and other special bills to meet the needs of the State in the present fiscal year, and the Apppropriation bill to provide for the cost of government for the new fiscal year beginning Oct. 1, Governor Whitman cited each appropriation in detail as authorized by the Legislature and his action on each item

The Governor's action on all the measures before him is shown in the following recapitulation of the detailed statements:

	As Submitted to the Governor.	*As Approved by the Governor.*	*Amount of Vetoes.*
Supply bills	$5,592,975 24	$5,257,920 98	$335,054 26
Special bills	17,247,168 30	16,134,352 15	1,112,816 15
General appropriation bills	33,269,733 58	32,888,688 58	381,045 00
Sinking funds	9,090,020 92	9,090,020 92	
Total	$65,199,898 04	$63,370,982 63	$1,828,915 41
Reappropriation bills	5,938,707 03	5,202,262 01	736,445 02
Grand total	$71,138,605 07	$68,573,244 64	$2,565,360 43

The Governor, continuing his financial statement, says:

"The larger appropriations of the present year represent not only increased cost of government, due to new activities or increased cost of existing activities, but also grow out of the failure of the preceding administration to appropriate sufficient funds to meet departmental necessities. The failure to grant these allowances relieved the preceding administration of responsibility for providing resources to meet them by the amount of the cuts made, but increased the burden of the present administration to the extent that resources must now be provided to finance the new appropriations granted to make up these deficiencies.

"Every appropriation placed upon the books of the State should be represented by actual or assured resources to liquidate it. Facts submitted to me by the State Comptroller of conditions existing as of May 15 1915 show that there are appropriations on the books of the State Comptroller's office (exclusive of those made by the present Legislature) which exceeded by $753,760 24 the actual or anticipated resources of the State up to Sept. 30 1915.

"This means that without regard to the appropriations of the present Legislature added revenues to the amount of $753,760 24 must be provided to meet these obligations or that existing appropriations, where possible, must be vetoed when presented for reappropriation.

"I have vetoed items in the Reappropriation bill to the amount of $736,445 02. Under circumstances ordinarily prevailing in State finances these vetoes would release moneys which could be applied to the liquidation of new appropriations. In this instance their effect is only to wipe out the amount of present deficiency between old appropriations and resources.

"As the result of this deplorable condition of State finance, it is obvious that no provision for the liquidation of the appropriations of the present Legislature can be made from existing State surpluses, or from the resources of the State up to Oct. 1 1915, which are mortgaged to meet old appropriations.

"To carry on the business of the State we must, therefore, look to the anticipated indirect revenues of the next fiscal year, and to the extent that these anticipated indirect revenues are insufficient they must be supplemented by direct revenues through the imposition of a direct State tax.

"While the liabilities imposed by the appropriations of the present Legislature apply in part to the present and in part to the next fiscal year, the resources to meet them must be drawn wholly from the next fiscal year. These resources, as originally estimated by the State Comptroller, are as follows:

From indirect taxes and miscellaneous sources	$40,000,000 00
From emergency excise tax	4,000,000 00
From direct tax	19,500,000 00
Total	$63,500,000 00

"As previously indicated, the items of the appropriations as approved by me aggregate $63,370,982 63. I am informed that the anticipated resources from the emergency excise tax may not equal the amount originally estimated. At any rate, the provision for the payments of the obligations of the State as represented by the estimated revenues from direct and indirect sources do not assure a surplus at the end of the next fiscal year in excess of $130,000, even though the indirect and miscellaneous resources equal the estimated amounts.

"If the canal referendum is approved at the next election, the general fund will be replenished to the amount of the present appropriation for canal construction, an amount which, under the circumstances, may not more than meet deficiencies in other revenues."

Bond Calls and Redemptions.

Frankfort-on-Main.—*Bonds Drawn for Payment.*—On April 26 certain bonds of Series 1 of the 3½% Loan of 1901 were drawn for payment Sept. 1 1915 at the City Treasury in Frankfort-on-Main or at the office of Speyer & Co. in New York City at the rate of exchange of the day. The numbers of the bonds called for are given in an advertisement on a preceding page.

Key West, Monroe County, Fla.—*Bond Call.*—Payment will be made on July 1 at the office of the U. S. Mtge. & Tr. Co. in N. Y. of the following city hall market and engine house refunding bonds. Nos. 10 to 29 incl. and No. 40 for $1,000 each, aggregating $21,000 and Nos. 11 to 51 incl. for $500 each, aggregating $5,500.

The official notice of this bond call will be found among the advertisements elsewhere in this Department.

Westmoreland County (P. O. Greensburg), Pa.—*Bond Call.*—Payment will be made on July 1 at the County Treasurer's office of court-house bonds Nos. 251 to 500 incl., for $1,000 each, issued July 1 1905.

Bond Proposals and Negotiations this week have been as follows:

ADA COUNTY SCHOOL DISTRICT NO. 7 (P. O. Boise R. F. D. No. 2), Idaho.—*BOND OFFERING.*—Sealed bids will be received until 2 p. m. June 1 by Wm. Schneider, Clerk Board of School Trustees, for $5,000 6% 5-10-yr. (opt.) coupon site-purchase and building bonds. Auth. Sec. 76 Idaho School Laws. Denom. $500. Date July 1 1915. Int. J. & J. No deposit required. The district has no indebtedness. Assessed val. 1914 $313,120.

AGOSTA SCHOOL DISTRICT (P. O. Agosta), Marion County, Ohio.—*BONDS VOTED.*—The question of issuing the $28,500 building bonds carried, it is stated, at the election held May 19.—V. 100, p. 1612.

AHMEEK, Keweenaw, County, Mich.—*BOND ELECTION.*—An election will be held June 1, it is stated, to submit to the voters the question of issuing $17,500 water-system-improvement bonds.

AKRON, Summit County, Ohio.—*BOND OFFERING.*—Bids will be received until 12 m. June 23 by James McCausland, City Auditor, for the following coupon bonds:

$22,725 4½% Goodyear Ave. impt. bonds. Due $2,000 yearly from 1916 to 1922, inclusive, $2,725 1923, and $3,000 in 1924 and 1925.
29,600 5% Conger Ave. impt. bonds. Due $3,000 yearly from 1916 to 1924, inclusive, and $2,600 in 1925.
12,000 4½% fire-dept. impt. bonds. Due May 1 1935.
23,000 5% Main trunk sewer impt. bonds. Due May 1 1925.

Denom. one for $600, one for $725 and eighty-six for $1,000. Date May 1 1915, except the first issue, which is dated April 1 1915. Principal and semi-annual interest payable at National Park Bank, N. Y. Certified or cashier's check on a bank other than the one making the bid, for 5% of bonds bid for, payable to City Treasurer, required. Purchaser to pay accrued interest and bonds will be delivered at Akron.

ALBANY, Dougherty County, Ga.—*BOND SALE.*—On May 17 the $40,000 school and $40,000 auditorium 5% 30-year bonds were awarded, it is stated, to John W. Dickey of Augusta at 104.13—a basis of about 4.741%.—V. 100, p. 1689.

Denom. $1,000. Date June 1 1915. Prin. and semi-ann. int. payable in New York. Bonds are in coupon form and can be registered. They are exempt in Georgia from all taxes. Bonded debt, including these issues $429,500. Assess. val. 1915, $6,369,192. Real value, $12,000,000. The bonds will be approved legally by Storey, Thorndike, Palmer & Dodge of Boston.

ALDERTON SCHOOL DISTRICT (P. O. Alderton), Pierce County, Wash.—*BOND SALE.*—The State of Washington has purchased $5,000 5½% bonds of this district.

ALLEN COUNTY (P. O. Lima), Ohio.—*BOND OFFERING.*—Proposals will be received until 12 m. June 5 by H. J. Lawlor, County Auditor, for $22,500 6% coupon ditch-impt. bonds. Auth. Sec. 6489, Gen. Code. Denom. $2,500. Interest semi-annual. Due $2,500 in 6 months and $5,000 each six months beginning 18 months thereafter. Certified check for 10% of bonds bid for, payable to County Treasurer, required. Bonds to be delivered and paid for within ten days from time of award. Purchaser to pay accrued interest.

ALLENTOWN SCHOOL DISTRICT (P. O. Allentown), Lehigh County, Pa.—*BOND OFFERING.*—Further details are at hand relative to the offering on June 9 of the $225,000 4% tax-free coupon building bonds (V. 100, p. 1768). Bids for these bonds will be received until 8 p. m. on said day by T. P. Wenner, Secy. Denom. $500. Date July 1 1915. Int. J. & J. in Allentown. Due $30,500 in 10 years, $37,000 in 15 years, $45,000 in 20 years, $54,500 in 25 years and $58,000 in 25 years. Subject to call any interest period or periods after 20 years. Cert. check for 5% of bid, payable to Dist. Treas., required. Bonded debt, $1,164,000. Assess. val. 1914 $47,600,000.

AMES, Story County, Iowa.—*BONDS VOTED.*—The election held May 17 resulted in favor of the question of issuing the $41,500 city-hall and fire-station bonds. The vote is reported as 375 to 33. See V. 100, p. 1689.

ANDERSON, Madison County, Ind.—*BOND SALE.*—Reports state that $50,000 5% bonds have been sold to Breed, Elliott & Harrison of Indianapolis at 101.471.—V. 100, p. 1768.

ARCADE, Wyoming County, N. Y.—*DESCRIPTION OF BONDS.*—The $18,000 highway bonds awarded on May 12 to Geo. B. Gibbons & Co. of New York at 100.18 for 4¼s (V. 100, p. 1689), are in the denom. of $2,250 and dated April 1 1915. Int. A. & O. Due $2,250 yearly Oct. 1 from 1916 to 1923, inclusive.

ATCHISON, Atchison County, Kans.—*BOND SALE.*—Reports state that on May 26 this city closed a deal for the sale of $135,000 4½% refunding bonds with a commission of $3,300 to the purchaser, D. E. Dunne & Co., Wichita. Due $7,500 yearly for 18 years.

ATLANTIC CITY, Atlantic County, N. J.—*TEMPORARY LOAN.*—On May 26 a loan of $100,000 was borrowed at 4% from the Boardwalk National Bank of Atlantic City through the Sinking Fund, it is stated.

ATTLEBORO, Bristol County, Mass.—*TEMPORARY LOAN.*—On May 25 a loan of $50,000 dated May 27 1915 and due Nov. 27 1915 was awarded to Loring, Tolman & Tupper of Boston at 3.09% discount. Other bids were:

	Discount.		*Discount.*
Morgan & Bartlett, N. Y.	3.08%	Curtis & Sanger, Boston	3.24%
Blake Bros. & Co., Boston	3.16%		

The notes were awarded to Morgan & Bartlett at 3.08% discount, but their bid was cancelled on account of the condition that the notes are delivered in New York.

AUBURN, Sac County, Iowa.—*BOND SALE.*—An issue of $2,000 electric-light bonds voted April 12 has been disposed of.

BARABOO, Sauk County, Wis.—*BOND SALE.*—The $10,000 4½% East St. sewer bonds were awarded on May 25 to the First National Bank and the Bank of Baraboo. Denom. $500. Date July 1 1915. Interest annual. Due part yearly on July 1 from 1916 to 1920, inclusive.—V. 100, p. 1768.

BARNARDSVILLE SCHOOL DISTRICT (P. O. Barnardsville), No. Car.—*BONDS VOTED.*—The $6,000 high-school-bldg. bonds carried by a vote of 71 to 2 at the election held May 18.—V. 100, p. 1689.

NEW LOANS.

$248,000

County of Fairfield, Conn.,

4¼% 30-Year Court-House Bonds

Sealed proposals will be received until 11 o'clock in the forenoon of JUNE 18TH, 1915, by the Fairfield County Court House Building Committee, Bridgeport, Conn., for the whole or any part of an issue of $248,000 bonds under authority of Resolution of General Assembly of Connecticut and duly approved by the Governor, the same to be used in providing an addition to and improvements in the present Court House.

Said bonds are of the denomination of $1,000 and bear date July 1, 1915, and mature July 1, 1945, and interest thereon at rate of 4¼ per cent is payable semi-annually, January 1 and July 1.

Both principal and interest are payable at The First National Bank of Boston, Massachusetts, or The First Bridgeport National Bank of Bridgeport, Connecticut.

Said bonds will be registered or coupon bonds, with the privilege of registering principal only, or principal and interest.

A sinking fund of not less than $5,000 a year is provided by law.

No sale at less than par can be legally made, and no bid at less than par will be considered.

Each bid must be accompanied by a certified check for one per cent of the principal of the bonds bid for, drawn on some responsible incorporated bank or trust company.

Said checks will be immediately returned to unsuccessful bidders and check credited upon purchase price of successful bidder.

Bonds will be printed under the supervision of The First National Bank of Boston, Massachusetts, who will certify as to the genuineness of the signatures of the officials signing the bonds and of the seal impressed thereon and their legality will be approved by Ropes, Gray, Boyden & Perkins of Boston, Mass., whose opinion, or a duplicate, will be furnished purchaser without charge.

Each proposal must be enclosed in a sealed envelope and marked "Proposals for Bonds", with name and address of bidder, and same enclosed in envelope and addressed to Fairfield County Building Committee, Court House, Bridgeport, Conn.

The Committee reserves the right to reject any and all bids.

Said bonds will be delivered to successful bidders at the office of County Commissioners, Bridgeport, Conn., on or about July 1st, 1915, and balance of bid must be paid on delivery of bonds.

Further particulars and information will be furnished upon application to

GEORGE W. WHEELER, Chairman.
Court House,
Bridgeport,
Conn.

NEW LOANS.

$800,000

Teel Irrigation District, State of Oregon,

6% 20-YEAR 1ST MTGE. GOLD BONDS.

Sealed bids for the sale of $800,000 00 of the 6 per cent first mortgage bonds of the Teel Irrigation District, of the State of Oregon, will be received by the Board of Directors of the said District at the Office of the District in Echo, Umatilla County, Oregon, until **TUESDAY, JULY 6TH, 1915, AT 2 O'CLOCK P. M.,** when the said Board of Directors will open the bids.

No bids will be accepted for less than 90 cents on the dollar and the Board of Directors of the said District reserves the right to reject any and all bids, and no bids will be considered unless accompanied by a certified check made payable to Mr. E. N. Litsey, Treasurer of the said District, for 5 per cent of the par value of the bonds bid for.

Said bonds shall be each of the denomination of not less than $100 00 nor more than $1,000 00, each with interest coupons maturing semi-annually at 6 per cent, principal and interest payable in gold coin of the United States in New York or Portland, Oregon, at the option of the buyer.

This District was organized under the Laws of the State of Oregon, and has been approved by Decree of the Circuit Court of the State of Oregon for Umatilla County.

The principal and interest of these bonds will be paid by annual assessment upon the lands of the said District, collected by the tax collector of the County with the other regular State and County taxes.

This notice is published by order of the Board of Directors given the 4th day of May, 1915.

Road District No. 1, Parish of Lafourche, La.,

ROAD BONDS

Notice is hereby given that Road District No. 1 of the Parish of Lafourche, acting through its governing authority the Police Jury of the Parish of Lafourche, will, on the 10th day of June, 1915, offer for sale 210 negotiable interest-bearing coupon road district bonds of the denomination of Five Hundred Dollars ($500) each; said bonds aggregating One Hundred and Five Thousand Dollars ($105,000), running for a period of four (4) to forty (40) years, and bearing interest at the rate of five per cent (5%) per annum from the 1st day of May, 1915, payable annually on the 1st day of May of each and every year from 1916 to 1955, all of which will appear by reference to the ordinance adopted by the Police Jury of the Parish of Lafourche on the 10th day of March, 1915, wherein said bonds were ordered issued.

That, the bonds hereinabove described will be offered for sale by the Road District on the following terms and conditions:

(1) That the Police Jury of the Parish of Lafourche will accept sealed bids for said bonds, the said bids to be deposited with Charles J. Coulon, the Secretary of the Police Jury of the Parish of Lafourche at Thibodaux, Louisiana, on or before ten o'clock A. M., on the 10TH DAY OF JUNE, 1915, and each bid must be accompanied by a certified check for Two Thousand Six Hundred and Twenty-five Dollars ($2,625) (2½% of the face value of the bonds), payable to Road District No. 1 of the Parish of Lafourche.

(2) That the said bonds will not be sold for less than par.

(3) That on the 10th day of June, 1915, the Police Jury of the Parish of Lafourche will meet in open session, as the governing authority of Road District No. 1 of the Parish of Lafourche, and open all bids received for the bonds. The awarding of a bid will be made in accordance with Section 5 of Act No. 183 of the General Assembly of the State of Louisiana for the year 1914, provided that the Police Jury reserves the right to reject any and all bids.

(4) That, as will appear by reference to the ordinance of the Police Jury of the Parish of Lafourche adopted on the 23rd day of April, 1915, as the governing authority of Road District No. 1, the successful bidder will be allowed Twenty days from the awarding of the bid to determine the validity of the bond issue, and in the event same is declared legal, then that he is to pay the amount of his bid into the treasury of the Road District, or in the event said bonds are not declared legal, the Police Jury may have the legality of same tested, all in accordance with the ordinance of the Police Jury adopted on the 23rd day of April, 1915, to which reference is made.

That all information with reference to said bond issue may be secured from Frank L. Barker, Raceland, Louisiana; Chas. J. Coulon, Thibodaux, La.; Raceland Banking Association, Raceland, La.

(Signed) J. L. BASSET,
President of the Police Jury
the Parish of Lafourche.

BOND CALL.

		$26,500

By order of the City Council of the City of Key West, Florida.

CHAS. J. CURRY,
City Auditor.

The Union Trust Company of New York (established in 1864) has for many years made a specialty of Personal Trusts—under Will or under Agreement—and maintains a carefully organized department for handling them.

Many millions of dollars worth of property—real and personal—have been intrusted to the company by conservative people, residents not only of New York State but of other States in which the Union Trust Company is authorized to transact business.

Correspondence or interviews with persons considering the formation of trusts of any kind—for themselves or for others—are solicited. **UNION TRUST COMPANY, 80 Broadway**

When Issuing Municipal Bonds

there are several important factors that should be given careful consideration by the Municipal Officials and others having the work in charge.

Preparation of the bonds by a reliable and experienced Company.

Relief from the care of all details incident to the issue.

Workmanship of the highest quality at the minimum cost.

Protection by certification against over-issue or forgery.

Safeguarding of dies, plates, rolls and accounting for all paper used.

Securing all possible assistance in advertising and selling.

A booklet setting forth in detail the advantages of our plan—which includes the important points above-mentioned—and giving a list of nearly 1,500 municipal and corporation issues, aggregating $240,000,000, prepared by this Company, will be sent upon request.

MUNICIPAL BOND SALES IN 1914.

In reviewing the municipal bond sales for the calendar year 1914, we are able to repeat with increased emphasis the statement made in reviewing the bond sales for the previous calendar year, namely that the aggregate of the bond disposals is the very largest on record. This may seem a remarkable statement in view of the extraordinary financial conditions which developed upon the outbreak of war in Europe, and which for over four months kept the Stock Exchange closed, occasioned resort to the issuance of emergency currency and clearing-house certificates in enormous amounts and brought financial undertakings generally to almost a complete standstill for the time being.

The explanation of the apparent anomaly is found in the circumstance that the record for the year in the matter of the magnitude of the sales was made in the seven months from January to July, inclusive—that is, before the war came in as a disturbing influence. In these seven months municipal securities commanded increasing favor and municipalities took advantage of the opportunity to provide liberal supplies of new issues—putting forth, indeed, new obligations on a scale never before witnessed. The reason why it was possible to find a wider and larger market for State and municipal securities was that railroad and industrial securities were, as has been many times pointed out by us, in disfavor, largely because of hostile Governmental and legislative policies, a condition which during 1914 became intensified because of the growing depression in trade and the tremendous contraction in railroad revenues.

It is also to be remarked that municipal bonds had a further advantage in the eyes of investors in that they are free from the Federal income tax imposed under the tariff law of October 1913. This tax introduced a new element in calculations regarding investment purchases of all classes of securities. Up to the end of July the aggregate of new bond disposals had reached no less than $384,334,150, which compared with $403,246,518 for the full twelve months of 1913 and $386,551,828 for the twelve months of 1912.

As stated in our "State and City" Supplement for November 21 last, the test of the market (after the poor success attending the placing of new issues in 1913) came in January 1914, when New York State offered $51,000,000 4½% 50-year canal and highway bonds. This aroused animated bidding and the whole amount went to a syndicate consisting of William A. Read & Co. and Kuhn, Loeb & Co. at 106.077—a basis of 4.208%. The result contrasted sharply with the experience of the State the previous June, when a resort was had to short-term issues and $27,000,000 notes, dated June 10 1913, maturing in February 1914, were sold on an interest basis as high as 4.87%. The new $51,000,000 4½% 50-year bonds went in part to take up these $27,000,000 notes. Another and still more conclusive test of market conditions came in April, when the same banking syndicate took $65,000,000 4¼% 50-year corporate stock of New York City at 101.45, an interest basis of about 4.18%. The previous year, in May, the city had been forced to issue 4½% bonds and had obtained only a trifle over par (100.159) for $45,000,000 50-year bonds at that rate. The day after that sale some of the bonds had actually sold on the Stock Exchange a trifle below par.

Following the outbreak of war, with the complete derangement of financial affairs which resulted, municipal bond disposals for a time fell to very small proportions, the total for August being only $10,332,193, for September $13,378,480 and for October $15,126,967. After that, however, the situation decidedly improved, and in November an aggregate of $21,691,126 of new issues was placed, while in December the total ran up to $29,211,479. As further indicating the unfavorable state of things which existed for a time, we may note that in August $10,350,000 of new municipal issues were offered without success, in September $8,100,000 failed to find takers and in October $7,550,000.

For the full twelve months of 1914 the aggregate of the sales of new issues amounts to the huge figure of $474,074,395. This compares with $403,246,518

for 1913, $386,551,828 for 1912 and $320,036,181 for 1910. In the four years these figures show, it will be observed, an addition of almost 50%—the rise being from $320,000,000 to $474,000,000. It is proper to say that in the latter we do not include the $100,000,000 6% New York City obligations which J. P. Morgan & Co. and Kuhn, Loeb & Co. took in September and offered for subscription at par and accrued interest, these being short-term issues. The syndicate mentioned came to the rescue of the city in order to enable it to meet its maturities for large amounts falling due in the near future. The fact that the interest rate on the bonds had to be placed at 6% illustrates the conditions which prevailed. The new obligations quickly sold at a premium. Very naturally, this sale, with its high interest rate, affected unfavorably other New York City securities, and report had it that in October some of the 4¼s placed by the city the previous April had sold down to 93. By the end of the year, however, they had got back to par.

The further addition to the bond sales in 1914, it is important to note, did not, unlike the experience of other years, come from the newer sections of the country, where the most development may ordinarily be supposed to be going on. In previous reviews we have expressed the opinion that as yet the large aggregates of municipal bond sales furnished no substantial ground for uneasiness—that in the main the extensive new issues indicated normal outlays in behalf of the proper development of our cities and towns. As supporting that inference, we pointed out that it was in the newer parts of the country that the increase in the output of new issues was especially pronounced. The experience of 1914, however, serves very materially to modify this conclusion, for the further addition occurred almost entirely in the North Atlantic tier of States. To emphasize that point, we reprint here a table given many times before by us (but with the 1914 figures added), and which shows the distribution of the bond sales for the last eleven years among the different geographical divisions of the country.

Calendar Years.	1914.	1913.	1912.	1911.	1910.

The foregoing table should be closely scrutinized and the significance of the results disclosed not underestimated. The newer sections, taking them as a whole, actually put out a smaller amount of new municipal obligations in 1914 than in the year preceding, while on the other hand the older sections added enormously to their annual aggregate. Between 1904 and 1913 the yearly out put of municipal bond issues in the South Atlantic division, the South Central division and the Pacific division increased from $32,101,623 to $149,721,428, but the North Atlantic tier of States (comprising New England, together with New York, New Jersey and Pennsylvania), and the North Central division (embracing Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, the two Dakotas and Nebraska and Kansas), though still contributing the bulk of the year's sales, increased their total only from $218,653,323 to $253,525,090. In 1914, on the other hand, the combined sales for the South Atlantic division, the South Central division and the Western division fell from $149,721,428 to $136,365,925, while the amount for the North Atlantic division and the North Central division jumped from $253,525,090 to $337,708,470.

For the North Atlantic division alone the amount ran up from $164,152,029 to $228,783,498. It is proper to say, however, that the New York State offering of $51,000,000 4½% 50-year canal and highway bonds, to which reference has already been made, explains a good part of the increase here. Elsewhere throughout the country the offerings of State securities were on a greatly reduced scale and much below the total of the previous year. It is also to be noted that New York City (not counting the $100,000,000 6% short-term issues put out in September through a syndicate managed by J. P. Morgan & Co. and Kuhn, Loeb & Co.) offered publicly $65,000,000 of corporate stock in 1914, as against only $45,000,000 in the previous year. Quite generally the larger cities placed smaller totals of new issues than in the previous year. Newark is an exception, having disposed of $9,926,000, as against only $1,550,000 in 1913 and $1,163,000 for 1912. Jersey City put out no new issues, against $1,386,000 in 1913. Baltimore is another exception, having supplied the market with $8,550,000, against $7,825,000 in 1913 and $5,000,000 in 1912; Cleveland placed $9,592,000, against $2,854,000, and Providence, $3,075,000, against $300,000. Boston disposed of $6,731,000, against $8,170,000; Philadelphia, with the school district, $5,625,000, against $8,375,000; Chicago and its sanitary and park districts, $3,123,500, against $1,719,000; Cincinnati, $3,183,518, against $4,875,879; Pittsburgh, $980,500, against $4,534,500; Hartford, $1,889,000, against $1,000,000; St. Louis put out no bonds in either year. Out on the Pacific Coast, San Francisco placed $5,785,500, against $9,675,100, and Los Angeles $2,250,000, against $1,750,000.

In the matter of interest rates, the tendency of previous years towards higher rates was, of course, further emphasized and intensified. 3% and 3½% bonds have entirely disappeared and 4% bonds form a constantly diminishing proportion of the whole. The contrast in this respect, with former periods is becoming each year more noteworthy and more pronounced. A dozen years ago the prevailing interest rates in municipal bonds were 3@3½ and 4%. The issues at above 4% were relatively small. Now the great bulk of the whole is at interest rates above 4% and comparatively nothing below 4%. Of late 4¼% bonds have come somewhat in vogue, $76,766,250 of these having been marketed in 1914, forming 16.19% of the whole, of which New York City alone, however, contributed $65,000,000. In 1914 only $71,522,070, or 15.09%, of 4s were put out, against $101,191,665 in 1912, $126,924,229 in 1911 and $162,306,553 in 1909. In this last-mentioned year the 4s constituted 47.82% of the whole, in 1914 only 15.09%.

The 4½% rate, however, is the one which is now most in vogue. In 1914 $152,775,791 of the new issues bore this rate, constituting 32.23% of the whole, as against $131,651,211, or 32.65% of the whole, in 1913, $87,009,994 in 1912, or 22.51%, and only $48,926,761 in 1909, or 14.41%. On the other hand, if we go only one year further back, to 1908, we find that the 4½s then also made up a great part of the whole, being $104,272,059, or 33.22%. That was a period, however, when 4½s and 4s were still the most popular issues; sales of 4s in that year (1908) reached $123,984,503, or 39.51%. It was the period when 4s and 4½s had replaced the old rates of 3 and 3½%, marking the culmination of the first stage of the advance in interest rates. Since then there has been a further advance in interest rates under which the prominence at least of the 4% rate has greatly diminished, it having given place, as already pointed out, to 4½s and 5s. Of 5s in the late year $107,192,604 were placed, these constituting 22.61% of the whole. We have prepared the following summary to indicate the aggregate of the bonds put out at the different interest rates for 1901, for 1906 and for 1913 and 1914. In this instance we exclude the New York City sinking fund takings, as these are usually 3% and 4% issues and furnish no criterion of market conditions.

COMPARATIVE INTEREST RATES, EXCLUDING NEW YORK CITY'S SINKING FUND TAKINGS.

Total	458,379,450	100.0	386,241,518	100.0	190,020,271	100.0	140,185,499	100.0

In 1901, it will be seen, out of a total of $140,185,499 bonds placed, no less than $116,240,993, or 82.92% of the whole, consisted of 3s, 3½s and 4s, the 3½s forming much the larger part ,they comprising $68,693,268, or nearly one-half of the year's disposals. In 1914, on the other hand, with a total of sales raised to $458,379,450, no 3s were floated and only $246,500 of 3½s. The 4s aggregated $70,349,598, but formed only 15.35% of the whole. The 4¼s aggregated $76,766,250, or 16.75%, the 4½s $152,775,791, or 33.33%, and the 5s $107,192,604, or 23.39%. In other words, no less than $407,084,243 of the year's issues, or 88.82% of the whole, were 4s, 4¼s, 4½s and 5s.

To complete our analysis of the bond disposals of 1914 we furnish below a comparison of the new bond issues according to the purposes for which they were used or created. The bulk of the new issues each year is for five main purposes, namely water, streets and bridges, sewerage and drainage, schools and school-buildings and public buildings generally. The total under the five heads combined amounts for 1914 to $342,637,049, which compares with $280,837,160 in 1913, $251,465,656 in 1912, $282,960,420 in 1911, $224,268,652 in 1910, $235,358,294 in 1909, $226,434,801 in 1908, $167,659,934 in 1907 and $136,034,202 in 1906.

After apportioning the amounts under the different heads an aggregate of $94,917,462 remains for 1914, it will be seen, under the designation "miscellaneous" and the amounts for other years are also large. In explanation it should be said that this item comprises mainly bonds issued for special purposes, like the canal and canal terminal bonds of New York State (of which $30,000,000 were put out in 1914), the $8,263,053 dock and $11,172,472 rapid transit bonds of this city, and bonds for the improvement of harbors and levees, irrigation bonds, street railway bonds, reclamation bonds, &c., purposes of not sufficiently common occurrence to warrant our providing an extra column for the same in our full-page compilation. A foot-note to the detailed table on the following page gives the leading items that go to make up the "miscellaneous" column.

In conclusion, we will reiterate what we have said in previous years, namely that our figures deal only with issues of a permanent character—such as, by their nature, constitute a real addition to the debts of the municipalities. We rigidly exclude floating-debt obligations and everything of a temporary nature, and we are careful also to avoid duplication or the inclusion of loans that do not belong in the footings. As the best explanation of our reasons for excluding floating-debt obligations, we may refer to the case of this city, which during 1914 issued no less than $159,570,645 of temporary obligations in anticipation of taxes ($85,827,240 being taken abroad) and redeemed $138,883,748 of the same class of obligations, and also issued $141,351,769 of corporate stock notes (a new form of obligation), and retired $144,223,151 of the same.

In order that the reader may know what the grand aggregate of the sales for the 12 months would be with all these various items included, we will say that the total in that event would be over $1,063,000,000. The actual municipal bond sales for the twelve months within the territory limits of the United States were, we have seen, $474,074,395, the temporary loans reached $384,609,542; sales of permanent securities by Canadian municipalities (including $50,000,000 Dominion of Canada stock and $36,200,000 Provincial loans) were $177,856,680; general fund bonds of New York City $23,500,000 and general fund bonds of Baltimore $300,000, besides which Porto Rico sold $2,955,000 bonds, giving a grand total of $1,063,295,617. In this we make no allowance whatever for the temporary loans known as "treasury bills" placed by Canadian provinces and municipalities, since reliable information regarding these is almost impossible to obtain.

A full page tabular presentation of the sales of a permanent character within the limits of the United States for the late year appears on the following page. In giving this compilation, we are continuing a practice begun by us with the bond transactions of 1901. The table presents the details of the sales in very elaborate form, showing the disposals for each State and for each leading geographical group or division, and indicates also the purposes for which the bonds were issued and the amounts put out at the several rates of interest, besides apportioning the issues among the different civil divisions by whose authority they were created—whether State, county, municipality or school district.

*These bonds bear 3% interest and were issued by New York City and purchased by the Sinking Fund at par.

NOTE.—In the column giving "Unknown and Unusual" rates the total of $11,299,785 is made up almost entirely of odd rates. For instance, of the $1,846,397 credited to New York, $1,657,467 represent bonds issued at rates of interest such as 4.30%, 4.35%, 4¼%, 4.38%, 4.39%, 4.40%, 4.60%, 4.65%, 4.70%, 4.80%, 4.85% and 4.90%. The column called "Miscellaneous" in the second table is accounted for in the main as follows: *Massachusetts*, State, $3,000,000 harbor-improvement and $300,000 gratuity bonds; Boston, $2,500,000 rapid transit bonds; by other cities and towns, $1,418,211 bonds for "various municipal purposes." *New York*, State, $30,000,000 "canal" bonds; New York City, $8,263,053 for "docks and ferrries"; $11,172,472 for "rapid transit" and $134,969 bonds for "miscellaneous purposes." *New Jersey*, Newark, $1,300,000 dock bonds. *Pennsylvania*, $2,625,000 Philadelphia bonds for "various municipal purposes"; $500,000 Pittsburgh bonds for current expenses. *Maryland*, Baltimore, $1,450,000 for docks and conduits. *Florida*, Jacksonville, $1,500,000 for docks. *Ohio*, $446,000, $600,000 and $150,000 river-improvement bonds issued by Akron, Cleveland and Tiffin, respectively. *Illinois*, Chicago, $1,153,000 "general corporate" and harbor improvement bonds. *Tennessee*, Memphis, $1,000,000 levee-improvement bonds. *Louisiana*, Port of New Orleans, $3,000,000 for improvements. *Texas*, $250,000 "ship channel" bonds sold by Harris County, $350,000 Ward County irrigation bonds, $153,000 city of Beaumont wharf bonds and $100,000 bonds of Peyton Irrigation District. *Arkansas*, by various levee districts, $1,440,000 levee improvement bonds. *Washington*, Port of Seattle, $3,328,000 harbor-improvement and $700,000 irrigation bonds sold by Cascade Irrigation District. *Oregon*, $200,000 Grants Pass municipal railway bonds, $400,000 Port of Astoria harbor-impt., $100,000 Portland dock bonds, $300,000 Port of Coos Bay Channel and $179,000 bonds for irrigation purposes issued by various districts. *California*, $232,000 reclamation bonds put out by counties throughout the State, $3,499,000 bonds sold by San Francisco for street railways, $2,289,000 Los Angeles harbor-impt. bonds, $165,000 wharf and $100,000 harbor-impt. bonds issued by San Diego and $2,006,960 bonds sold by several large cities and irrigation districts for harbor-impt. and irrigation purposes.

United States Debt and Its History.

The following is a statement of the debt of the United States past and present. To add to its usefulness we give references to the laws authorizing each of the issues of bonds outstanding to-day, and likewise, so far as we deem it needful, citations from those laws.

All our figures, except when otherwise noted, represent the status at the close of business June 30 or the beginning of business on July 1 of each fiscal year. To conform to that feature and yet furnish information through which any reader can always have the data for a correct exhibit of the debt situation at any past or future day, and make an accurate comparison with previous years, we present, *first*, the details as they stood at the close of the last fiscal year ending June 30 1914; *second*, the changes in those details since June 30 1914 down to May 1 1915; *third*, the items of interest-bearing debt, &c., at the beginning of each fiscal year since July 1 1878; *fourth*, we publish in the "Chronicle" every month—usually the first or second Saturday—the full detailed Government statement of the debt as reported by the Treasurer on the last day of the previous month; some months lack of space forces us to delay the publication to a later week.

With these data at his command, it would seem as if any inquirer could satisfy himself fully with reference to every point which might become of importance for him to know respecting the United States debt.

INTEREST-BEARING DEBT OUTSTANDING JUNE 30 1914.

DEBT ON WHICH INTEREST HAS CEASED JUNE 30 1914.

Funded loan of 1891, continued at 2%, called May 18 1900, interest ceased Aug. 18 1900	$4,000 00
Funded loan of 1891, matured Sept. 2 1891	23,650 00
Loan of 1904, matured Feb. 2 1904	13,050 00
Funded loan of 1907, matured July 2 1907	594,900 00
Refunding certificates, matured July 1 1907	13,300 00
Old debt matured at various dates prior to Jan. 1 1861 and other items of debt matured at various dates subsequent to Jan. 1 1861	903,680 26
Aggregate of debt June 30 1914 on which interest has ceased since maturity	$1,552,560 26

DEBT BEARING NO INTEREST JUNE 30 1914.

	Authorizing Act.	
United States notes	Feb. 25 1862; July 11 1862; March 3 1863	$346,681,016 00
Old demand notes	July 17 1861; Feb. 12 1862	53,152 50
National Bank Notes—Redemption account	July 14 1890	15,142,888 50
Fractional currency	July 17 1862; March 3 1863; June 30 1864, $15,239,928.28, less $8,375,934 estimated as lost or destroyed, Act of June 21 1879	6,852,472 90
Aggregate June 30 1914 of debt bearing no interest		$368,729,529 90

The foregoing shows that the Government debt on June 30 1914 was made up of (1) interest-bearing debt, $967,953,310, of (2) debt on which interest has ceased, $1,552,560 26, of (3) debt bearing no interest, $368,729,529 90, making total *gross* debt, $1,338,235,400 16; subtracting from the total the net cash balance in the Treasury ($310,978,390 60) at the same date (June 30 1914), we have the net debt as it stood at the close of the last fiscal year, $1,027,257,009 56. Since the close of June the changes in the various items of the *interest-bearing debt* have included the issuing of $1,805,780 Postal Savings Bonds, making the interest-bearing debt at this time $969,759,090.

For *later and future details of the debt, see the same* as issued every month in the "Chronicle," the first or a later Saturday. We now add, *first*, references to and citations from the laws which are the authority for the debt as it stands to-day; *second*, the two tables on the next page, which exhibit all the particulars of the total debt of the United States on June 30 of each year from 1878 to 1914, and on May 1 1915; *third*, the Pacific Railroad bonds, which are never included in the debt statements.

"FUNDED LOAN OF 1891" (Column 1) 4½s, continued at 2%. The bonds of this issue were issued in exchange for the 4½% funded loan of 1891 by agreement between the Secretary of the Treasury and the holders, and were made redeemable at pleasure of the Government. Amount issued $25,364,500, but May 18 1900 all were called for redemption on Aug. 18 1900, when interest ceased.

"CONSOLS OF 1930."—Column 13.) Bonds (2% payable at the pleasure of the Government after 30 years) authorized in "Act to define and fix the standard of value," &c. (for copy of Act see "Chronicle," March 3 1900, page 411), for the purpose of refunding (1) outstanding United States bonds bearing interest at 5% payable Feb. 1 1904; (2) bonds bearing interest at 4% payable July 1 1907; and (3) bonds bearing interest at 3% payable August 1 1908 (the "ten-twenties of 1898"). For details of arrangement see Secretary Gage's circular with reference to the operations for carrying out the refunding provisions of the bill in "Chronicle," March 17 1900, page 509. Of these 2%s there were outstanding May 1 1915, $646,250,150.

"LOAN OF 1908-1918."—(Column 11.) The bonds included under this head are an issue of $198,792,660 3%s. They were authorized by Act of June 13 1898 and are known as the "War Loan." The law provided that in allotting said bonds the individual subscriptions of the lowest amount must be first allotted. On the day the Act was signed a Treasury circular was issued (see circular in "Chronicle" of June 18 1898, page 1168, inviting subscriptions for 32 days, from June 13 to July 14, for the amount of bonds stated, in both coupon and registered form, coupon in denominations of $20, $100, $500 and $1,000, and registered in denominations of same amounts, and also in $5,000 and $10,000, dated August 1 1898, redeemable in coin at the pleasure of the United States after ten years from date of issue, and due and payable August 1 1918. See circular for further details. Subscriptions reached the amount of $1,325,000,000. The amount now outstanding (May 1 1915) is $63,945,460.

"FUNDED LOAN OF 1907" (Column (3) 4s. The Act of July 14 1870, authorized the issue of 1,000 million dollars of bonds at 4%, payable in coin of the present standard value at the pleasure of the United States after thirty years; these bonds to be exempt from all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal or local authority. Bonds to be sold at not less than par in coin, and proceeds applied to redemption of outstanding 5-20s, par for par. Outstanding (May 1 1915), $555,450, included in debt upon which interest has ceased.

"REFUNDING CERTIFICATES" (Column 4).—Act of February 26 1879 authorized the Secretary of the Treasury to issue in exchange for lawful money of the United States certificates of deposit of the denomination of ten dollars, bearing interest at the rate of 4%, and convertible at any time, with accrued int., into the 4% bonds described in the Refunding Act; the money so received to be applied only to the payment of the bonds bearing interest at a rate not less than 5%. On March 12 1879 the issue of these certificates and their exchange into 4% bonds were authorized, the certificates were to draw 4% interest from April 1 1879 and were convertible in sums of $50 or its multiples. The amount issued at the close of the fiscal year (June 30 1879) was $39,308,110, but they had been converted so rapidly that there were outstanding at that date only $12,848,210. On Oct. 31 1879 the entire authorized amount had been reached, the maximum of the issue being $40,012,750. Of these there were still outstanding on May 1 1915 a total of $12,590, included in debt bearing no interest.

"LOAN OF 1925."—(Column 9.) Sales of bonds included under this designation were effected (1) in February 1895 to the amount of $62,315,400, and (2) in February 1896 to the amount of $100,000,000. In a message to Congress under date of February 8 1895 (published in the "Chronicle" February 9 1895, page 244), President Cleveland stated in substance that in pursuance of Section 3700 of the Revised Statutes, the details of an arrangement have this day been concluded whereby bonds authorized under the Act of July 14 1875, payable in coin at the pleasure of the United States after the first day of Feb. 1925, with interest at the rate of 4% per annum, to the amount of $62,315,400, are to be issued for the purchase of gold coin amounting to a sum slightly in excess of $65,000,000, to be delivered to the Treasury of the United States, which sum added to the gold now held in our reserve will so restore such reserve as to make it amount to something more than $100,000,000. Such a premium is to be allowed to the Government upon the bonds as to fix the rate of interest upon the amount of gold realized at 3¼% per annum. At least one-half of the gold to be obtained is to be supplied from abroad. Section 3700 of the revised Statutes is as follows:

"Sec. 3700. The Secretary of the Treasury may purchase coin with any of the bonds or notes of the United States authorized by law at such rates and upon such terms as he may deem most advantageous to the public interest."

For a construction of the "Refunding Act of 1870" and of the "Resumption Act of 1875," see "Chronicle," February 18 1893, page 265.

The issue in February 1896 was an ordinary offering, open to all bidders, of $100,000,000 of the same bonds as the foregoing—same in date, same in time of maturity, same in rate of interest and time of interest payments. Consequently both issues are called the "Loan of 1925," of which there are outstanding $118,489,900."

"LOAN OF 1904."—(Column 6.) The Act of January 14 1875 authorizes the Secretary of the Treasury to use any surplus revenues from time to time in the Treasury not otherwise appropriated, and to issue, sell, dispose of, at not less than par in coin, either of the descriptions of bonds of the United States described in the Act of July 14 1870, for the purpose of redeeming on and after January 1 1879, in coin, at the office of the Assistant Treasurer of the United States at New York, the outstanding legal-tender notes when presented in sums of not less than fifty dollars. Under this authorization, and for the purposes mentioned, there were issued in Feb. 1894, payable in 10 years, $50,000,000 of 5%s and in Nov. 1894 there were issued $50,000,000 more for similar bonds for same purpose. The bonds matured Feb. 2 1904, and the amount outstanding May 1 ($13,050) is included on that date in "debt on which interest has ceased."

"PANAMA CANAL LOAN."—(Column 2). The Act of June 28 1902, Section 8, supplemented by the Act of Dec. 21 1905 (for copy of the sections referred to, see "Chronicle" July 7 1906, page 12), authorizes the issue of $130,000,000 of coupon or registered 2% bonds of the United States, or as much thereof as may be necessary, in denominations of $20 or some multiple of that sum, redeemable in gold coin at the pleasure of the United States after ten years from the date of issue—$84,631,980 of said bonds have been issued, all of which are now outstanding. They bear date Aug. 1 1906 and Nov. 1 1908, but interest began Nov. 1 1907 and Feb. 1 1909.

"PANAMA CANAL LOAN."—(Column 5.) The Act of Aug. 5 1909, Section 39, supplemented by the Act of Feb. 4 1910, authorizes the issue of $160,569,000 of coupon or registered bonds of the United States in various denominations up to $1,000 at a rate of interest not exceeding 3%. Under a further supplementary Act—that of March 2 1911—authorization was given to issue the bonds "not available to national banks as security for circulation notes," and in conformity therewith $50,000,000 of said bonds, bearing 3% interest, have been issued and are now outsanding. They bear date June 1 1911, are redeemable in 1961, and interest is payable quarterly on the first days of Sept., Dec., March and June. They are in denominations of $100, $500 and $1,000.

POSTAL SAVINGS BONDS.—(Column 8.) The Act of June 25 1910, authorized the issue to depositors with the United States under the Postal Savings Bank Law, upon the surrender of all or any part of his deposits, of coupon or registered bonds of the United States bearing 2½% interest, of the denominations of $20, $40, $60, $80, $100 and multiples of $100 and $500. Under the Act $41,900 of such bonds redeemable July 1 1912 and payable July 1 1931, $417,380 bonds redeemable Jan. 1 1913 and payable Jan. 1 1932, $354,860 redeemable July 1 1913 and payable July 1 1932, $1,074,980 redeemable after Jan. 1 1914 and payable Jan. 1 1933 and $1,116,880 redeemable after July 1 1914 and payable July 1 1933 $2,002,060 redeemable after Jan. 1, 1915 and payable Jan. 1, 1934 and $933,540 redeemable after Jan. 1, 1916 and payable Jan. 1935 have been issued and are now outstanding.

"CERTIFICATES OF INDEBTEDNESS" OF 1908, Authorized by Act of June 13 1898. $15,436,500 of the certificates were issued in denominations of $50, payable to bearer; dated Nov. 20 1907; interest at the rate of 5% per annum, payable with the principal sum on and after Nov. 20 1908, on presentation of the certificates for redemption. For further details see circular of Secretary Cortelyou in "Chronicle," Nov. 23 1907, page 1311—the certificates have all been retired.

In April 1895 we gave a table showing the debt of the United States on the first day of July 1856, and every subsequent year. It is not necessary to repeat all those figures. We have determined on this occasion to begin our statement with 1878, as that year antedates all of the issues now outstanding, and yet carries the record sufficiently far back to show the nature and extent of the Government securities when the refunding operations of that period began. It has the advantage, too, of giving separate and distinct each issue of bonds now outstanding. The statement is subjoined.

PRINCIPAL OF THE PUBLIC DEBT OF THE UNITED STATES FROM JULY 1 1878 TO MAY 1 1915.

Year.	1 "Funded Loan of 1891" 4½%, contin'd at 2%.	3 "Funded Loan of 1907," 4s.	4 "Refunding Certificates," 4s.	6 "Loan of 1904," 5s.	9 "Loan of 1925," 4s.	10 "Navy Pension Fund," 3s.	12 Old 6s and 7s Converted into 4s and 4½s.	14 Total Interest-Bearing Debt.

Note 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, except in the case of November, for which the total is of that date, and is exclusive of interest charge on Pacific Railway bonds.

Note 2.—The figures for July 1 1879 were made up assuming pending funding operations to have been completed.

*Note 3.—Under the Act of March 14 1900 the Treasury Department has kept the gold Reserve Fund as a separate item, and not included it in the available cash balance. In the foregoing statement, however, we have continued to include the item so as not to embarrass comparison with previous years.

PACIFIC RAILROAD DEBT.—One other class of bonded debt must be referred to which has never been included in the total of Government debt—we mean the Pacific Railroad subsidy debt. To show the situation of this indebtedness we have to make compilations of our own, as the Treasury form comes short of indicating the existing situation. In the following we bring together the details respecting the issues to the Pacific railroads, giving likewise in the statement the debt already paid and the balance due to the Government

BONDS ISSUED TO PACIFIC RAILROADS—THEIR STATUS MAY 1 1915.

Name of Railway.	Railroad Liability.			Repaid by Companies in Full Settlement.			Balance Unsettled.
	Bonds Issued by Government.	Net Interest Paid by Government.	Total.	Through Sinking Fund.	Through Payment to Government.	Total. Repaid.	
Central Pacific	$25,885,120 00	$36,604,385 29	$62,489,505 29	$9,100,452 55	$53,389,052 74	$62,489,505 29	----------

Totals	$64,623,512 00	$82,441,706 78	$147,065,218 78	$27,295,070 55	$108,314,060 59	$135,609,131 14	$3,613,355 34

*Government accepted principal of bonds of Kansas Pacific RR.—$6,303,000—for indebtedness, but subsequently received an additional $821,898 on distribution of assets of Union Pacific, as mentioned in "note" below. The remainder ($5,785,560 34) represents the loss to Government under the settlement. *a* Government realized the sum of $2,122,841 24 from sale of claim against Sioux City & Pacific RR., or $2,057,176 96 less than the company's indebtedness.

Note.—The Government has been reimbursed for $27,236,512 principal and $31,211,711 75 interest, being the total indebtedness of the Union Pacific Railroad Co. to Nov. 1 1897, and for the principal of the Kansas Pacific indebtedness, amounting to $6,303,000. Subsequently, under the final decree for the distribution of the assets of the Union Pacific RR., made by Judge Sanborn at St. Paul, Oct. 24 1899, the United States received an additional $821,898 on its claim. Under settlement agreement of Feb. 1 1899, twenty notes of the Central Pacific Railroad Co. (bearing interest at 3% per annum), payable respectively on or before the expiration of each successive six months for ten years, and aggregating $58,812,715 48, which amount represented the unpaid balance of the total indebtedness of the Central Pacific and Western Pacific railroad companies to the United States on Feb 1899, were delivered to the Treasurer of the United States. The balance of the total indebtedness was paid in full July 28 1908.

LEGISLATURE meets biennially in odd years on the first Wednesday in January, and there is no limit to length of sessions.
* Is chosen by Legislature.

HISTORY OF DEBT.—For history of Maine State debt up to 1889, see "State and City Supplement" of April 1895, page 9.

At present the debt stands as follows:

LOANS— Name and Purpose.			Interest Rate.	Interest Payable.	Outstanding When Due.	Outstanding Principal
Bonds to University of Maine		r	5	J-D	June 1 1919	$118 300
Do	do	do	r	4	J-J	July 1 1917	100.000
Bond to Augusta State Hospital		r	4	J-J	Julv 1 1917	50 000
Loan of 1869, not presented for payment						700
Highway bonds, 1913		c	4	M-S	Sept 1 '15-'53	292,500
Do	do	1914	c	4	J-J	July 1 '15-'54	500,000
Do	do	1915	c	4g	A-O	1918-1933	400,000
						1934-1935	100,000

INTEREST is payable at the State Treasury, Augusta, Me.

TOTAL DEBT.—The subjoined statement shows Maine's total funded debt on each of the dates named

	Jan. 1 1915.	Jan. 1 1914.	Jan. 1 1913.	Jan. 1 1912.
Bonded debt	$1,061,500	$569,000	$269,000	$676,000

On Jan. 1 1914 the assets of the State were as follows: Cash on hand, $649,304; balance due on State taxes, $2,120,637; securities, &c., $384,214; total, $3,154,155. The total liabilities of the State on Jan. 1 1914, including bonded debt, were $4,747,694.

ASSESSED VALUATION.—Valuations are taken only in even years.

Years.	Assessed Valuation Real.	Personal.	Total.	State tax per $1,000.
1914	$401,279,430	$97,208,419	$498,487,849	$4.50

DEBT LIMITATIONS.—STATE.—The debt of the State is now limited by Secs. 14 and 17, Article 9, of the State constitution. Sec. 17 and the words italicized below in Section 14 were added by an amendment adopted in Sept. 1912. V. 95, p. 766.

SECTION 14. The credit of the State shall not be directly or indirectly loaned in any case. The Legislature shall not create any debt or debts, liability or liabilities, on behalf of the State, which shall singly or in the aggregate, with previous debts and liabilities hereafter incurred, at any one time exceed $300,000 except *for the purposes of building and maintaining of State highways*, to suppress insurrection, to repel invasion, or for purposes of war; but this amendment shall not be construed to refer to any money that has been, or may be, deposited with this State by the Government of the United States, or to any fund which the State shall hold in trust for any Indian tribe.

SECTION 17. The Legislature may authorize the issuing of bonds not exceeding two million dollars in amount at any one time, payable within forty-one years, at a rate of interest not exceeding four per centum per annum, payable semi-annually, which bonds or their proceeds shall be devoted solely to the building and maintaining of State highways; provided, however, that bonds issued and outstanding under the authority of this section shall never, in the aggregate, exceed two million dollars; the expenditure of said money to be divided equitably among the several counties of the State.

MUNICIPAL.—At an election held Sept. 11 1911 the voters adopted an amendment to Article XXII. of the constitution increasing the debt limit of cities of 40,000 or more (which concerns Portland alone) from 5% to 7½% of the assessed valuation. We print Article XXII. below, italicizing the part added and placing in brackets the words eliminated.

Article XXII. Limitation of Municipal Indebtedness. No city or town *having less than forty thousand inhabitants, according to the last Census taken by the United States*, shall *hereafter* create any debt or liability which, singly or in the aggregate, with previous debts or liabilities, shall exceed five per centum of the last regular valuation of said city or town, *provided, however, that cities having a population of forty thousand or more, according to the last Census taken by the United States, may create a debt or liability which, singly or in the aggregate, with previous debts or liabilities, shall equal seven and one-half per centum of the last regular valuation of said city, that cities of forty thousand inhabitants or over may, by a vote of their city government, increase the present rate of five per centum by one-fourth of one per centum in any one municipal year, until, in not less than ten years, the maximum rate of seven and one-half per centum is reached, that any city failing to take the increase in any one municipal year, then the increase for that year is lost and no increase can be made until the next year, as provided above; and provided, further*, that the adoption of this Article shall not be construed as applying to any fund received in trust by the said city or town, nor to any loan for the purpose of renewing existing loans or for war; or to temporary loans to be paid out of money raised by taxation during the year in which they *were* [are] made.

EXEMPT FROM TAXATION.—The Legislature of 1909 approved an Act exempting from taxation all bonds issued after Feb. 1 1909 by the State or any county, municipality, village, corporation or water district therein. Banks and trust companies holding such securities are allowed to deduct the same from the assessment of their shares. See V. 88, p. 1451, for Act in full.

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions regulating the investments and loans of savings banks and institutions for savings in the State of Maine are contained in Sections 23 to 26, inclusive, of Chapter 48 of the Revised Statutes of 1903. At the 1915 session the law was amended by adding clause *h* to Subdivision 3d of Section 23 authorizing investment in bonds of certain bridge companies. Clause *f* of Subdivision 6th of Sec. 23 was also amended so that the stock of a corporation (other than railroad and water companies) which sells its property to a voluntary association to carry on the same business may continue as a legal investment.

SECTION 23. Savings banks and institutions for savings are restricted to and hereafter may invest their deposits as follows:

First, a. In the public funds of the United States and District of Columbia.

b. In the public funds of any of the New England States and of the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington.

Second, a. In the bonds of the counties, cities and towns of any of the New England States.

b. In the bonds of cities and districts in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington, having a population of seventy-five thousand or more, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein.

c. In the bonds of counties of twenty thousand inhabitants or more in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein, except when issued in aid of railroads, *provided*, that the net municipal indebtedness of such county does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

d. In the bonds of any city of ten thousand inhabitants or more in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein except when issued in aid of railroads, *provided* that the net municipal indebtedness of such city does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

e. In the refunding bonds of counties and cities above enumerated issued to take up at maturity bonds which were legal and constitutional when issued, *provided* that the interest has been fully paid on such original bonds for at least five years last prior to such refunding; *provided, further*, that such counties and cities can otherwise meet the foregoing conditions.

f. In the bonds and obligations of school district boards, boards of education and other corporate bodies within such cities, authorized to issue bonds payable primarily from taxes levied on all the taxable property in said district; *provided* that the population of the district is ten thousand or more, and the population and assessed valuation of the district are equal to at least 90% of the population and the assessed valuation of the city within which such district is located; *provided, further*, that the net municipal indebtedness of such district does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

g. In the bonds or obligations of any municipal or quasi-municipal corporation of this State, when such securities are a direct obligation on all the taxable property of said corporation.

Third, a. In the railroad bonds of this State.

b. In the first mortgage bonds of any completed railroads of the States of New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas and Nebraska.

c. In the first mortgage bonds of the Central Pacific, Union Pacific and Northern Pacific railroads.

d. In the mortgage bonds of any railroad leased to any dividend-paying railroad in New England upon terms guaranteeing the payment of a regular stated dividend upon the stock of such leased road and the interest on its bonds

e. Street railroad companies are not railroad companies within the meaning of the foregoing clauses of this section.

f. In the bonds of street railroads constructed in this State prior to April 27 1895, and in the bonds of street railroads in this State constructed after said date, and in the first mortgage bonds of any completed street railroad in the States of New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas and Nebraska; *provided*, that in the case of street railroads constructed in this State after April 27 1895, and in the case of street railroads in the States above named, an amount of capital stock equal to 33 1-3% of the mortgaged debt shall have been paid in, in cash, and expended upon the road, evidenced by a certificate of the railroad commissioners of the State where the road is located, filed in the office of the Secretary of State of this State, that said percentage has been so paid in and expended in addition to the amount of the bonded debt; *provided, further*, that in such of the above States as have no railroad commissioners having supervision of street railroads, the bank examiner of this State may ascertain the facts, and, if they meet the foregoing requirement, may file certificate thereof with the Secretary of State; *provided, further*, that when, for any reason, it is impossible to obtain a certificate that an amount of capital stock equal to one-third of the bonded debt has been paid in, in cash, in lieu thereof, such bonds may be certified as legal for the purpose hereof, on satisfactory proof to the bank examiner that annual dividends in amount equal to five per centum per annum on an amount of capital stock equal to one-third of the bonded debt has been earned and paid for a period of five years next prior thereto; and all the expenses and compensation of the bank examiner for such service shall be paid by the railroad company seeking to make its bonds a legal investment under this section, whether the same are admitted or not. No bonds secured by an open mortgage shall be legal under this section unless the mortgage provides that the total amount of bonds certified and outstanding under it shall at no time exceed seventy-five per cent of the amount of cash expended upon the road.

g. In consolidated or refunding bonds which are of an issue to retire the entire funded debt under the conditions as applied to first mortgage bonds in clauses *b*, *e* and *f* of this sub-division, and which are secured by a first mortgage on the whole or any part of the system.

h In the first mortgage bonds of any bridge company owning a railroad bridge, located wholly or partly in the State of Maine, provided payment of said bonds as to principal and interest is guaranteed by a railroad company organized under the laws of the State and owning and operating railroad in this State.

Fourth. In the mortgage bonds of any water company in the New England States actually engaged in supplying any city or cities, town or towns, village or villages, or other municipal corporations, with water for domestic use and for the extinguishment of fires, whenever such company is earning more than its fixed charges and interest on its debts and its running expenses.

Fifth. In bonds of any corporation other than railroads and water companies incorporated under the authority of this State and actually conducting in this State the business for which such corporation was created, which is earning an amount in excess of fixed charges, interest on its debts and running expenses equivalent to 5% per annum on an amount of capital stock equal to one-half of its entire funded debt.

Sixth. a. In the stock of any bank or banking association incorporated under the authority of the State.

b. In the stock of any bank or banking association incorporated under the authority of the United States, if located within the New England States.

c. In stock of any RR. company of this State unencumbered by mortgage.

d. In the bonds, stock or notes of any railroad in New England which has earned and paid an annual dividend equivalent to five per cent on a capital stock equal to one-third of its funded debt for a period of ten years next prior thereto, and in the stock or notes of the New York Central & Hudson River, the Illinois Central, the Lake Shore & Michigan Southern and the Pennsylvania Railroad companies.

e. In the stock of any railroad leased to any dividend-paying railroad in New England upon terms guaranteeing the payment of a regular stated dividend upon the stock of such leased road and the interest on its bonds.

f In the stock of any corporation, other than railroad and water companies, incorporated under authority of this State and actually conducting in this State the business for which such corporation was created, which earns and is paying a regular dividend of not less than 5% a year; and any savings bank or institution for savings owning stock of any such corporation that has earned and paid regular dividends of 5% or more for five years, may, if any such corporation, by a vote of its stockholders, sells and conveys all its property and assets (franchise excepted) to trustees of a voluntary association, to hold and carry on the same business, for the members of such association, legally hold and own the certificates of shares of such association, issued in exchange for stock of such corporation; provided, however, that the deed of trust creating such voluntary association shall, in express terms, exempt the owner or owners of such certificates from individual liability thereon on account of debts or obligations contracted by such association.

Seventh. a. In loans secured by first mortgages of real estate in this State and New Hampshire to an amount not exceeding 60% of the value of such real estate.

b. In notes with a pledge as collateral of any funds, bonds, notes or stocks which the bank or institution would, by this section, be authorized to purchase, provided the market value of said collateral is equal to the amount of the loan.

c. In notes with a pledge as collateral of any savings bank deposit book issued by any savings bank in this State.

d. In notes with a pledge as collateral of such funds, bonds, notes or stocks as in the judgment of the trustees it is safe and for the interest of the bank to accept to an amount not exceeding 75% of the market value of such funds, bonds, notes or stocks.

e. In loans to any municipal corporation in this State.

f. In loans secured by a mortgage of such personal property as in the judgment of the trustees it is safe and for the interest of the bank to accept.

g. In loans to any corporation owning real estate in this State and actually conducting in this State the business for which such corporation was created.

Eighth. a. The term "net municipal indebtedness of counties," as used in this section, shall be construed to include all bonds which are a direct obligation of the county less the amount of any sinking fund available in the reduction of such debt

b. The term "net municipal indebtedness of cities and districts," as used in this section, shall be construed to include in the case of either not only all bonds which are a direct obligation of the cities, but also all bonds of the districts or boards within the same, as above enumerated, exclusive of any such debt created for a water supply and of the amount of any sinking fund available in reduction of such debt.

c. The number of inhabitants of cities and counties shall be determined by the last previous official census thereof, as established by the last United States or State census or city or county census taken in the same manner as United States or State census and duly certified to by the clerk or treasurer of such city or the audito or treasurer of such county.

Ninth. All investments shall be charged and entered on the books of the bank at their cost to the bank or at par when a premium is paid.

SECTION 24. Any such bank or institution may hold real estate in the city or town in which such bank or institution is located to an amount not exceeding 5% of its deposits or to an amount not exceeding its reserve fund.

SECTION 25. No such bank or institution shall hold by way of investment, or as security for loans, or both, more than one-fifth of the capital stock of any corporation, nor invest more than 10% of its deposits, in the capital stock or notes or any corporation, nor have more than 50% of its deposits in mortgages of real estate. This section and the two preceding do not apply to real estate, or other assets, acquired by the foreclosure of a mortgage thereon, or upon judgment for debts, or in settlements to secure debts. This section does not apply to bonds enumerated in the first five sub-divisions of Section 23 of this chapter.

SECTION 26. Savings banks and institutions for savings may deposit on call in banks or banking associations incorporated under the authority of this State, or the laws of the United States, and receive interest for the same.

SECTION 27. The trustees shall see to the proper investment of deposits and funds of the corporation in the manner hereinbefore prescribed. No loan shall be made directly or indirectly to any officer of the corporation or to any firm of which such officer is a member.

CITIES, COUNTIES AND TOWNS IN THE STATE OF MAINE.

Note.—For debts of minor civil divisions not found among the statements given below, see "Additional Statements" at the end of this State.

AROOSTOOK COUNTY.

County seat is Houlton. Incorp. in 1839. This county owned $728,000 of the preferred stock of the Bangor & Aroostook RR. Co., but sold the same late in 1901 to the railroad company upon their agreeing to pay principal and interest on an issue of $728,000 railroad-aid bonds, of which $500,000 were redeemed Sept 1 1912.

New Hampshire.

ITS

DEBT, RESOURCES, &c.

Admitted as a State.....One of Original Thirteen
Total Area of State (square miles).....9,305
State Capital.....Concord
Governor (term exp. 1st Wed. Jan.'17).Rolland H. Spaulding
Secretary of State (chosen by Legislature).....Edw. C. Bean
Treasurer (term expires (Jan. 1917).....J. W. Plummer

LEGISLATURE meets biennially in odd years on the first Wednesday in January, and length of session is not limited.

HISTORY OF DEBT.—New Hampshire's debt history is very brief. This State has always been extremely conservative, and no bonds were issued until after the breaking out of the Civil War. In 1866 New Hampshire reported her funded indebtedness at $4,169,816, contracted exclusively for war purposes. June 1 1869 the total outstanding was $3,213,962.22, against which the Treasurer reported an asset of $77,082.89. The State debt at the present time is as follows:

LOANS— Name and Purpose—	Interest— %	Payable.	Principal— When Due.	Outstand'g
Sanitorium bonds of 1909	3½	J & J	July 1 1919	$50,000
Highway bonds of 1909	3	J & J	Jan. 1 1916	50,000
	3½	J & J	Jan 1 1915	75,000
	3½	J & J	Jan 1 '16-17	50,000
do do of 1911	3½	J & J	July 1 '17-21	250,000
do do of 1912	3½	J & J	July 1 '21-'24	250,000
Hospital, 1905	3½	J & J	July 1 '15-25	110,000
do 1907	3½	J & J	July 1 1927	150,000
do 1909.....c	3½	J & J	July 1 1929	85,000
Municipal War loan (overdue)	---	------	----------	500
Loan of 1873 (overdue)	---	------	----------	500
Trust funds	---	------	----------	1,051,696

Of $1,051,695.96 trust funds held Sept. 1 1914, $900,016.32 carried 4% interest and $80,000 6% interest, no interest being paid on $71,679.64.

PAR VALUE OF BONDS.—The bonds are in $500 and $1,000 pieces.

INTEREST is payable at the National Shawmut Bank of Boston and at State Treasurer's office.

TAX-EXEMPT.—All issues at 3½% and under are exempt when held by savings banks and citizens of New Hampshire.

TOTAL DEBT.—The *net* debt on Sept. 1 1914 was $965,503.97. The subjoined statement shows New Hampshire's *total* debt on the dates named. Assets Sept. 1 1914 were $1,157,291.99.

	Sept. 1 '14.	*Sept.* 1 '13.	*Sept.* 1 '12.	*Sept.* 1 '11.
Total funded debt	$1,071,000	$1,156,000	$1,376,000	$1,136,000
Trust funds	1,051,696	1,030,538	1,029,037	1,019,779
Floating debt	100	100	100	100
Total debt	$2,122,796	$2,186,638	$2,405,137	$2,155,879

ASSESSED VALUATION.—The State's total assessed valuation has been as below. The average tax rate for 1915 (per $1,000) was $16.40.

Years—	*Assessed Val.*	*Years*—	*Assessed Val.*	*Years*—	*Assessed Val.*
1913	$398,714,464	1906	$231,641,571	1898	$204,734,731
1912	*390,086,029	1905	225,082,628	1897	203,507,734
1911	263,074,386	1904	220,624,307	1896	200,957,600
1910	255,085,571	1903	216,837,497	1894	197,839,543
1909	249,219,335	1902	214,616,655	1893	196,117,060
1908	244,971,264	1900	209,670,845	1881	168,964,903
1907	238,128,476				

The preceding values are simply the aggregate of the inventories of the various towns in the State. In addition the State taxes at different rates savings banks and trust companies, insurance capital, railroads, building and loan associations, telegraph and telephone companies, parlor car and express companies. These latter were valued in 1912 at $154,765,810.

* Chapter 169, Laws of 1911, creates a permanent tax commission, one of whose duties it is to equalize valuations in the year 1912 and every second year thereafter, so that the same shall represent the "true and market value" of property. *This will account for the great increase in valuations in 1912, not only for the State itself, but for the various civil divisions, as shown by the returns of the different municipalities on this and following pages.*

POPULATION OF STATE—

1910	430,572	1870	318,300	1830	269,328	1790	141,881
1900	411,588	1860	326,073	1820	244,165		
1890	376,530	1850	317,976	1810	214,460		
1880	346,991	1840	284,574	1800	183,858		

DEBT LIMITATION.—There is no restriction in the constitution of New Hampshire upon the debt-making power of the people through the "General Court," *except* the following, which is the last clause of Article 5 of Part Second of that instrument.

Provided, That the General Court shall not authorize any town to loan or give its money or credit directly or indirectly for the benefit of any corporation having for its object a dividend of profits or in any way aid the same by taking its stocks or bonds.

The above is an amendment to the constitution which was ratified in 1877. The amendment would appear to be intended as a complete estoppel to municipal loaning of money or credit to railroad and industrial corporations. It is to be noticed, however, that by its terms the restriction does not specifically mention "cities," the words being "any town."

In addition to the foregoing is the "Municipal Bond Act of 1895." It tells in the matter of issuing bonds what a municipal corporation may do, what it must do, and what it cannot do. The law enacts:

Sec. 1. The term "municipal corporation" means town, city, school district, village district and village precinct. *Sec.* 2. Bonds issued must be payable within 20 years, interest semi-annual, not exceeding 6%, may be payable in gold coin. If made payable in less than 20 years, may be extended, but never beyond 20 years from time of issue. *Sec.* 3. Bonds (except of cities) must be authorized by a vote of two-thirds of all voters present and voting at an annual meeting of such corporation, or at a special meeting properly called, &c. (for which see Act). Bonds must be signed by a majority of the Governing Board, countersigned by Treasurer and have seal of corporation. Time and place of payment and rate of interest, &c., may be delegated to Governing Board. *Sec.* 4. City bonds must be authorized by resolution of City Council passed by at least two-thirds of members elected to each branch, taken by yeas and nays, signed by Mayor, countersigned by Treasurer, seal of city affixed. Place of payment, rate of interest and sale may be delegated to Treasurer. *Sec.* 5. Bonds shall be payable to bearer or to registered holder by name, and must be in form set out in Act—which see. In case bonds be made subject to call, they must contain statement to that effect as given in Act. "The validity of any bonds shall not be affected by any variation from the forms herein prescribed." *Sec.* 6. Treasurer to keep a book in which he shall register bonds issued, &c. *Sec.* 7. "All bonds purporting to be issued by virtue or in pursuance of this Act and signed and sealed as hereinbefore provided shall, in favor of bona fide holders, be conclusively presumed to have been duly and regularly authorized and issued in accordance with the provisions herein contained, and no holder thereof shall be obliged to see to the existence of the purpose of the issue or to the regularity of any of the proceedings or to the application of the proceeds. All such bonds shall be negotiable in all respects and to the same extent as securities negotiable by the law merchant." *Sec.* 8. Annual tax must be levied and collected sufficient to pay interest and provide a sinking fund sufficient to pay principal within 20 years. *Sec.* 9. No bonds can be issued which shall increase the *net* debt of corporation to an amount exceeding 5% of the value of the taxable property therein as last appraised for assessing taxes. To ascertain *net* debt, all debts must be included except the following, which must be deducted—water debt, 'cash and other means' in treasury and sinking funds applicable to payment of debt so included; "but nothing contained in this section shall prevent the issue of bonds for the purpose of refunding an equal principal amount of other bonds of such corporation." *Sec.* 10. Corporation seal. *Sec.* 11. Act to take effect on passage. Approved March 19 1895.

Exceptions have been made to this law from time to time in special instances, such as in the case of $100,000 high-school bonds of the city of Portsmouth authorized by Chapter 202, Laws of 1903. This chapter provides that Section 9 of the Municipal Bond Law of 1895 does not apply in this instance.

TAXATION OF MUNICIPAL BONDS.—Chap. 55 of the Laws of 1907 provides that any city, town, precinct or village district may exempt from taxation any future issue of its bonds, provided such exemption shall apply only to bonds owned and held by citizens of said city, town, precinct or village district. State bonds are subject to taxation unless exempted by the terms of the Act under which they are issued.

In 1913 the privilege of exemption was extended by Chapter 51 of the Acts for that year to future bond issues by school districts when held by residents. Another Act of 1913 (Chapter 112) exempts from taxation all the bonds or notes of the State or any of its minor civil divisions bearing not exceeding 5% interest.

SAVINGS BANKS INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—The savings bank investment laws of New Hampshire were completely revised and materially altered in many respects at the Legislative session of 1901. In 1907 clauses 8, 14, 18, 19 and 20 were amended. The Legislature of 1909 passed an Act adding clause 22 and amending clause 17. In 1915 an amendment was passed permitting savings banks to invest not exceeding 10% of their deposits in bonds and notes of any public utility corporation organized under the laws of New Hampshire and doing business in that State and which has earned and paid dividends of not less than 5% annually for five years preceding such investment. This amendment was printed in the "Chronicle" of May 8, page 1611. The law itself is given in full on page 9 of the "State and City Section" for Nov. 1914.

INVESTMENT OF TRUST FUNDS.—(1895) Chapter 71, Sec. 1. Trustees and guardians shall be authorized to invest funds in their hands in the bonds or direct obligations of any county, city, town, school, fire or water district in New England, when the net debt of said municipality does not exceed five per cent of the last assessment of taxes for the purpose of taxation. The term "net debt" shall be construed to denote the indebtedness of any municipality, omitting debt created for supplying the inhabitants with water and deducting the amount of sinking funds available for the payment of the indebtedness of the municipality.

CITIES, COUNTIES AND TOWNS IN THE STATE OF NEW HAMPSHIRE.

Note.—For debts of minor civil divisions not found among the statements given below, see "Additional Statements" at the end of this State.

BERLIN.

This city is in Coos County. Incorp. Feb. 6 1897. New city charter was adopted by the voters May 11'09.

State of Vermont.

DEBT, RESOURCES, &c.

Admitted as a State (Act Feb. 18 1791).....March 4 1791
Total area of State (square miles).....9,565
State Capital.....Montpelier
Governor (term expires Jan. 1917).....Chas. W. Gates
Secretary of State (term expires Jan. 1917)...Guy W. Bailey
Treasurer (term expires Jan. 1917).....W. F. Scott

LEGISLATURE had been meeting biennially since 1870 in even years, the first Wednesday in October. On March 4 1913 an amendment was adopted providing for the convening of the Legislature in odd years on the first Wednesday after the first Monday in January. V. 96, p. 810. Length of session is not limited.

HISTORY OF DEBT.—For a brief outline of the early history of the Vermont State debt see "State and City Supplement" of April 1895, pages 15 and 16.

The liabilities of the State on June 30 1914 were as follows:

Due to towns—State highway tax 1913 (unexpended bal. 1913)	$177 91
Income permanent school fund	50,074 55
Due permanent school fund—Account of principal	1,574 82
Huntington fund	211,131 46
Due Vermont teachers' retirement fund	15,811 00
Registered loan of 1932 (Agricultural College Fund	135,500 00
Highway maintenance fund (motor vehicle fees)	125,011 19
Total ledger liabilities	$539,280 93
Cash on hand and in banks June 30 1914	252,721 89
Excess of liabilities over assets June 30 1914, as shown by State Treasurer's books	$286,559 04

INTEREST is payable at the State Treasury.

[At the 1915 session of the Legislature the State Treasurer was authorized to issue on July 1 1915, to the Trustees of the Permanent School Fund, certificates of registered loans of this State to the amount of $234,900.34 redeemable in 1925 on which the interest must be 4% annually on July 1 to the Trustees of the Permanent School Fund.

ASSESSED VALUATION AND TAX RATE.—In addition to the valuations below, the State assessed (1914) $100,707,681 deposits in savings banks, national banks and trust companies at the rate of 7-10 of 1%; also appraised the value of railroad property at $47,767,600, such property paying a tax of 1¼ % on valuation.

Years—	Assessed Valuation— Real.	Personal.	Total.	State tax per $1,000
1914	$159,878,518	$64,663,155	$224,541,672	None.
1913	158,676,533	64,312,810	222,989,343	None.
1912	157,227,015	32,994,415	190,221,430	$10.00
1910	143,386,564	45,106,982	188,493,546	None.
1905	127,993,677	59,838,143	187,831,820	None.
1900	118,950,024	58,293,598	177,243,622	$10.00
1898	116,141,979	58,621,654	174,763,633	5.00
1895	112,099,284	61,700,471	173,799,755	12.00
1890	112,895,125	65,157,388	178 052,513	----

There was no direct tax for State purposes levied in either 1903, '04, '05, '06, '07, '08, '09, '10 or '11. In 1912 the Legislature levied a direct tax of 10 cents on the dollar of the grand list ($10 per $1,000 of assessed value, one-half payable Nov. 10 1913 and one-half June 10 1914. The 1915 Legislature levied a direct tax of 5 cents on the dollar of the grand list for the year 1916, no tax being levied for the year 1917. A tax of $13 per $1,000, however, consisting of a State school tax of $8 and a State highway tax of $5, was collected and re-distributed to towns on a basis of the number of schools and road mileage, the State, for the sake of equalizing its distribution, acting as agent in the matter. Prior to 1902 this tax was $10 per $1,000. The Legislature of 1915 increased the State school tax from $8 to $10, but this change does not take effect until the assessment of 1916.

POPULATION OF STATE.—United States Census:

1910	355,956	1870	330,551	1840	291,948	1810	217,895
1900	343,641	1860	315,098	1830	280,652	1800	154,465
1890	332,422	1850	314,120	1820	235,981	1790	85,425
1880	332,286						

DEBT LIMITATIONS.—There appears to be nothing in the constitution providing for a general limit to the debt-making power of municipalities. Whatever in each case the Legislature authorizes, the city, town, county or other civil division can issue. Of course the purpose of the improvement must be of a public character. The laws relating to municipal debt limitation which have been passed by the Legislature from time to time are contained in Sections 3556, 3557, 3558, 3574 and 3575, Chapter 157, of the Revised Statutes of 1906. Section 3556, embodying a law passed in 1904, prohibits a municipality, unless otherwise provided in its charter, from borrowing, except for refunding purposes, an amount in excess of five times its grand list as last taken. An additional amount, not exceeding five times the grand list, may be borrowed, providing the loan is approved by a two-thirds vote. The next section (3557), covering laws passed in 1904 and 1906, provides that in figuring the debt limit, loans created for water supply, sewer or electric lights, and temporary loans, may be eliminated. The two sections follow:

SECTION 3556.—*Limit.*—No municipal corporation shall create an indebtedness, unless to refund outstanding bonds or orders, to an amount exceeding five times its grand list last taken; provided that it may, by a two-thirds vote by ballot of the voters present and voting at a meeting called for that purpose, increase such indebtedness an additional amount not exceeding five times such grand list. Bonds or obligations given or created in excess of the limit authorized by this section shall be void.

SECTION 3557.—*Determination.*—In determining the amount of municipal indebtedness permitted by the preceding section, obligations created for a water supply, sewers or electric lights, and temporary loans created in anticipation of the collection of taxes and necessary for meeting current expenses, shall not be taken into account; provided, that no such temporary loan shall be extended beyond the fiscal year for which it is made, and shall not exceed in amount 90% of the amount of taxes levied for such year; nor shall the provisions of this and the preceding section apply when the charter of a municipal corporation limits its indebtedness.

Section 3558 covers laws passed in 1872 and relates to railroad subscriptions by towns:

SECTION 3558. A town may aid in the construction of a railroad organized under the general law, by issuing bonds to aid such railroad, by taking capital stock therein, or in such other manner as it directs; but the liability so assumed shall not exceed eight times the grand list of the town Such aid shall be given as provided in this chapter.

The other sections referred to (Sections 3574 and 3575) embrace a law passed in 1892, and allow towns or villages, not already bonded to an amount exceeding five times the grand list, to borrow an amount not exceeding three times the grand list for highway improvement. The two sections read as follows:

SECTION 3574. A town or incorporated village may issue bonds to an amount not exceeding three times its grand list for the purpose of purchasing road-making apparatus and for building permanent highways within the limits of such town or village

SECTION 3575. Such town or incorporated village may vote to issue such bonds at a meeting of the corporation, duly warned for that purpose, by a two-thirds majority of all the votes cast, and may stipulate in such vote by whom and in what manner the proceeds of such bonds shall be expended; but no town or incorporated village shall issue such bonds if it is already bonded to an amount exceeding five times its grand list.

It will be noticed that the preceding sections refer in each instance to the "grand list." To evolve the "grand list" in Vermont, the authorities first prepare a schedule of all the property, real and personal, of each individual, with valuations entered at their real value in money, deducting debts owing; after this is done, the "grand list" is made up by taking 1% of that amount, according to Section 494, Chapter 30, of the Revised Statutes of 1906, which is as follows: "All real and personal estate shall, except as otherwise provided, be set in the list at 1% of its value in money on the first day of April of the year of its appraisal."

The only other *general* authority granted for the issue of bonds by municipal corporations in Vermont is that given for refunding outstanding bonds and notes. The sections which grant these powers are Sections 3567 to 3573 inclusive, Chapter 157 of the Revised Statutes of 1906. Section 3567 is as follows:

SECTION 3567. A town which has outstanding and unpaid orders, notes, bonds or coupons lawfully issued, may issue other negotiable notes or bonds to pay or retire the same.

SECTIONS 3568 to 3573, inclusive, give the method of issuing such bonds.

By Section 3572 municipal corporations other than towns have the same refunding powers granted them which are conferred upon towns.

EXEMPTION FROM TAXATION.—Subdivision XII. of Section 496 of the Public Statutes of 1906, as amended by Act 23 of the Laws of 1908, provides that the following municipal securities shall be tax-exempt:

XII. Notes, bonds or orders issued after Feb. 1 1907 as evidences of obligations for money loaned to a town, village, incorporated school or fire district, at a rate of interest not exceeding 4% per annum, for the purpose of constructing, purchasing, or repairing water, sewer or lighting systems, permanent highways, bridges, walks or public buildings, or for the purpose of refunding a debt contracted for any of the foregoing purposes.

SAVINGS BANK INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—By Act No. 158 of the Vermont Legislature, approved Jan. 27 1911, Sections 4615 to 4692, inclusive, of the Public Statutes of 1906, relating to savings banks and trust companies, were completely revised. Many material changes were made in that part of the law concerning investments by savings banks, an entirely new section having been added which allows investment in railroad bonds. Section 8 of the new law, which deals with investments, is given in full on pages 12 and 13 of the "State and City Section" for Nov. 1914. No changes were made in this section at the 1915 session of the Legislature.

CITIES, COUNTIES AND TOWNS IN THE STATE OF VERMONT.

BARRE.

This city is in Washington Co. Inc. 1895. Population 1910, 10,734.

Treasurer (term exp. 3d Wed. Jan. 1916..Chas. L. Burrill
Auditor (term exp. 3d Wed. Jan. 1916)..Alonzo B. Cook

LEGISLATURE meets annually the first Wednesday in January, and essions are not limited as to length of time.

HISTORY OF DEBT.—For early history of the State debt see "State and City Supplement" of April 1895, page 18. The debt at present is given in detail in the following table. All loans are payable, both principal and interest, in gold.

Abolition of Grade Crossings.

* Nominal or contingent debt except "parks," of which $2,765,000 is a direct State obligation. Two-thirds ($504,000) of the Court-house loans is contingen debt. See below.

PUBLIC SALES OF BONDS.—A bill passed the Legislature in 1904 directing the Treasurer to advertise all future sales of State bonds instead of disposing of the same at private sale, as had been the practice for several previous years. (V. 78, p. 1565.)

INTEREST is payable at State Treasury in Boston.

TOTAL DEBT, SINKING FUNDS, &c.—

	Dec. 1 1914.	*Dec.* 1 1913.	*Dec.* 1 1912.	*Dec.* 1 1911.
Total funded debt	$122,964,662	$117,621,412	$117,480,662	$116,234,162
Sinking funds, &c	38,263,060	35,938,696	38,250,410	35,844,648
Net debt	$84,701,602	$81,682,716	$79,230,252	$80,389,514

The above debt is of two classes: the Direct Debt, for the payment of which the Commonwealth is directly and entirely responsible; and the Nominal or Contingent Debt, for which the Commonwealth has loaned its credit to sundry cities and towns for various purposes, the payment of which is guaranteed by sinking funds (sufficient to pay the debt at maturity) provided by a direct annual tax on the cities and towns for which the debt has been incurred. On Dec. 1 1914 these classes and the sinking funds applicable thereto were as follows:

	Direct Debt.	*Nominal Debt.*	*Grand Total.*
Bonded debt	$47,583,854.16	$75,380,807.84	$122,964,662.00
Sinking funds	19,323,948.03	18,939,111.86	38,263,059.89
Net debt	$28,259,906.13	$56,441,695.98	$84,701,602.11

ASSESSED VALUATION.—The State's assessed valuation follows:

Years—	*Real Estate.*	*Personal Property.*	*Total.*
1914	$3,467,560,721	$2,537,852,080	$6,005,412,801
1913	3,353,716,536	2,443,295,163	5,797,011,699
1912	3,216,714,460	2,262,565,233	5,479,279,693
1910	2,977,075,471	2,050,079,335	5,027,154,806
1905	2,600,445,146	1,621,835,908	4,222,281,054
1900	2,315,687,381	1,562,983,689	3,878,671,070
1890	1,600,137,807	1,013,077,330	2,613,215,137
1880	1,111,160,072	816,695,358	1,927,855,430

The larger portion of the State's revenue is derived from corporations, national bank stocks, savings bank and inheritance taxes. In 1914 the tax assessed aggregated $15,537,920.09, of which $7,813,954.61 accrues to the Commonwealth and the balance is apportioned to cities and towns. Of the total of $15,537,920.09, $962,809.49 was assessed upon street railway companies, $2,984,287.37 upon other public service corporations, $4,081,548.50 upon domestic business corporations, $1,830,643.50 savings banks, $1,857,664.82 national banks and $2,222,702.44 inheritances.

POPULATION OF STATE.—

1910	3,366,416	1880	1,783,085	1840	737,699	1800	422,845
1905	3,003,635	1870	1,457,351	1830	610,408	1790	378,787
1900	2,805,346	1860	1,231,066	1820	523,287		
1890	2,238,943	1850	994,514	1810	472,040		

CONDEMNATION OF PRIVATE PROPERTY ADJACENT TO IMPROVEMENTS.—An amendment adopted November 7 1911 adds the following to Article 10 of part 1 of the constitution: The Legislature may by special Acts, for the purpose of laying out, widening or relocating highways or streets, authorize the taking in fee by the Commonwealth, or by a county, city or town, of more land and property than are needed for the actual construction of such highway or street; provided, however, that the land and property authorized to be taken are specified in the Act and are no more in extent than would be sufficient for suitable building lots on both sides of such highway or street; and after so much of the land or property has been appropriated for such highway or street as is needed therefor, may authorize the sale of the remainder for value with or without suitable restrictions. See V. 93, p. 1547.

DEBT LIMITATIONS.—There seems to be no provision in the constitution of Massachusetts limiting the power of the Legislature to create State indebtedness, or limiting its power to authorize municipal indebtedness. Statutes general and special have, however, been passed on this subject with respect to cities and towns.

The latest legislation regarding the matter is known as Chapter 719 of the Laws of 1913, approved May 26 1913. The limit of indebtedness for cities and towns (*excepting Boston*) is fixed by Sections 6 and 12 of this law. These sections follow:

Section 6. Cities and towns may incur debt, *outside* the limit of indebtedness prescribed in this Act, for the following purposes and payable within the periods hereinafter specified:

(1) For temporary loans under the provisions of Sections 3, 4 or 9, one year.

(2) For establishing or purchasing a system for supplying the inhabitants of a city or town with water, or for the purchase of land for the protection of a water system, or for acquiring water rights, 30 years.

(3) For the extension of water mains and for water departmental equipment, 5 years.

(4) For establishing, purchasing, extending or enlarging a gas or electric lighting plant within the limits of a city or town, 20 years; but the indebtedness so incurred shall be limited to an amount not exceeding in a town 5% and in a city 2½% of the last preceding assessed valuation of such town or city.

(5) For acquiring land for the purposes of a public playground, as specified in Section 19 of Chapter 28 of the Revised Laws and amendments thereof, 30 years; but the indebtedness so incurred shall be limited to an amount not exceeding ½ of 1% of the last preceding assessed valuation of the city or town.

Debts for all of the purposes mentioned in this section snall be payable within the periods above specified from the date of the first issue of bonds or notes on account thereof, and may be incurred in accordance with the provisions of existing law, except in so far as the same are inconsistent with the provisions of this Act. All other debts hereafter incurred by a city or town shall be reckoned in determining its limit of indebtedness, and debts authorized under the provisions of this section, except for temporary loans, may be incurred only by a vote of two-thirds of the voters present and voting, or of two-thirds of all the members of a city council or other governing body, taken by yeas and nays, and subject to the approval of the mayor, if such approval is required by the charter of the city.

Section 12. Except as otherwise authorized by Section 6 of this Act or by Chapter 634 of the Acts of the year 1913, a city shall not authorize

indebtedness to an amount exceeding 2¼%, and a town shall not authorize indebtedness to an amount exceeding 3%, on the average of the assessors' valuations of the taxable property for the three preceding calendar years the valuations being first reduced by the amount of all abatements allowed thereon previous to the last day of December of the preceding calendar year.

Chapter 634 of the Laws of 1913, referred to above, provides for the payment of outstanding demand notes and the restoration of trust funds. Cities and towns which have demand notes outstanding or which have expended town or trust funds for general expenses, are required to raise in the tax levy of 1914 an amount necessary to redeem the notes and restore the funds, or if to do this would impose too great a burden, they may borrow for the purpose for a period not to exceed 15 years.

Section 5 of Chapter 719 specifies for just what purposes debts may be incurred within the limit fixed by Section 12, and states also for what periods such debt shall run. Sections 3, 4 and 9 authorize the issuance of temporary loans, payable in not more than one year from date, in anticipation of the sale of bonds or notes already voted, in anticipation of the revenue of the financial year, for the payment of any land damages or expenses of altering grade crossings or any proportion of expense of constructing a highway in anticipation of reimbursement by the Commonwealth. Section 8 *prohibits the sale of bonds, notes or certificates of indebtedness at less than par.* However, under Section 10 temporary loans issued under Sections 3, 4 and 9 may be negotiated at a discount. Section 13 prohibits the creation of further sinking funds, but such funds established prior to the passage of the Act must be continued until the debt for which they were established has matured. Hereafter notes shall not be made payable on demand (Section 14) and the payment of all debt, except that incurred under Sections 3, 4 and 9, must be made by such annual installments as will extinguish the same at maturity.

Section 1 distinctly *excepts Boston* from the general provisions of the Act in the following words: "Section 1. The provisions of this Act shall not, except as is hereinafter specified, apply to the city of Boston, but said city shall remain subject to the provisions of all general and special laws applicable to it." The specific reference to Boston is in Sect. 18, which follows:

"Section 18. Sections 53 of Part I of Chapter 490 of the Acts of 1909, as amended by Chapter 521 of the Acts of 1910, is hereby further amended by striking out the said section and inserting in place thereof the following—*Section* 53. The taxes assessed in the city of Boston on property, exclusive of the State tax and other amounts assessed upon the city by the Commonwealth, the county tax and sums required by law to be raised on account of the city debt, shall not in any year exceed $10 55 on every $1,000 of the average of the assessors' valuation of the taxable property therein for the preceding three years, such valuation being first reduced by the amount of all abatements allowed thereon previous to Dec. 31 in the year preceding said assessment. Any order or appropriation requiring a larger assessment than is herein limited shall be void."

Sections 13 and 14 relating to sinking funds and the payment of future loans took effect upon the passage of the Act. The other sections referred to above became effective Jan. 1 1914. We have room here to give only this brief outline of Chapter 719. The law in full will be found in the "Chronicle" of Aug. 23 1913, pages 486 to 488 inclusive.

EXEMPTION FROM TAXATION.—Clause 15, Sec. 5, Part I, Chapter 490, of the Acts of 1909, provides that the following securities shall be exempt from taxation: "Bonds or certificates of indebtedness of the Commonwealth issued since the first day of January in the year 1906, and bonds, notes and certificates of indebtedness of any county, fire district, water supply district, city or town in the Commonwealth which may be issued on or after the first day of May in the year 1908, stating on their face that they are exempt from taxation in Massachusetts."

TAXATION OF MORTGAGES.—Chapter 761, Laws of 1914, given in full in the "Chronicle" of July 18, page 212, provides that a bond secured by mortgage on tangible property located within or without the Commonwealth which is subject to taxation wherever located, and which is there actually taxed, shall be exempt from taxation within the Commonwealth of Massachusetts upon registration of the same with the Tax Commissioner and upon the payment to him of a fee of $3 per $1,000 annually.

SAVINGS BANK INVESTMENTS—POWER AND RESTRICTIONS.—Investment by savings banks in Massachusetts is governed by Chap. 590 of the Acts of 1908, referred to in V. 87, p. 257, and in an editorial article on pages 5 and 6 of the "State and City Supplement" for May 29 1909. The law was further amended in 1909 and 1912 (see "Chronicle" of May 25 1912, "State and City Department"), and Clause "Fourteenth" was added in 1913, the law at present reading as follows:

SECTION 68. Deposits and the income derived therefrom shall be invested only as follows:

FIRST—First Mortgages of Real Estate.—In first mortgages of real estate ocated in this Commonwealth not to exceed 60% of the value of such real estate; but not more than 70% of the whole amount of deposits shall be so invested. If a loan is made on unimproved and unproductive real estate, the amount loaned thereon shall not exceed 40% of the value of such real estate. [For conditions that must be observed in making such loans see law in full in V. 87, p. 257.]

SECOND—Public Funds.—(a) In the public funds of the United States or of any of the New England States.

(b) In the bonds or notes of a county, city or town of this Commonwealth.

(c) In the bonds or notes of an incorporated district in this Commonwealth whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

(d) In the bonds or notes of any city of Maine, New Hampshire, Vermont, Rhode Island or Connecticut whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes; or of any county or town of said States whose net indebtedness does not exceed 3% of such valuation; or of any incorporated water district of said States which has within its limits more than five thousand inhabitants, and whose bonds or notes are a direct obligation on all the taxable property of such district and whose net indebtedness does not exceed 3% of such valuation. *Provided*, that there is not included within the limits of such water district, either wholly or in part, any city or town the bonds or notes of which are not a legal investment.

(e) In the legally authorized bonds of the States of New York, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Missouri and Iowa, and of the District of Columbia, and in the legally authorized bonds for municipal purposes, and in the refunding bonds issued to take up at maturity bonds which have been issued for other than municipal purposes, but on which the interest has been fully paid, of any city of the aforesaid States, which has at the date of such investment more than thirty thousand inhabitants, as established by the last national or State census or city census, certified to by the city clerk or treasurer of said city, and taken in the same manner as a national or State census, preceding such investment, and whose net indebtedness does not exceed 5% of the valuation of the taxable property therein, to be ascertained by the last preceding valuation of property therein for the assessment of taxes.

(f) In the legally authorized bonds of the States of California, Delaware, Nebraska, New Jersey, Oregon and Washington, and in the legally authorized bonds for municipal purposes or in refunding bonds which have been issued for other than municipal purposes, but on which the interest has been fully paid, of any city of the States of California, Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Massachusetts, Maine, Maryland, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, Washington and Wisconsin, which has at the date of such investment more than one hundred thousand inhabitants, established in the same manner as is provided in subdivision (*e*) of this clause, and whose net indebtedness does not exceed seven per cent of the valuation of the taxable property therein, established and ascertained as provided in subdivision (*e*) of this clause.

[The Attorney-General on April 28 1914 held that bonds of the City of Minneapolis, Minn., were legal investments. V. 98, p. 1629.]

(g) In subdivisions (d), (e) and (f) of this clause the words "net indebtedness" mean the indebtedness of a county, city, town or district omitting debts created for supplying the inhabitants with water and debts created in anticipation of taxes to be paid within one year, and deducting the amount of sinking funds available for the payment of the indebtedness included.

RAILROAD BONDS.

Massachusetts Railroads.

THIRD.—(a) In the bonds or notes, issued in accordance with the laws of this Commonwealth, of a railroad corporation incorporated therein the railroad of which is located wholly or in part therein, which has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment, or in the first mortgage bonds of a terminal corporation incorporated in this Commonwealth and whose property is located therein, which is owned and operated, or the bonds of which are guaranteed as to principal and interest, or assumed, by such railroad corporation. Any shares of the capital stock of a railroad corporation leased to such railroad corporation, which are owned by said lessee corporation, shall not be considered as outstanding within the meaning of this subdivision.

New England Railroads.

(b) In the bonds or assumed bonds of a railroad corporation incorporated in any of the New England States at least one-half of the railroad of which is located in said States, whether such corporation is in possession of and is operating its own road or is leased to another railroad corporation; *provided* either that such bonds shall be secured by a first mortgage of the whole or a part of the railroad and railroad property of such corporation or by a refunding mortgage as described in paragraph (3) or (4) of subdivision *g*; or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds shall be issued under the authority of one of said States which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its road, equipment and franchise or upon any of its real or personal property, without including in and securing by such mortgage all bonds previously issued and all its pre-existing debts and liabilities, which provision, so enacted in such State, shall have been accepted by the stockholders of such corporation; and *provided*, that such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment.

(c) In the first mortgage bonds or assumed first mortgage bonds or in the bonds secured by a refunding mortgage as described in paragraphs (3) or (4) of subdivision *g*, of a railroad corporation incorporated in any of the New England States the railroad of which is located wholly or in part therein, which have been guaranteed as to principal and interest by a railroad corporation described in subdivisions *a* or *b* which is in possession of and is operating its own road.

(d) No bond shall be made a legal investment by subdivision *b* unless the corporation which issued or assumed such bond has, during its fiscal year next preceding the date of such investment, paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct and assumed funded indebtedness.

No bond shall be made a legal investment by subdivision *c* unless the corporation which guaranteed such bond has, during its fiscal year next preceding such investment, paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct, assumed and guaranteed funded indebtedness.

Other Railroads.

(e) In the mortgage bonds, as described in any of the following subdivisions of this clause, of any railroad corporation incorporated under the laws of any of the United States:

Provided, that during each of the ten fiscal years of such railroad corporation next preceding the date of such investment—

(1) Such railroad corporation owned in fee not less than five hundred miles of standard-gauge railroad, exclusive of sidings, within the United States, or if such corporation owned in fee less than five hundred miles of such railroad, the gross earnings of such corporation, reckoned as hereinafter provided, shall have been not less than fifteen million dollars;

(2) Such railroad corporation shall have paid the matured principal and interest of all its mortgage indebtedness;

(3) Such railroad corporation shall have paid in dividends in cash to its stockholders an amount equal to at least four per cent upon all its outstanding capital stock.

(4) The gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals of all leased lines, and the interest on all the outstanding indebtedness of railroads controlled and operated which is not owned by said corporation after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporations not operated by said corporation, which have been deposited with a trustee as the only security to secure the payment of bonds or notes issued by said corporation, but not in excess of the interest on said last-named bonds or notes.

And further *provided*, that—

(5) No bonds shall be made a legal investment by subdivision *g* in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of the issuing or assuming corporation, including all bonds not issued that may legally be issued under any of its prior mortgages or of its assumed prior mortgages, after deducting therefrom, in case of a refunding mortgage, the bonds reserved under the provisions of said mortgage to retire prior lien debts at maturity, shall exceed three times the outstanding capital stock of said corporation at the date of such investment.

(6) No bonds shall be made a legal investment by subdivision *f* or *j* in case the mortgage securing the same shall authorize a total issue of bonds which, added to the total debt of the guaranteeing corporation as defined in paragraph five, including therein the authorized amount of all previously guaranteed bond issues, shall exceed three times the capital stock of such guaranteeing corporation outstanding at the date of such investment; nor in case at said date the total debt of the corporation which issued said bonds shall exceed three times its outstanding capital stock.

In the case of a mortgage executed prior to the passage of this Act, under which the total amount of bonds which may be issued is not specifically stated, the amount of bonds outstanding thereunder at the date of such investment shall be considered, for the purposes of paragraph five and of this paragraph, as the total authorized issue.

(7) Any railroad corporation which is mentioned in subdivision *c* of clause fourth of section twenty-six of chapter one hundred and thirteen of the Revised Laws shall be considered as having complied with all the requirements of this subdivision preceding paragraph five up to and including the fiscal year of said corporation in which this Act is passed.

DESCRIPTION OF BONDS.

(1) *Definition of First Mortgage.*—Whenever the term "first mortgage" is used in the following subdivisions, it shall mean, unless otherwise qualified, a first mortgage on not less than seventy-five per cent of the railroad owned in fee at the date of the mortgage by the railroad corporation on the railroad of which said mortgage is a lien, but in no case on less than one hundred continuous miles of standard-gauge railroad, exclusive of sidings; *provided*, that seventy-five per cent of the railroad subject to the lien of said mortgage is connected;

For five years prior to the date of investment therein all the railroad subject to the lien of said mortgage at the date of execution thereof has been operated by, and its operations included in, the operations of the railroad corporation which issues, assumes or guarantees said bonds;

The date of said mortgage is at least five years prior to the date of such investment; except that a first mortgage given in substitution for and not greater in amount than such a first mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement.

(g) *Direct Obligations.*—Bonds issued or assumed by a railroad corporation described in subdivision *e*, which are secured by a mortgage which was at the date thereof or is at the date of such investment—

(1) A first mortgage on railroad owned in fee by the corporation issuing or assuming said bonds, except that, if it is not a first mortgage on seventy-five per cent of all such railroad owned in fee by said corporation, it shall be a first mortgage on at least seventy-five per cent of the railroad subject to the lien of said mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of said mortgage as part security therefor, representing or covering railroad mileage not owned in fee, the bonds secured by said mortgage shall not become legal investments unless said corporation owns in fee at least seventy-five per cent of the total mileage which is subject to the lien of said mortgage and which is represented or covered by said stocks or bonds;

(2) A first mortgage, or a mortgage or trust indenture which is in effect a first mortgage, upon all the railroad subject to the lien of said mortgage or trust indenture, by virtue of the irrevocable pledge with the trustee thereof of an entire issue or issues of bonds which are a first lien upon the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming said bonds;

(3) A refunding mortgage which covers at least seventy-five per cent of the railroad owned in fee by said corporation at the date of said mortgage and provides for the retirement of all outstanding mortgage debts which are a prior lien upon said railroad owned in fee and covered by said refunding mortgage at the date thereof. But if any of the bonds which said refunding mortgage is given to refund are secured on a railroad not owned in fee by the corporation executing said refunding mortgage, there shall be conveyed and assigned to the trustee of said refunding mortgage either—

At least seventy-five per cent of the railroad on which each issue of bonds to be refunded is secured, free from any mortgage lien except that of the mortgage or mortgages securing the bonds to be refunded; or

At least seventy-five per cent of the outstanding bonds of each issue which is secured by a mortgage lien upon such railroad; and all of said railroad not owned in fee which is so subjected to the lien of said refunding mortgage shall be the railroad of one or more railroad corporations which are owned and operated, controlled and operated, or leased and operated, by the corporation issuing or assuming said refunding mortgage bonds;

But in no case shall the bonds secured by said refunding mortgage become a legal investment unless they mature at a later date than any bonds which said refunding mortgage is given to refund, nor unless the total mileage subjected to the lien of said refunding mortgage in accordance with the requirements of this paragraph is at least twenty-five per cent greater that the mileage covered by any one of the mortgages securing bonds which said refunding mortgage is given to refund.

(4) A mortgage upon not less than ten per cent of the railroad, exclusive of sidings, owned in fee at the date of said mortgage by the corporation issuing or assuming said bonds, but in no case on less than five hundred continuous miles of standard-gauge railroad; *provided*, that

Said mortgage is a first or second lien upon not less than seventy-five per cent of the total railroad covered by said mortgage at the date thereof, and which provides for the retirement of all mortgage debts which are a prior lien upon said railroad owned in fee and covered by said mortgage, at the date of the execution thereof;

The bonds secured by said mortgage mature at a later date than, and cover a mileage at least twenty-five per cent greater than is covered by, any of the bonds secured by a prior lien mortgage so to be retired;

The date of said mortgage shall be at least five years prior to the date of such investment.

(h) *Bonds Underlying Refunding Mortgages.*—Mortgage bonds or bonds secured by mortgage bonds which are a direct obligation of, or which have been assumed, or which have been guaranteed by endorsement as to both principal and interest by, a railroad corporation whose refunding mortgage bonds are made a legal investment under paragraphs three or four of subdivision *g; provided*, that—

Said bonds are prior to and are to be refunded by such refunding mortgage;

Said refunding mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien.

In the case of bonds so guaranteed or assumed, the corporation issuing said bonds is owned and operated, controlled and operated, or leased and operated, by said railroad corporation.

(i) *Guaranteed Obligations.*—Bonds which have been guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the provisions of subdivision *e; provided*, that—

Said bonds are secured by a first mortgage on the railroad of a railroad corporation which is owned and operated, controlled and operated, or leased and operated, by the corporation guaranteeing said bonds;

In the case of a leased railroad, the entire capital stock of which, except shares qualifying directors, is not owned by the lessee, the rental includes an amount to be paid to the stockholders of said leased railroad equal to at least four per cent per annum upon that portion of the entire capital stock thereof outstanding which is not owned by the lessee.

(j) First mortgage bonds of a railroad corporation which during each of its ten fiscal years next preceding the date of such investment has complied with all the requirements of paragraphs two, three and four of subdivision *e; provided*, that said bonds are guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the requirements of subdivision *e* preceding paragraph five, notwithstanding that the railroad of said issuing corporation is not operated by said guaranteeing corporation.

CORPORATION NOT TO LOSE CREDIT BY TEMPORARY DISTURBANCE OF RELATION OF GROSS EARNINGS TO FIXED CHARGES.

(k Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding two successive fiscal years to comply with the requirements of paragraph four of subdivision *e;* but no further investment in the bonds issued, assumed or guaranteed by said corporation shall be made during said period. If after the expiration of said period said corporation complies for the following fiscal year with all the requirements of subdivision *e*, it shall be regarded as having complied therewith during said period.

BONDS NOT TO BECOME ILLEGAL ON ACCOUNT OF CONSOLIDATION.

(l) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal, although the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and although the corporation which issued or assumed said bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for or to acquire the stock of the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to four per cent per annum upon the capital stock outstanding at the time of such consolidation or purchase, of said corporation which issued or assumed said bonds.

CREDIT OF A CORPORATION NOT TO BE LOST BY CONSOLIDATION.

(m) If a railroad corporation which has complied with all the requirements of subdivision *e* preceding paragraph five, except that the period of compliance is less than ten, but not less than five successive years, shall be, or shall have been, thereupon consolidated or merged into, or its railroad purchased and all of the debts of such corporation assumed by, another railroad corporation incorporated under the laws of any of the United States, such corporation so succeeding shall be considered as having complied with all the provisions of subdivision *e* preceding paragraph five during those successive years next preceding the date of such consolidation, merger or purchase in which all said consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would have so complied: *provided*, that said succeeding corporation shall continue so to comply for a further period which shall make such compliance equivalent to at least ten successive years, but which shall be in no case less than the two fiscal years next following said consolidation, merger or purchase.

STREET RAILWAY CORPORATIONS ARE NOT RAILROAD CORPORATIONS.

(n) In this Act, unless the context otherwise requires, "railroad corporation" means a corporation which owns or is in possession of and operating a railroad or railway of the class usually operated by steam power. Street railway corporations are not railroad corporations within the meaning of this Act.

PRESENT INVESTMENTS NOT TO BECOME ILLEGAL.

FOURTH.—The provisions of this Act shall not render illegal the investment in any mortgages of real estate held by such corporation at the time of its passage, nor the investment at such time or thereafter in any issue of bonds or notes dated prior to its passage, in which such corporation was then authorized to invest, so long as such bonds or notes continue to comply with the requirements of law then in force.

STREET RAILWAY BONDS.

FIFTH.—In the bonds of any street railway company incorporated in this Commonwealth the railway of which is located wholly or in part therein, and which has earned and paid in dividends in cash an amount equal to at least five per cent upon all its outstanding capital stock in each of the five years last preceding the certification by the Board of Railroad Commissioners hereinafter provided for. No such investment shall be made unless said company appears from returns made by it to the Board of Railroad Commissioners to have properly paid said dividends without impairment of assets or capital stock, and said board shall on or before the fifteenth day of January in each year certify and transmit to the Bank Commissioner a list of such street railway companies.

Dividends paid by way of rental to stockholders of a leased street railway company shall be deemed to have been earned and paid by said company within the meaning of this clause, provided that said company shall have annually earned, and properly paid in dividends in cash, without impairment of assets or capital stock, an amount equal to at least five per cent upon all its outstanding capital stock in each of the five fiscal years next preceding the date of the lease thereof.

If two or more street railway companies have been consolidated by purchase or otherwise during the five years prior to said certificat on, the payment severally from the earnings of each year of dividends equivalent in the aggregate to a dividend of five per cent on the aggregate capital stocks of the several companies during the years preceding such consolidation shall be sufficient for the purpose of this Act.

TELEPHONE COMPANY BONDS.

SIXTH.—In the bonds of any telephone company subject to the provisions of section thirty-seven of chapter fourteen of the Revised Laws, and of which a majority of the directors are residents of the Commonwealth:

Provided, that during each of the five fiscal years of such telephone company next preceding the date of such investment—

(1) The gross income of such telephone company shall have been not less than ten million dollars per annum.

(2) Such telephone company shall have paid the matured principal and interest of all its indebtedness.

(3) Such telephone company shall have paid in dividends in cash an amount equal to not less than six per cent per annum on all its outstanding issues of capital stock.

(4) The dividends paid on the capital stock of such telephone company shall not have been less than the total amount necessary to pay the interest upon its entire outstanding indebtedness.

And further *provided* that such bonds shall be secured either (*a*) by a first mortgage upon at least seventy-five per cent of the property of such telephone company or (*b*) by the deposit with a trust company incorporated under the laws of this Commonwealth of bonds and shares of stock of other telephone corporations, under an indenture of trust which limits the amount of bonds so secured to seventy-five per cent of the value of the securities deposited as stated and determined in said indenture, and provided that during each of the five years next preceding such investment the annual interest and dividends paid in cash on the securities deposited have amounted to not less than fifty per cent in excess of the annual interest on the bonds outstanding and secured by said deposit. Not more than two per cent of the deposits of any savings bank shall be invested in thebonds of telephone companies.

BANK STOCKS AND DEPOSITS IN BANKS.

SEVENTH.—In the stock of a banking association located in the New England States and incorporated under the authority of the United States, or in the stock of a trust company incorporated under the laws of and doing business within this Commonwealth, but such corporation shall not hold both by way of investment and as security for loans more than twenty per cent of its deposits in the stock of such associations or companies, nor in any one such association or company more than three per cent of its deposits in, nor more than one hundred thousand dollars nor more than one-quarter of the capital stock of, such association or company. Such corporation may deposit not more than two and one-half per cent of its deposits in any banking association incorporated under the authority of the United States and located in this Commonwealth, and in any trust company incorporated in this Commonwealth, but such deposit shall not in any case exceed five hundred thousand dollars nor twenty-five per cent of the capital stock and surplus fund of such depositary.

Clause *Eighth* relates to loans on personal security, which are restricted to one-third of the deposits and income. [In addition to loans authorized by Clause *Eighth*, under an Act approved April 8 1910, banks may loan on notes with a pledge as collateral of life insurance policies. V. 90, p. 1376.] Clause *Ninth* concerns the amount to be invested in a bank building. Clause *Tenth* deals with real estate acquired by foreclosure, and Clause *Eleventh* with securities acquired in settlement of indebtedness Clause *Twelfth* relates to pledges of securities as collateral and provides against invalidating the same. For the provisions of these clauses, see V. 87, p. 257, where the law was printed in full.

LIST OF BONDS TO BE PREPARED.

THIRTEENTH.—Not later than the first day of February in each year the Commissioner shall prepare a list of all the bonds and notes which are then legal investments under the provisions of clauses *third, fourth, fifth* and *sixth*. Said list shall at all times be open to public inspection and a copy thereof shall be sent to every savings bank.

The report of the Bank Commissioner for 1913 *contains a list of bonds considered legal under clauses third, fourth, fifth and sixth of the above Act. This list appeared in State & City Dept. of "Chronicle," May* 23 1914.

FOURTEENTH.—Bonds which at any time hereafter have been for ten successive years legal investments under the provisions of subdivisions a, b, c or d of Clause 3, Clause 5 or Clause 6 of this section shall not be rendered illegal although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding two successive years to comply, as to dividends on its capital stock, with the requirements of the clauses specified above; but no further investment in the bonds issued, assumed or guaranteed by such corporation shall be made during said period. If after the expiration of said period, such corporation complies for the following fiscal year with the requirements of the clauses specified above, it shall be regarded as having complied therewith during said period; *provided* that it shall not have so failed to comply during any other period within the next preceding ten years.

[*Opinion of Attorney-General Regarding Legality of N. Y. N. H. & H. RR. Bonds as Savings Bank Investments.*]—Attorney-General James M. Swift rendered an opinion in Feb. 1911 with reference to the Act passed by the Legislature in June 1910 to validate bonds and stocks of the New York New Haven & Hartford RR. Co., and for the purpose of determining whether or not the assets were sufficient to show the road a solvent corporation. As stated in V. 92, p. 462, the report of the Commission appointed under the Act referred to was filed with the Legislature on Feb. 17 1911. The Act stated that "nothing herein contained shall authorize the investment by savings banks in the securities aforesaid unless they are otherwise legal investments under the provisions of Chapter 590, Acts of 1909," and the Attorney-General finds that "no matter what the finding of the Commission appointed under the Act with reference to assets and liabilities was, it would not in and of itself make any change in the standing of securities for savings bank investments." See V. 92, p. 541.

INT. payable in Boston on water bonds at Old Colony Trust Co. and on town-hall bonds at Mercantile Trust Co.; on bridge 3½s in Lowell.

BOSTON. J. F. Fitzgerald, Mayor; Chas. H. Slattery, City Treas.; J. Alfred Mitchell, City Auditor.
City was incorporated Feb. 23 1822. On Nov. 2 1909 a charter amendment was adopted under which municipal nominations are to be made only upon petition of 5,000 voters. The Mayor serves for four years, subject to recall after two years. V. 89, p. 1234. The question of holding a recall election was submitted to the voters on Nov. 7 1911, but failed to carry. V. 93, p. 1337. On Nov. 7 1911 the voters accepted an Act passed by the Legislature annexing the town of Hyde Park, which became a part of the city Jan. 1 1912. V. 93, p. 1337. In Nov. 1912 an Act authorizing the city to issue $2,500,000 bonds outside the debt limit for the construction of streets was accepted by the voters. V. 95, p. 1422.
The county of Suffolk, in which Boston is situated, contains also the city of Chelsea and the towns of Revere and Winthrop. Boston, however, receives all the county income, pays all the county expenses, owns the county buildings, and is responsible for the county debt, which amounted on Apr. 30 1915 to $3,753,333. The details of this county debt are included in the following financial report for this city. Bonds marked with an asterisk (*) below are payable serially.

Net debt	$84,911,647	$83,969,569	$77,132,403

The following table shows the amount of the gross funded debt, sinking funds and the net debt for the following years:

Years—	*Gross Debt.*	*Sinking Funds.*	*Net Debt.*
1915 (Jan. 31)	$124,805,514.34	$42,830,937.39	$81,974,576.95
1914 (Jan. 31)	120,525,581 01	41,564,210 80	78,961,370.21
1913 (Jan. 31)	118,357,647.67	43,728,392.75	74,629,254.92
1912 (Jan. 31)	117,042,089.33	43,567,856.68	73,474,232.65
1911 (Jan. 31)	115,075,489.33	42,146,838.82	72,928,650.51
1910 (Jan. 31)	110,716,406.00	39,370,433.42	71,345,972.58
1905 (Jan. 31)	94,121,606.00	31,694,386 88	62,427,219.12
1900 (Jan. 31)	86,996,978.98	28,663,641.39	58,333,337.59
1890 (April 30)	53,930,095.22	22,854,262.98	31,075,832.24
1881 (April 30)	40,949,332.18	14,943,711.59	26,005,620.59

ASSESSED VALUATION.—The city's assessed valuation of real estate and personal property and tax rate have been as follows:

	Assessed Valuation			*Rate of Tax*
Years—	*Real.*	*Personal.*	*Total.*	*per* $1,000.
1914	$1,237,448,500	$303,902,909	$1,541,351,409	$17.50
1913	1,215,882,600	305,091,926	1,520,974,526	17.20
1912	1,186,474,900	295,345,020	1,481,819,920	16.40
1911	1,146,663,400	281,686,113	1,428,349,513	16.40
1910	1,118,989,100	274,771,323	1,393,760,423	16.40
1909	1,092,602,000	255,346,227	1,347,948,227	16.50
1905	1,021,431,200	238,314,482	1,259,745,682	16.00
1900	902,490,700	226,685,132	1,129,175,832	14.70
1895	744,751,050	206,616,878	951,367,928	12.80
1890	619,990,275	202,051,525	822,041,800	13.30
1880	437,370,100	202,092,395	639,462,495	15.20
1870	365,593,100	218,496,300	584,089,400	15.30

The tax rate for 1914 includes the State tax, $2.78 per $1,000; the county tax, $1.15; the city tax proper, $13.57; total, $17.50. Of the city tax of $13.57, $4.01 is for school expenditure.

DEBT AND TAX LIMITATIONS.—Taxes in Boston, exclusive of the State tax, county tax and sums required by law to be raised on account of the city debt, are limited by Chapter 521 of the Acts of 1910 to $10.55 on every $1,000 of the assessor's valuation of the taxable property therein for the preceding year, said valuation being first reduced by the amount of all abatements allowed thereon previous to the thirty-first day of December in the year preceding said assessment.

Sec. 2, Chap. 312, Laws of 1885 (Sec. 3, Chap. 27, of the 1902 edition, Revised Statutes), places the debt limitation of the city of Boston at 2½% of the average assessors' valuations of the taxable property for the preceding three years.

The foregoing limitation is of course exclusive of debts created for water supply, and further exceptions have been made from year to year by different legislatures authorizing bonds outside of the debt limit for various purposes, especially enumerated.

It is proper to state that under Chapter 93, Acts of 1891, the city is authorized to *anticipate* its authority to borrow money within its debt limit for any current municipal year.

BORROWING POWER.—The city's borrowing power Apr. 30 1915 is shown in the following statement:

Total debt, city and county		$127,583,864 34
Less special loans (outside of limit)	$71,371,500 00	
Less county loans (outside of limit)	3,396,333 34	
Less Cochituate water debt	2,342,950 00	
Total deductions		77,110,783 34
Total debt less above deductions		$50,473,081 00
Sinking funds, less $26,096,785.58 held for loans deducted as above (water loans, &c.), and $37,753.02 premium on loans		15,472,469.02
Net debt, excluding debts outside of limit		$35,000,611 98
Right to borrow, under Chapter 93, Acts of 1891, as estimated Feb. 25 1915		$3,740,396 65
Less loans authorized since (inside of debt limit)		1,650,000 00
Right to borrow April 30 1915		$2,090,396 65

POPULATION.—1910, 670,585; 1905, 593,598; in 1900 it was 560,892; in 1890, 448,477; in 1880, 362,839; in 1870, 250,526.

Treasurer (term exp. first Tues. Jan. 1917)—Walter A. Read

LEGISLATURE.—The Legislature now meets annually the first Tuesday in January. There is no limit as to the length of session, but compensation of the legislators is limited to sixty days' attendance in any calendar year.

HISTORY OF DEBT.—For early history of the Rhode Island State debt, see "State & City Supplement" of Apr. 13 1895, page 33. The bonds outstanding at present are described as follows:

Penal & Reformatory Inst. Loan.

3½g'09	M-S	$300,000c	Mch 1	1959

State House Loan.

3½g'94	J-J	$400,000c	Jan 1	1924
3½g'94	J-J	400,000c	Jan 1	1934
3s g'98	A-O	800,000c	July 15	1938
3s g'01	M-N	700,000c	May 1	1941

Harbor Improvement Bonds.

4s g'10	F-A	$500,000c	Aug 1	1960
4s '13	J-D	550,000x	Dec 1	1963

Charitable Inst. Loan.

4g '14	J-J	$617,000c	July 1	1964

Armory Construction Bonds.

3s g '06	A-O	$350,000c	Apr 1	1946

Highway Improvement Bonds.

3s g '06	A-O	$600,000c	Apr 1	1936
3½g'09	M-S	600,000c	Mch 1	1939
4s '12	J-D	600,000c	June 1	1942

Metropolitan Park Loan.

3½sg'08	J-D	$250,000c	June 1	1958
4s '14	F-A	300,000c	Feb 1	1964

*This is debt incurred for the benefit of the several towns and cities included in Metropolitan Park System. While such debt is a direct obligation of the State, its payment must eventually be met by assessment on the towns and cities benefited. (x) Coupon with privilege of registration.

INTEREST on the State-House bonds and Charitable Inst. Loan 1914 is payable in Providence at the Rhode Island Hospital Trust Co.; all other issues at Industrial Trust Co.

TOTAL DEBT, SINKING FUNDS, &c.—

	Jan. 1 '15.	*Oct.* 1 '14.	*Oct.* 1 '13.	*Jan.* 1 '13.
Total funded debt	$6,917,000	$6,667,000	$5,580,000	$5,580,000
Sinking funds	844,955	796,090	781,102	673,493
Net debt	$6,072,045	$5,870,910	$4,798,898	$4,906,507

The sinking fund is largely invested in city, town and district bonds and notes, and it is to receive $95,146 yearly.

TAX VALUATION.—The total assessed valuation of real estate and personal property in Rhode Island Jan. 1 1915 was $682,561,778, consisting of $455,862,496 real estate and $226,699,282 personal property. Tax rate (per $1,000) in 1912, 1913 and 1914 was $0.90.

POPULATION OF STATE—

1910	542,610	1880	276,531	1840	108,830	1800	69,122
1905	480,082	1870	217,353	1830	97,210	1790	68,825
1900	428,556	1860	174,620	1820	83,059		
1890	345,506	1850	147,545	1810	77,031		

STATE AND MUNICIPAL INDEBTEDNESS LIMITATIONS.—Under Section 13, Article IV of the State constitution, the General Assembly has no power to incur State debt to an amount exceeding $50,000 without the consent of the people, except in time of war or of insurrection or invasion. In no case is the Assembly to pledge the faith of the State for the payment of obligations of others without the approval of the people. In reference to city debts, there is nothing in the constitution of Rhode Island limiting the amount of such obligations. The following, however, are two sections taken from Title 8, Chapter 46 (page 221) of the Revised Statutes of the State of 1909. Since 1878 these provisions have been in force, and consequently 3% of the taxable property has been the limit of the power of each town (which includes city) to create debt.

SECTION 20.—"The outstanding notes, bonds and contracts of towns shall be paid and be fulfilled according to the tenor thereof, and all public works now authorized to be prosecuted shall be prosecuted and all indebtedness now authorized to be incurred on account thereof may be incurred according to the tenor of the authority thereof."

SECTION 21.—"No town shall, *without special statutory authority therefor*, incur any debt in excess of three per centum of the taxable property of such town, including the indebtedness of such town on the tenth day of April, one thousand eight hundred seventy-eight; but the giving of a new note or bond for a pre-existing debt, or for money borrowed and applied to the payment of such pre-existing debt, is excepted from the provisions of this section, and the amount of any sinking fund shall be deducted in computing such indebtedness."

TAXATION OF BONDS.—Bonds or notes of the State are not subject to taxation. Loans of municipalities, we were advised Dec. 12 1911 by J. F. Parker, Sec. of State, are taxable.

SAVINGS BANK INVESTMENTS AND RESTRICTIONS.—At the 1911 session of the Legislature the laws concerning Rhode Island savings bank investments were completely revised and materially altered in many respects. In 1912 and 1914 further amendments were made. See V. 94, p. 1397, and V. 98, p. 1629. Investment in public securities is regulated by Clause I, a digest of which follows:

Clause I. Permits investments in (a) bonds or notes of the United States or any State or Territory which has not, in the ten years next preceding the time of investment, defaulted in the payment of its debt

(b) Bonds or notes of any city or town of the New England States or New York State which has not defaulted in ten years and whose net debt does not exceed 7% of the last preceding assessed valuation; or of any incorporated district of said States having over 5,000 inhabitants, or in New Hampshire, with a population of over 2,500, whose bonds are a direct obligation on all the taxable property of such district, and whose net debt does not exceed 5% of such valuation, and which bonds are provided for by a sinking fund or serial retirement.

(c) Bonds or notes of any city of the United States other than the New England States and New York State which has not defaulted during ten years, has 30,000 or more inhabitants and a net debt of not exceeding 7% of the last preceding assessed valuation, or the bonds and obligations of any incorporated school district within such city, payable primarily from taxes levied on all taxable property in such district; providing the population of the district is 30,000 or more, and the population and assessed valuation of the district are equal to at least 75% of the population and assessed valuation of the city within which such district is located.

(d) Bonds or notes of any county in the United States having a population of over 100,000 (according to National or State Census), and whose net indebtedness does not exceed 3% of the last preceding assessed valuation.

"**Net Indebtedness—Definition.**—(e) 'Net indebtedness' shall mean the total debt less sinking funds, the net outstanding water and sewer debts and the tax levy for the current year."

Clauses II to VI, inclusive, which govern investment in railroad bonds, public service securities and bonds of telephone companies, are given in full herewith:

"**Steam Railroad Bonds and Notes.**—*Clause II.* In the bonds and notes and receivers' certificates of steam railroad orporations described herein below, in the 'table of eligible steam railroad bonds and notes,' subsections (a) to (y) inclusive, subject to the following definitions and classification:

"The words 'railroad' and 'railway' herein used are to be considered synonymous titles.

"The term 'funded indebtedness' herein used shall include all bonds and notes bearing interest.

"All 'income bonds' are ineligible.

"The eligibility of such bonds for such investments is defined as follows, unless hereinafter otherwise provided:

"**Definition.**—Ownership.—Such railroad corporation shall own its road in fee.

"Location.—The railroad of such corporation shall be located principally in the United States.

"Gauge.—The railroad of such corporation shall be of standard gauge.

"Mileage.—Such railroad must be not less than 100 miles in length, exclusive of sidings.

"Net income.—The net income of any such corporation shall be its earnings and income after payment of all operating expenses, maintenance charges, rentals and taxes, and all guaranteed dividends and guaranteed interest paid by, or due from, it.

"The net earnings and income of any such corporation shall equal the following requirements by the following classes, to which reference is made in the succeeding table of bonds.

"**Classification.**—*Class I.* Any such corporation of this class must have earned and received in each of its three fiscal years, or three nearer and successive periods of one year, next preceding such investment, a net income of not less than twice the annual interest for the current year on all its funded indebtedness, including the bonds in question.

"*Class II.* Any such corporation of this class must have earned and received a net income, in each of its three fiscal years, or three nearer and successive periods of one year, next preceding such investment, not less than twice the annual interest for the current year on the underlying mortgage bonds in question, and all prior liens.

"*Class III.* Any such corporation of this class must have earned and received in each of its three fiscal years, or three nearer and successive

periods of one year, next preceding such investment, a net income of not less than twice the annual interest for the current year on all its mortgage indebtedness outstanding, including the bonds in question.

"*Class IV.* Any such corporation of this class must have earned and received in each of its three fiscal years, or three nearer and successive periods of one year, next preceding such investment, a net income of not less than one and a half times the annual interest for the current year on all its funded indebtedness, including the bonds in question. [In November 1913 the Bank Commissioner announced that the proposed $67,552,000 bond issue of the N. Y. N. H. & H. RR. will not be a legal investment, as the earnings do not meet the requirements of the law.]

"**Table of Eligible Steam Railroad Bonds and Notes.**—(a) Debenture bonds of any such steam railroad corporation, incorporated in any of the United States, whose net income is described in Class I.

"(b) Debenture bonds of any such steam railroad corporation, incorporated in any of the United States, which has leased its railroad to another such railroad whose net income is described in Class I; *Provided*, that such lease is for a term extending at least ten years after the maturity of the bonds in question, and that the rent from such lease is sufficient to meet the interest and sinking fund requirements, if any, on said bonds or any prior lien or any other debenture bonds, together with a dividend of not less than four per centum per annum on the entire capital stock of the lessor corporation; and also provides for the proper maintenance and operation of the property leased.

"(c) Debenture bonds of any such steam railroad corporation, incorporated in any of the United States, guaranteed as to principal and interest or assumed by another railroad described in Class I.

"(d) Bonds of any such steam railroad corporation described in items (b) and (c), which are guaranteed as to principal and interest, or assumed by two or more steam railroads of which one shall be of Class I and the others may be of Class III or Class IV.

"(e) Mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, whose net income is not less than that described in Class III.

"(f) Underlying mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, whose net income is not less than that described in Class II.

"(g) Mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, which are guaranteed as to principal and interest, or assumed by another steam railroad, whose net income is described in Class I or Class III.

'(h) Mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, which are guaranteed as to prinicpal and interest, or assumed, by two or more steam railroads, of which at least one shall be of Class I or Class III and the others may be of Class III or Class IV.

"(i) Mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, which has leased its railroad to another steam railroad whose net income is described in Class I or Class III; *Provided*, that said lease is for a term extending at least ten years after the maturity of the bonds in question, and that the rent from such lease is sufficient to meet the interest and sinking fund requirements, if any, on said bonds and any prior liens, together with a dividend of not less than four per centum on the entire capital stock of the lessor corporation, and provides for the proper maintenance and operation of the property leased.

"(j) Mortgage bonds of any such steam railroad corporation, incorporated in the United States, which has leased its railroad to two or more steam railroads, of which at least one shall be of Class I or Class III; *Provided*, that said lease shall be for a term extending at least ten years after the maturity of the bonds in question, and that the rent from such lease is sufficient to meet the interest, and sinking fund requirements, if any, on said bonds and any prior liens, together with a dividend of not less than four per centum on the entire capital stock of the lessor corporation, and provides for the proper maintenance and operation of the property leased.

"(k) First mortgage bonds or refunding mortgage bonds of any such steam railroad corporation which would be a legal investment under terms (g), (h), (i) and (j), respectively, except for the fact that it owns in fee less than 100 miles of road, exclusive of sidings.

"(l) First mortgage bonds of any such steam railroad corporation, irrespective of mileage, which is a constituent part of a steam railroad and transportation system of not less than 1,000 miles of road, exclusive of sidings, and at least ninety per centum of the capital stock of which is owned by a proprietary holding company which operates said railroad and transportation system, and the earnings of which, with the earnings of the other divisions constituting said railroad and transportation system, are received by said holding company, and which bonds in question are fully guaranteed as to principal and interest by such holding company, either by direct guaranty, or by rental under lease extending at least ten years after the maturity of said bonds, the terms of which lease require a payment of rent equivalent to all taxes and interest, and provides a sinking fund sufficient to retire said bonds at maturity; *Provided, however*, that the net income of said holding company shall equal the requirements of railroads in Class I.

"(m) Bonds and debentures of any steam railroad corporation whose railroad property is unencumbered by mortgage, and whose net income is described in Class I; *Provided, however*, that such bonds or debentures shall be issued only under the authority of some State which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its railroad property without including in and securing by such mortgage all bonds previously issued by it and all its pre-existing debts and liabilities, which provision so enacted in such State shall have been accepted by the stockholders of such railroad company.

"(n) Bonds of any steam railroad corporation described in item (m) which has leased its railroad to another steam railroad for a term extending not less than ten years after the maturity of the bonds in question, which lessee railroad fully guarantees the principal and interest on said bonds; *Provided*, that said lessee railroad is one whose net income is at least up to the standard set in Class III; *and provided, further*, that said lease is for a term extending at least ten years after the maturity of the bonds in question, and that the rent from such lease is sufficient to meet the interest and sinking fund requirements, if any, on said bonds, together with a dividend of not less than four per centum per annum on the entire capital stock of the lessor corporation, and provides for the proper maintenance and operation of the property leased.

"(o) First mortgage bonds of any terminal company, or terminal railway company, incorporated in the United States, whose property is located in the United States, and whose bonds are guaranteed as to principal and interest by any such steam railroad corporation of Class I.

"(p) First mortgage bonds of any terminal company or terminal railway company, incorporated in the United States, whose property is located in the United States, whose bonds are guaranteed as to principal and interest by two or more steam railroad corporations of Class I or Class III.

"(q) First mortgage bonds of any terminal company or terminal railway company, incorporated in the United States, whose property is located in the United States, of which company at least ninety per centum of its capital stock is owned by two or more proprietary steam railroads of Classes I, III or IV, and which use said property, and jointly, or jointly and severally, guarantee the principal and interest of all the indebtedness of said company.

"(r) First mortgage bonds of any terminal company or terminal railway company, incorporated in the United States, whose property is located in the United States, which has leased its property to one or more steam railroad corporations which guarantee the principal and interest on said bonds, and which lease runs for a term extending at least ten years after the maturity of said bonds, and which lease provides for the maintenance and operation of the leased property; *Provided*, that, if such lease is to one steam railroad corporation, it shall be of Class I, and if such lease is to two steam railroad corporations, they may be of Classes I or III, and if such lease is to three or more steam railroad corporations, they may be of Classes I, III or IV.

"(s) First mortgage bridge bonds issued by any railroad corporation of Class I.

"(t) First mortgage bonds of any bridge company, incorporated in the United States, whose property is in the United States, whose entire indebtedness is guaranteed as to principal and interest by one or more steam railroad corporations; *Provided*, that, if such guarantee is by one such railroad corporation, it shall be of Class I, and if such guarantee is by two or more railroad corporations they may be of Classes I, III or IV.

"(u) First mortgage bonds of any bridge company, incorporated in the United States, whose property is in the United States and whose capital stock is entirely owned, except shares qualifying directors, by two or more proprietary steam railroad corporations of Classes I, III or IV which guarantee the maintenance of the property and the principal and interest of such bonds.

"(v) Equipment bonds or equipment notes issued by any steam railroad corporation of Class I, Class III or Class IV which are secured by a first lien on the equipment against the purchase of which said bonds or notes were issued at not exceeding eighty per centum of the purchase price thereof; *Provided*, that the indenture under which said lien is established contains adequate requirements for the maintenance of the property pledged, and provides that an equal amount of any issue of such bonds or notes shall be paid annually until all are retired without the release of the lien on any of such equipment.

"(w) Notes, warrants and obligations, running for a term of not more than five years from date of issue, given by any steam railroad corporation which has earned and paid dividends at the rate of not less than four per centum per annum on all its outstanding capital stock for five years next prior to the date of issue.

"(x) Certificates of indebtedness commonly termed 'receiver's certificates' issued by a receiver of any such steam railroad under an authorization of the court or courts having jurisdiction over such receiver.

"(y) First mortgage bonds and refunding mortgage bonds of any steam railroad, incorporated and whose property is principally located in the Dominion of Canada, which conform in all respects to the provisions applying to mortgage bonds of steam railroad corporations in the United States.

"**Change of Motive Power.**—*Clause III.* The change of motive power by any steam railroad corporation, whether wholly or in part, shall not affect the eligibility, for such investment, of any of the steam railroad obligations hereinbefore described, so long as its earnings conform with the foregoing requirements.

"**Railroad Stocks.**—*Clause IV.* (a) In the shares of the capital stock of any steam railroad which has leased its railroad to another steam railroad, which operates the property so leased as a part of its railroad system; *Provided*, that such lease is for a term of not less than fifty years, and the lessee company is one whose bonds would be a legal investment under the provisions of Clause II, Class III, and that by the terms of the lease the lessee company is obliged to pay rents sufficient to pay the interest on the outstanding bonds of the lessor and a dividend at an annual rate of not less than four per centum per annum on all the capital stock of the lessor company.

"(b) In the shares of the capital stock of any steam railroad which operates its own railroad whose bonds would be an eligible investment under Clause II, Class I; *Provided*, that such railroad has paid regular annual dividends on all its capital stock at the rate of not less than four per centum per annum for ten years next preceding such investment.

"(c) The aggregate investment of such deposits and income by any bank, savings bank or trust company in the stock of any one such steam railroad corporation at par value shall not exceed two per centum of said deposits held by it.

"**Public Service Securities.**—*Clause V.* In the bonds of public service corporations, commonly called 'public service securities,' described hereinbelow in the 'table of eligible public service securities,' sub-sections (a) to (j), inclusive, subject to the following description and definition:

"The title 'public service securities' shall include only mortgage bonds issued by any electric railroad, street railway, gas company, electric light or power company, or water company, as hereinafter described.

"The term 'funded indebtedness' herein used shall include all bonds and notes bearing interest.

"**Descriptive Definition.**—Ownership.—Such corporation shall own the major part of its property in fee.

"Location.—The property of such corporation shall be located principally in the United States, unless otherwise provided.

"Net Income.—The net income of such corporation shall be its net earnings and income after payment of all operating expenses, maintenance charges, rentals and taxes, and all guaranteed interest and guaranteed dividends paid by, or due from, it.

"Eligibility for such investment.—Such corporation must have earned and received a net income in each of its three fiscal years, or three nearer periods of one year, next preceding such investment not less than twice the annual interest for the current year on all its indebtedness secured by the mortgage under which the bonds in question are issued and all prior liens, unless otherwise hereinafter specified, and shall not have defaulted on any of its obligations during the same period; *Provided, however*, that said bonds shall mature at least five years before the expiration of the principal franchise or franchises under which such corporation is operated, or there shall exist some definite agreement or contract with the grantors whereby such franchise or franchises may be renewed or extended from time to time throughout and beyond the life of the bonds in question, and or that by such an agreement or contract the security of said bonds is adequately protected and preserved to the bondholders, and a copy of such agreement or contract shall be filed in the office of the Bank Commissioner and shall be preserved in his files during the life of the bonds in question.

"**Table of Eligible Public Service Securities.**—(a) Mortgage bonds of any such electric railroad, street railway, gas, electric light or power company, incorporated under the laws of Rhode Island, whose property is located and operated chiefly in this State.

"(b) Mortgage bonds of any such electric railroad, street railway, gas and electric light or power company, incorporated under the laws of any of the United States; *Provided, however*, that the said bonds of any such electric railroad or street railroad company shall be a legal investment for such deposits and income only in case such company shall have received average gross earnings of not less than four hundred thousand dollars in each of its three fiscal years, or three nearer periods of one year, next preceding such investment, and if said bonds are issued by a company which carries on the business of an electric railroad or street railway combined with that of either a gas company or an electric light or power company, or both of such kinds of business, then, in such case, such company shall have received average gross earnings of not less than six hundred thousand dollars in each of its three fiscal years, or three nearer periods of one year, next preceding such investment; and if said bonds are issued by any such gas company or electric light or power company, or by a company which combines the business of a gas company and an electric light company, and, or, power company, or any two such businesses, then, in such case, it shall have received average gross earnings of not less than two hundred thousand dollars in each of its three fiscal years, or three nearer periods of one year, next preceding such investment.

"(c) First or refunding mortgage bonds of any such electric railroad, street railway, gas, electric-light or power company incorporated in any of the United States, which are in operation and show substantial net earnings and which are guaranteed as to principal and interest or assumed by another corporation whose bonds would be a legal investment under the provisions of paragraph (b) of this clause.

"(d) First or refunding mortgage bonds of any such electric railroad or street railway, incorporated in any of the United States, which are guaranteed as to principal and interest, or assumed by a steam railroad or railroads whose bonds would be a legal investment under the provisions of Class III of the classification of steam railroads herein.

"(e) First or refunding mortgage bonds of any such electric railroad, street railway, gas, electric light or power company which has leased its property to any other corporation whose bonds would be a legal investment under the provisions of paragraph (b) of this clause; *Provided, however*, that said lease shall extend for a term of at least ten years after the maturity of said bonds at a rental at least equal to the fixed charges and taxes of the lessor, including the interest on, and a sinking fund for, the bonds in question, or provides for the payment of said bonds at maturity, and shall require the operation and maintenance of the leased property; *and provided, further*, that an authentic copy of such lease shall be filed in the office of the Bank Commissioner, and such copy shall be preserved in his files during the life of the bonds in question.

"(f) Equipment bonds or equipment notes issued by any such electric railroad or street railway which are secured by a first lien on the equipment against the purchase of which said bonds or notes were issued at not exceeding eighty per centum of the purchase price thereof; *Provided*, the indenture under which said lien is established contains adequate requirements for the maintenance of the property pledged and provides that an equal amount of such bonds or notes shall be paid annually until all are retired, without the release of the lien on any of such equipment.

"(g) Certificates of indebtedness, commonly termed 'receiver's certificates,' issued by a receiver of any such electric railroad, street railway, gas electric light or power company under an authorization of the court or courts having jurisdiction over such receiver.

"(h) First mortgage bonds of any electric railroad, street railway, gas, electric light or power company, described in paragraph (b) of this clause, which is incorporated in the Dominion of Canada, and whose property is located principally in said Dominion; *Provided*, that such bonds conform in all other respects to the provisions of paragraph (b), (c), (d), (e) or (f) of this clause.

"(i) Bonds of any corporation which owns more than ninety per centum of the capital stock and of the outstanding bonds of any electric railroad or street railway company, incorporated in this State, the railway of which is located wholly or in part therein, secured by the deposit in trust of the said

stock and bonds as collateral, and which corporation has paid, in each fiscal year for the five years last preceding such investment, dividends of not less than four per centum per annum upon all its outstanding capital stock; or the bonds of any such electric railroad or street railway company which are secured by mortgage on its property and are guaranteed as to principal and interest by any such corporation.

"(j) First mortgage bonds of any company incorporated in this State for the purpose of supplying water for domestic and other purposes; *Provided*, that such company has an exclusive franchise to serve a population of not less than ten thousand in this State, which franchise extends at least five years beyond the life of the bonds in question, and that said bonds are secured by a mortgage of the property, rights and franchises of such company.

"Bonds of Telephone Companies.—*Clause VI.* In the bonds of any telephone company incorporated in any of the United States whose property is located chiefly in the United States; *Provided*, that such telephone company has met the following requirements during each of its five fiscal years next preceding such investment, viz.:

"(a) That the average gross income of such telephone company shall have been not less than ten million dollars per annum.

"(b) That such telephone company shall have paid the matured principal and interest of all its indebtedness.

"(c) That such telephone company shall have earned and paid cash dividends on all its outstanding issues of stock at the rate of not less than six per centum per annum, and that the amount of such cash dividends shall have exceeded the sum required to pay the interest upon its entire outstanding indebtedness, including the bond issue in question.

"*And provided, further*, that such bonds shall be secured either:

"(1) By a first mortgage covering at least seventy-five per centum of the property of such company, including its franchises and other similar rights and privileges, and limiting the amount of the bonds issuable thereunder to seventy-five per centum of the value of the property mortgaged, excluding any valuation of said franchises, rights and privileges, or

"(2) By the deposit with a trust company of bonds and shares of stock of other telephone corporations, under an indenture of trust which limits the amount of bonds so secured to seventy-five per cent of the value of the securities deposited as stated and determined in said indenture, and provided that during each of the five years next preceding such investment the annual interest and dividends paid in cash on the securities deposited have amounted to not less than fifty per cent in excess of the annual interest on the bonds outstanding and secured by said deposit.

"A true copy of the mortgage or indenture of trust securing said bonds shall be filed in the office of the Bank Commissioner and shall be preserved during the life of said bonds.

"The aggregate investment of such deposits and income by any bank, savings bank or trust company in the bonds of any one such telephone company at par value shall not exceed two per centum of said deposits held by it."

Under Clause VII a bank may invest in the capital stock of any bank or trust company incorporated under the laws of any of the New England States, or New York State, or of any national banking association doing business in said States. Holdings both by investment and as security for loans are limited to not more than 25% of a bank's deposits. No more than 3% of the deposits shall be invested in the stock of any one such corporation, nor shall such corporation hold, both by investment and as security for loans, more than one quarter of the capital stock of any one such bank, trust company or national banking association.

Clause VIII concerns limit of deposits in any one bank. Clauses IX, X, XI and XIII concern real estate loans and personal securities. The full text of these sections will be found in the "Chronicle" of May 20 1911, page 1388.

Clause XII permits investment in the note or notes of a gas, water, electric light or power, telephone, electric railroad or street railway company incorporated, or doing business, in this State, which has paid dividends of at least 4% in each fiscal year upon all its issues of capital stock for 5 years next preceding the date of such investment; *Provided*, the principal of said note or notes matures at a time not exceeding 3 years from the date of investment therein; *and provided, further*, that said note or notes shall mature at least 5 years before the expiration of the principal franchise or franchises under which said gas, electric light or power, telephone, electric railroad or street railway company are operated; *and provided, further*, that the aggregate amount so invested by any bank, savings bank or trust company in the note or notes of any such corporation, together with the bonds and other securities of such corporation held, shall not exceed 2% of said deposits held by it.

Securities taken in settlement of debt may be held under Clause XIV, but the non-legal securities so obtained shall be sold within five years after being acquired, unless the time is extended.

"General Provisions.—*Clause XV.* (a) Securities acquired after the passage of this Act, which were legal investments when acquired, need not be disposed of if it happens afterwards that the net income of the corporation issuing such securities shall fall below the limit fixed by this Act, or, in the case of a city, county, town or district, if the debt limit is exceeded, unless, in the judgment of the Commissioner, it is hazardous to retain the same, in which case said Commissioner may give directions in writing requiring the disposal of such securities, and when such directions are given, such securities shall be disposed of within one year from the date of such notice, unless an extension of time is granted by said Commissioner.

"(b) Bonds which are legal investments under the foregoing provisions of this chapter and are secured by a mortgage which provides for payments to a sinking fund shall cease to be legal investments if the corporation issuing such bonds shall at any time fail to make such payments. And such bonds shall not be legal investments under the provisions of this section so long as any such payment is in arrears and unpaid.

"(c) If a corporation is formed by a consolidation or merger of two or more corporations, and it is desired to ascertain the legality of the bonds of the successor corporation for investment of savings deposits, the earnings and income of the several predecessor and constituent corporations shall be consolidated, and the aggregate corporate income so ascertained shall be regarded as that of one and the same continuous corporation represented by the successor corporation; or, if a corporation shall acquire by purchase the property and franchises of another corporation, and a bond issue is made for the financing of the transaction, the legality of the bonds so issued with the other bonds of the purchasing corporation shall be ascertained by the same process as in the case of a consolidation or merger above provided, subject to the rules applying to the several classes of corporations described under the preceding clauses of this chapter.

"(d) If the net earnings and income of any corporation whose bonds have been a legal investment under the provisions of this chapter shall fall somewhat below the requirements of this chapter for a period of not exceeding two successive fiscal years, and in the following year such earnings and income shall be restored to the required amount, said corporation, after such restoration of income, shall be regarded as having complied with said requirements during said period, but during the period of failure to earn the required amount no investment shall be made in the bonds of a corporation so situated.

"(e) Serial maturities of bonds shall be considered equivalent to sinking fund provisions.

"Of the Segregation of Assets.—*Clause XVI.* (a) Every bank or trust company which maintains a savings or participation department, or solicits or receives deposits as savings or on participation, shall invest all deposits therein, or so received, according to the requirements of this chapter, and such deposits, invested or uninvested, shall be set apart for the exclusive protection of the deposits in said savings or participation department, and shall not be liable for, or be used to pay, any other obligation or liability of such bank or trust company until after the payment of all the deposits in said savings or participation department.

"(b) The foregoing provision as to the character of the investment of savings or participation deposits shall not render illegal any investments of such deposits made prior to May 26 1908, nor compel the change of such investments for those prescribed by this chapter, except as hereinafter provided.

"(c) If any bank or trust company shall continue to hold such investments of non-legal character made prior to May 26 1908 which, in the opinion of the Bank Commissioner, are hazardous and unsafe for the investment of savings deposits, said Commissioner may, by giving notice in writing, require such bank or trust company to dispose of such investments, to substitute other investments of a character in conformity with the requirements of this chapter within one year from the date of receipt of such notice, and said bank or trust company shall make such disposal or substitution in accordance with such requirement; but if it shall appear on written request of such bank or trust company that additional time is reasonably necessary in which to make such disposal or substitution in order to avoid unnecessary sacrifice, said Commissioner may grant a reasonable extension of time for the compliance herewith.

"(d) If any investment of the savings or participation department of any bank or trust company, which has been set apart as provided in (a) of this clause, shall be in default in payment of either principal or interest, such investment shall promptly be reduced in its book value approximately to the market value of the same.

"(e) The uninvested funds of the savings or participation department of any such bank or trust company shall be kept in a distinct deposit account or accounts or demand certificates of deposit in such manner that the same can be readily identified as clearly belonging to the segregated assets of such savings or participation deposits.

"(f) Every bank or trust company shall keep an accurate account wherein shall appear a complete list of the assets set apart for the exclusive protection of savings or participation deposits held by it, showing the par value, book value, and, periodically, as often as a report is made to the Bank Commissioner shall enter in such account the fair market value of each of the investments of said assets.

"(g) The Bank Commissioner in requiring the substitution of investments under the provisions of (c) of this clause shall not require changes or substitutions aggregating in any one year more than two per centum of the savings or participation deposits of any such trust company at the time of the passage of this Act.

"Of Savings Bank Investments Made Before the Passage of This Act.—*Clause XVII.* (a) The provisions of this chapter shall not render illegal any investments held by any savings bank prior to May 26 1908, nor require the change of any such investment for those herein prescribed for the investment of savings deposits; *Provided, however*, if any savings bank shall hold any such investment or investments which are in default in the payment of interest or dividends thereon, or which, at any time, in the opinion of the Bank Commissioner, are hazardous or unsafe for the investment of savings deposits, the Bank Commissioner may by notice in writing require such savings bank to dispose of such investments; and such savings bank within one year from the receipt of such notice, unless such time shall be extended by the Commissioner, shall dispose of the same; *Provided, further*, said Commissioner shall not require the disposal of investments aggregating in value in any one year more than two per centum of the amount of the deposits of such savings bank.

"Defaulted Bonds.—*Clause XVIII.* If any bonds held by any savings bank shall be in default either in principal or interest, such investment shall promptly be reduced in its book value approximately to the market value of the same."

Clause XIX relates to "loans to officers of savings banks."

Clause XX provides that bonds bought below par shall be entered on the books and returns of the corporation holding the same at the actual cost price thereof, and the discounts in the price thereof may, by an equal annual amortization, be extinguished so as to gradually bring the book value thereof to par at maturity.

Under *Clause XXI* it shall not be lawful for any savings bank to borrow money for the purpose of investing or loaning the same, but this shall not be so construed as to prevent any savings bank from borrowing for the purpose of meeting a run or unusual withdrawals by its depositors, and in no case shall such borrowing exceed 10% of the deposits of any such savings bank.

CITIES, COUNTIES AND TOWNS IN STATE OF RHODE ISLAND.

Note.—For debts of minor civil divisions not found among the statements given below, see "Additional Statements" at the end of this State.

BRISTOL.

This town is in Bristol Co. Incorp. in 1746. Pop'n 1910, 8,565.

JOHNSTON.

This town is in Providence County and was incorporated Mch. 6 1759. On June 1 1898 a portion of this town, representing about five-sevenths of the assessed valuation, was annexed to the City of Providence. The commission appointed to apportion the debt to be assumed by the city of Providence reported that the city's share of the net debt is $255,720.64, leaving $101,677.48 as the town debt remaining. Bonds Numbers 151 to 191 (all inclusive) remain as an obligation of the town of Johnston. The bonds given below are those remaining as an obligation of the town after division. Chap. 882, Laws of 1912, increases the limit of debt which may be incurred by this town (not counting temporary loans) to 5% of the taxable property.

State of Connecticut.

ITS

DEBT, RESOURCES, &c.

Admitted as a State—One of Original Thirteen
Total area of State (square miles)—5,004
State Capital—Hartford
Governor (term exp. Jan. 1917)—Marcus H. Holcomb
Secretary of State (term exp. Jan. 1917)—Charles D. Burnes
Treasurer (term exp. Jan. 1917)—Frederick S. Chamberlain
State Comptroller (term exp. Jan. 1917)—Morris C. Webster
Attorney-General (term exp. Jan. 1919)—George E. Hinman

LEGISLATURE meets biennially in odd years on the Wednesday following the first Monday in January. A constitutional amendment adopted in Oct. 1911 limits the length of each session to the first Wednesday after the first Monday in June. V. 95, p. 1435.

HISTORY OF DEBT.—For early history of the Connecticut State debt see "State and City Supplement" of April 1895, page 36. The 3½% bonds below, it is provided, "shall be exempt from taxation by or under State or municipal authority." The 4s are also exempted from taxation, but the Act provides that "this exemption shall not be construed to apply to corporations taxed under the provisions of Section 2331, General Statutes, and amendments thereof." Connecticut's debt now is as follows:

Name and Purpose.		—Interest— Rate.	Payable.	—Principal— When Due.	Outstand'g.
State bonds	1909	3½	A-O	*April 1 1934	$3,064,000
do do	1911	4	J-J	July 1 1936	10,000,000
War loan	1865	Ceased		Oct. 1 1885	100

* Subject to call after April 1 1924.

INTEREST on all bonds is payable in Hartford, Conn., but checks are mailed on request.

TOTAL DEBT, &C.—	*Oct.* 1 '14.	*Oct.* 1 '13.	*Oct.* 1 '12.	*Oct.* 1 '11.
Total bonded debt	$11,064,100	$7,064,100	$7,064,100	$3,064,100
Civil list funds	102,828	315,432	2,186,244	376,576
Net bonded debt	$10,961,272	$6,748,668	$4,877,856	$2,687,524

ASSESSED VALUATION.—Assessed value believed to be fair value.

Years.	*Tax valuation.*	*Years.*	*Tax valuation.*	*Years.*	*Tax valuation.*
1913	$1,172,051,740	1910	$997,500,664	1900	$694,200,162
1912	1,102,990,545	1909	965,629,807	1895	452,863,714
1911	1,041,334,019	1905	712,519,166	1888	354,557,515

These valuations do not include steam or electric railroads, banks, insurance or investment companies and only a small portion of cash, bonds or notes.

Under Chapter 106, as amended by Chapter 165, Laws of 1901, the State collects the tax on every bank, national banking association, trust, insurance, investment and bridge company whose stock is not exempt from taxation, and remits the amount so collected to the various city and town treasurers. The value of such stocks was previously included in the grand list of each town.

POPULATION OF STATE.—Population has been as follows:

1910	1,114,756	1870	537,454	1840	309,978	1810	261,942
1900	908,420	1860	460,147	1830	297,675	1800	251,002
1890	746,258	1850	370,792	1820	275,248	1790	237,946
1880	622,700						

DEBT LIMITATION.—The constitution of Connecticut contains but a single provision restricting the debt-making power. The provision is Article 25, adopted as an amendment in 1877, and is as follows:

No County, City, Town, Borough or other Municipality shall ever subscribe to the capital stock of any railroad corporation, or become the purchaser of the bonds, or make donation to, or loan its credit in aid of, any such corporation; but nothing herein contained shall affect the validity of any bonds or debts incurred under existing laws, nor be construed to prohibit the General Assembly from authorizing any town or city to protect by additional appropriations of money or credit any railroad debt contracted prior to the adoption of this amendment.

The foregoing is explicit and comprehensive, covering every municipality. There are no general restrictions in the Revised Statutes; whatever restrictions have been made from time to time are contained in enabling Acts and in city charters.

As to towns, we notice that there is a general law granting them unlimited power to issue bonds. According to Section 1931, Chapter 121, of the Revised Statutes of 1902, "when any town shall have made appropriations or incurred debts, or shall hereafter make appropriations or incur debts exceeding $10,000, it may issue bonds, either registered or with coupons attached, or other obligations, payable at such times and at such annual rate of interest not exceeding 6%, payable annually or semi-annually, as it shall determine," &c. Cities have had no such general authority conferred upon them.

TAX EXEMPTION.—The following securites are exempt from all State and local taxation against the owner: United States bonds; any bonds issued under a statute of this State which specifically exempts them from taxation; bonds issued by any city or town in the aid of the construction of railroads, and bonds issued to redeem the same as provided in Section 2315 of the General Statutes; bonds and other choses in action of *Connecticut* railroads and notes, on which the borrower agrees to pay the taxes, secured by mortgage on real estate *in this State* to an amount equal to the assessed valuation of such real estate.

All other bonds, notes and choses in action, including those of all water, lighting, heating, power and other manufacturing, mercantile, and municipal corporations, are taxable locally, as provided in Section 2323 of the General Statutes, or to the State at four mills per annum in accordance with Section 2325.

SAVINGS BANK INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—A complete revision of the law concerning investments by savings banks was made by the 1913 Legislature. A digest (Sections 2, 3, 4 and 5) of this new law governing investment in municipal obligations is given below.

Sections 2 and 3 concern State loans and permit investment in bonds of the District of Columbia and stock, bonds or interest-bearing obligations of the United States or any State admitted to Statehood prior to Jan. 1 1896, which has not, within 10 years previous to such investment, defaulted for more than 90 days in the payment of principal or interest; and in the bonds or interest-bearing obligations of any State which at time of investment have been outstanding for at least 10 years, and which have been issued (1) for the funding or settlement of any previous obligation of such State theretofore in default, or (2) for the refunding of such funding or settlement obligation of such State theretofore in default; provided there has been no default on said funding or refunding bond since issuance.

Sec. 4. In obligations of any county, town, city, borough, school district, fire district or sewer district in this State.

Sec. 5. In stock or bonds of any incorporated city in a State admitted to Statehood prior to Jan. 1 1896, incorporated as a city, under the same or a different name, at least 25 years prior to making such investment, and which has not less than 20,000 inhabitants; provided the bonded debt, including the issue in which such investment is made, and its proportion, based on the valuation of property therein for the assessment for taxation next preceding such investment, of the county and town debt, after deducting water debt and sinking funds, does not exceed 7% of the valuation of the taxable property, and provided the city issuing such bonds, or the State in which it is located, has not defaulted for more than 90 days in the payment of any of its funded indebtedness or the interest thereon, within 15 years next preceding the purchase of such bonds. The provisions of this section shall not authorize investment in any "special assessment" or "improvement" bonds, or other bonds or obligations which are not the direct obligations of the city issuing the same, and for which the faith and credit of the issuing city are not pledged.

Sections 6 to 22, inclusive, of the new law, given in full below, regulate investment in securities of railroad corporations and street railways.

Sec. 6. In the bonds or interest-bearing obligations issued by a railroad corporation organized under the laws of any of the New England States, and owning in fee not less than 300 miles of railroad located in said States, and which has paid in dividends in cash an amount equal to not less than 4% per annum on its outstanding shares of capital stock in each fiscal year for the 5 years next preceding such investment, or in the bonds or interest-bearing obligations issued by a railroad, terminal, depot, bridge, tunnel or street railway corporation organized under the laws of any of the New England States or the State of New York assumed by a railroad corporation organized under the laws of any of the New England States and owning in fee not less than 300 miles of railroad located in said States and complying with all the provisions of this section; if any such railroad corporation shall be leased to another railroad corporation organized under the laws of any of the New England States and owning in fee not less than 300 miles of railroad located in said States, under a lease which provides for the payment by the lessee as rental an amount sufficient to pay dividends on the capital stock of the lessor amounting in the aggregate in each fiscal year of said lessor corporation during the term of said lease to not less than 4% on its outstanding capital stock, such lessor shall be regarded as having paid its dividends within the meaning of this section, but in case the lessee shall hold any shares of the capital stock of the lessor, such shares shall not be considered as outstanding within the meaning of this section.

Sec. 7. In bonds or debentures actually issued by a railroad corporation incorporated in any of the New England States, at least ½ of the railroad of which is located in said State, whether such corporation is in possession of and is operating its own railroad or such railroad is leased to another railroad corporation incorporated in any one of the New England States, provided such bonds or debentures shall be secured either by a mortgage which was at the date thereof, or is at the time of making the investment, a first mortgage on not less than 75% of the railroad of such corporation owned in fee at the date of the mortgage, or by a refunding mortgage which provides for the retirement of all prior lien mortgage bonds of such railroad corporation, or by a mortgage which is a prior lien on some part of the railroad covered by a refunding mortgage which provides for the retirement of all outstanding prior lien bonds, or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds or debentures shall be issued under the authority of one of said States which provides by law that no such railroad corporation which has issued bonds or debentures shall subsequently execute a mortgage upon its road, equipment, franchise or upon any of its real or personal property, without including in and securing by such mortgage all bonds or debentures previously issued and all pre-existing debts and liabilities, and provided such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding capital stock in each fiscal year for the five years next preceding such investments. If any such railroad company shall hold the railroad of another such railroad corporation under a lease which provides for the payment by the lessee as rental of an amount sufficient to pay dividends on the capital stock of the lessor amounting in the aggregate in each fiscal year of said lessor, during the term of said lease, to not less than 4% on all its outstanding capital stock, such lessor shall be regarded as having paid its dividends within the meaning of this section; but in case the lessee shall hold any shares of the capital stock of the lessor such shares shall not be considered as outstanding within the meaning of this section.

Sec. 8. No bonds or other interest-bearing obligations shall be made a legal investment by sections 6 and 7 in case the authorized issue thereof, together with all outstanding prior debts of the issuing or assuming corporation, including all evidences of debt that may legally be issued under any of its prior authorizations or under any of its assumed prior authorizations, after deducting therefrom, in case of a refunding mortgage, the bonds reserved under the provisions of said mortgage to retire prior debts at maturity, shall exceed 3 times the outstanding capital stock of said corporation at the date of such investment.

Sec. 9. In the bonds issued by a railroad, terminal, depot, bridge, tunnel or street railway corporation organized under the laws of any of the New England States or the State of New York, the property of which is located wholly or in part in one of said States, or in the bonds issued by a railroad, terminal, depot, bridge, tunnel or street railway corporation, organized under the laws of any of said States, assumed by a railroad, terminal, depot, bridge, tunnel or street railway corporation organized under the laws of said States, provided such bonds shall be secured either by a mortgage which was at the date thereof, or is at the time of making the investment, a first mortgage on not less than 75% of the railroad owned in fee at the date of the mortgage, in the case of a railroad or street railway corporation, or the fixed property, in the case of a terminal, depot, bridge or tunnel corporation, owned by the corporation issuing the bonds, or by refunding mortgage which provides for the retirement of all prior lien bonds of such corporation, or by a mortgage which is a prior lien on some part of the property covered by a refunding mortgage which provides for the retirement of all outstanding prior lien bonds. No bond shall be made a legal investment under this section unless the bonds are guaranteed, principal and interest, by endorsement by, or guaranteed principal and interest by endorsement, which guaranty has been assumed by a railroad corporation owning in fee not less than 300 miles of railroad in the New England States, whose bonds are made a legal investment under sec. 6. No bonds shall be made a legal investment by this section in case the mortgage securing the bonds shall authorize a total issue of bonds which, added to the total debt described in sec. 8 of the guaranteeing corporation, including therein the authorized amount of all previously guaranteed bond issues, shall exceed 3 times the outstanding capital stock of said guaranteeing corporation at the time of making said investment.

Sec. 10. In the mortgage bonds, as described in Sec. 15, issued or assumed by any railroad corporation incorporated under the laws of the United States, or any State, provided such railroad corporation owned in fee during each of the 5 fiscal years of such railroad corporation next preceding the date of such investment not less than 500 miles of standard-gauge railroad, exclusive of sidings, within the United States, and provided such railroad corporation has complied during each of said fiscal years with the provisions of Sec. 14, or if such corporation owned in fee less than 500 miles of such railroad, the gross earnings of such corporation, as reckoned in sec. 14, shall have been not less than $10,000,000.

Sec. 11. In the mortgage bonds, as described in Sec. 15, issued or assumed by any railroad corporation incorporated under the laws of the United States, or any State thereof, provided during each of the 5 fiscal years of such railroad corporation next preceding the date of such investment its railroad subjected to the lien of the mortgage securing its bonds has been operated by a corporation described in, and which has complied with all the provisions of, sections 10 and 14. No bonds shall be made a legal investment by this section unless the bonds are guaranteed principal and interest by endorsement by, or guaranteed principal and interest by endorsement which guaranty has been assumed by, the corporation operating the railroad covered by the mortgage securing the bonds and which has complied with all the provisions of sections 10 and 14. No bonds shall be made a legal investment by this section unless the bonds are guaranteed principal and interest by endorsement by, or guaranteed principal and interest by endorsement which guaranty has been assumed by, the corporation operating the railroad covered by the mortgage securing the bonds and which has complied with all the provisions of sections 10 and 14.

Sec. 12. In the mortgage bonds as described in this Act issued or assumed by any terminal, depot, bridge or tunnel company incorporated under the laws of the United States, or any State, provided the property of such terminal, depot, bridge or tunnel company is used by one or more railroad corporations described in, and which have complied with all the provisions of, sections 10 and 14. No bond shall be made a legal investment by this section unless the bond is guaranteed principal and interest by endorsement by, or guaranteed principal and interest by endorsement which guaranty has been assumed by, one or more railroad corporations described in, and which has complied with all the provisions of, sections 10 and 14.

Sec. 13. In the mortgage bonds as described in Sec. 15 issued or assumed by any railroad corporation incorporated under the laws of the United States, or any State, provided, during each of the 5 fiscal years of such railroad corporation next preceding the date of such investment, such railroad corporation owned in fee not less than 100 miles of standard-gauge railroad, exclusive of sidings, within the United States, and provided such railroad corporation has complied during each of said fiscal years with the provisions of sec. 14. No bonds shall be made a legal investment by this section unless the bonds are guaranteed principal and interest by endorsement by, or guaranteed principal and interest by endorsement, which guaranty has been assumed by, a corporation described in, and which has complied with all the provisions of, Sections 10 and 14, nor unless it complies with the provisions of sec. 16.

Sec. 14. Any railroad corporation described in sections 10 and 13 shall comply with the provisions of this section during each of the 5 fiscal years of such railroad corporation next preceding the date of such investment, before any of its mortgage bonds as described in sec. 15 shall be made a legal investment: Such railroad corporation shall have paid the matured principal and interest of all indebtedness and shall have paid in dividends in cash to its stockholders an amount equal to at least 4% upon all its outstanding capital stock; the gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the sale of coal from mines owned or controlled by it, shall not have been less in amount than 5 times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals of all leased lines, and the interest on all outstanding indebtedness of railroads controlled and operated which are not owned by said corporation, after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporations not operated by said corporation, which have been deposited with a trustee as the only security for the payment of bonds or notes issued by said corporation, but not in excess of the interest on said last-named bonds or notes.

Sec. 15. Whenever the term "mortgage bonds" is used in sections 10 to 20, inclusive, it shall mean either (1) That the mortgage securing the bonds was at the date thereof, or is at the date of such investment, a first mortgage on not less than 75% of the railroad, in the case of a railroad corporation, or the fixed property, in the case of a terminal, depot, bridge or tunnel company, owned in fee at the date of the mortgage by the corporation which executed the mortgage and issued the bonds; that 75% of the railroad subject to the lien of said mortgage is connected; that the date of said mortgage is at least 5 years prior to the date of such investment, unless the corporation issuing, assuming or guaranteeing the bond has complied with sec. 14 for each of the 10 fiscal years of such corporation next preceding the date of such investment; but a mortgage given in substitution for and not greater in amount than such mortgage, and covering the same railroad or property, shall be considered to be in accordance with this requirement; (2) That if the mortgage securing the bonds was at the date thereof, or is at the date of such investment, not a first mortgage on not less than 75% of the railroad owned in fee at the date of the mortgage, it is a first mortgage on at least 75% of the railroad subject to the lien of said mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of said mortgage as part security therefor, representing or covering railroad mileage not owned in fee, the bonds secured by said mortgage shall not become legal investments unless said corporation owns in fee at least 75% of the total mileage which is subject to the lien of such mortgage, including the mileage which is represented or covered by said stocks or bonds; that 75% of the railroad subject to the lien of said mortgage is connected; that the date of said mortgage is at least 5 years prior to the date of such investment, unless the corporation issuing, assuming or guaranteeing the bond has complied with sec. 14 for each of the 10 fiscal years of such corporation

next preceding the date of such investment; but a mortgage given in substitution for and not greater in amount than such mortgage, covering the same railroad or property, shall be considered to be in accordance with this requirement. (3) That the mortgage securing the bonds was at the date thereof, or is at the date of such investment, a first mortgage or a mortgage or trust indenture which is in effect a first mortgage upon all the railroads, subject to the lien of said mortgage or trust indenture by virtue of the irrevocable pledge with the trustee thereof of an entire issue of issues of bonds which are a first lien, upon the railroad of a railroad corporation which is owned and operated, controlled and operated, or leased and operated, by the corporation issuing or assuming said bonds; that 75% of the railroad subject to the lien of said mortgage is connected; that the date of said mortgage is at least 5 years prior to the date of such investment, unless the corporation issuing, assuming or guaranteeing the bonds has complied with sec. 14 for each of the 10 fiscal years of such corporation next preceding the date of such investment; but a mortgage given in substitution for and not greater in amount than such mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement. (4) That the mortgage securing the bonds was at the date thereof, or is at the date of such investment, a refunding mortgage which provides for the retirement of all prior lien mortgage bonds of said corporation outstanding at the time of said investment, and covering at least 75% of the railroad owned in fee by said company at the date of said mortgage. No mortgage is to be regarded as a refunding mortgage under the provisions of this section unless the bonds which it secures mature at a later date than any bond which it is given to refund; but, in case bonds are issued to mature at an earlier date than any bond which it is given to refund, the mortgage contans the provisions that bonds issued to mature at an earlier date may be retired by a like amount of bonds reissued under said mortgage. (5) That the mortgage securing the bonds is a prior lien to a refunding mortgage described above, on some part of the railroad or railroad property covered by said refunding mortgage, provided the bonds issued under such mortgage are to be refunded by said refunding mortgage, and the property covered by said prior lien mortgage is operated by, and its operations included in, those of the railroad corporation issuing said refunding mortgage.

Sec. 16. No bond shall be made a legal investment by Sec. 10 in case the mortgage securing the same shall authorize a total issue of bonds, which, together with all outstanding prior debts of the issuing or assuming corporation, including all bonds not issued that may legally be issued under any of its prior debts, or of its assumed prior debts, after deducting therefrom in case of a refunding mortgage the bonds reserved under the provisions of said mortgage, to retire prior debts at maturity, shall exceed 3 times the outstanding capital stock of said corporation at the date of such investment; no bond shall be made a legal investment by sections 11, 12 and 13 in case the mortgage securing the same shall authorize a total issue of bonds, which, added to the total debt, as defined in this section, of the guaranteeing corporation, including therein the authorized amount of all previously guaranteed bond issues, shall exceed 3 times the capital stock of said guaranteeing corporation outstanding at the time of making said investment; in case of a mortgage executed prior to the passage of this Act, under which the total amount of bonds which may be issued is not specifically stated, the amount of bonds outstanding thereunder at the date of such investment shall be considered as the total authorized issue

Sec. 17. Bonds which have been or shall become legal investments under any of the provisions of sections 10 to 20, incl., shall not be rendered illegal, although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding 2 successive fiscal years to comply with the requirements of sections 10 and 14; but no further investment in the bonds issued, assumed or guaranteed by said corporation shall be made after the first fiscal year of such failure; but if, after the expiration of said period, said corporation complies for the following fiscal year with all the requirements of sections 10 and 14, it shall be regarded as having complied therewith during said period, and thereupon said bonds shall be legal investments, but in case of any subsequent failure to comply with sections 10 and 14 the bonds of said corporation shall not be purchased until said corporation shall have complied each year for 5 successive years with said sections 10 and 14.

Sec. 18. Bonds which have been or shall become legal investments under any of the provisions of sections 10 to 20, incl., shall not be rendered illegal because the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and the corporation which issued or assumed said bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for, or to acquire the stock of, the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to 4% per annum upon the capital stock outstanding at the times of such consolidation or purchase, of said corporation which issued or assumed said bonds.

Sec. 19. If a railroad corporation which has complied with all the requirements of sections 10 and 14 except that the period of compliance is less than 5 years, shall be, or shall have been, consolidated or merged with, or its railroad purchased and all the debts of such corporation assumed by, another railroad corporation incorporated under the laws of the United States, or any State, the corporation so succeeding shall be considered as having complied with all the provisions of said sections during those successive years next preceding the date of such consolidation, merger or purchase, in which said consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would, taken together, have so complied, provided in the case of a railroad corporation which has complied with all the requirements of said sections, except that the period of compliance is less than 5 years, said succeeding corporation shall continue so to comply for a further period which shall make such compliance equivalent to at least 5 successive years.

Sec. 20. If, by means of consolidation, merger or purchase, a railroad corporation shall own and possess the properties and franchises which, prior thereto, were of other such corporations, and, during the years next preceding such consolidation, merger or purchase, one or more of said corporations, have regularly paid in cash to stockholders dividends in amounts equaling or exceeding 4% per annum upon the entire capital stock of the successor corporation outstanding at the time of the investment, such successor corporation shall be considered as having paid such dividends during the same period of years.

Sec. 21. Savings banks may invest not exceeding 2% of their deposits and surplus in equipment trust notes, bonds or certificates issued by, or which are guaranteed by endorsement both as to principal and interest by, or which are secured by lease of equipment to, a railroad corporation which, in case of a railroad corporation incorporated under the laws of any of the New England States, has complied with Sec. 6, or which, in the case of a railroad corporation incorporated under the laws of any other State, or of the United States, has complied with all the provisions of sections 10 and 14, provided said notes, bonds or certificates are secured by a first lien on, or by a lease and conditional sale of, new standard railroad equipment free from other encumbrances, for the purchase of which said notes, bonds or certificates were issued at not exceeding 90% of the purchase price thereof, and provided the instrument under which such notes, bonds or certificates are issued, or the lease of such equipment to the railroad corporation, provides for the proper maintenance of the equipment covered thereby and for the payment of the entire issue of such notes, bonds or certificates in not exceeding 15 annual or 30 semi-annual installments, without the release of any part of the lien or interest in any of the equipment securing such notes, bonds or certificates until the entire issue of such series of notes, bonds or certificates shall have been paid or redeemed. No equipment trust notes, bonds or certificates shall be made a legal investment by this section in case the series authorizes an amount which, added to the total debt as defined in sec. 8, in the case of a railroad corporation organized under the laws of any of the New England States, or Sec. 16 in the case of a railroad corporation organized under the laws of any other State or of the United States, which issued or guaranteed or is the lessee of the equipment securing such equipment trust notes, bonds or certificates, including therein the outstanding amounts of all previously issued series of such equipment trust notes, bonds or certificates, shall exceed 3 times the capital stock of such railroad corporation outstanding at the time of making said investment.

Sec. 22. Savings banks may invest not exceeding 2% of their deposits and surplus in bonds issued by any street railway corporation incorporated in this State the railway of which is located wholly or in part therein, provided such bonds are secured by a mortgage which was at the date of the mortgage or is at the date of the investment a first mortgage on not less than 75% of the railway of such corporation owned in fee at the date of the mortgage, and provided the gross earnings of said corporation each fiscal year for the 5 years next preceding the date of such investment were not less than $100,000, and that said corporation in each of said years earned and paid in dividends in cash an amount equal to at least 4% per annum upon the outstanding capital stock, and provided, at the date of any such dividend, the outstanding capital stock is equal to at least ½ of the debt of such corporation.

Sections 23, 24 and 25, given below, add the bonds of water companies and telephone companies to the list of securities in which banks may invest.

Sec. 23. Savings banks may invest not exceeding 2% of their deposits and surplus in mortgage bonds and other interest-bearing obligations of any water company supplying water for domestic use to communities in this State having a population of not less than 50,000 whose franchise is an exclusive one and unlimited in time, provided the amount of all the outstanding debts of such company does not exceed its capital stock, and provided such water company has earned each year and paid in cash from its officially reported net earnings, as shown by its annual report or other sworn official statement, to municipal, State or United States authorities, dividends of not less than 4% per annum on its entire outstanding capital stock, for a period of 4 years next preceding the making of the investment.

Sec. 24. Savings banks may invest not exceeding 2% of their deposits and surplus in bonds of any telephone company incorporated in this State, whose property is located chiefly in this State, which are secured by a first mortgage upon at least 75% of the property of such company, including its franchises, rights and privileges, and limiting the amount of bonds issuable thereunder to 75% of the valuation of the property mortgaged, excluding any valuation of said franchises, rights and privileges, and providing the gross income of such telephone company shall have been not less than $2,000,000 per annum during each of the 5 fiscal years of such telephone company next preceding the date of such investment.

Sec. 25. Savings banks may invest not exceeding 2% of their deposits and surplus in bonds of any telephone company incorporated in any of the New England States, or in the State of New York, and secured by a first mortgage upon at least 75% of the property of such telephone company, or by the deposit with a trust company incorporated under the laws of one of the New England States or of the State of New York of bonds and shares of stock of other telephone corporations under an indenture of trust which limits the amount of bonds so secured to 75% of the value of the securities deposited as stated and determined in said indenture, and provided the gross income of such telephone company shall have been not less than $25,000,000 per annum during each of the 5 fiscal years of such telephone company next preceding the date of such investment. No bond of a telephone company shall be made a legal investment under sectiions 24 and 25 unless during each of the 5 fiscal years of such telephone company next preceding the date of such investment said telephone company shall have paid the matured principal and interest of all its indebtedness, and shall have paid, during each of said years, in cash dividends an amount equal to not less than 6% per annum on all its outstanding issues of capital stock, and the dividends paid on the capital stock of such telephone company shall not have been less than the total amount necessary to pay the interest upon its entire outstanding indebtedness.

Sec. 26 permits savings banks to invest in the capital stock of any bank or trust company located in Connecticut or in New York City or Boston, Mass. The old law granted this authority, but the new law goes further and limits the amount to be invested in this security. It says: "No savings bank shall hold by way of investment and as security for loans more than 20% of its deposits in the stocks of such banks or trust companies, at par value, nor more than 3% or its deposits, nor more than $100,000 of par value in, nor more than ¼ of the capital stock of, any such bank or trust company. The provisions of this section shall not render illegal any such investments now owned by any bank or trust company."

Loans secured by real estate are regulated by Sections 27 and 28 of the new law. These sections were printed in the "Chronicle" of Sept. 27 1913, page 899.

Sec. 29. Savings banks may invest not exceeding 20% of their deposits and surplus in notes secured by pledge of stocks or bonds as collateral, provided the corporation issuing such stock or bonds shall have paid thereon dividends or interest at the rate of not less than 4% (3% in old law) per annum during the 2 years next preceding the time when such loan is made; or by the pledge of any stocks or bonds or other obligations which under the provisions of this Act may be purchased by savings banks; but the market value of any securities given to secure any collateral loan shall be at least 20% in excess of the amount of the loan and not more than 5% of the aggregate deposit in any savings bank shall be loaned on the stocks, bonds or other obligations of one corporation, or by the pledge of deposit accounts and books in savings banks in this State to an amount not exceeding the balance due from said savings banks on such deposit account.

Sec. 30. Savings banks may invest not exceeding 10% (20% in old law) of their deposits and surplus in notes, each of which shall be the joint and several obligations of two or more parties, all residents of this State; but no savings bank shall loan on personal security to one person more than 3% of its deposits at the time of making such loan. No savings bank shall buy or lend any money upon any obligations on which only one person or firm shall be holden without taking additional security for the same equivalent to the guaranty or endorsement of some other responsible party.

Sec. 31 subjects the amounts which may be expended to purchase or construct any building for the purpose of accommodating the business of such bank to the approval of the bank commissioners.

Sec. 32. Savings banks may deposit in incorporated banks or trust companies located in this State or the States of New York, Massachusetts or Rhode Island, or the city of Philadelphia, but such deposits shall not in any case exceed 30% of the capital stock, surplus and undivided profits of such depository.

Sections 33, 34 and 35 concern rates of interest on loans, record of loans and the investment of deposits in accordance with general statutes.

Sec. 36. The provisions of this Act shall not render illegal the investment in, nor the investment hereafter in, any bonds or interest-bearing obligations issued or assumed by a railroad corporation, which were a legal investment at the time of the passage of this Act, so long as such bonds or interest-bearing obligations continue to comply with the laws in force prior to the passage of this Act; but no such bond or interest-bearing obligation that fails, subsequent to the passage of this Act, to comply with said laws in force, prior to this Act, shall again be a legal investment unless such bonds or interest-besring obligations comply with the provisions of this Act.

Sec. 37. If any street railway company, the bonds of which are a legal investment, prior to the passage of this Act, shall fail, in any fiscal year subsequent to the passage of this Act, to pay dividends equal to 4% upon its outstanding capital stock, the bonds of such railway company shall cease to be a legal investment until such company shall have complied with all the provisions of sec. 22 of this Act.

Sec. 38. Prior to the first day of November 1913 the Bank Commissioners shall ascertain what bonds and other interest-bearing obligations are legal investments under the provisions of this Act, and shall also ascertain what bonds and obligations are then legal investments under the provisions of sec. 36, and within the first ten days of November 1913 said Bank Commissioners shall send to each savings bank, and to each bank and trust company having a savings department, a certificate stating over their signatures that upon investigation they find that the bonds and obligations specified in one list in said certificate are authorized as legal investments by the provisions of this Act, and that the bonds and obligations specified in a second list therein are authorized as legal investments under the provisions of sec. 36.

Sec. 39. Within the first ten days of the month of November 1913 and of the months of May and November in each year thereafter, said bank commissioners shall send to each savings bank and to each trust company having a savings department a similar certificate.

[*The list of legal investments issued by the Commissioners in November* 1914 *was printed in the "Chronicle" of Nov.* 14 1914, *page* 1470']

Sec. 40. Said certificate shall be *prima facie* evidence of the correctness of the findings of said Commissioners, and shall so continue until the issuance of the next certificate of said Commissioners, or of an intermediate certificate correcting and changing the list of legal investments in the certificate last issued. The purchase of any bond or obligation specified in any such certificate made before said respective bonds or obligations are withdrawn or omitted by the Bank Commissioners in a subsequent certificate issued by them shall be a legal investment under this Act.

Sec. 41. Any person financially interested in any finding of the Bank Commissioners as to any bond or obligation may take an appeal therefrom to the Superior Court next to be holden at Hartford, which Court shall have power to inquire into and render a judgment whether said bond or obligation comes within the provisions of this Act as an authorized investment for savings banks. In case of such an appeal, due service thereof shall be made upon the Bank Commissioners at least 12 days before the return day of said appeal.

Sec. 42. In the sections of this Act which relate to railroad bonds the word "debt" shall be construed to mean obligations issued or assumed evidenced by a series of bonds or other interest-bearing instruments which mature at a time or times exceeding 3 years after their date, and the term "railroad corporation" shall be construed to mean a corporation which owns

or is in possession of and operating a railroad or railway of the class usually operated by steam power. Street railway corporations are not railroad corporations within the meaning of this Act.

[In Oct. 1912 there was issued in pamphlet form a report compiled by the Bank Commissioners containing copies of all opinions of the Attorneys-General in re legality of bonds and construction of statutes from 1899—the year the office of Attorney-General was created—to Oct. 1912. Subsequent opinions are published annually in the report of the Commissioners.

TRUST FUNDS—HOW LOANED OR INVESTED.—See Sec. 254 of Chapter 22 of the Revised Statutes of 1902 giving on page 34 of the State and City Section for Nov. 1914.

CITIES, COUNTIES AND TOWNS IN THE STATE OF CONNECTICUT.

NOTE.—For debts of minor civil divisions not found among the statements given below, see "Additional Statements" at the end of this State.

ANSONIA.

Ansonia is in New Haven County. Incorporated in April 1889. By an Act of the Connecticut Legislature of 1893, the borough, town and fire district of this name were consolidated to form the present city.

Treasurer (term expires Dec. 31 1916).....James L. Wells
Comptroller (term expires Dec. 31 1916)..Eugene M. Travis

LEGISLATURE meets annually the first Wednesday in January, and engtth of sessions is not limited.

HISTORY OF DEBT.—The early historical details of New York State's debt from 1817 to 1894 will be found in the "State and City Supplement" of April 1893, page 41.

During a period of eleven years ending in 1893 the State debt was paid at the average of $1,000,000 per year, and practically wiped out.

In Nov. 1895 the voters approved a bond issue of $9,000,000, for the purpose of enlarging and improving the Erie, Oswego and Champlain canals. These bonds were all issued and have since been redeemed. In 1903 a further issue of $101,000,000 canal bonds was authorized, and these bonds have all been sold. [A bill, signed by the Governor April 17 1912, authorizes the State Comptroller to issue canal improvement bonds made payable in foreign currency. V. 94, p. 1131. At the 1905 election a constitutional amendment was adopted giving authority to create an aggregate debt of $50,000,000 for highway purposes, and all of these bonds have been sold. The question of issuing an additional $50,000,000 bonds for highways received a favorable vote in Nov. 1912, and of these $15,000,000 have been issued. In Nov. 1909 the voters approved the issuance of $7,000,000 bonds for the Cayuga and Seneca Canals, all of which have been sold. In 1910 the voters approved the issuance of $2,500,000 bonds, all of which have been sold, for the acquisition of the Palisades Interstate Park. Under the provisions of Chap. 569, Laws of 1909, as amended by Chap. 394, Laws of 1911, $950,000 bonds were authorized for a State Reservation at Saratoga Springs. These bonds were all issued, but $285,000 have been redeemed, leaving outstanding April 1 1915 $665,000. Chap. 252, Laws of 1914, authorizes the sale of $235,000 bonds or certificates for 10 years at not exceeding 5% int. Comptroller's temporary certificates have been issued for $100,000 in anticipation of the sale of said bonds. A proposition to issue $19,800,000 barge canal terminal bonds was adopted Nov. 7 1911, and of these $10,000,000 have been sold. The State's bonded debt on March 31 1915 was $186,165,660 and the sinking fund $36,867,533.81. Loans outstanding March 31 1915 were as follows:

LOANS—		*Interest*		*Principal*	
Name and Purpose.	*Rate.*	*Payable.*	*When Due.*	*Outstanding.*	
Non-interest bearing debt	Erie & Champlain 6% canal stock				$160

INTEREST is payable at the Bank of the Manhattan Co., N. Y. City.

STATE DEBT FOR A SERIES OF YEARS.—Below we give the amount of the State debt on Sept. 30 in the years named.

1914	†159,260,660	1906	$10,630,660	1897	$5,765,660	1870	$8,641,606
1913	*108,355,660	1905	11,155,660	1893	660	1865	50,861,349
1912	109,702,660	1904	9,410,660	1892	763,160	1860	34,182,975
1911	79,730,660	1903	9,665,660	1891	2,927,655	1850	23,507,874
1910	57,230,660	1902	9,920,660	1890	4,964,304	1840	18,385,309
1909	41,230,660	1900	10,130,660	1885	9,461,854	1830	8,635,035
1908	26,230,666	1899	10,185,660	1880	9,114,054	1820	2,983,500
1907	17,290,660	1898	9,340,660	1875	28,328,686	1816	2,905,535

† Comptroller's temporary loan certificates amounting to $650,000 were also outstanding Sept. 30 1914. * In addition, there were outstanding Sept. 30 1913 $27,000,000 notes issued in anticipation of the sale of bonds.

TAX VALUATION, TAX RATE, &c.—Large increase in values for 1904, due mainly to New York City's real estate being assessed about full value. The constitutional amendment adopted in 1905 permits interest and sinking fund requirements to be met out of funds in the Treasury instead of by means of a direct tax as heretofore. No direct State levy, therefore, was made in 1906 to 1910, revenue being entirely raised through the operation of mortgage, stock transfer, liquor, inheritance and corporation taxes. In July 1911, however, the Legislature again imposed a direct tax of 6-10 of a mill on each dollar of real and personal property. In 1912 the Legislature made provision for a direct tax levy of one mill. At the 1913 session, in order to avoid the levying of a direct tax, a bill was introduced to permit the transfer to the general fund of a part of the sinking fund. This measure, however, failed to pass both houses. V. 96, p. 1435. On Sept. 17 1913, while the Legislature was in extra session, a bill was passed authorizing the levy of a direct tax of 5805-10000 of a mill. In 1914 a bill was passed providing for a direct tax of three hundred and fifty-five thousandths of a mill but this was vetoed by Governor Glynn. V. 98, p. 1404. At the 1915 session of the Legislature provision was made for the levy of a direct tax of one and seven-tenths mills. V. 100, p. 1525.

	Valuation		*Total Equalized*	*State Tax* Rate per	*State Tax* Total
Year—	*Real Estate*	*Personal.*	*Valuation.*	$1,000.	*Levied.*

1902	5,297,754,482	556,736,239	5,854,490,721	0.13	748,072
1901	5,169,308,069	585,092,312	5,754,400,381	1.20	6,824,306
1900	5,093,025,771	593,895,907	5,686,921,678	1.96	10,704,153
1895	3,908,853,377	459,859,526	4,368,712,903	3.24	13,906,346
1890	3,397,234,679	382,159,067	3,779,393,746	2.34	8,619,748
1870	1,599,930,166	452,607,732	2,052,537,898	7.26	14,285,976
1859	1,098,666,251	315,108,117	1,413,774,368	2.50	3,512,284

* The direct State tax, it will be noticed from the above, is always reckoned on the valuations of the previous year, these being the latest figures available at the time of the session of the Legislature.

POPULATION OF STATE.—New York ranks first in population among the States of the Union. The following gives the U. S. Census figures, except 1905 returns, which were compiled under State supervision:

1910	9,113,614	1890	*6,003,174	1850	3,097,394	1810	959,049
1905	8,067,308	1880	5,082,871	1840	2,428,921	1800	589,951
1900	7,268,894	1870	4,382,759	1830	1,918,608	1790	340,120
		1860	3,880,735	1820	1,372,812		

*Includes population (5,321) of Indian reservations, specially enumerated.

CANASERAGA CREEK IMPROVEMENT BONDS.—On July 1 1910 the State Water Supply Commission sold under authority of Chap. 54, Consolidated Laws of 1909, and on behalf of the Canaseraga Creek Improvement District in Livingston County, $200,000 5% bonds, due $5,000 yearly from 1915 to 1954, incl. V. 91, p. 110. These bonds are payable by assessment upon the lands and properties in such improvement district.

CONSTITUTIONAL AMENDMENT CHANGING CLASSIFICATION OF CITIES.—At the Nov. 1907 election an amendment to Sec. 2 of Art. 12 of the constitution was adopted by a vote of 309,159 "for" to 123,919 "against." This amendment alters Sec. 2 by changing the population of cities of the first class from "250,000 or more" to "175,000 or more," and cities of the second class from "50,000 and less than 250,000" to "50,000 and less than 175,000." This section was printed in full in V. 85, p. 359.

CONSTITUTIONAL CONVENTION.—At a special election held April 7 1914 the voters approved the question of holding a convention in 1915 to revise the State constitution. Delegates were elected at the general election in Nov. 1914 and convention organized April 6 1915. V. 100, p. 1277; V. 98, p. 1179.

DEBT LIMITATION—STATE.—The constitution of 1894 has in some measure modified the provisions of the fundamental law restricting the power of the Legislature over the issue of debt, &c. These provisions are found in Article 7. We give the sections of that article (Article 7) below which have reference to the subject.

State credit not to be given.—SECTION 1. The credit of the State shall not in any manner be given or loaned to or in aid of any individual, association or corporation.

State debts—power to contract.—SEC. 2. The State may, to meet casual deficits or failures in revenues, or for expenses not provided for, contract debts; but such debts, direct or contingent, singly or in the aggregate, shall not at any time exceed one million of dollars; and the moneys arising from the loans creating such debts shall be applied to the purpose for which they were obtained, or to repay the debt so contracted and to no other purpose whatever.

State debts to repel invasions.—SEC. 3. In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection, or defend the State in war; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

Limitation of legislative power to create debts.—SEC. 4. Except the debts specified in sections two and three of this article, no debts shall be hereafter contracted by or in behalf of this State, unless such debt shall be authorized by a law, for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax to pay, and sufficient to pay, the interest on such debt as it falls due, and also to pay and discharge the principal of such debt within fifty* years from the time of the contracting thereof. No such law shall take effect until it shall, at a general election, have been submitted to the people, and have received a majority of all the votes cast for and against it at such election. On the final passage of such bill in either house of the Legislature, the question shall be taken by ayes and noes, to be duly entered on the journals thereof, and shall be: "Shall this bill pass, and

ought the same to receive the sanction of the people." The Legislature may at any time, after the approval of such law by the people, if no debt shall have been contracted in pursuance thereof, repeal the same; and may, at any time, by law, forbid the contracting of any further debt or liability under such law; but the tax imposed by such Act, in proportion to the debt and liability which may have been contracted in pursuance of such law, shall remain in force and be irrepealable, and be annually collected, until the proceeds thereof shall have made the provision hereinbefore specified to pay and discharge the interest and principal of such debt and liability. The money arising from any loan or stock creating such debt or liability shall be applied to the work or object specified in the Act authorizing such debt or liability, or for the payment of such debt or liability and for no other purpose whatever. No such law shall be submitted to be voted on within three months after its passage, or at any general election when any other law, or any bill, shall be submitted to be voted for or against. The Legislature may provide for the issue of bonds of the State to run for a period of not exceeding fifty years in lieu of bonds heretofore authorized but not issued, and shall impose and provide for the collection of a direct annual tax for the payment of the same as hereinbefore required. When any sinking fund created under this section shall equal in amount the debt for which it was created, no further direct tax shall be levied on account of said sinking fund and the Legislature shall reduce the tax to an amount equal to the accruing interest on such debt. [An amendment adopted by the voters on Nov. 2 1909 adds the following to Section 4: "The Legislature may from time to time alter the rate of interest to be paid upon any State debt which has been or may be authorized, pursuant to the provisions of this section, or upon any part of such debt, provided, however, that the rate of interest shall not be altered upon any part of such debt or upon any bond or other evidence thereof, which has been or shall be created or issued before such alteration. In case the Legislature increase the rate of interest upon any such debt or part thereof, it shall impose and provide for the collection of a direct annual tax to pay and sufficient to pay the increased or altered interest on such debt as it falls due, and also to pay and discharge the principal of such debt within fifty years from the time of the contracting thereof, and shall appropriate annually to the sinking fund moneys in amount sufficient to pay such interest and pay and discharge the principal of such debt when it shall become due and payable.]

[On June 2 1913 a bill was signed increasing from 4% to 4½% the rate of interest on bonds hereafter issued for canal and highway improvements and barge canal terminal facilities. V. 96, p. 1642. A bill passed in 1915 permitted the sale of canal and highway bonds at *not exceeding* 4½% interest and a block of $27,000,000 4½s was sold on March 10 1915.

**Originally eighteen years, extended to fifty by amendment adopted Nov. 1 1905.*

[On May 24 1913 a bill was signed allowing the Comptroller to issue 5% 1-year notes in anticipation of the sale of State bonds. On June 5 1913 the State sold $27,000,000 of these notes due Feb. 1 1914, and these were taken up with a part of the proceeds of $51,000,000 4½% bonds sold Jan. 21 1914.]

[The 1915 Legislature passed a bill referring to the voters the question of issuing $27,000,000 bonds for the completion of the barge canal.

Sinking Fund, how kept and invested.—SEC 5.—The sinking funds provided for the payment of interest and the extinguishment of the principal of the debts of the State shall be separately kept and safely invested, and neither of them shall be appropriated or used in any manner other than for the specific purpose for which it shall have been provided. [In 1913 it was planned to avoid the levying of a direct tax to meet the sinking fund requirements by diverting a part of the sinking funds which were said to be in excess of requirements. Bills permitting the transfer of this alleged surplus to the general fund failed to pass, however, and at the extra session provision was made for a direct tax levy (see remarks above).]

DEBT LIMITATION—CITIES, COUNTIES, TOWNS AND VILLAGES.—The constitution of 1894 puts a general and uniform limit to the power of counties and cities of the State to contract and put out their obligations, leaving the Legislature to fix the debt-making power of villages and towns only. These provisions are found in Art. 8, Sec. 10. We give that section in full below. The separation into paragraphs and the figures in parentheses which number and begin the paragraphs are our own, we having inserted them so that those who need to refer to any particular portion can the more readily find the part desired.

(1) No county, city, town or village shall hereafter give any money or property, or loan its money or credit to or in aid of any individual, association or corporation, or become directly or indirectly the owner of stock in, or bonds of, any association or corporation; nor shall any such county, city, town or village be allowed to incur any indebtedness except for county, city, town or village purposes. This section shall not prevent such county, city, town or village from making such provision for the aid or support of its poor as may be authorized by law.

(2) No county or city shall be allowed to become indebted for any purpose or in any manner to an amount which, including existing indebtedness, shall exceed 10% of the assessed valuation of the real estate of such county or city subject to taxation as it appeared by the assessment rolls of said county or city on the last assessment for State or county taxes prior to the incurring of such indebtedness; and all indebtedness in excess of such limitation, except such as may now exist, shall be absolutely void, except as herein otherwise provided.

(3) No county or city whose present indebtedness exceeds 10% of the assessed valuation of its real estate subject to taxation shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit.

(4) This section shall not be construed to prevent the issuing of certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes for amounts actually contained, or to be contained in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes.

(5) Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water; but the term of the bonds issued to provide for the supply of water shall not exceed twenty years, and a sinking fund shall be created on the issuing of the said bonds for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity.

At the 1909 election a very important constitutional amendment, with reference to the exclusion of debt incurred for rapid transit and dock purposes by New York City, and with reference to the exclusion after Jan. 1 1910 of water bonds issued by third class cities, was ratified by the voters. The amendment referred to changes sub-division (6), making it read as follows, the new parts being printed in *italics*.

(6) All certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes, which are not retired within five years after their date of issue, and bonds issued to provide for the supply of water, and any debt hereafter incurred by any portion or part of a city, if there shall be any such debt, shall be included in ascertaining the power of the city to become otherwise indebted; except that debts incurred by the City of New York after the first day of January, nineteen hundred and four, and debts incurred by any city of the second class after the first day of January, nineteen hundred and eight, *and debts incurred by any city of the third class after the first day of January, nineteen hundred and ten*, to provide for the supply of water, shall not be so included; *and except further that any debt hereafter incurred by the City of New York for a public improvement owned or to be owned by the city which yields to the city current net revenue, after making any necessary allowance for repairs and maintenance for which the city is liable, in excess of the interest on said debt and of the annual installments necessary for its amortization, may be excluded in ascertaining the power of said city to become otherwise indebted, provided that a sinking fund for its amortization shall have been established and maintained and that the indebtedness shall not be so excluded during any period of time when the revenue aforesaid shall not be sufficient to equal the said interest and amortization installments, and except further that any indebtedness heretofore incurred by the city of New York for any rapid transit or dock investment may be so excluded proportionately to the extent to which the current net revenue received by said city therefrom shall meet the interest and amortization installments thereof, provided that any increase in the debt-incurring power of the city of New York which shall result from the exclusion of debts heretofore incurred shall be available only for the acquisition or construction of properties to be used for rapid transit or dock purposes. The Legislature shall prescribe the method by which and the terms and conditions under which the amount of any debt to be so excluded shall be determined, and no such debt shall be excluded except in accordance with the determination so prescribed. The Legislature may in its discretion confer appropriate jurisdiction on the Appellate Division of the Supreme Court in the First Judicial Department for the purpose of determining the amount of any debt to be so excluded. No indebtedness of a city valid at the time of its inception shall thereafter become invalid by reason of the operation of any of the provisions of this section*

(7) Whenever hereafter the boundaries of any city shall become the same as those of a county, the power of the county to become indebted shall cease, but the debt of the county at that time existing shall not be included as part of the city debt. At the November 1899 election an amendment to the constitution was adopted changing this paragraph to read as follows: Whenever the boundaries of any city are the same as those of a county, or when any city shall include within its boundaries more than one county, the power of any county wholly included within such city to become indebted shall cease, but the debt of the county heretofore existing shall not, for the purposes of this section, be reckoned as a part of the city debt.

(8) The amount hereafter to be raised by tax for county or city purposes, in any county containing a city of over 100,000 inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not in the aggregate exceed in any one year 2% of the assessed valuation of the real and personal estate of such county or city, to be ascertained as prescribed in this section in respect to county or city debt.

By the terms of the foregoing section, Paragraph (1), every "County, City, Town or Village" is included in the prohibition against (1) loaning "its money or credit," (2) in becoming "directly or indirectly the owner of stock in or bonds of any association or corporation," and (3) in "incurring any indebtedness except for County, City, Town or Village purposes." Most of the other paragraphs include only counties and cities.

In May 1886 the New York Court of Appeals decided at the end of a litigation begun in July 1885 *that the sinking fund was not a part* of the city debt within the meaning of the above provision of the constitution limiting the creation of debt to 10% of the assessed valuation of the real estate.

Towns and villages are not limited in their debt-making power by the constitution. Those municipalities are governed by general or special statutes.

The 1895 Legislature passed an Act "for the protection of bona fide purchasers and holders of coupon bonds and of municipal corporations against misfeasance, malfeasance or negligence of public officers." The full text of this law was published in the "Chronicle" of June 8 1895. V. 60, p. 1023.

HOME RULE BILL.—On April 10 1913 a bill was signed (given in full in V. 96, p.1108), conferring on all cities full powers of local self-government.

BILL PERMITTING LEGALIZING OF MUNICIPAL BONDS BY SUPREME COURT.—The 1911 Legislature passed a bill amending the general municipal law by providing that proceedings heretofore or hereafter taken by municipal corporations in relation to bond issues, pursuant to statute authorizing such procedure, may be legalized and confirmed by the Supreme Court instead of requiring legislative enactments. This bill was given in full in V. 93, p. 1619. See also V. 94, p. 316. The Appellate Division of the Supreme Court at the July 1913 term declared the Act to be constitutional. V. 97, p. 211.

EXEMPTION FROM TAXATION.—Sec. 8, Article Two, Chapter 24 Consol. Laws of 1909 (p. 403) provides that "all bonds of a municipal corporation, until payable, shall be exempt from taxation for town, county, municipal or State purposes." Chapter 24 here mentioned provides that the term 'municipal corporation' as used in this chapter includes only a county, town, city and village." This differs from the definition given in the General Corporation Law (Chapter 23, Consolidated Laws of 1909), which in Section 3 of Article 1 says that "A 'municipal corporation' includes a county, town, school district, village and city and any other territorial division of the State established by law with powers of local government."

TAX ON SECURED DEBTS.—In July 1911 the Legislature passed a bill providing for a tax of ½ of 1% on bonds and other obligations secured by property located outside the State (and also on unsecured debt), and for exemption of the same from the annual tax on personal property. The 1915 Legislature suspended the operation of the law referred to until May 1 1915 and also passed a bill increasing the registration fee on secured debts registered between May 1 and Nov. 1 1915 from ½ to ¾ of 1% and limiting the period of exemption to five years. The definition of secured debts was also extended so as to include such proportion of a bond, &c., secured by mortgage or deed of trust recorded in the State of New York, and covering also property outside the State, as the value of the property outside the State bears to the value of the entire mortgaged property. The law as it now stands will be found in the "Chronicle" of May 1 1915, page 1470.

TAXATION OF MORTGAGES.—Mortgages now are not subject to taxation of any kind, the only charge being a recording tax of ½ of 1%. [For opinion of Attorney-General on attempt to evade this tax, see V. 95, p. 93.] A bill was passed at the 1914 session but vetoed by the Governor, extending the mortgage recording tax law so that this tax could be paid upon the full value of mortgages when part of the real property was outside the State; and exempting to their full value bonds secured by such mortgage.

CONDEMNATION OF PRIVATE PROPERTY FOR PUBLIC USE.—In Nov. 1911 a proposed constitutional amendment relating to the taking of private property for public use was defeated. V. 93, p. 1679. A similar amendment permitting municipalities to condemn property in excess of the amount actually needed for public parks and streets was ratified at the general election in Nov. 1913 (V. 97, p. 1837).

TAX LAW RELATIVE TO INVESTMENTS IN STATE BONDS BY SAVINGS BANKS, TRUST COMPANIES AND INSURANCE COMPANIES.—Section 190 of the Tax Law (Chapter 60, Consolidated Laws) provides that every corporation, company or association required by Section 187, 188 or 189 of this Chapter, to pay to the State an annual tax equal to a percentage of its gross premiums, capital stock, surplus, undivided profits or undivided earnings for the privilege of exercising its corporate franchise, or carrying on its business in such corporate or organized capacity, which shall own any State bonds, shall have credited to it annually to apply upon or in lieu of the payment of such tax, an amount equal to 1% of the par value of such bonds bearing interest at a rate not exceeding 3% annually, and owned and held in the name of such corporation, company or association. The text of this bill was given in V. 84, p. 1216.

At the 1913 session a law was passed proposing to increase the credit to 1½% on all holdings of bonds at not exceeding 3% interest and allowing a credit of ½ of 1% on all bonds bearing more than 3% interest and not exceeding 4% interest. This law was repealed, however, at the special session which convened June 16 1913. V. 96, p. 1784.

SAVINGS BANK INVESTMENTS—POWER AND RESTRICTIONS.—The general banking law, known as Chap. 2 of the Consolidated Laws, was completely revised by the Legislature of 1914, but no material change was made in that part of the law regulating investment by savings banks, except that the section dealing with this subject is now numbered 239, instead of 146, and its provisions apply to the sums credited to the guaranty fund as well as to savings bank deposits. The Legislature in 1915 passed an Act authorizing banks to invest in certain judgments against the State and in contracts entered into by the special examiner and appraiser of canal bonds. (V. 100, p. 1525). Another amendment passed in 1915 adds to Paragraph A of subdivision 7, of Section 239 of the Banking Law, the words which we have given in *italics*. The purpose of the amendment is to remove any question as to the legality of the refunding bonds issued by the New York Central RR. since the last consolidation with the Lake Shore & Mich. Southern Ry. and other roads. We give Section 239 in full below.

Sec. 239. A savings bank may invest the moneys deposited therein, the sums credited to the guaranty fund thereof and the income derived therefrom, in the following property and securities, and no others, and subject to the following restrictions:

1. The stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal, including the bonds of the District of Columbia. [*The State Attorney-General ruled that this sub-division does not authorize savings banks to invest in the land purchase bonds of the Philippine Islands. V. 78, p. 298.*]

2. The stocks or bonds or interest-bearing obligations of this State issued pursuant to the authority of any law of the State.

3. The stocks, bonds or interest-bearing obligations of any State of the United States upon which there is no default and upon which there has been no default for more than 90 days, provided that within 10 years immediately preceding the investment such State has not been in default for more than 90 days in the payment of any part, principal or interest, of any debt duly authorized by the Legislature of such State to be contracted by such State since Jan. 1 1878.

[On July 24 1909 the Attorney-General rendered an opinion to the effec that bonds of the State of Oklahoma are legal investments for savings banks under the terms of this sub-division. The right of the banks to invest in these bonds was questioned for the reason that Oklahoma had not existed as a State for ten years. The Attorney-General, however, was of the opinion that this does not prevent its bonds from fulfilling the requirements of the law so long as there has been no default within ten years on any of the obligations. V. 89, p. 298.]

[On Aug. 11 1909 the Attorney-General held that Port Commission 5% bonds of the State of Louisiana "maturing at any time between July 1 1924 and July 1 1959" were not legal investments for New York State savings banks. The Attorney-General mentioned as a ground of objection to the Port Commission bonds that they are not a direct obligation of the State of Louisiana. This view, however, is not concurred in by the United States authorities, for on Oct. 23 1911, R. P. Goodwin, Assistant Attorney-General for the Post Office Department, rendered an opinion holding that the bonds referred to are an obligation of the State of Louisiana, and in accordance with this advice Lee McClung, Treasurer of the United States, on March 11 1912 announced that the bonds would be accepted by his office as security for postal savings funds.]

[Bonds of the State of Louisiana to be issued for the refunding of what is known as "Consolidated Bonds," due Jan. 1 1914, were held to be legal investments for New York State savings banks in an opinion rendered by the Attorney-General on October 22 1913. In previous opinions (July 3 1912 and August 11 1909), it was held that, inasmuch as Louisiana had defaulted in the payment of the "baby bonds," other obligations of the State could not be legally purchased by savings bank trustees. In reversing these former rulings Attorney-General Carmody said that it now appeared that these "baby" bonds were not bonds for the payment of which the credit of the State was pledged, but were issued against certain revenues of the State, namely unpaid taxes, and were payable out of these revenues only. Therefore the failure to pay the same does not, according to the Attorney-General, constitute such a default as would make other bonds of the State improper investments. See V. 97, p. 1227, 1304, 1367 and 1444.]

[On June 16 1913 the Attorney-General held that bonds of the State of New Mexico issued pursuant to an Act approved June 1 1912 are legal investments for New York savings banks. V. 96, p. 1852.]

[Bonds of the Territory of Hawaii were held to be legal investments in an opinion by the Attorney-General dated Aug. 10 1914. V. 99, p. 554.]

4. The stocks, bonds, interest-bearing obligations or revenue notes sold at a discount of any city, county, town, village, school district, union free school district or poor district in this State, provided that they were issued pursuant to law and that the faith and credit of the municipality or district that issued them are pledged for their payment.

5. The stocks or bonds of any incorporated city situated in one of the States of the United States which was admitted to Statehood prior to January 1 1896, and which, since January 1 1861, has not repudiated or defaulted in the payment of any part of the principal or interest of any debt authorized by the Legislature of any such State to be contracted, provided said city has a population, as shown by the Federal Census next preceding said investment of not less than 45,000 inhabitants, and was incorporated as a city at least twenty-five years prior to the making of said investment and has not since January 1 1878 defaulted for more than ninety days in the payment of any part either of principal or interest of any bond, note or other evidence of indebtedness, or effected any compromise of any kind with the holders thereof. But if, after such default on the part of any such State or city, the debt or security, in the payment of the principal or interest of which such default occurred, has been fully paid, refunded or compromised by the issue of new securities, then the date of the first failure to pay principal or interest, when due, upon such debt or security, shall be taken to be the date of such default within the provisions of this sub-division, and subsequent failures to pay installments of principal or interest upon such debt or security, prior to the refunding or final payment of the same, shall not be held to continue said default or to fix the time thereof within the meaning of this sub-division, at a date later than the date of said first failure in payment. If at any time the indebtedness of any such city, together with the indebtedness of any district, or other municipal corporation or subdivision except a county, which is wholly or in part included within the bounds or limits of said city, less its water debt and sinking funds, shall exceed 7% of the valuation of said city for purposes of taxation, its bonds and stocks shall thereafter, and until such indebtedness shall be reduced to 7% of the valuation for the purposes of taxation, cease to be an authorized investment for the moneys of savings banks.

[On Feb. 15 1911 an opinion was rendered by the Attorney-General deciding that both *real and personal* property should be used as a basis in determining the 7% debt limit which the savings bank law says must not be exceeded in the case of municipalities in the bonds of which the banks may make investments. The question was raised because of the fact that the constitutional provision in regard to cities of this State provides that no city shall be allowed to become indebted for more than ten per cent of its assessed real estate. See V. 92, p. 610.]

[On Apr. 27 1914 the Attorney-General, in holding that banks may legally invest in bonds of the City of Minneapolis, Minn., ruled that it is proper to include in the estimate of the valuation of property for purposes of taxation, pursuant to sub-division 5 above, the valuation placed upon money and credits pursuant to Chap. 285 of the 1911 laws of the State of Minnesota. V. 98, p. 1404.

[In Dec. 1911 the Attorney-General rendered an opinion holding that bonds of the City of Omaha, Neb., are not legal investments, this being on the assumption that the bonded debt of that city exceeded 7% of its valuation. See V. 94, p. 645, for full text of opinion.]

[On Sept. 6 1912 the Attorney-General rendered an opinion, the full text of which was given in the "Chronicle" of Sept. 14 1912, page 700, holding that bonds of the city of Tacoma, Wash., are legal investments.]

[In an opinion rendered Sept. 14 1912, the Attorney-General held that bonds of the City of Dallas, Tex., are legal investments. V. 95, p. 842.]

[Improvement bonds of the City of Portland, Ore., issued pursuant to Section 383A of the city charter are legal investments, according to an opinion of the Attorney-General dated April 5 1913. V. 96, p. 1169.]

[The Attorney-General on June 9 1914 held that Jacksonville, Fla., bonds are legal investments. See V. 98, p. 2006.]

6. In bonds and mortgages on unincumbered real property situated in this State to the extent of 60% of the appraised value thereof. Not more than 65% of the whole amount of deposits and guaranty fund shall be so loaned or invested. If the loan is on unimproved and unproductive real property, the amount loaned thereon shall not be more than 40% of its appraised value. No investment in any bonds and mortgages shall be made by any savings bank except upon the report of a committee of its trustees charged with the duty of investigating the same, who shall certify to the value of the premises mortgaged or to be mortgaged, according to their judgment, and such report shall be filed and preserved among the records of the corporation.

7. The following bonds of railroad corporations:

(a) The first mortgage bonds of any railroad corporation of this State the principal part of whose railroad is located within this State, or of any railroad corporation of this or any other State or States connecting with and controlled and operated as a part of the system of any such railroad corporation of this State, and of which connecting railroad at least a majority of its capital stock is owned by such a railroad corporation of this State, or in the mortgage bonds of any such railroad corporation of an issue to retire all prior mortgage debt of such railroad companies respectively; provided that at no time within five years next preceding the date of any such investment such railroad corporation of this State or such connecting railroad corporation, respectively, shall have failed regularly and punctually to pay the matured principal and interest of all its mortgage indebtedness, and in addition thereto regularly and punctually to have paid in dividends to its stockholders during each of said five years an amount at least equal to 4% upon all its outstanding capital stock; and provided, further, that at the date of every such dividend the outstanding capital stock of such railroad corporation, or such connecting railroad company, respectively, shall have been equal to at least one-third of the total mortgage indebtedness of such railroad corporations, respectively, including all bonds issued or to be issued under any mortgage securing any bonds, in which such investment shall be made. *If by means of consolidation a railroad corporation shall own and possess the properties and franchises which prior thereto belonged to similar corporations, and if the outstanding capital stock of the railroad corporation formed by such consolidation shall be equal to at least one-third of the total mortgage indebtedness of such railroad corporation, including all bonds issued or to be issued under any mortgage securing any bonds in which such investment shall be made, and if during the five years next preceding such consolidation no one of the consolidating railroad corporations shall have failed regularly and punctually to pay the matured principal and interest of all of its mortgage indebtedness, and if in addition thereto during the five years next preceding such consolidation, the dividends paid in cash by one or more of such consolidating corporations have equaled or exceeded four per centum per annum upon an amount equal to the combined capital stock of the consolidating corporations as outstanding at the time of each dividend payment during such five-year period, such successor railroad corporation formed by such consolidation shall be considered as having regularly and punctually paid such matured principal and interest and such dividends equal to or exceeding four per centum per annum during the same period of five years, provided further that the amount of dividends paid in cash during each of such five years has equaled or exceeded four per centum per annum on the stock of the consolidated corporation as outstanding at the time of such consolidation.*

(b) The mortgage bonds of the following railroad corporations: The Chicago & North Western RR. Co., Chicago Burlington & Quincy RR. Co., Michigan Central RR. Co., Illinois Central RR. Co., Pennsylvania RR. Co., Delaware & Hudson Co., Delaware Lackawanna & Western RR. Co., New York New Haven & Hartford RR. Co., Boston & Maine RR. Co., Maine Central RR. Co., the Chicago & Alton RR. Co., Morris & Essex RR. Co., Central RR. of New Jersey, United New Jersey RR. & Canal Co.; also in the mortgage bonds of railroad companies whose lines are leased or operated or controlled by any railroad company specified in this paragraph if said bonds be guaranteed, both as to principal and interest, by the railroad company to which said lines are leased or by which they are operated or controlled. Provided that at the time of making investment authorized by this paragraph the said railroad corporations issuing such bonds shall have earned and paid regular dividends of not less than 4% per annum in cash on all their issues of capital stock for the ten years next preceding such investment, and provided the capital stock of any said railroad corporation shall equal or exceed in amount one-third of the par value of all its bonded indebtedness; and further provided that all bonds authorized for investment by this paragraph shall be secured by a mortgage which is a first mortgage on either the whole or some part of the railroad and railroad property of the company issuing such bonds, or that such bonds shall be mortgage bonds of an issue to retire all prior mortgage debts of such railroad company; provided, further, that the mortgage which secures the bonds authorized by this paragraph is dated, executed and recorded prior to January 1 1905.

(c) The mortgage bonds of the Chicago Milwaukee & St. Paul Railway Co. and the Chicago Rock Island & Pacific Railway Co., so long as they shall continue to earn and pay at least 4% dividends per annum on their outstanding capital stock, and provided their capital stock shall equal or exceed in amount one-third of the par value of all their bonded indebtedness, and further provided that all bonds of either of said companies hereby authorized for investment shall be secured by a mortgage which is a first mortgage on either the whole or some part of the railroad or railroad property actually in the possession of and operated by said company, or that such bonds shall be mortgage bonds of an issue to retire all prior debts of said railroad company; provided, further, that the mortgage which secures the bonds authorized by this paragraph is dated, executed and recorded prior to January 1 1905.

(d) The first mortgage bonds of the Fonda Johnstown & Gloversville RR. Co., or in the mortgage bonds of said railroad company of an issue to retire all prior mortgage debts of said railroad company, and provided the capital stock of said railroad company shall equal or exceed in amount one-third of the par value of all its bonded indebtedness, and provided also that such railroad be of standard gauge of four feet eight and one-half inches and in the mortgage bonds of the Buffalo Creek Railroad Company of an issue to retire all prior mortgage debts of said railroad company, provided that the bonds authorized by this paragraph are secured by a mortgage dated, executed and recorded prior to Jan. 1 1905.

(e) The mortgage bonds of any railroad corporation incorporated under the laws of any of the United States which actually owns in fee not less than 500 miles of standard-gauge railway, exclusive of sidings, within the United States, provided that at no time within five years next preceding the date of any such investment such railroad corporation shall have failed regularly and punctually to pay the matured principal and interest of all its mortgage indebtedness and in addition thereto regularly and punctually to have paid in dividends to its stockholders during each of said five years an amount *at least equal to 4% upon all its outstanding capital stock; and provided, further, that during said five years the gross earnings in each year from the operations of said company, including therein the gross earnings of all railroads leased and operated or controlled and operated by said company, and also including in said earnings the amount received directly or indirectly by said company from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable during that year upon its entire outstanding indebtedness, and the rentals for said year of all leased lines, and further provided that all bonds authorized for investment by this paragraph shall be secured by a mortgage which is at the time of making said investment or was at the date of the execution of said mortgage, (1) a first mortgage upon not less than 75% of the railway owned in fee by the company issuing said bonds, exclusive of sidings at the date of said mortgage or (2) a refunding mortgage issued to retire all prior lien mortgage debts of said company outstanding at the time of said investment and covering at least 75% of the railway owned in fee by said company at the date of said mortgage. But no one of the bonds so secured shall be a legal investment in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of said company, after deducting therefrom in case of a refunding mortgage the bonds reserved under the provisions of said mortgage to retire prior debts at maturity, shall exceed three times the outstanding capital stock of said company at the time of making said investment. And no mortgage is to be regarded as a refunding mortgage, under the provisions of this paragraph, unless the bonds which it secures mature at a later date than any bond which it is given to refund, nor unless it covers a mileage at least 25% greater than is covered by any one of the prior mortgages so to be refunded.

[*In an opinion rendered by the Attorney-General on Jan. 13 1908, stating that bonds of the Missouri Pacific Ry. Co. were not legal investments for savings banks, owing to the fact that the dividend for the 6 months ending Dec. 31 1907 had been paid with a new issue of stock, he held that the words "an amount" must necessarily mean the payment thereof *in cash*. V. 86, p. 494.]

[In an opinion dated Apr. 14 1914, the Attorney-General held that certain bonds of the Chicago Milwaukee & St. Paul Ry. Co. are legal investments for savings banks. V. 98, p. 1333.

(f) Any railway mortgage bonds which would be a legal investment under the provisions of paragraph (e) of this subdivision, except for the fact that the railroad corporation issuing said bonds actually owns in fee less than 500 miles of road, provided that during five years next preceding the date of any such investment the gross earnings in each year from the operations of said corporation, including the gross earnings of all lines leased and operated or controlled and operated by it, shall not have been less than ten million dollars.

(g) The mortgage bonds of a railroad corporation described in the foregoing paragraph (e) or (f) or the mortgage bonds of a railroad owned by such corporation, assumed or guaranteed by it by indorsement on said bonds, provided said bonds are prior to and are to be refunded by a general mortgage of said corporation, the bonds secured by which are made a legal investment under the provisions of said paragraph (e) or (f); and provided, further, that said general mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien.

(h) Any railway mortgage bonds which would be a legal investment under the provisions of paragraph (e) or (g) of this subdivision, except for the fact that the railroad corporation issuing said bonds actually owns in fee less than 500 miles of road, provided the payment of principal and interest of said bonds is guaranteed by indorsement thereon by, or provided said bonds have been assumed by a corporation whose first mortgage is, or refunding mortgage bonds are, a legal investment under the provisions of paragraph (e) or (f) of this subdivision. But no one of the bonds so guaranteed or assumed shall be a legal investment in case the mortgage securing the same shall authorize a total issue of bonds which, together with all the outstanding prior debts of the corporation making said guaranty or so assuming said bonds, including therein the authorized amount of all previously guaranteed or assumed bond issues, shall exceed three times the capital stock of said corporation at the time of making said investment.

(i) The first mortgage bonds of a railroad the entire capital stock of which, except shares necessary to qualify directors, is owned by and which is operated by a railroad whose last issued refunding bonds are a legal investment under the provisions of paragraph (a), (e) or (f) of this subdivision, provided the payment of principal and interest of said bonds is guaranteed by endorsement thereon by the company so owning and operating said road, and further provided the mortgage securing said bonds does not authorize an issue of more than $20,000 in bonds for each mile of road covered thereby. But no one of the bonds so guaranteed shall be a legal investment in case the mortgage securing the same shall authorize a total issue of bonds which, together with all the outstanding prior debts of the company making said guaranty, including therein the authorized amount of all previously guaranteed bond issues, shall exceed three times the capital stock of said company at the time of making said investment. Bonds which have been or shall become legal investments for savings banks under any of the provisions of this section shall not be rendered illegal as investments though the property upon which they are secured has been or shall be conveyed to another corporation, and though the railroad corporation which issued or assumed said bond has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds and shall continue to pay regularly interest or divi-

dends or both upon the securities issued against, in exchange for or to acquire the stock of the company consolidated or the property purchased, or upon securities subsequently issued in exchange or substitution therefor to an amount at least equal to 4% per annum upon the capital stock outstanding at the time of such consolidation or purchase of said corporation which has issued or assumed said bonds. Not more than 25% of the assets of any savings bank shall be loaned or invested in railroad bonds, and not more than 10% of the assets of any savings bank shall be invested in the bonds of any one railroad corporation described in paragaph (a) of this subdivision, and not more than 5% of such assets in the bonds of any other railroad corporation. In determining the amount of the assets of any savings bank under the provisions of this subdivision, its securities shall be estimated in the manner prescribed for determining the per centum of par value surplus by Section 257 of this article. Street railroad corporations shall not be considered railroad corporations within the meaning of this subdivision.

The last two sub-divisions (8 and 9) of Section 239 relate to promissory notes and real estate in which investments may be made.

SUPERINTENDENT MUST FURNISH SAVINGS BANKS LIST OF LEGAL INVESTMENTS.—Section 52 of Article II of the General Banking Law reads as follows:

On or before the first day of January, 1915, and on or before the first day of January in each and every year threeafter, the Superintendent of Banks shall mail to each savings bank in the State a list containing the names of States and municipalities, the bonds of which, in his judgment, if legally issued and properly executed, conform to the requirements of Section 239 of this Chapter, and also as complete a list as is practicable of railroad bonds which, in his judgment, if legally issued and properly executed, conform to the provisions of said Section.

In the preparation of such list he may employ such expert assistance as he deems proper and apportion the expense thereof among the savings banks of the State, or he may rely upon information contained in publications which he may deem authoritative in reference to such matters. He shall be in no way liable for the omission from such list of the name of any State or municipality the bonds of which conform to the provision of said Section, or of any railroad bond which conforms to the provisions of said Section, nor for the inclusion in such list of the name of any State or municipality the bonds of which do not conform to the provisions of said Section, or of any railroad bond which does not conform to the provisions of said Section.

[For list of bonds considered legal investments on Jan. 1 1915, see "Chronicle" of March 27 1915, page 1106.

TRUST FUNDS.—*How Loaned or Invested.*—Sec. 21, Chap. 41, Consol. Laws of 1909, permits executors, administrators, guardians, &c., to invest in the same securities as savings banks. We quote the provision below:

INVESTMENT OF TRUST FUNDS.—A trustee or other person holding trust funds for investment may invest the same in the same kind of securities as those in which savings banks of this State are by law authorized to invest the money deposited therein, and the income derived therefrom, and in bonds and mortgages on unincumbered real property in this State worth 50% more than the amount loaned thereon.

INT.—WHERE PAYABLE—Int. payable by City Comp. in Buffalo and by Hanover N. Bk., N. Y.

TOT. DEBT, SINK. FDS., &c.—

	May 1 '15.	*Oct.* 1 '14.
Tot. bd. debt	$36,345,069	$33,537,583
Sinking funds	4,017,916	3,973,548
Net debt	$32,327,153	$29,564,034
Water debt (incl. above)	May 1 '15 $11,090,258	

The sinking funds are all invested in the city's own bonds. In addition to the indebtedness as given above, there was outstanding on Apr. 1 1915 treasury and local fund warrants to the amount of $498,993.10.

CITY PROPERTY.—The city owns real estate estimated at $20,900,875; personal property valued at $8,190,528; total, $29,091,403. In addition to this total there is the water-works property, consisting of real estate valued at $2,798,594, and personal property valued at $13,128,485. The total resources of the city on June 30 1914, including all property—real and personal—together with other assets, were figured by the Comptroller at $53,435,893.46 and liabilities at $35,817,273.69, leaving $17,618,619.77 as the excess of resources over liabilities.

HEMPSTEAD, TOWN.
Hempstead (inc. April 17 1784) is now in Nassau Co., but was formerly in Queens Co., then including Far Rockaway, Hempstead, Inwood, Lawrence, Rockaway Beach and Seaford villages. On Jan. 1 1898 that portion of the town lying "westerly of a straight line drawn from the southeasterly point of the town of Flushing through the middle of the channel between Rockaway Beach and Shelter Island, in the county of Queens, to the Atlantic Ocean," became part of New York City, under the Greater New York Charter. This boundary was changed by the Legislature in April 1899, and the new boundary is that portion of the old town of Hempstead "bounded on the east and north by the east and north bounds of the former village of Far Rockaway, and on the east by a line drawn due north from the northwest corner of said village to the south line of the town of Jamaica, as it existed on the thirty-first day of December 1897." The bonds given below are those remaining as a debt against the town after assigning to New York City the portion belonging to it according to a decision of the Supreme Court of the Third Judicial District at Albany Dec. 9 1899. See V. 69, p. 1357.

NEW YORK CITY. John Purroy Mitchel, Mayor; Wm. A. Prendergast, Comptroller.
The consolidation provided under the Greater New York Charter became effective Jan. 1 1898, and New York City now includes Kings County, Richmond County and the following portions of Queens County, namely Long Island City, the towns of Newtown, Flushing and Jamaica, and part of the town of Hempstead. The Legislature in 1912 passed a bill providing for the creation of the County of The Bronx out of what is now the Borough of The Bronx. The bill was subject to referendum of the citizens of the proposed Bronx County in November 1912 and was favorably passed upon at that time. V. 95, p. 1288. On Jan. 17 1913 the Act was declared unconstitutional by the Appellate Division of the Supreme Court. V. 96, p. 299. This decision was reversed, however, by the Court of Appeals on Mar. 14 1913. V. 96, p. 810. In 1915 a bill was passed providing for the secession of the Fifth Ward of Queens (constituting the villages of Far Rockaway, Arverne and Rockaway Beach) to set up what was to be known as the city of Rockaway. This measure, however, was vetoed by Mayor Mitchell. The following statement includes all of the funded debt of the former City of New York and of the municipalities in Brooklyn, Queens and Richmond which was recorded at the date of consolidation; also such additional amounts as were recorded in subsequent years as being funded obligations of said former municipalities to be assumed by the City of New York. These figures do not include $2,007,600 revenue bonds of the former City of New York outstanding Jan. 1 1898 and redeemable from its tax levy of 1897 nor $4,060,000 of revenue bonds or certificates of indebtedness of the former city of Brooklyn outstanding Jan. 1 1898, but redeemable from its tax levy for the year 1898.

DEBT OF GREATER CITY AT CONSOLIDATION JAN. 1 1898.

	Tot. Funded Debt.	*Sinking Fund.*	*Net Debt.*
Manhattan & The Bronx*	$226,144,311.28	$85,654,317.52	$140,489,993.76
Brooklyn	81,626,175.53	6,734,055.69	74,892,119.84

Richmond	3,486,736.67	----------	3,486,736.67
Total	*$324,967,159.10	$92,718,373.21	$232,248,785.89

*Includes $3,061,645.01 special revenue bonds.

DEBT OF GREATER CITY AT PRESENT TIME.

Since consolidation (Jan. 1 1898), the Greater City has issued, excluding general fund bonds, special revenue bonds and revenue bonds and bills, up to April 30 1915, $944,817,024.01, and redeemed and canceled during that period $198,394,643.31. The following compares gross and net debt of the consolidated city at different dates.

*No assessment or tax in 1898.

In 1903 the assessment of real estate was made on the basis of about real value; 1903 and subsequent values, therefore, are greatly in excess of those for previous years, and consequently the tax rate is much lower.

[Under a law passed by the 1911 Legislature, the collection of taxes takes place semi-annually instead of annually, as heretofore. V. 93, p. 63.]

PAR VALUE OF BONDS.—Under the provisions of the city charter, registered bonds may be issued in denominations of $10 or any multiple thereof.

EXEMPTION FROM TAXATION.—Section 8, Article 1, General Municipal Law, Consolidated Laws of 1909, provides that "all bonds of a municipal corporation, until payable, shall be exempt from taxation for town, county, municipal or State purposes."

DEBT LIMIT.—At the general election in Nov. 1909 the voters passed on a constitutional amendment which permits the city, in ascertaining its borrowing capacity, to exclude bonds heretofore issued for any rapid transit or dock investment, as well as bonds hereafter issued for a public improvement which provides a revenue in excess of the interest and amortization charges. The rapid transit and dock bonds may be excluded only in proportion to the extent to which the current net revenues received from these improvements shall meet the interest and amortization charges. See the amendment in full under general remarks for New York State.

ISSUANCE OF SERIAL BONDS AUTHORIZED.—Chapter 309 of the Laws of 1915, approved April 14, authorizes the City of New York to issue "serial" bonds. The Act amends Sections 169, 189, 206 and 229 of the Greater New York charter. Chapter 308, approved April 16, amends Section 182 of the Charter so as to provide that "in inviting proposals for serial bonds, the Comptroller may advertise to sell, in series, at a single bid price per bond, and may make awards on such basis to the highest bidder or bidders."

ISSUANCE OF CORPORATE STOCK NOTES IN ANTICIPATION OF SALE OF CORPORATE STOCK AND IN ANTICIPATION OF TAX COLLECTIONS.—Section 189 of the City Charter authorizes the City Comptroller to issue short-term notes in anticipation of the sale of corporate stock. V. 92, p. 1577. In 1914 this section was amended so as to allow the city to pay for public improvements the cost whereof may be defrayed from the proceeds of the sale of corporate stock by issuing instead "corporate stock notes" to be payable out of the tax levy for ensuing years, provided that the maturites of said obligations or any renewal thereof shall in no event be later than the year in anticipation of the tax levy whereof said obligations were issued (V. 98, p. 1101).

GENERAL FUND BONDS.—A new kind of bond (known as the "General Fund Bonds") was created by the Legislature in 1903. It is issued for the purpose of releasing the surplus revenues of the sinking fund of the old City of New York, and to allow the money to be applied to the reduction of taxation. Under the law the bonds will be issued only in the way indicated, and they will be taken for account of sinking fund for redemption of the city debt No. 1. See V. 76, p. 610. Up to April 30 1915 $183,000,000 of these bonds had been issued.

APPROPRIATIONS.—The total appropriation for Greater New York in 1898 was $77,473,084; in 1899 it was $93,520,082; in 1900 it was $90,778,972; for 1901 it was $98,100,413; for 1902 it was $98,619,600; for 1903, $97,119,031; for 1904, $106,674,955; for 1905, $109,817,593; for 1906, $116,805,490; for 1907, $130,421,505; for 1908, $143,572,266; for 1909, $156,545,148; for 1910, $163130,270; rot 1911, $173,967,835; for 1912, $181,0.0,657; for 1913, $192.711,441; 1914, $192,995,551, and for 1915 $198,989,786.

POPULATION (*U. S. Census figures*)—

	1910.	1900.		1910.	1900.
Greater N. Y.	4,766,883	3,437,202	Boro. of Queens.	284,041	152,999
Man. & Bronx	2,762,522	2,050,600	Boro. of Rich'd.	85,969	67,021
Boro. of Br'klyn	1,634,351	1,166,582			

Health Dept. estimated the population of the Greater City as 5,583,871 on July 1 1914.

DETAILS OF INDEBTEDNESS.

The tables which follow give full details regarding the indebtedness of the consolidated city and the various boroughs and other divisions forming part of it. We show first the bond issues made since the Greater New York Charter went into effect. Then we add statements reporting at length the indebtedness of the separate boroughs; all the districts, towns and other divisions being in each case grouped under the borough to which they belong.

GREATER NEW YORK.—*Bonds issued since consolidation.*

The loans marked (s f) are held in the sinking fund.

INTEREST—WHERE PAYABLE.—Coupon interest is payable at Guaranty Trust Co.; registered interest at office of City Comptroller.

BOROUGH OF BROOKLYN.

OLD CITY OF BROOKLYN

The old city of Brooklyn covered the entire area of the county of Kings the county government being consolidated with that of the city on Jan. 1 1896 under the provisions of Chapter 954 of the Laws of 1895. Under the provisions of this Act, "the debt of the said county shall not be deemed to be, or be included as, a part of the debt of the City of Brooklyn, within the meaning of the provision of the constitution of the State of New York limiting the power of cities to incur indebtedness." (See "Chronicle," Vol. 62, p. 49.) The towns of Flatbush, New Utrecht and Gravesend were annexed to the City of Brooklyn in 1894 and the town of Flatlands became a ward of the city on the first day of January 1896.

Borough of Brooklyn—Old City of Brooklyn—(*Con.*).

BOROUGH OF QUEENS.

COUNTY OF QUEENS.

The debt of the county of Queens is reported under the county's own name on a subsequent page; the amount of the original debt which was chargeable to the City of New York was adjudicated finally to be $3,796,032 11, leaving $1,011,967 89 as Nassau County's share of the old indebtedness. Instead of apportioning certain bonds to N. Y. City and to Nassau County, the debt and interest is not divided, but N. Y. City pays .7895241493 of the principal and interest as it becomes due, and Nassau County .21047585027. The Comptroller of N. Y. City acts as agent in the payment of the debt. The amount of Queens County bonds outstanding on April 30 1915 was $4,368,800, of which $3,448,642 was chargeable to New York City.

LONG ISLAND CITY.

This was formerly a city in Queens County.

INT. payable at Glens Falls Tr.Co.

QUEENS COUNTY.

County seat is Jamaica. A large part of the old County of Queens is now included in the Greater New York, and a law changing the name of that portion of the old county *outside* of Greater New York to Nassau County went into effect Jan. 1 1899. The amount of outstanding bonds of this county which will be chargeable to the City of New York has been finally determined by the Supreme Court (V. 71, p. 875). Under this decision the City of New York was made liable for $3,796,032.11 of the old debt of Queens County as it stood at the date of division, and the remaining $1,011,967.89 became an obligation of Nassau County. Instead of apportioning certain bonds to New York City and to Nassau County, the debt and interest is not divided. New York City pays 78.952414973 of the principal and int. as it becomes due and Nassau Co. 21.047585027. The Comptroller of New York City acts as agent in the payment of the debt.

The statement below shows the obligations of the old County of Queens which remained outstanding on Apr. 30 1915.

TaxperM *22 ____ 19.73
* The city has several different tax rates, the figures given above being the rates for all purposes. State, county and city, in the old city of Troy. In the old city of Troy the tax for 1914 was $22.00; in Sycaway School Dist., $22.32; in annexed territory of North Greenbush, $21.59; and in Wards 15, 77 and 17 (formerly Lansingburg), $16.63 with school tax of $8.85 additional.
POPULATION.—In 1910, 76,813; in 1905, 75,910; in 1900, 60,651, excluding sections annexed in 1901, which brought the aggregate up to about 75,000; in 1890 it was 60,956; in 1880 it was 56,747.

Tax rate (per $1,000) 1914 $11.00
INT. payable at Citizens' Bank of Westfield in New York exchange.

WEST SENECA.
This town is in Erie Co. Incorp. 1851. The decrease in the valuation for 1909 was caused by a division of the town, cutting off the city of Lackawanna. While the bonds below are considered a lien upon the whole town, the referee appointed to apportion the debts has decided that they are to be paid by the city of Lackawanna, the sewer having been built in that city. This report came up in Dec. 1911 for confirmation by the State Supreme Court and was opposed by the city of Lackawanna. No decision has been rendered.
Sewer Bonds.
5s '07 A-O $150,000c Apr 1 '15-'38
5s '15 Apr 25,380

Building bonds	208,750 00
Park bonds	287,500 00
School bonds	2,251,310 00
Water bonds	2,495,250 00
Certfs. of indebtedness	2,116,500 00
Local- improv't notes	1,017,000 00
Total Apr. 2 '15	$2,734,121 01
Deductions—	
Revenue bonds	$775,000 00
Water bonds, issued after Jan. 1 1908	1,154,250 00
Ctfs. of indebtedness	2,116,500 00
Yonkers bonds in Water Bond Sinking Fund	203,000 00
	$4,248,750 00

Debt to be counted in ascertaining the power to become further indebted $8,485,371 01

Assessment bonds, revenue bonds, certificates of indebtedness and local improvement notes are issued in anticipation of the collection of taxes and assessments and paid from the receipts thereof.

Refunding bonds are issued to refund $180,000 redemption bonds, $30,000 assessment bonds and $21,000 tax-relief bonds and paid from moneys received from taxes, assessments and redemption of lands purchased by the city for non-payment of taxes and assessments and $180,000 water bonds.

Water bonds are paid from receipts of Water Bond Sinking Fund.

Prior to Jan. 1 1908, the School Bonds were issued by the Board of Education and the water bonds by the Water Board. Since the date referred to, however, all bonds of the city have been issued under the Uniform Charter for cities of the second class. Chapter 452 of the Laws of 1908 repeals the Acts under which the Board of Education and the Water Board were created separate bodies.

CITY PROPERTY.—Real estate owned by the city is assessed at $7,280,000, including water works valued at $3,100,000.

POPULATION.—In 1910 was 79,803; in 1905 it was 61,716; in 1900 it was 47,931; in 1890 it was 32,033; in 1880 it was 18,892.

ASSESSED VALUATION.—The city's assessed valuation has been:

	Real Estate.	Personal Property.
1914	$113,877,220	$2,752,000
1913	89,041,417	2,862,100
1905	45,980,905	3,252,000
1900	35,124,400	3,086,830
1890	22,574,226	398,240
1880	10,024,677	430,295
	Total Assessed Valuation.	*Ave. Rate of Tax per $1,000.*
1914	$116,629,220	$23.7683
1913	91,903,517	26.485
1905	49,232,905	24.4848
1900	38,211,230	23.709
1890	22,972,466	17.3902
1880	10,454,972	

YORKVILLE.

This village is in Oneida County. Inc. 1902. Population 1910, 691.

State of New Jersey.

ITS

DEBT, RESOURCES, ETC.

Admitted as a State.....One of Original Thirteen
Total area of State (square miles).....7,815
State Capital.....Trenton
Gov. (term exp. Mon. bef. 3d Tues., Jan. '17) James F. Fielder
Secretary of State (term exp. Apl. 1 '17)..Thos. F. Martin
Treasurer (term expires Mar. 1 1916)..Edward E. Grosscup
Comptroller (term expires Feb. 20 1917)...Edw. I. Edwards

LEGISLATURE meets annually the second Tuesday of January, and there is no limit to the length of the session.

HISTORY OF DEBT.—New Jersey has always been a conservative State; there are consequently no facts out of which to construct a history of debt issues. In a report made in 1838 the financial officer of the State affirmed that New Jersey had put out no obligations of any kind or loaned its credit to any company. The constitution of 1844 forbade the creation of a State debt exceeding one hundred thousand dollars *except* for purposes of war, &c. This exception, under which it was allowable to exceed the hundred-thousand-dollar limit, became operative on the occasion of the breaking out of the Civil War. Quite a debt was created at that period. The last of these war bonds was retired on Jan. 1 1902.

TOTAL DEBT.—With the exception of $116,000 certificates issued to the Commissioners of the Agricultural College under Act approved June 13 1895, the State is now clear from debt, and has been since Jan. 1 1902. At previous dates the debt was:

Nov. 1 1901	$71,000	Nov. 1 1895	$660,400
Nov. 1 1898	194,000	Nov. 1 1894	735,400
Nov. 1 1897	394,000	Nov. 1 1880	1,996,300
Nov. 1 1896	593,400	Nov. 1 1866	3,395,200

On Nov. 1 1914 the cash balance on hand in the State Fund was $1,085,605.61; this fund also held on the same date 1,887 shares (par value $188,700) of the stock of the Delaware & Raritan Canal and Camden & Amboy RR. & Transportation companies, the market value of which amounts to about $450,000. The State School Fund on Nov. 1 1914 held securities to the amount of $5,850,527 09; cash balance on hand for investment, $59,227.45

ASSESSED VALUATION.—The assessed valuation for a series of years has been as below. Under new tax laws the assessment beginning with 1906 has been at supposed full value—a much higher basis than in former years.

1914	$2,481,605,038	1906	1,570,210,073	1888	603,676,953
1913	2,406,260,693	1905	1,153,682,961	1886	573,256,303
1912	2,289,751,281	1900	891,237,286	1884	554,828,114
1911	2,166,735,535	1898	844,354,193	1882	534,917,876
1910	2,045,898,214	1896	794,428,048	1880	518,617,518
1909	1,949,687,287	1894	774,398,332	1878	531,851,849
1908	1,843,001,178	1892	742,759,082	1876	596,833,707
1907	1,841,527,418	1890	$649,979,700	1874	619,057,903

In addition to the above, valuation of railroad and canal property in 1900 was $219,656,014, in 1902 $223,486,392, in 1903 $227,195,115, in 1904 $231,655,525, in 1905 $236,720,571, in 1906 $194,532,469, in 1907 $200,045,173, in 1908 $272,182,490, in 1909 $279,059,611, in 1910 $286,546,453 and in 1911 $284,542,181. The values of railroad and canal property from 1906 to 1911 incl. do not include 2d class RR. property, the latter being given in the totals shown above for those years. No general tax is imposed in New Jersey, the State deriving its revenue from other sources.

POPULATION OF STATE.—Population has been as follows:

1910	2,537,167	1870	906,096	1820	277,575
1905	2,144,134	1860	672,035	1810	245,562
1900	1,883,669	1850	489,555	1800	211,149
1890	1,444,933	1840	373,306	1790	184,139
1880	1,131,116	1830	320,823		

DEBT LIMITATIONS.—The provisions of law limiting and regulating the debt-making power in New Jersey will be better understood and the information will be made more serviceable to the investor if arranged in accordance with the civil divisions to which the provisions apply.

(1) *THE STATE* is restricted as to its debt-making power by the State constitution. In Article IV, Section VI, paragraphs 3 and 4 the whole subject is disposed of. The third paragraph forbids a loan of the State's credit and the fourth paragraph forbids the creation of debt. These provisions are as follows:

3. The credit of the State shall not be directly or indirectly loaned in any case.

4. The Legislature shall not in any manner create any debt or debts, liability or liabilities of the State which shall singly or in the aggregate, with any previous debts or liabilities, at any time exceed one hundred thousand dollars, except for purposes of war, or to repel invasion, or to suppress insurrection, unless the same shall be authorized by a law for some single object of work, to be distinctly specified therein; which law shall provide the ways and means, exclusive of loans, to pay the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within thirty-five years from the time of the contracting thereof, and shall be irrepealable until such debt or liability and the interest thereon are fully paid and discharged; and no such law shall take effect until it shall, at a general election, have been submitted to the people, and have received the sanction of a majority of all the votes cast for and against it at such election; and all money to be raised by the authority of such law shall be applied only to the specific object stated therein, and to the payment of the debt thereby created. This section shall not be construed to refer to any money that has been, or may be, deposited with this State by the Government of the United States.

According to the foregoing (4th paragraph), the power of the State for making debt is limited to $100,000, except (1) for purposes of war, &c., and (2) when the authorization is for some single object of work specified therein, &c. In the latter case the mode of procedure is, as will be seen, given in the same paragraph of the constitution.

[A bill was passed and signed by Governor Fielder on April 23 1915 providing for a referendum on the question of issuing $1,000,000 bonds for the purchase of what is known as the "Wharton Tract" in Atlantic and Burlington counties. It was originally intended to issue these bonds in the name of the State Water Supply Commission, without a vote of the people, but the Court of Errors and Appeals on March 1 1915 decided that this would be in violation of the constitutional provision which prohibits the bonding of the State for a sum exceeding $100,000, except by direct vote of the people. This reversed the ruling of Chancellor Walker, who on July 11 1913 held that the issuance of bonds by the Commission did not constitute a State debt within the constitutional inhibition. V. 100, p. 829.

CITIES, COUNTIES, TOWNS, &c., are also restricted in the making of certain kinds of debt by Article I, paragraphs 19 and 20, of the constitution. We give these paragraphs in full:

19. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual, association or corporation, or become security for, or be directly or indirectly the owner of any stock or bonds of any association or corporation.

20. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever.

It will be noted that the above prohibitions are absolute.

Article IV, Section VII, Paragraph 11, of the constitution, forbids the passage by the Legislature of any special laws "regulating the internal affairs of towns and counties," the constitution directing that in this and all other cases where general laws are feasible, general laws shall be provided.

In compliance with this last provision the Legislature has passed many general laws relating to the bonded indebtedness of the different kinds of municipalities existing in New Jersey, which are counties, cities, towns, townships, boroughs, villages, school districts, and certain anomalous municipalities governed by Boards of Commissioners, or Improvement Commissions, and not specifically named as villages, which they really are. See Compiled Statutes of New Jersey 1910, under the following headings; Chosen Freeholders, Cities, Towns, Townships, Boroughs, Villages and Municipal Corporations.

There is no general debt limit for New Jersey municipalities, either constitutional or statutory.

The most important law applicable to the debt of all municipalities is the Act of Mar. 29, 1887, P. L. 1887, p. 67, Com. Stat. of 1910, p. 3676, which prohibits the issuance of bonds by any municipality which is in default in the payment of its past-due bonds, or the interest thereon, or in arrears for over six months in the payment of any State or county tax, or other legal indebtedness. A supplement to this Act passed in 1912 provides that the failure to pay interest or principal of bonds the validity of which is contested by the municipality in pending litigation is not to be deemed a default under said Act.

The constitutional prohibition above referred to against special legislation relating to the internal affairs of towns and counties has been so construed by the highest Court in New Jersey as to prevent special legislation relating to the internal affairs of any municipality. The word "towns" as used in the constitutional provision is construed in the broadest possible sense, so as to include cities, towns, townships, boroughs, villages, school districts and municipalities of every kind. The result of this is that while the Legislature may, and does, incorporate municipalities by Special Laws, naming them and defining their boundaries, Special Laws as to the government and powers of such municipalities cannot be passed. The old special charters, which many cities have and which were granted before Sept. 1875, when this constitutional provision was adopted, remain in force except so far as amended or repealed by general laws, as the constitutional prohibition prevents the amendment or repeal of these old special charters by a special law. Consequently, at almost every session of the Legislature in recent years, one or more laws have been passed providing generally for the government of cities, or some other class of municipalities, which laws, while general in form, are really passed for the benefit of some particular municipality. To avoid the amendment or repeal of the old special charters, the new laws by their terms do not take effect until accepted by the voters at an election held for that purpose, and usually only the particular municipality at whose solicitation a law is passed accepts it. This makes it necessary to inquire as to any municipality whether or not it has accepted any such laws in order to know how it is governed. These referendum charters, as they may be called, frequently contain special debt limits and other important provisions in regard to municipal finance, as did also the old special charters. Similarly, many acts granting power to municipalities are passed which do not provide a frame of government, but still take effect only on acceptance.

Counties, towns, townships, boroughs and villages are almost entirely governed by general laws applicable either to all municipal corporations or to those classes, except that a few of the older towns have special charters which are still in force so far as not inconsistent with general laws adopted since. Counties are governed by the General County Act of 1846, as amended, Comp. Stat. of 1910, p. 474, and there are numerous Acts giving powers either to all counties or to those of a certain population. Towns are governed by the General Town Law of 1895, P. L. 1895, p. 218, Comp. Stat. of 1910, p. 5518. This Act applies to all towns incorporated under it by referendum proceedings, and also to towns previously incorporated under other General Town Laws. Boroughs are governed by the General

Borough Law of 1897, Comp. Stat. 1910, p. 226. This Act limits the bonded debt of boroughs to 15% of the assessed valuation. Townships are governed by the General Township Law of 1899, Comp. Stat. of 1910, p. 5567, which limits the bonded debt of townships to 10% of the assessed valuation. There are few villages in New Jersey, most of the former villages being now incorporated under some other form, but the remaining villages are mostly governed by the General Village Act of 1891, Comp. Stat. of 1910, p. 5727, which is known as The Winton Act.

The Act of Mar. 26 1896, appearing in the Comp. Stat. under the heading of "Municipal Corporations," Sec. 20 and 21, p. 3462, provided that thereafter no borough or village should be incorporated except by special Act of the Legislature. While this Act operated to prevent the incorporation of boroughs and villages by referendum proceedings under previous general laws, it does not prevent subsequent action by the Legislature permitting such incorporation. It is, however, a declaration by the Legislature of its policy to incorporate municiaplities by special Act, which policy has been pursued as to all municipalities since that date, except towns. This course has many advantages, the principal one of which is, that as to municipalities so incorporated there can be no question as to their corporate existence, name, and boundaries, which are fixed by the special Act. When the Legislature desires to incorporate a township, borough or village, it now does so by a special Act fixing the name and boundaries of the new municipality, and the new municipality thereupon becomes subject to the general laws affecting the class to which it belongs. In the case of new cities, the situation is more complicated, because there is no general Act relating to all cities and furnishing a form of government therefor which takes effect without acceptance by the voters or governing body of the city. Therefore, when the Legislature incorporates a new city, as it cannot by the Act of incorporation provide for its government, but can only fix its name and boundaries, the new city would be without any frame of government unless it should proceed to accept one of the general referendum charters. Cities under 12,000 population are governed by the Act of March 24 1897, Comp. Stat. of 1910, p. 1297, unless they have a special charter or have adopted a referendum charter. This is the course generally pursued, and frequently the Legislature has simultaneously incorporated a new city and passed a new referendum charter ostensibly for all cities, but which was intended to be, and was, accepted only by the new city. The effect of this is practically the same as if a special charter had been passed for the new city.
